

Dear GP Team members,

Thank you for engaging helping identify Design Principles to guide our work to clarify the pathway for students and help them succeed. The GP Steering committee met today and organized our notes in the attached document. Please review it, and get back to us by April 10, when we will finalize this first draft to share with the campus for feedback at the meetings listed below. Once the draft is finalized on April 10, we will send out a PowerPoint and handout to help with presentations.

We encourage you to attend the meetings listed below even if you are not listed as a presenter.

Page one of the handouts will be the final document. Page two lists other ideas that were discussed. We plan to present both pages at the meetings.

For those of you who are beginning your spring break, have a great time. And if you'll be on campus, we hope you also have a restful time.

Sincerely,
Anniqua

GP TEAM Schedule: April & May

	Presenters	Date	Time	Location
