## Assessment Services

### Overview

CSM Assessment Services conducts the college assessment program which includes English, Reading, ESL, and Mathematics assessment components. These assessments are intended to measure skills which research has shown to be closely related to academic success. These multiple measurements represent student strengths and capabilities. ## Financial Aid Services

### Overview

Financial aid is money for college. It is provided by U.S. taxpayers to ensure that all those who want a college education have the financial ability to pay for their college expenses.

Financial aid is also a partnership between you as the student and the college that provides the money to help pay your college costs. If you receive financial aid, you are expected to enroll in courses needed to complete your chosen program, work hard at learning, and move responsibly toward successful completion of your educational goal.

We understand that the rules that govern the financial aid programs can sometimes be complicated. However, the staff at the CSM Financial Aid Office is available to answer your questions and provide special assistance if and when you need it. For additional information, please see our [Financial Aid Handbook](#).

Let us know if you need assistance as a non-English speaking student. We can make arrangements to provide information in your native language.

Please stop by the office in [College Center Building 10](#), Room 360, or call us at (650) 574-6146. We will be happy to assist you!

College of San Mateo has a vibrant student life, supported through the Center for Student Life and Leadership Development, which provides students the chance to extend their learning outside the classroom. These activities allow students the opportunity to learn and develop skills in leadership, inter-personal communication, advocacy, and event planning. To learn more, read our [Mission Statement](#).

Through the Associated Students, CSM's student government, students participate in the governance of the college. Members of student government also develop, promote, and implement programs and services that are of benefit to the general student population. Student clubs and organizations provide students the opportunity to interact with individuals who have shared interests and shared cultural backgrounds. Clubs and organizations also have the opportunity to sponsor campus-wide events and activities.

The Center for Student Life is also one of the locations on campus where students and the general public are welcome to ask questions about any of the College's programs and services. The Center for Student Life also provides services such as off-campus housing assistance; on- and off-campus referral services; local transit information; information regarding campus posting; and deals with issues related to on-campus vending machines.

## Transfer Services

### Overview

Transfer Services provide important services to assist students in planning for transfer to a four-year college or university. Information and workshops are offered on transfer requirements, transfer planning, writing the application essay, choosing a college, and completing transfer admission applications.

Transfer Services also schedules representatives from other universities and colleges, including UC, CSU and private universities, to meet with students on a regular basis. CSM has Transfer Admission Agreements with a number of four-year institutions which can guarantee transfer admission.

For more information about transfer planning refer to the [CSM catalog](#) and the [CSM Transfer Services Booklet](#).

#### Associate Degrees for Transfer

As a result of Senate Bill 1440, California community colleges now offer special associate degrees to support efficient transfer to campuses within the California State University system.

In June 2012 the UC Academic Assembly approved amendments to SR 467.C that add completion of an Associate Degree for Transfer (in a relevant major) from a California Community College as an additional pathway to UC transfer admissions.

The degrees are described in the following document and are included in the [CSM catalog](#).
