## Program Review

### Instructional Data & Reports by Program/Division

#### How to Find Your Data, Reports, and Forms

Each instructional program and division has its own Program Review page, on which you will find current and historic program review data, distance education data (if applicable), program SLO data, and past program review submissions. Program Review pages are listed below by division and by program.

Instructional programs using the CTE version of the program review template are listed on [CTE Disciplines for Program Review](#).

Program-level SLO data are posted to department program review data pages. Collegewide General Education SLO assessment results can be found on [General Education Student Learning Outcomes Assessment Results](#). SLO assessment data will become available with the implementation of TracDat 5 in Fall 2018.
