Tutoring

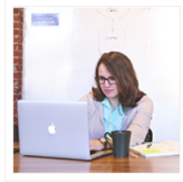

The Online Education Initiative (OEI) is partnering with Link-Systems International (LSI) to offer tutoring resources that augment local college tutoring services. Each college may choose services that best meet its needs:

Online Tutors

LSI's NetTutor provides online, on-demand services to meet with live online tutors, submit questions, and review essays. Colleges may choose to provide a mix of local and NetTutor resources for their students.

Tutoring Platform

All California Community Colleges can now take advantage of the free system-wide license for use and training of the LSI WorldWideWhiteboard platform, making it easy for students, faculty, and staff to collaborate and tutor online.
