Student Athlete Transfers

College of San Mateo coaching staff and administration takes pride in the transfer and success rates of our student-athletes. Our mission is to develop both the student and the athlete in preparation for transfer. With transfer rates of over 80% and over 1 million dollars received annually in athletic scholarships, our athletic programs continually demonstrate the model of student success which make our student-athletes highly sought after by four-year universities.

Writing in the End Zone

Writing in the End Zone is a Learning Community designed to facilitate student success for student-athletes. Through interdisciplinary collaboration between the coaching staff and English faculty, the program has gained state and national recognition as an effective model to prepare students for transfer.
