Connective Tissue

By Michelle White and Theresa Martin
March 2010

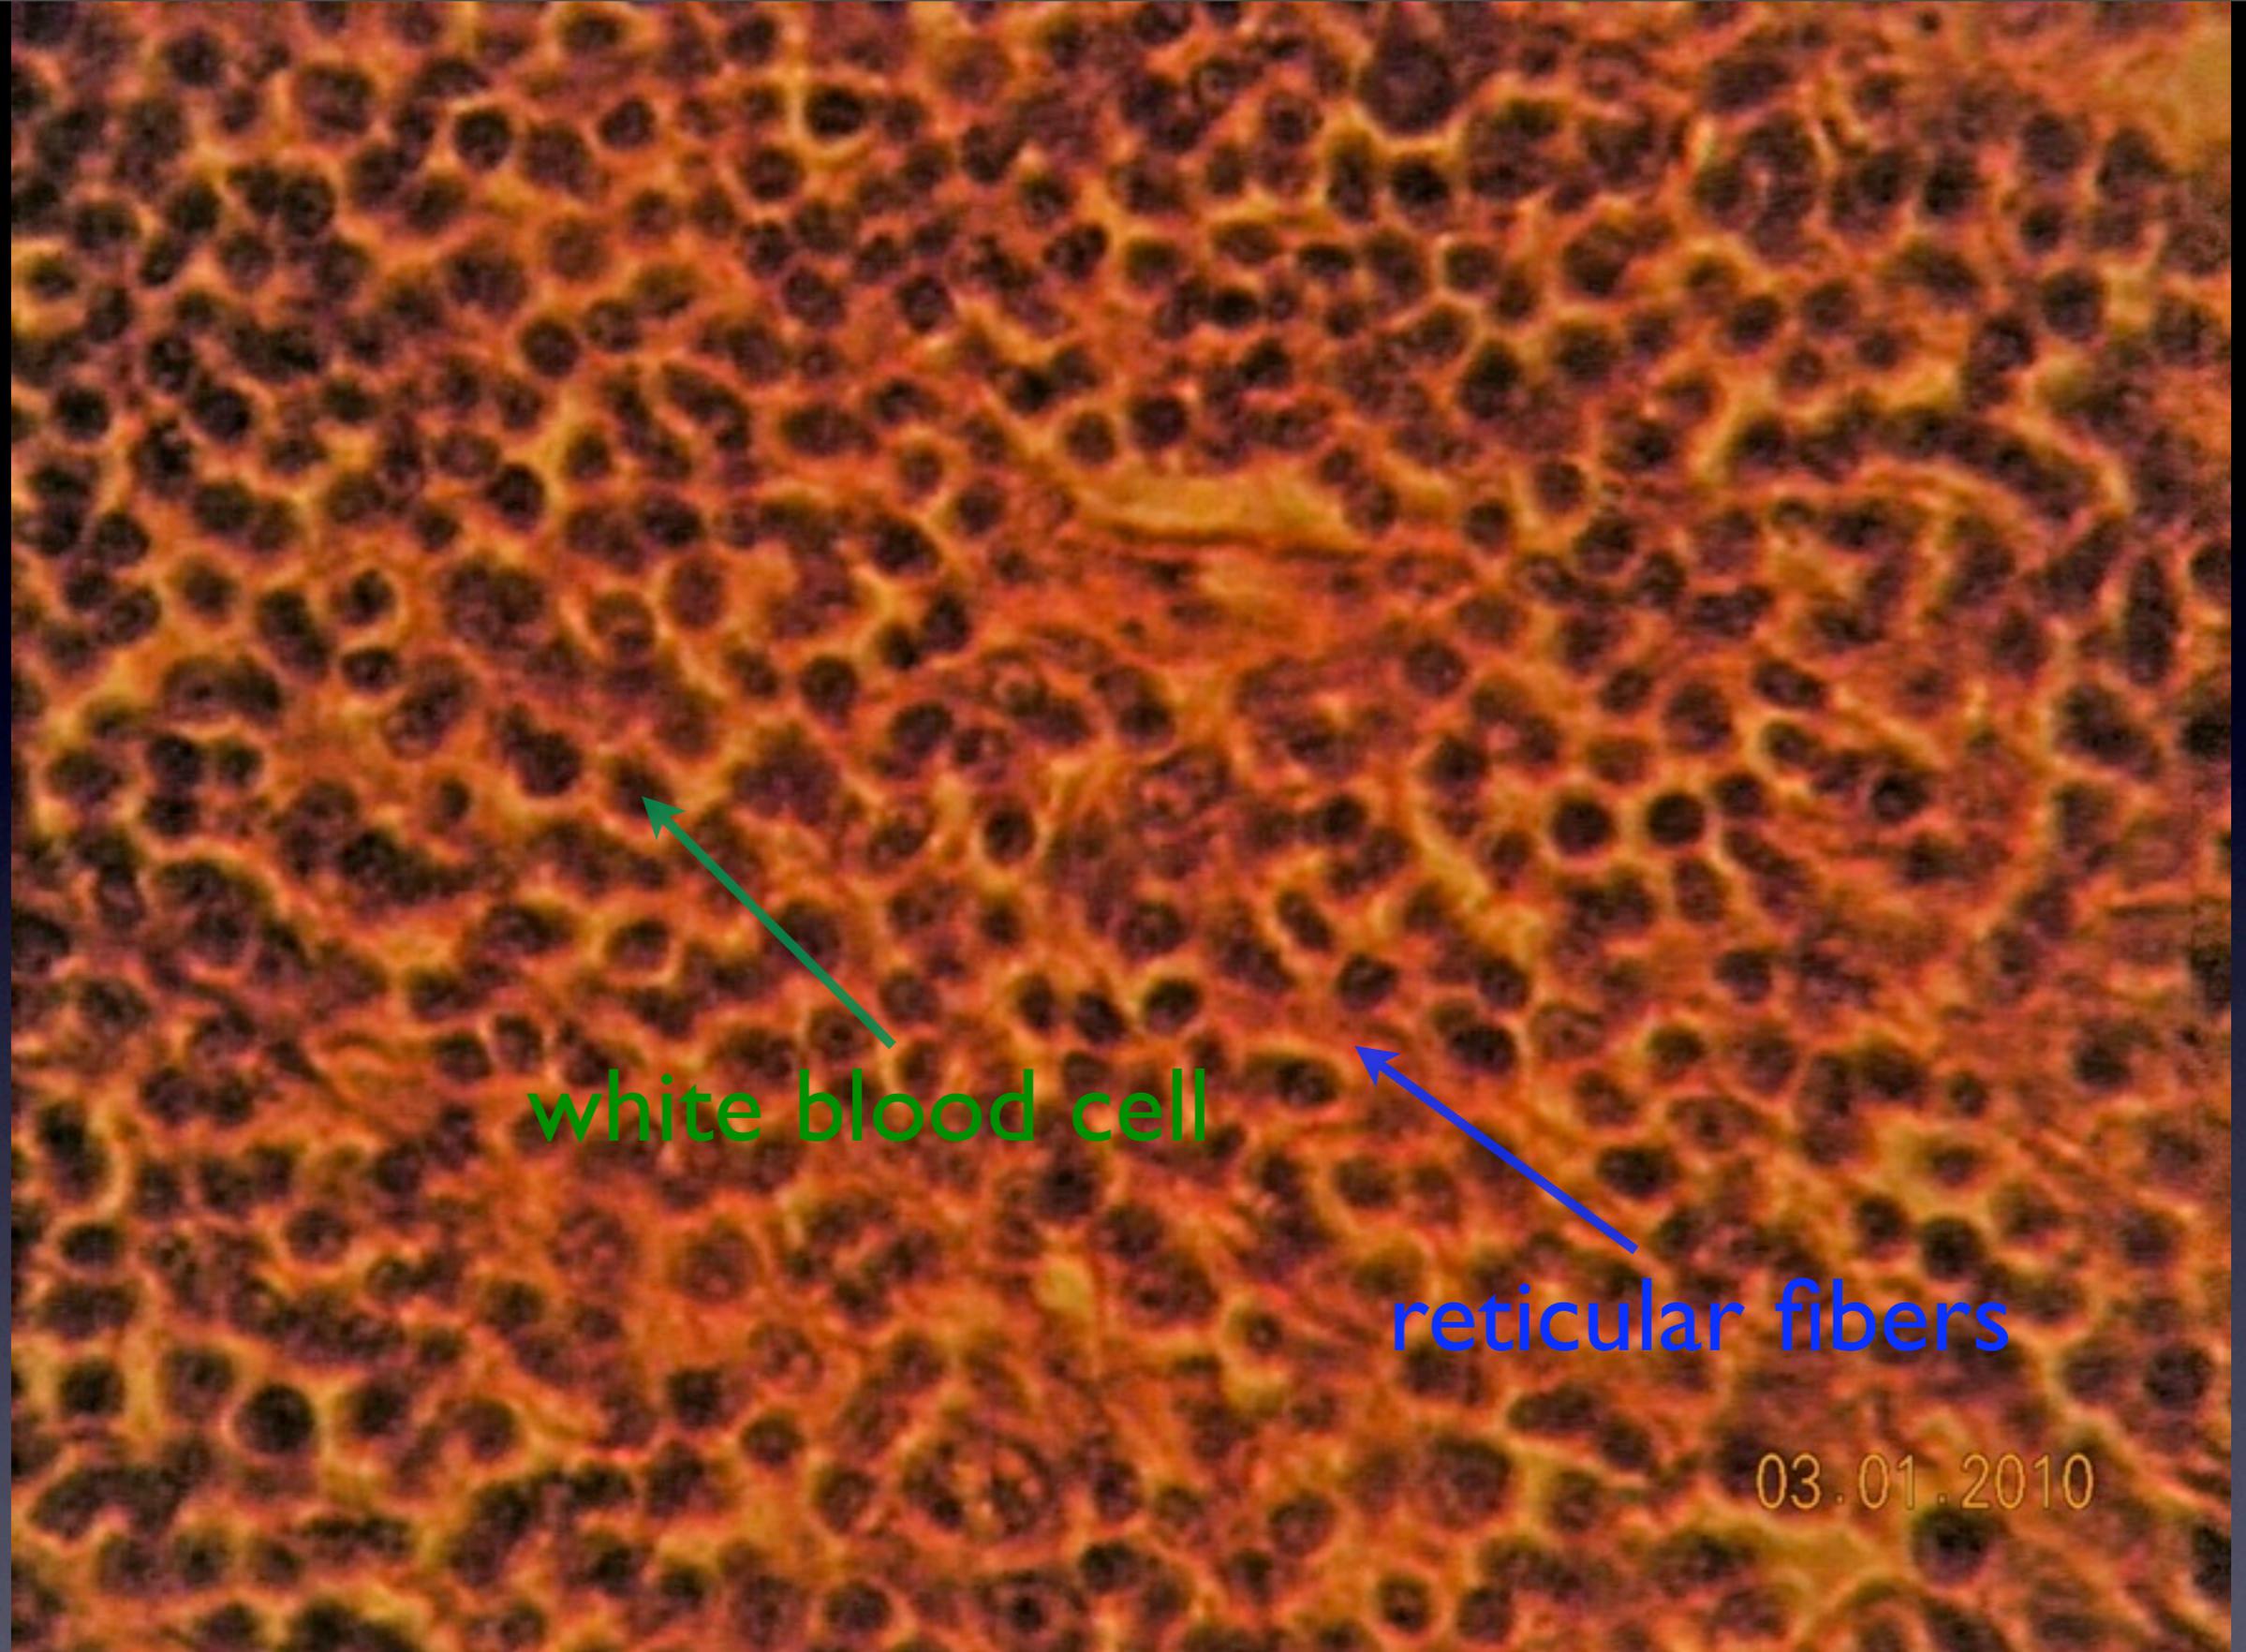

03.01.2010

Loose/Areolar Connective Tissue #8

What cell types live in this tissue?

