Honors Project

Overview

Students accepted into this new and unique interdisciplinary community will join a dedicated group of faculty and students, working together to create a rich, intellectual experience at CSM.

Students will earn honors credit in selected transfer courses by developing and successfully completing advanced research projects. Students are required to concurrently enroll in an Honors Project research seminar.

College of San Mateo welcomes eligible students to participate in the Honors Project. Applications are accepted year round. But students should apply **before** the semester in which they plan to begin honors coursework.
