# College of San Mateo Official Course Outline

1. **COURSE ID:** FITN 335.1 **TITLE:** Pilates I

**Units:** 0.5 -1.0 units **Hours/Semester:** 24.0-54.0 Lab hours **Method of Grading:** Grade Option (Letter Grade or P/NP)

### 2. COURSE DESIGNATION:

**Degree Credit** 

Transfer credit: CSU; UC AA/AS Degree Requirements:

CSM - GENERAL EDUCATION REQUIREMENTS: E4: Physical Education

CSU GE:

CSU GE Area E: LIFELONG LEARNING AND SELF-DEVELOPMENT: E2

#### 3. COURSE DESCRIPTIONS:

# **Catalog Description:**

Training of the muscles in the torso through controlled exercises taught at a beginning level designed to improve posture, coordination and balance; build core strength; and increase flexibility and agility.

## 4. STUDENT LEARNING OUTCOME(S) (SLO'S):

Upon successful completion of this course, a student will meet the following outcomes:

- 1. Improve one or more: body composition, range of motion, overall body weight, resting heart rate, strength and endurance, and aerobic capacity at a beginning level.
- 2. Demonstrate knowledge of various exercises applicable to the study and practice of Pilates at a beginning level

### 5. SPECIFIC INSTRUCTIONAL OBJECTIVES:

Upon successful completion of this course, a student will be able to:

- 1. Understand at a beginning level the concept of "functional neutral spine" to specifically target abdominal strength through body-awareness and practice while protecting the natural alignment of the spine.
- 2. Apply at a beginning level Pilates principles to personal biomechanics.
- 3. Through breathing exercises, display proper postural stabilization at a beginning level.
- 4. Perform, at a beginning level, Pilates exercises with proper spinal alignment.

# **6. COURSE CONTENT:**

### **Lab Content:**

### At a beginning level:

- 1. Warm-up and Cool Down to Promote Body Awareness and Focus
- 2. Conditioning with Emphasis on the Muscles of the Abdomen, Back, Inner Thigh, Hamstrings and Pelvic Girdle, as well as Conditioning of the Joints of the Hip Sockets, Knees and Shoulders
- 3. Stretching to Increase Range of Motion

## 7. REPRESENTATIVE METHODS OF INSTRUCTION:

Typical methods of instruction may include:

- A. Lecture
- B. Observation and Demonstration
- C. Other (Specify): Through resentation of anatomical drawings, students will learn to identify basic muscle groups and joints. Handouts on the six original principles of the Pilates mat-work.

### 8. REPRESENTATIVE ASSIGNMENTS

Representative assignments in this course may include, but are not limited to the following:

#### **Writing Assignments:**

- Written examinations on history, vocabulary, and philosophy of Pilates mat work
- Written personal evaluation of the application of Pilates to the student's well-being
- Journal of outside Pilates practice

## **Reading Assignments:**

• Readings (5-10 pages) on various Pilates topics which might include relationships to other exercise practices and activities.

• Anatomical charts

## **Other Outside Assignments:**

- Outside of class time, students may be expected to practice at least 2 hours of Pilates exercises.
- Students may use critical thinking in evaluating incorrect technique demonstrations.

# 9. REPRESENTATIVE METHODS OF EVALUATION

Representative methods of evaluation may include:

- A. Class Performance
- B. Homework
- C. Written examination
- D. Ability to demonstrate all exercises of the original Pilates mat work at a beginning level. Ability to identify basic muscle groups, joints and spinal articulations. Ability to demonstrate at a beginning level proper breathing techniques in application of the Pilates Method. Ability to demonstrate proper postural alignment at a beginning level. Knowledge of history, vocabulary, and philosophy of the Pilates Method through written examinations at a beginning level.

# 10. REPRESENTATIVE TEXT(S):

Other:

A. Instructor-generated handouts and materials.

Origination Date: February 2017

Curriculum Committee Approval Date: March 2017 Effective Term: Fall 2017
