# IGETC ADVISING FORM

## INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC) 2011-12 EDITION

Due to periodic revision of transfer requirements, use [www.assist.org](http://www.assist.org) for the most current IGETC info.

### Directions to students:

1. Read the information below regarding IGETC information and restrictions.
2. Print your unofficial transcript from your WebSMART account. (Log into WebSMART select **Student Records**.)
3. Your WebSMART transcript lists courses completed at College of San Mateo, Skyline College, and/or Cañada College.
4. On the transcript, look for courses completed at College of San Mateo.
5. Find College of San Mateo courses approved to meet IGETC requirements and check off those completed courses.
6. If you have completed coursework at another California Community College, including Skyline College and/or Cañada College, use [www.assist.org](http://www.assist.org) to determine if courses completed at the other institution can be applied to the IGETC form. If they appear on [www.assist.org](http://www.assist.org) as IGETC approved, and write them in the blank line.
7. If you have taken HL International Baccalaureate exams, refer to the College Catalog for more information. AP information is listed on the IGETC worksheet.

### Important information regarding completing IGETC

1. **IGETC certification** permits students to transfer from College of San Mateo to any campus of the California State University (CSU) or University of California (UC) systems without having to take additional lower-division general education after transfer.
2. Completion of IGETC is not an admission requirement or guarantee for transfer to CSU or UC, nor is it the only way to fulfill lower-division general education requirements for CSU or UC prior to transfer. Engineering students and students completing majors with high lower division unit requirements are advised to focus on completing the pre-major requirements while meeting minimum admission requirements.
3. Courses listed in more than one area can be used to satisfy only one area unless noted otherwise.
4. **All courses applied to IGETC must be completed with a grade of C or higher (C- grades are not acceptable).**
5. Students who enroll at a UC or CSU campus, then leave and attend a community college, and subsequently return to a different UC or CSU campus MAY use IGETC.
6. Students who initially enroll at a UC campus, then leave and attend a community college, and subsequently return to the same campus are considered "readmits" by the UC. Such students cannot use the IGETC.
7. If the Language Other than English Requirement was satisfied in high school, the student's official high school transcript must be submitted prior to certification.
8. Students who have completed coursework at colleges or universities outside the San Mateo County Community College District but within the United States should use the CSM Transcript Evaluation Service within the first semester of attendance to determine how prior coursework can be applied to IGETC certification. View [www.assist.org](http://www.assist.org) to find how coursework from any California community college can be applied to IGETC.
9. Coursework from other accredited colleges/universities, other than California community colleges, may be approved as long as the courses meet IGETC standards; the **exception is Area 1B (Critical Thinking)**.
10. **Be sure to request IGETC certification with your final transcripts to be sent to your choice of university or college.**
11. The IGETC is not advisable for all transfer students.
  - UC Berkeley - Haas School of Business and colleges of Engineering, Environmental Design and Chemistry have extensive prescribed major prerequisites and IGETC is not appropriate preparation for majors in these colleges.
  - UC Los Angeles - The Henry Samueli School of Engineering and Applied Science does not accept IGETC.
  - UC Riverside - The Marlan and Rosemary Bourns College of Engineering accepts completion of IGETC but additional breadth coursework may be required after enrollment at Bourns.
  - UC San Diego - Eleanor Roosevelt and Revelle Colleges do not accept IGETC.
  - UC Santa Cruz - Transfer students pursuing any major in the physical and biological sciences or the Jack Baskin School of Engineering should not follow IGETC as it will not provide them with lower division preparation for their majors.
