

Upon completion of the Electronic Music program, a student will be able to:

1. Compose, produce, record and mix original electronic music pieces using various electronic music technologies and techniques.
2. Design original sounds using analog synthesis, digital synthesis and sampling.
3. Create and synchronize original sound effects, Foley, music and dialogue to visuals.
4. Analyze the compositional elements, production qualities and musical aesthetics of their own works and the works of other electronic musicians, producers and composers.

**Electronic Music Program  
Student Learning Outcomes Survey**

Please rate on a scale of 0-10 (0 being unable, 10 being very able) your ability to do the following:

1. Compose, produce, record and mix original electronic music pieces using various electronic music technologies and techniques.
