College of San Mateo Official Course Outline

1. COURSE ID: GBST 102 TITLE: Global Studies and Applications Units: 3.0 units Hours/Semester: 48.0-54.0 Lecture hours; and 96.0-108.0 Homework hours Method of Grading: Letter Grade Only Recommended Preparation: Eligibility for ENGL 100, or Eligibility for ENGL 105

2. COURSE DESIGNATION:

Degree Credit Transfer credit: CSU AA/AS Degree Requirements: CSM - GENERAL EDUCATION REQUIREMENTS: E5b. Social Science CSM - GENERAL EDUCATION REQUIREMENTS: E5c. Humanities

3. COURSE DESCRIPTIONS:

Catalog Description:

This course encourages students to become active global citizens by better understanding the origins, current status, and future trends of major transnational issues confronting the global community. Topics can include population trends, economic development and inequality, basic human needs (for food, water health care), the role of history as narrative, human rights, international conflict and security concerns, and environmental problems. The course also focuses on global governance, including the study of collective global responsibilities and students' awareness of how global issues manifest locally.

4. STUDENT LEARNING OUTCOME(S) (SLO'S):

Upon successful completion of this course, a student will meet the following outcomes:

- 1. Identify major recurring and emerging global issues
- 2. Examine and critically analyze one or more specific global problems of international or regional nature, and discuss approaches to its/their solution (from an international and ethical perspective)
- 3. Critically analyze the interconnections between and among global issues
- 4. Compare and evaluate the efficacy and ethics of national, regional, and international efforts to solve the problems associated with global issues

5. SPECIFIC INSTRUCTIONAL OBJECTIVES:

Upon successful completion of this course, a student will be able to:

- 1. Identify major recurring and emerging global issues
- 2. Examine and analyze one or more specific global problems of international or regional nature, and discuss approaches to its/their solution (from an international perspective)
- 3. Analyze the interconnections between and among global issues
- 4. Compare and evaluate the efficacy of national, regional, and international efforts to solve the problems associated with global issues

6. COURSE CONTENT:

Lecture Content:

I. Introduction: identification and definition of global issues/problems and related concepts such as interconnectedness of people, places, ideas through converging processes of economic, political, technological, environmental and cultural change.

II. An interdisciplinary study and application of some combination of the following issues suggested below, organized by either themes or regions.

1. The study of global population, which includes the evolution of population growth and predictions of the future, and demographic trends, and/or migration, as well as the concept of carrying capacity.

2. The study of global governance, including, but not limited to, the study of global and regional IGOs (roles, background), the role of nation states, the role of NGOs, communities and individuals. The focus is on various political actors' policy powers and limits thereof and their role in addressing existing global problems/ issues.

3. The study of social development/ underdevelopment, including, but not limited to, economic growth, the global economy, global inequality and its connection to environment and indigenous population.

4. Study of topic(s) related to human needs, including all or some of the following: a) food b) water: c) health: d) energy e) access to resources f) technology

5. The study of environmental issues such as, problems related to deforestation, threats to biodiversity, climate change, the pollution of scarcity of water, air and soil.

6. The study of human rights and ethical behavior, focusing on existing international law and on violations of human rights. Topics addressed might include, but are not limited to, the study of the status of women, the use of child soldiers, the status of refugees, human trafficking, and modern-day slavery.

7. The study of current conflict and security related issues including, but not limited to, current ethnic and sectarian conflicts, the proliferation of weapons of mass destruction, and the threat of terrorism, human- and drug-trafficking, and piracy.

8. The study of technology, including, but not limited to, the benefits and problems of new technologies, problems related to access/ inequality of access, and cybersecurity.

III. For all global issues/ problems, the focus will be the historical/ causal analysis of the problem and exploring and enacting solutions.

7. REPRESENTATIVE METHODS OF INSTRUCTION:

Typical methods of instruction may include:

- A. Lecture
- B. Critique
- C. Directed Study
- D. Discussion
- E. Field Trips
- F. Guest Speakers
- G. Individualized Instruction

8. REPRESENTATIVE ASSIGNMENTS

Representative assignments in this course may include, but are not limited to the following:

Writing Assignments:

Regular essay writing to be assigned as part of the overall evaluation for the course.

Reading Assignments:

Readings will be assigned regularly for the text and may include additional articles or books. The majority of readings will be primary texts.

Reading Quizzes: To motivate students to do their reading on time, there will be occasional reading guizzes.

Other Outside Assignments:

Class Participation: Students are expected to participate in the classroom discussions. They are strongly encouraged to share their perspective with the rest of the class and to be respectful of other's points of view.

9. REPRESENTATIVE METHODS OF EVALUATION

Representative methods of evaluation may include:

- A. Class Participation
- B. Class Performance
- C. Class Work
- D. Exams/Tests
- E. Final Performance
- F. Group Projects
- G. Homework
- H. Oral Presentation
- I. Papers
- J. Portfolios
- K. Projects
- L. Quizzes
- M. Written examination

10. REPRESENTATIVE TEXT(S):

Possible textbooks include:

- A. Kolbert, Elizabeth. The Sixth Extinction, ed. Holt, 2014
- B. Smil, Vaclav. Making the Modern World, ed. Wiley-Blackwell, 2014
- C. Lynas, Mark. The God Species, ed. The National Geographic Society, 2011
