## DEBRIEF OF ASCSM EVENTS

## FUNDING FOR ART & SCIENCE LECTURE RECEPTION

On behalf of Professor Mohsen Janatpour, Senator Ryng presented the funding request for the reception of CSM's 32<sup>nd</sup> Annual Art & Science Lecture. This event is hosted by Professor Mohsen Janatpour, a physics and mathematics professor at the College. The presentation includes a lecture, art exhibition, and observation of the night sky through telescopes. Senator Ryng mentioned that the theme for this year's art, all of which would be created by Professor Janatpour himself, would be the portrayal of objects from different perspectives, utilizing a variety of shapes and colors. Funding was

requested for the presentation's reception to cover food and drink. Members of the campus community will be invited to this event.

Motion to approve \$700.00 from the 5032 College Program Assistance Account to fund the 32<sup>nd</sup> Annual Art & Science Lecture Reception by Senator Young; seconded by Senator Gaines.

Concerns were raised when it was noted that the event would showcase art created by Mr. Janatpour; several Senators exhibited slight apprehension towards this part of the presentation, questioning how this would directly benefit students. Others remarked that, in the past, the event was an enriching experience that combined art with science in a unique way. In order to gain more information on what the event would entail, it was suggested that the item be tabled for the following Senate meeting.

Motion to table Item A, "Funding for Art & Science Lecture Reception," by Senator Martin; seconded by Senator Viana. Hearing one objection by Senator Ryng, the motion was brought to a vote. By a vote of 7 in favor, 6 opposed, and 3 abstaining, the motion carried.

RSVPs will be required to attend this event. Funding will be allocated towards covering refreshments, decorations, and giveaway items.

This award was named after a past Dean of Students and Vice President of Student Services, Allan R. Brown. Each honorarium will be \$500.00 for a total of \$3,000.00 requested. Nominations for this scholarship may be put forward by any member of the campus community.

Motion to approve \$3,000.00 from the 5050 Awards & Scholarships Account to fund the Allan R. Brown Award by Senator Martin; seconded by Senator Nava. By a vote of 15 in favor, 0 opposed, and 0 abstaining, the motion carried.

### Bill Name

Assault Weapons Ban of 2019

### Bill Number

S.66

### Sponsors

Dianne Feinstein [D-CA]

### For the Advocacy Board Meeting of

Feb-5-2019

### Purpose of Bill

To regulate semiautomatic/automatic firearms, including those that utilize a portion of the energy of a firing cartridge to extract the fired cartridge case and chamber the next round + requires a pull of the trigger to fire each cartridge; has a pistol and forward grip (the quintessential double grip look of an assault rifle/shotgun); has a telescoping or folding stock (an extension on a rifle that holds additional cartridges, magazines, or even grenades, barrel shrouds (used to cool down a firearm after several quick rounds), and/or threaded barrels (used as an attachment to the silencer to reduce sound intensity [already considered a characteristic of an assault rifle in several states]); has a stabilizing brace or similar component; weighs 50 oz or more when unloaded, etc. Includes pretty much all AK's,

machine guns, and many more as listed in the bill. It prevents semi/automatic firearms from being imported, sold, transferred, manufactured, processed, or possessed in interstate commerce (no out-of-state gun show loopholes anymore). This does not apply to lawfully possessed firearms. This bill does not apply to manually operated firearms, inoperable firearms (duh), or antique firearms. It's a generally well-researched, fair, and comprehensive approach at what the public wants out of a potential gun control law.

#### **Group(s) impacted**

Students, civilians

#### **Fiscal impact (if any)**

Not really unless increased attempts at legal ownership would lead to a bump in gun license fees (like \$10-\$30 a pop so not much)

#### **Last action**

Referred to the committee on the judiciary

#### **Current status**

Still alive

#### **Bill Description**

As stated above, it restricts the buying and selling of semiautomatic or automatic firearms based on a criteria of what constitutes a firearm (mainly constituted of other states' definitions). Background checks will be mandatory. It also prevents grandfathered weapons to be transferred, gifted, or sold to another unlicensed, unchecked party. Semiautomatic firearms will also be issued identification as semiautomatic legibly or conspicuously engraved. Secure storage and a safety device will both be requirements. Large ammunition will also be identified with an engraving.

