## CENTER CHRONICLE

FALL 2016

*News from your on-campus community for academic support*

### New for Fall 2016

Dear CSM Community,

I want to start by thanking the many faculty and staff who continue to support the Learning Center and all our programs. The growth of our supplemental instruction and tutor programs would not have been possible without campus wide support. This week starts the beginning of tutoring in the Learning Center in all our varied subjects. The schedule of tutors and subjects can be found at the LC's web page.

Also, with impacted schedules and numerous commitments and responsibilities, finding time to see a tutor on campus is sometimes not possible for students. In response, College of San Mateo is pleased to announce the availability of free online tutoring for CSM students via NetTutor in the following subjects:

Administration of Justice

Anthropology

Astronomy

Biology

Business

Chemistry

Computer Science and IT

Economics

Engineering

Geology

History

Intro to Philosophy

Math (Calculus and Above)

Math (Arithmetic though Pre-Calc)

Nursing

Physics

Political Science

Psychology

Sociology

Spanish

Statistics

NetTutor can be accessed through an existing Canvas course page

**OR**

NetTutor can be accessed by having students sign up for the LCTR 698 Supervised Tutoring course (CRN 93480) in the Learning Center. LCTR 698 is a 0 (zero) unit course that gives students access to a Canvas course page through which they can access the NetTutor portal for any of the supported subjects.

If you have any questions on how to access or utilize CSM's online tutoring services please contact the Learning Center at 650-574-6570 or [csmlc@smccd.edu](mailto:csmlc@smccd.edu).

Respectfully,  
Ron Andrade  
Learning Center Manager