Adipose Connective Tissue #43
a type of loose/ areolar CT

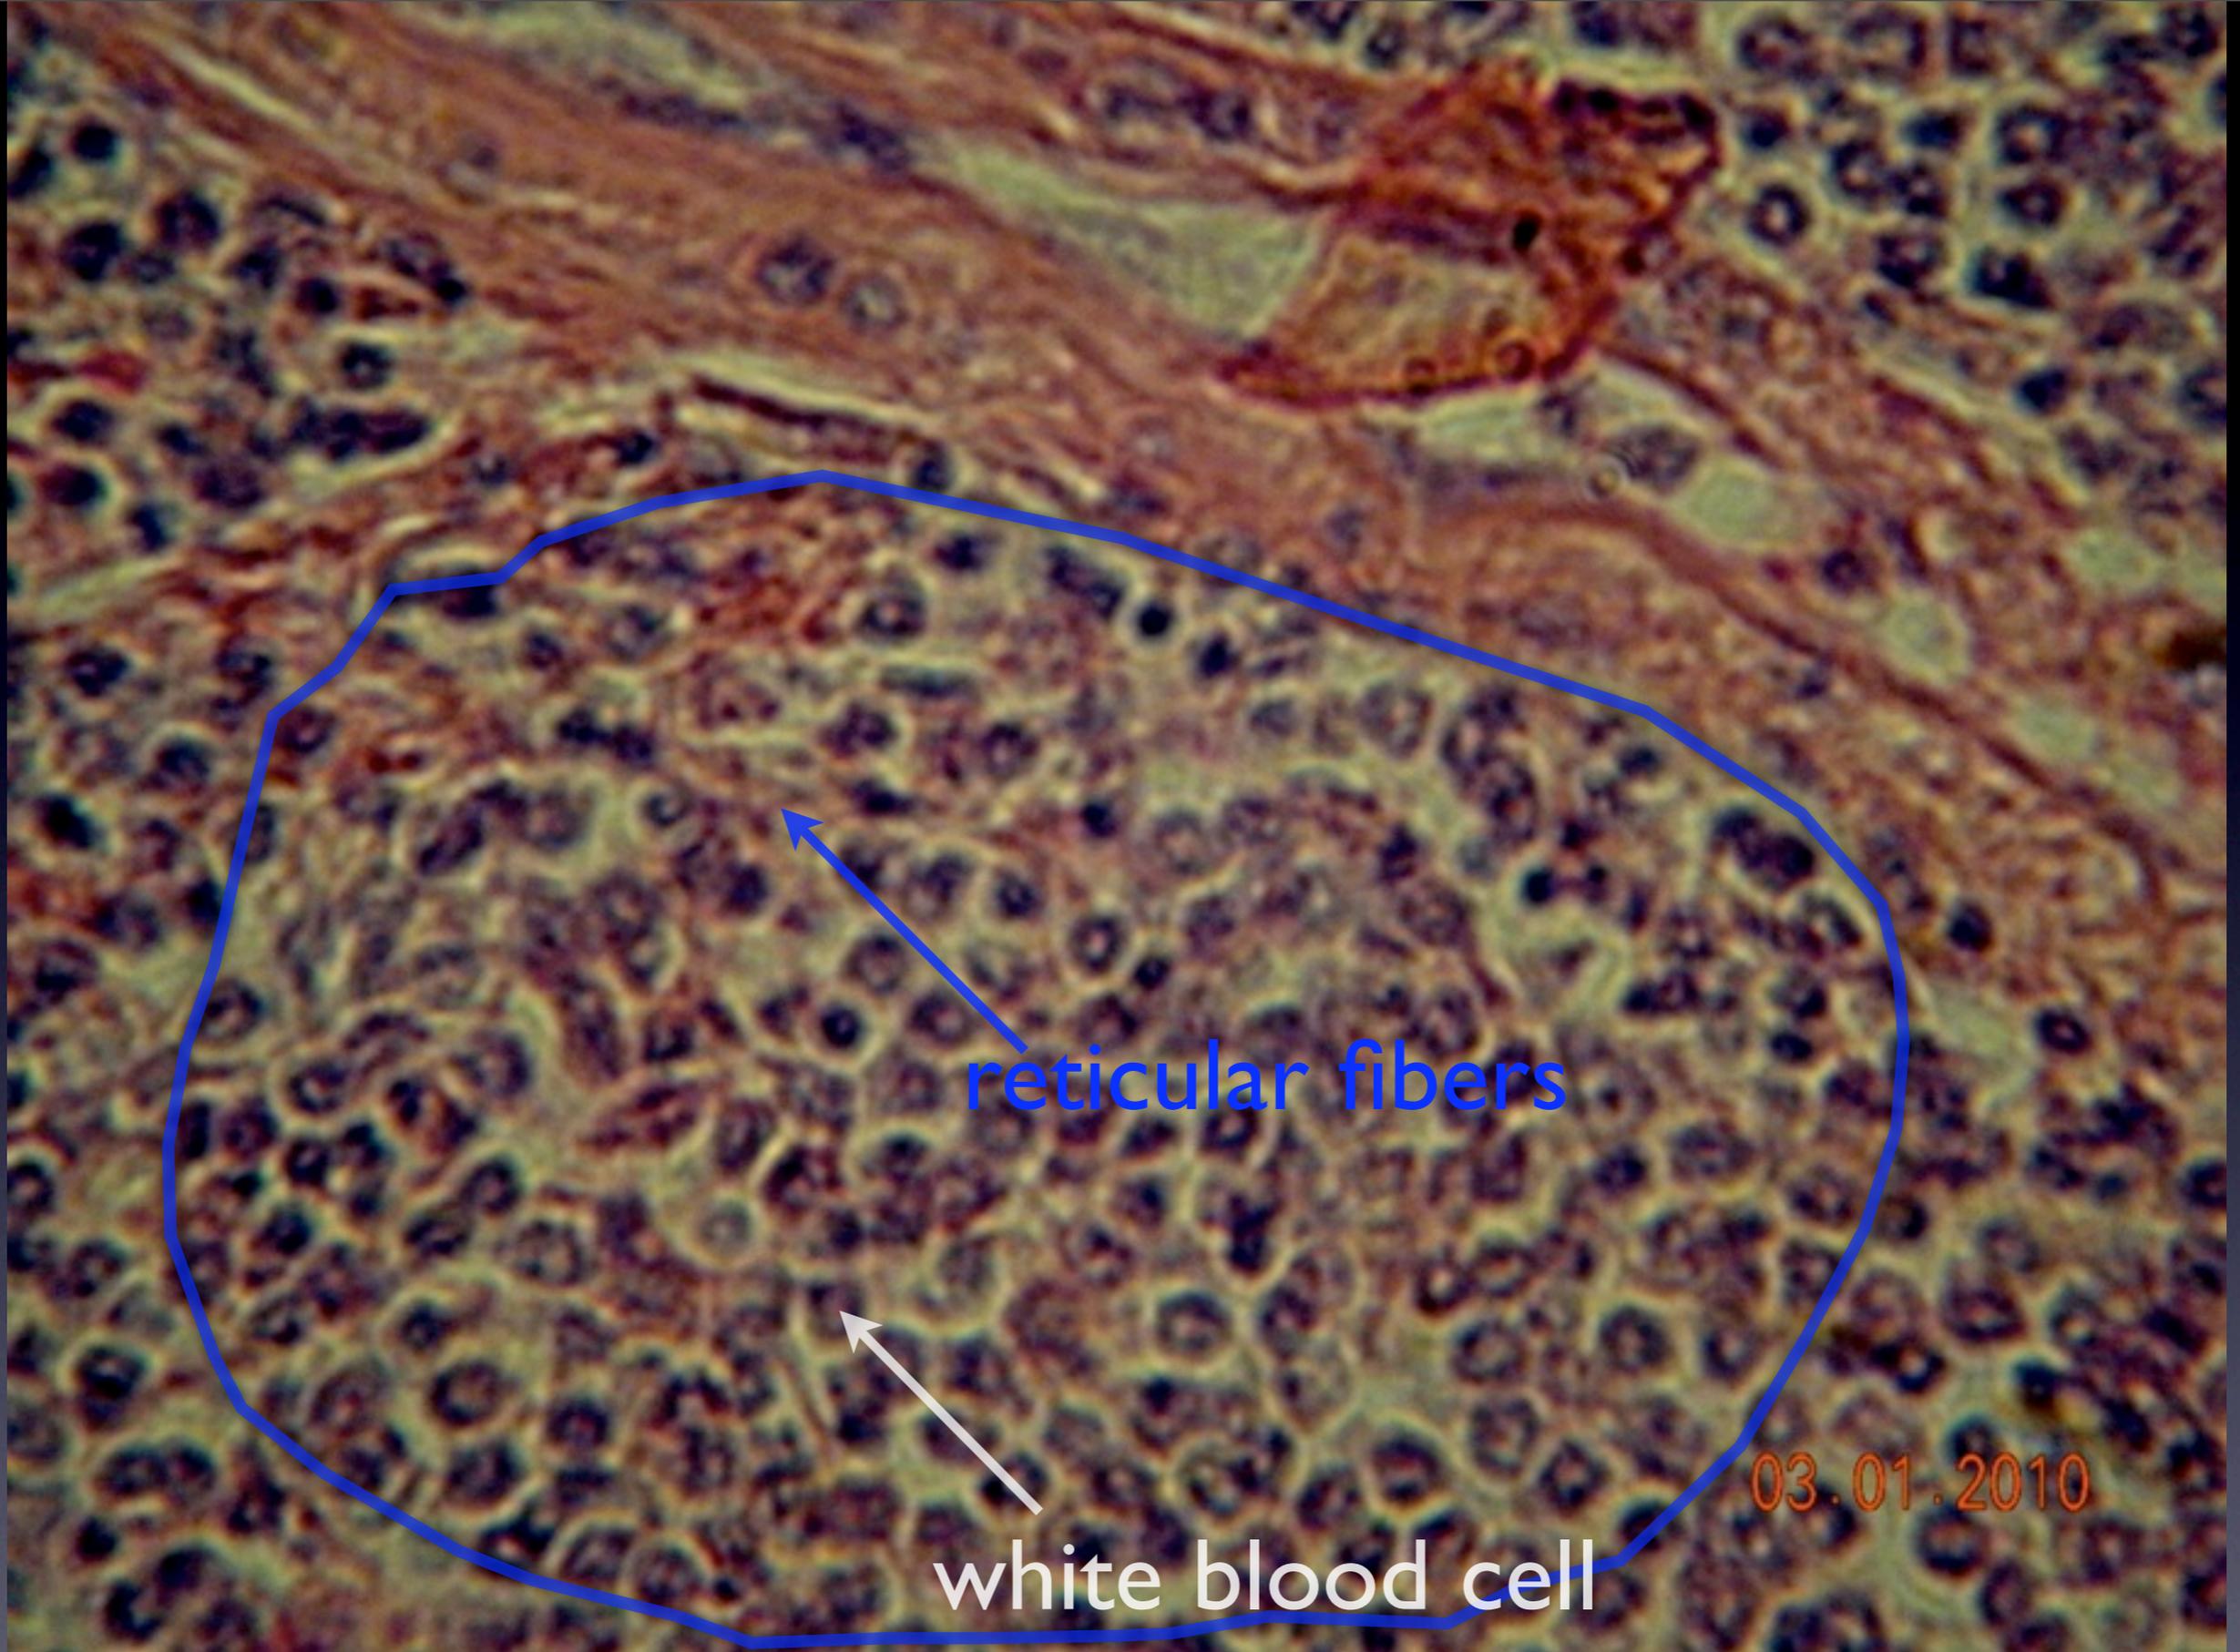

white blood cell

reticular fibers

03.01.2010

