The Physics Club unites, supports and cultivates students' interest in physics. The club aims to assist students struggling with physics concepts by using real life examples and experiments. We want to bring two experiments that are related to magnetism and electricity through the following:

1. Levitron (a gadget that allows the user to suspend any object below 12 ounces mid-air)
2. Ferrofluids (magnetic liquid made by mixing vegetable oil and ink)

Students will learn about the mechanism behind hovercrafts as well as magnetic fields.

Please provide an explanation of the proposal; the benefits to CSM students; an estimate of costs and work involved; the officers, employees, and volunteers who will do the work; the time and place of the event; and all other pertinent information.

Cycling Club is going to host a Cycling-BBQ event associated with Chinese Students Association. The event will take place at Coyote Point Recreation Area on the November 21st at 12:00 am. We are planning to rent 5 bicycles from "Talbots Cycler" in San Mateo Downtown and bring those bicycles over to the Coyote Point where the BBQ event is. Those five bikes are for the members who do not own a bike. Also, members are welcomed to bring their own bike if they have one. There is a long beautiful bike path so members can take turn in cycling after or before the lunch. Moreover, we want to use the additional funding to purchase the food, drinks and pay for the BBQ facility rental. We are going to cater the food from a licensed restaurant and reheat over there.

Make a list of all the estimated expenses that will be incurred in order to fund the program outlined above. Be as specific as possible. Attach estimates for items or services over \$100 when possible. Include labor, materials, supplies, equipment, rental fees, advertising costs, etc.

Please provide an explanation of the proposal; the benefits to CSM students; an estimate of costs and work involved; the officers, employees, and volunteers who will do the work; the time and place of the event; and all other pertinent information.

The Labyrinth began as a student-generated newsletter of the Honors Project at College of San Mateo, providing audiences across campus with news about the Honors Project. Now a publication of the Writers' Project, the student club associated with the Honors Project, Labyrinth has a new look and function. Dedicated to promoting student writing and fine arts, Labyrinth showcases the intellectual and artistic talents of students in the SMCCD. We are back to ask for \$1000 for the production and distribution of this semesters issue of Labyrinth. We have had a significant increase in the number of art and writing submissions this semester, so we have increased the amount of funds we are asking for. We also want to produce more copies of the Labyrinth to distribute across the campuses of CSM, Sklyine and Cañada.

Make a list of all the estimated expenses that will be incurred in order to fund the program outlined above. Be as specific as possible. Attach estimates for items or services over \$100 when possible. Include labor, materials, supplies, equipment, rental fees, advertising costs, etc.

Please provide an explanation of the proposal; the benefits to CSM students; an estimate of costs and work involved; the officers, employees, and volunteers who will do the work; the time and place of the event; and all other pertinent information.

The Computer Science Club would like to host a trip to the Google headquarters in Mountain View and the Computer History Museum which is very close by. This trip will give our members a view into the life of a software engineer at the tech giant along with getting feel for what benefits and disadvantages there are to working at a tech giant. The tour will cover the facilities of the headquarters as well as a Q&A session.

Afterwards we plan to go on a tour at the Computer History Museum. There will be a guide there to explain the history and give us insight into the design choices of yesterday's computers. There are many staples of tech history in the museum. Many of our members for voted for these two locations for this trip so we are expecting a well sized turnout of members. We expect this trip to be very educational, interesting, but also fun.

We are planning to carpool to both locations in order to save money and not add in additional cost to the trip. We are also requesting funds to for the students to be able to eat a meal in between the two locations but the funds might not be used if Google will be providing a complimentary meal.

Make a list of all the estimated expenses that will be incurred in order to fund the program outlined above. Be as specific as possible. Attach estimates for items or services over \$100 when possible. Include labor, materials, supplies, equipment, rental fees, advertising costs, etc.

Item Description	Cost

Please provide an explanation of the proposal; the benefits to CSM students; an estimate of costs and work involved; the officers, employees, and volunteers who will do the work; the time and place of the event; and all other pertinent information.

The AGS Northern Regional Fall Conference is an annual conference for all the AGS Chapters of Northern California to network with one another and to represent their colleges. About 30 chapters from all over Northern California come for this all day event. We will get a chance to know how other chapters function, exchange ideas, attend various workshops that teach us leadership and communications skills. The conference will also provide us with tools for successful transferring, effective organization skills, stress relief exercises, workshops on health and wellness awareness and much more.

The benefits that we will bring back to CSM include leadership skills, communication skills, organizational skills and all the knowledge and skills that we learn through the workshops and interactions with members from other colleges. Since our members are also part of other clubs on campus/ in leadership capacities in said clubs, all the knowledge gained at this conference will be passed on-- not only to AGS students, but to all students on campus. Also, AGS' consistent attendance at the conference as its largest contingent demonstrates CSM's prominence and strength in the California Community College network.

This year, 34 members are going, along with our 3 advisors. The conference is being held at San Joaquin Delta College in Stockton.

Conference Costs broken down-
 Registration fee= \$1,295 Transportation (Bus Rental)= \$1,360 Total= \$2,655
 Raised through fundraisers, Members' contribution= \$1,655 (for registration and part of bus rental)
 Need= \$1,000

The Robotics Club is requesting for funds to give members access to build Arduino Robots. The Robotics Club President has previous knowledge in building robots and will teach and facilitate the robot builds. Tutorials for the robotics build will also be received from our advisor, Professor Jose. This hands on experience of building robots is easily accessible, and previous experience is not necessary for club members. These robotics projects build off of computer science and engineering concepts.

The funds requested will cover the cost of ten Arduino kits which will allow for multiple small projects that will span until next semester. The Robotics Club encourages team work and is budget conscious by pairing two members to work on one robot.

- Projects include:
- Line Follower
 - Bluetooth control
 - Remote Control Robot
 - Obstacle Avoider