#### **Recommended Stance and Justification**

*Support, oppose, watch? Why?*

Support, by all means! As students, coming forth with a bill like this has greater impact given the recent urgency and severity pertaining to the issue of school safety.

Safe and Affordable Prescription Drug Importation Act

Kamala Harris (D-CA)

### For the Advocacy Board Meeting of

Feb-5-2019

## For the ASCSM Senate meeting of

Feb-10-2019

## Purpose of Bill

Allows for the importation of prescription drugs that are less expensive, from certified foreign sellers/pharmacies, and from certified foreign wholesale distributors or 'importers' (refers to type of dispensation specifically). Amend the Federal Food, Drug, and Cosmetic Act to allow for the importation of affordable and safe drugs by wholesale distributors, pharmacies, and individuals.

## Group(s) impacted

People with chronic illness, disabled students

## Fiscal impact (if any)

N/A

## Last action

Referred to the Committee on Health, Education, Labor, and Pensions

## Current status

Alive

## Bill Description

As stated above, allows for importation of safe, credibly sourced, and dramatically less expensive drugs. The bill also ensures that people aren't unfairly discriminated against by being prescribed more highly priced drugs when they evidently can't afford it. The labs where these drugs are sourced from must be approved by the Secretary.

## Recommended Stance and Justification

*Support, oppose, watch? Why?*

Support! There are so many incidents as of late popping up on the news of people rationing their prescription drugs (especially insulin) to save money, often to the point of death. It's absurd, certainly affects the affordability of college of people at or below the poverty line, and therefore is an issue we should address.

## For the ASCSM Senate meeting of

Feb-10-2019

## Purpose of Bill

To significantly lower prescription drug prices for patients in the United States by ending government-granted monopolies for manufacturers who charge drug prices that are higher than the median prices at which the drugs are available in other countries.

## Group(s) impacted

People with chronic illnesses, disabled students, anybody who needs or knows someone who needs a prescription drug in this country

## Fiscal impact (if any)

N/A

## Last action

referred to the Committee on Health, Education, Labor, and Pensions

## Current status

Alive and kickin'!

## Bill Description

The secretary will be in charge of identifying drug that are remarkably overpriced in this country through comparison of drug prices in other industrialized/wealthy nations. Once identified, the prices will be adjusted adequately to the median cost, rather than the excessive overpricing as set by the manufacturer. The countries that will be referenced when considering which drugs are overpriced are Japan, Canada, France, the UK, and Germany. Prices will also be affected based on the percentage of the population affected by a condition for which the drugs are prescribed, the value of the drug (including impact of price on access), costs associated with development of the drug, whether the drug provided significant improvements in patients' health, global revenues generated by the drug, and "whatever factors the secretary deems appropriate." A huge part of why this bill is critical is the call to break up monopolies of big pharma, aka the conglomerates that commodify sickness to the point where treatment is made inaccessible. This bill also promises a public database of drug prices that gives a rundown on companies and pricing.

Title of Proposal Funding for Art & Science Lecture Reception

Being Proposed by Prof. Mohsen Janatpour <sup>Lead</sup> Coordinator Prof. Mohsen Janatpour

Event Date(s) Friday, April 19, 2019

Forwarded to the Student Senate by:

Executive Cabinet    Advocacy    Cultural Awareness    Programming    ICC    Other

ASCSM Account 5032 College Program Support

### DESCRIPTION

This is the 32nd presentation of this event, which is held in the CSM Theatre and is open to the students and the community free of charge. It involves a lecture, art exhibition, and the observation of the sky through the telescopes set up by the Theatre, connecting art and science. It is designed to encourage students of every discipline to enrich their education by courses and activities in both science and art. This event will promote the image of CSM as an academic institution, which is beneficial to the students that graduate or transfer from CSM. In the past, ASCSM has cosponsored this event by providing funds for the reception after the event. The College underwrites the cost for the Theatre and the Math/Science Division pays for PenTV ads and truck rentals. I would like to ask the Associated Students to once again cosponsor this event by funding the reception.
