Subject:	Adding back Bio 210 prerequisite to Bio 230
Date:	Monday, August 19, 2019 1:07:55 PM

Hi, Teresa,
As we have discussed, the catalog description of Biology 230 prerequisites below inadvertently removed Biology 210. CSM's prerequisites match Canada's and "BIOL 210" should be inserted after "either" and instead of the comma:

Prerequisites: CHEM 210 and either, or BIOL 220 or BIOL 215 (Skyline) or BIOL 225 (Canada).

It should read: CHEM 210 and either BIOL 210 or BIOL 215 (Skyline) or BIOL 225 (Canada).
Please change this in the catalog and curricunet (if possible).
Thanks very much,
Kathy