Reticular Connective Tissue #27

from lymph node, a type of loose areolar CT

reticular fibers

white blood cell

03.01.2010

Reticular Connective Tissue #28

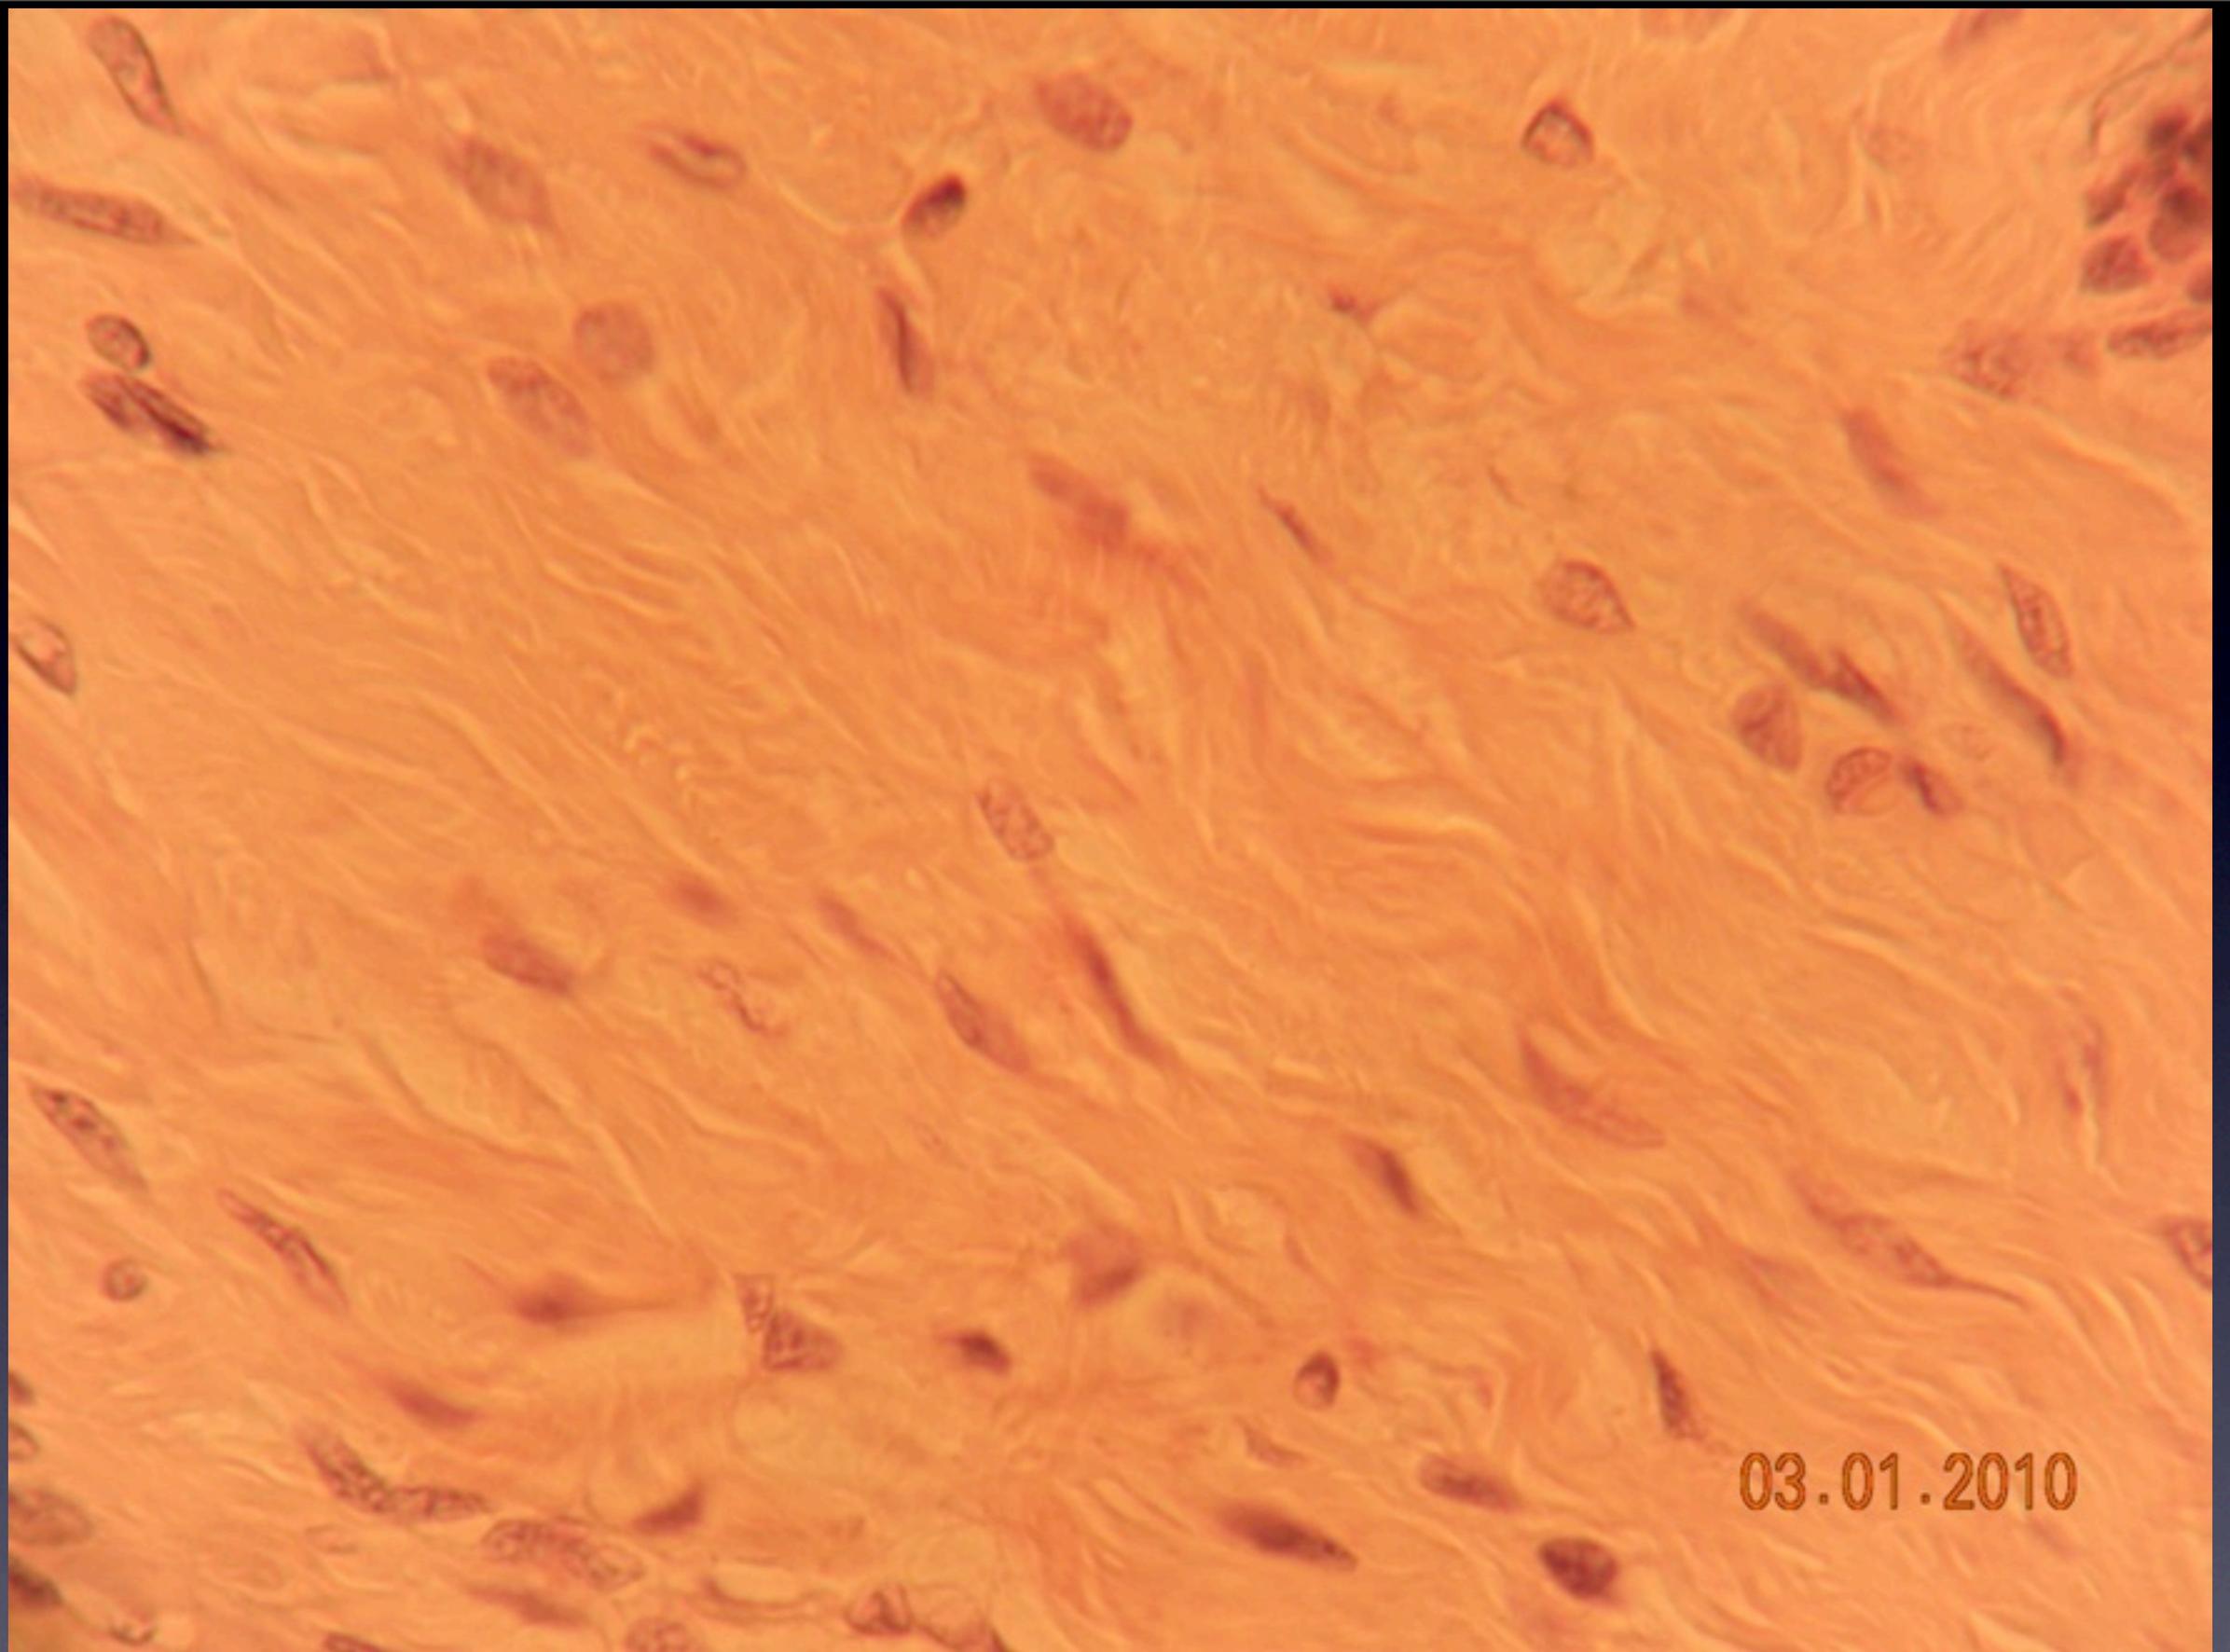

within circle, from spleen, a type of loose/ areolar CT

collagen fiber
(fibroblasts not visible)

