Learning Support Centers & Labs

Learning Support Centers Coordination Committee (LSC³)

The Learning Support Centers Coordination Committee represents discipline specific centers and the Learning Center. It brings together faculty coordinators, directors, staff, and students in a combined effort to ensure student success.

Mission

The mission of the Learning Support Centers Coordination Committee (LSC³) is to facilitate the effective and efficient operations of the learning support centers and labs at CSM through a collaborative effort focused upon student success.

Summary

The goals of the LSC³ are to develop a shared purpose:

1. to promote student scholarship and achievement by providing comprehensive academic support across the disciplines;
2. to provide equity through equal access and support services for all students; and
3. to inform the CSM community of the various services available.

Priorities

- Coordinate marketing efforts to inform the CSM community about the variety of student instruction and other services available at CSM's learning support centers.
- Provide specific recommendations to incorporate some uniformity in operations/procedures across all support centers while encouraging each center to maintain its individuality.
- Consult with PRIE to identify and collect pertinent data related to student success and completion.
- Identify areas of needed improvement in the centers and advocate for additional resources through the Program Review process.
- Encourage the development and modification of curriculum and support services based on student needs.
- Identify and address gaps in center instruction and services for particular student populations and/or courses.
- Promote fiscal responsibility by sharing center resources when possible.
