Child Development Center

Overview

In a warm, responsive, and safe environment, the Mary Meta Lazarus Child Development Center at College of San Mateo (License #410505683) provides a rich, stimulating early care and education program for 48 children from 2-1/2 to 5 years old.

Our goal is to foster children's competence in all aspects of life by providing experiences that foster their emotional, social, physical, intellectual, linguistic, and creative capacities. We offer a program that encourages sound health, safety, and nutritional practices. In addition, we respect the ethnic, cultural, and linguistic diversity of the children, families, and staff of our community.

Healthy Eats, Active Feet

Healthy Eats, Active Feet is an Innovative Health and Nutrition Program funded by Sequoia Healthcare District's Healthy Schools Initiative.