03.01.2010

Dense Regular Connective Tissue #9

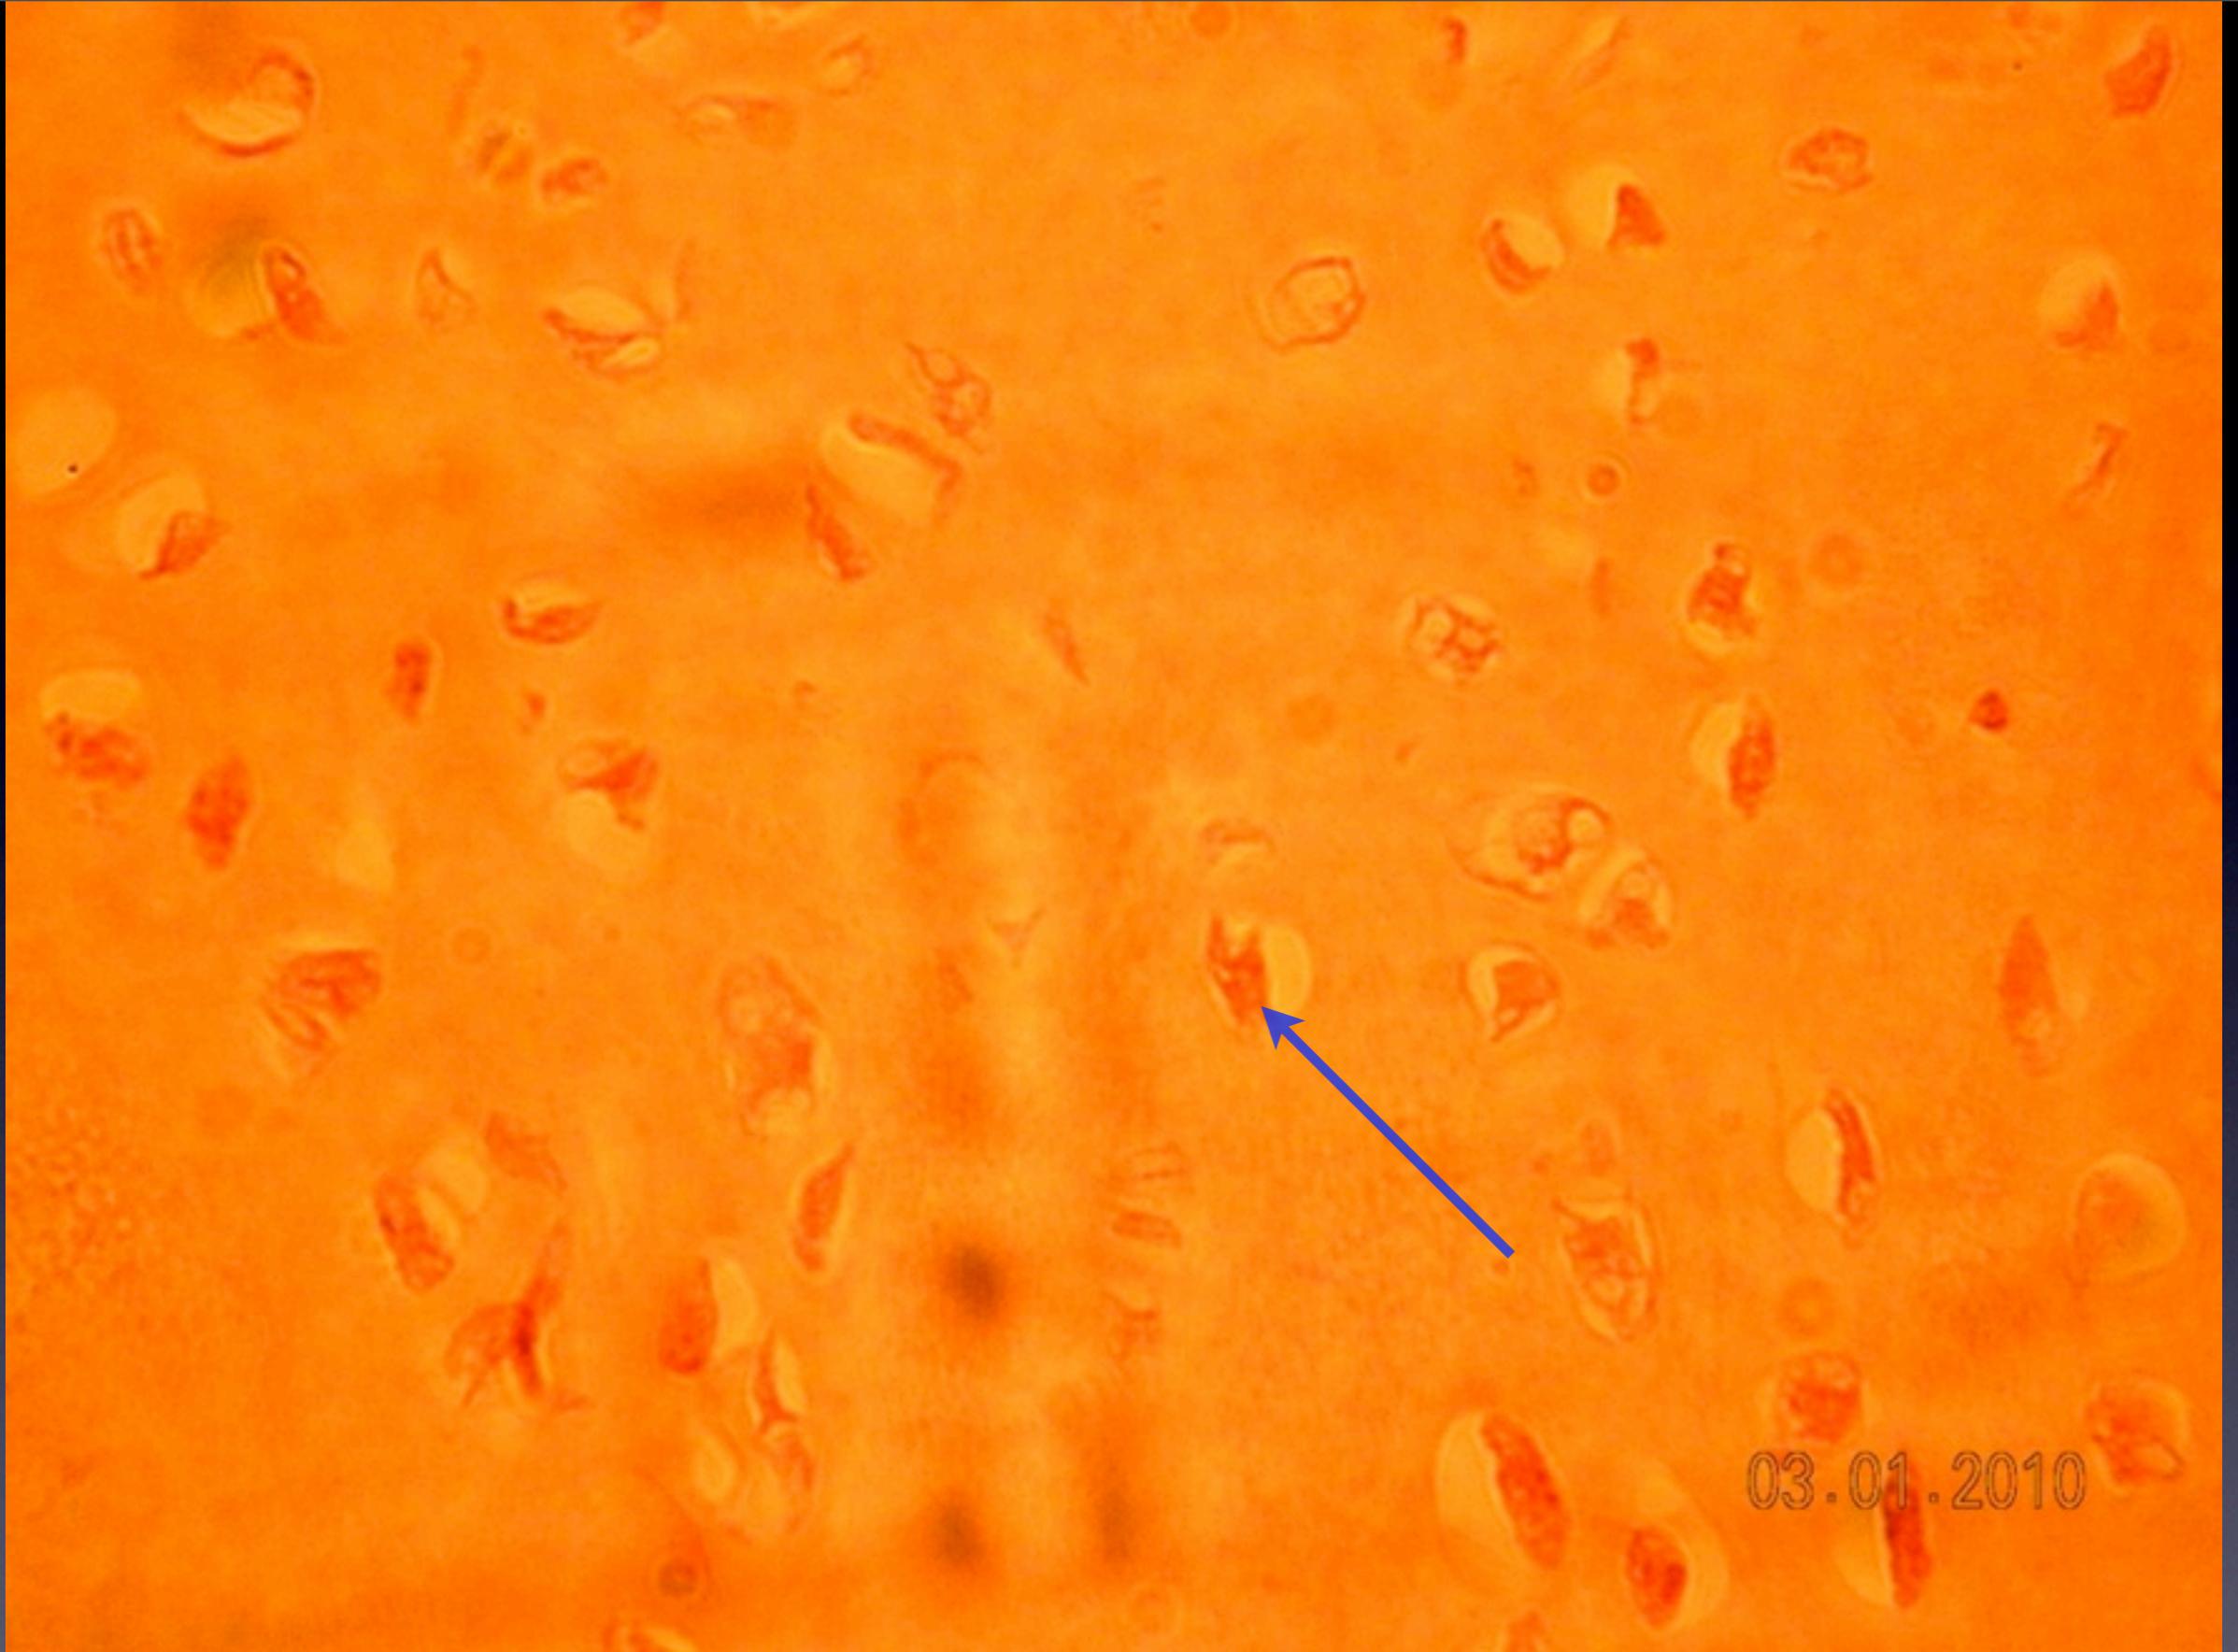

