		(Changes in description, SLOS, objectives, content, assignments, evaluation,
		and texts)
		There was a discussion on the discipline assignment. Many courses have no
		discipline assignment. LCTR uses the discipline assignment of Learning
		Assistance. The department can propose a discipline as a follow-up. COI
		currently has no process for discipline assignments; further discussions will
		be needed. When a course has more than one discipline, we ask for a memo
		to be attached to the course outline. A member commented that LCTR 105
N 41 10	224	has some similarities to COUN 111, 121, and 122.

Continued from 1/26/17 meeting:

IDST 110 College 1 (3) – approved

(Proposed for GE Area E5d: Career Exploration and Self-Development)
Approved with changes in the description: typo correction from "lifeline" to "lifelong"; replace "One Book: One College" with "a shared reading experience"; revision of specific instructional objective 1 to: "Identify their reasons for being in college and explore their individual intellectual aspirations."

Title changes were discussed but no change was made; title changes do not affect articulation.

There was a suggestion to offer the course as experimental first and see how it goes. Most experimental courses are CSU transferable unless otherwise identified. To transfer an experimental course to UC, students need to do a one-to-one transcript evaluation. A comment was made that offering experimental courses first before making them permanent could negatively impact other courses and programs being launched.

There was a discussion on consultations about courses before they are presented to COI.

Announcements:

 Ron Andrade and Tabitha Conaway will be joining the Committee on Instruction as representatives of the Academic Support and Learning Technologies division.

Questions for Further Investigation:

- What should quorum be, with the addition of new members?
- Who can initiate course changes, banking, or deletions?

Meeting adjourned at 4:22 pm.
