

# College of San Mateo

## Business & Education Round Table

**What are your biggest challenges in staffing your organization? What resources could you use in your hiring? If you could ask College of San Mateo for anything, what would it be?**

We are striving to find ways that CSM can support the educational, training and hiring needs of businesses, as well as support employment of local residents. This event is a first step in gathering input from local businesses. The better we can understand your needs, the more effective we can be in developing plans to assist you.

Please join us for a focused, two hour luncheon where you can share your hiring concerns. Tell us (and other local employers) what you are facing as you staff your organization. You will also hear from the City of San Mateo Economic Development department about the vitality of San Mateo businesses and resources that you may access.

If you are a hiring manager or HR professional in the field of Business, Accounting, Real Estate, or Building Inspection, this is an opportunity for you to share your needs, connect with CSM Workforce staff, and network with other professionals.