03.01.2010

Dense Irregular Connective Tissue #43

from the dermis of the skin

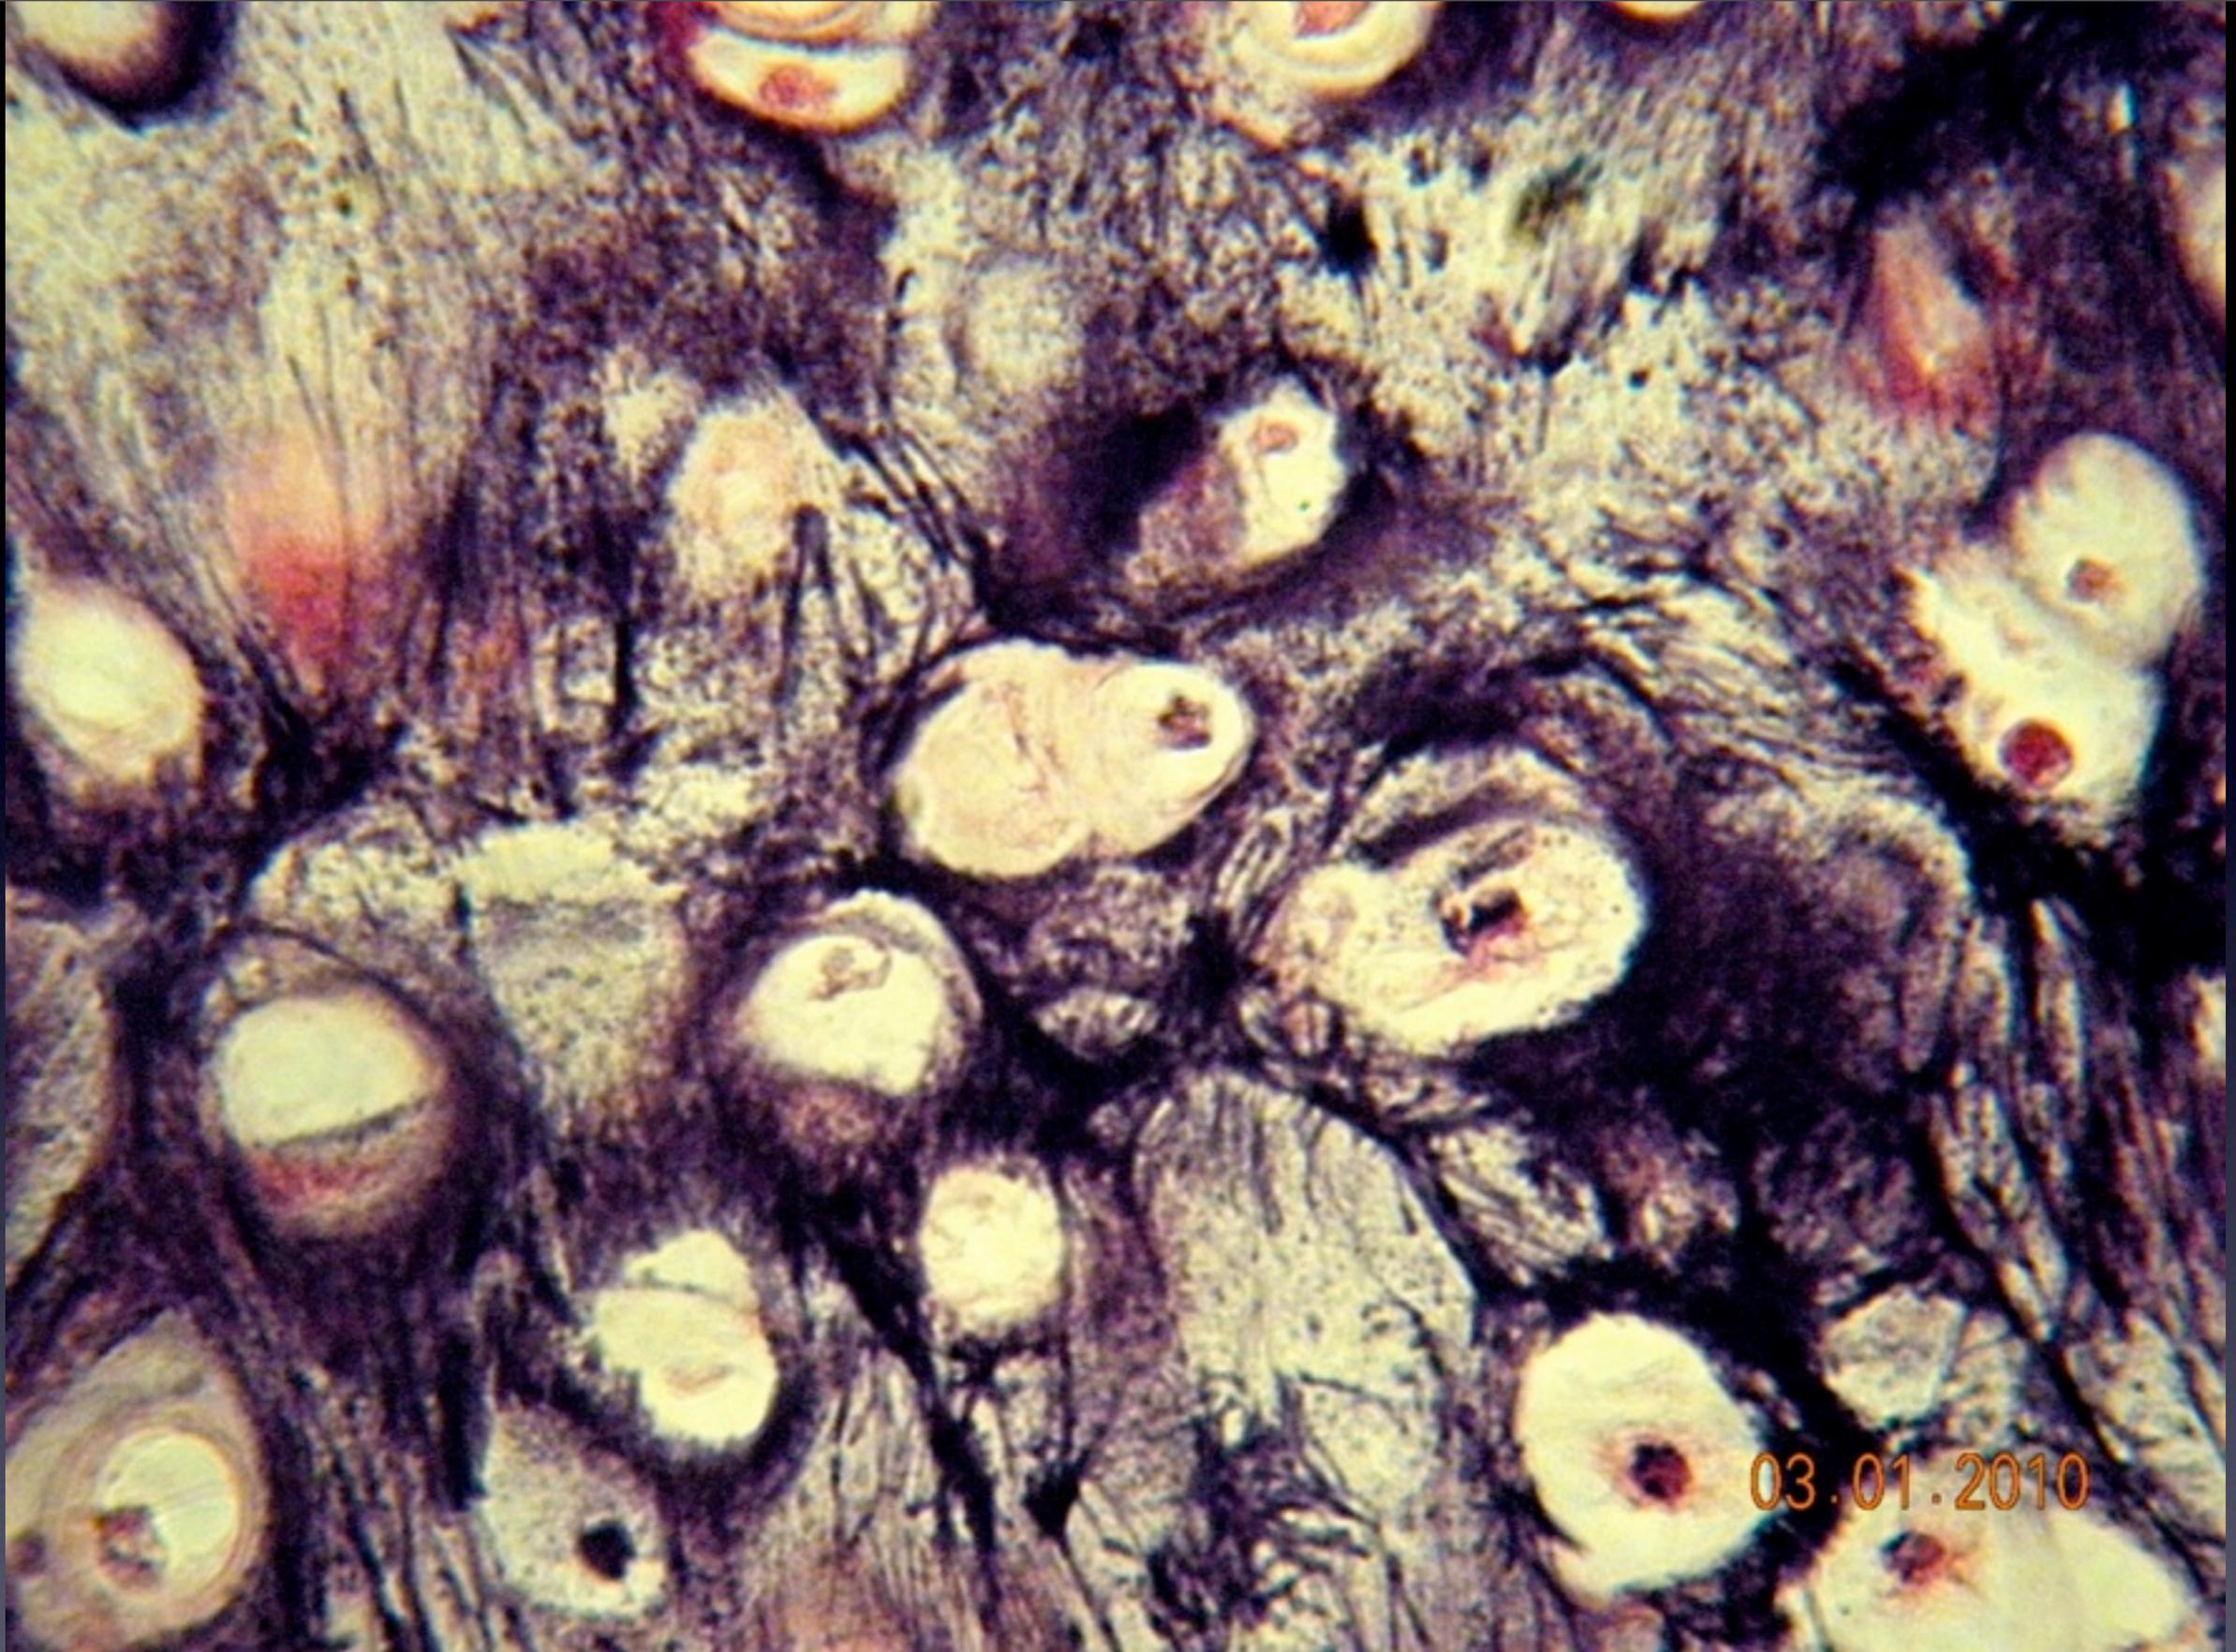

What cell types can be found in this tissue?

