ASCSM Account Number/Name _____

Please provide an explanation of the proposal; the benefits to CSM students; an estimate of costs and work involved; the officers, employees, and volunteers who will do the work; the time and place of the event; and all other pertinent information.

The Engineering Club plans to participate in the annual Solar Regatta, a competition sponsored by the Sacramento Municipal Utility District (SMUD). The Solar Regatta, a regional event open to high schools and community colleges, challenges students to create a solar powered boat and compete in a boat race in Harold, California (Sacramento County) on May 8 and 9, Spring 2015.

This budget proposal requests to allow the club to purchase the parts and materials needed to build and test components of the solar boat. The benefits of this project include development and use of cutting edge technology, opportunity for design and product testing, team collaboration, and conflict resolution. The results are having an end product to show, interacting with other student groups at the boat competition, and participating in (and possibly winning a component of) the competition.

By participating in the Northern California Solar Regatta, the Engineering Club is representing the College of San Mateo, and has the opportunity to be recognized by other schools, businesses, and the SMUD. Club participation in this event shows that CSM empowers students with the mentors and funding to enrich learning beyond the classroom environment.

This project is supported by CSM Engineering Professor and Club Advisor Laura Demsetz.

Make a list of all the estimated expenses that will be incurred in order to fund the program outlined above. Be as specific as possible. Attach estimates for items or services over \$100 when possible. Include labor, materials, supplies, equipment, rental fees, advertising costs, etc.

Item Description	Cost
1. Epoxy, Fiberglass, paint	\$ 600.00