03.01.2010

Hyaline Cartilage #4

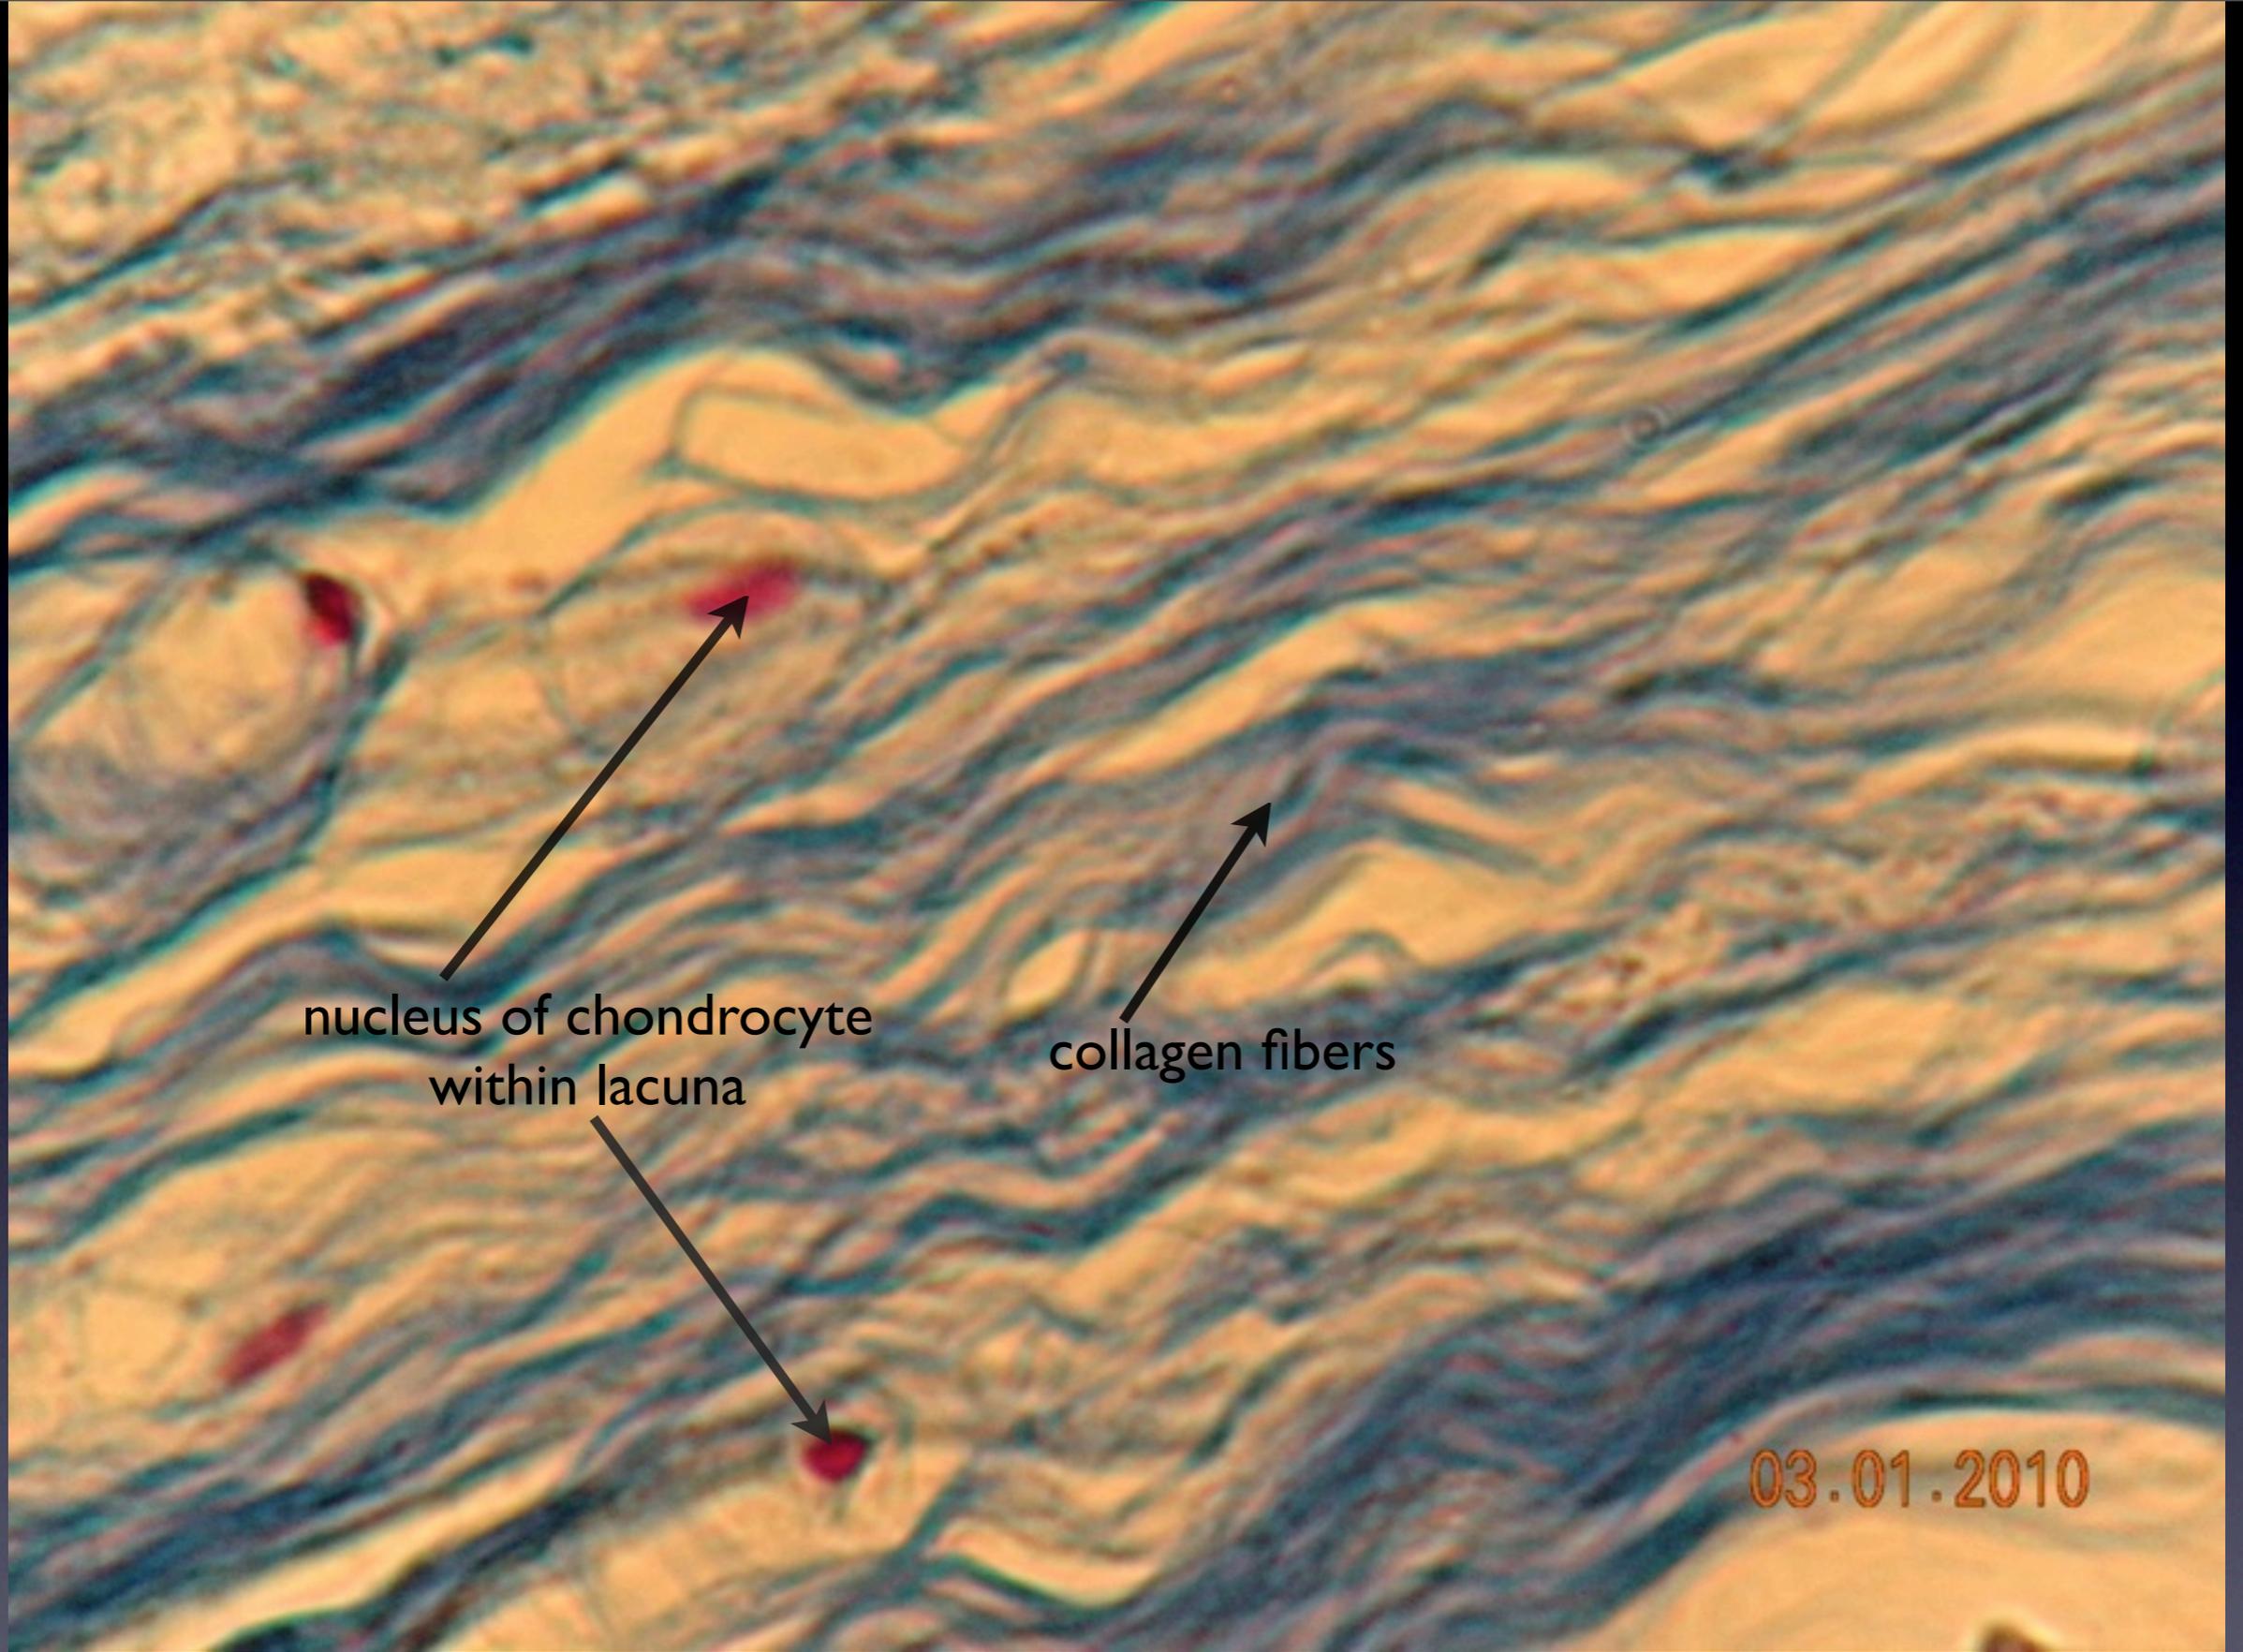

see the chondrocyte in lacuna

03.01.2010

Elastic Cartilage #11

dark purple stains the elastic fibers
lacunae contain chondrocytes

nucleus of chondrocyte
within lacuna

collagen fibers

03.01.2010

Fibrocartilage #10
