Current status

Bill Description

To amend title 38, United States Code, to include the cost of applying to an institution of higher learning as part of the benefits provided under the Post-9/11 Educational Assistance Program. The total amount of educational assistance payable under this chapter to an individual for applications described in subsection is the lesser of—the total application fees charged to the individual by the institutions of higher learning; or \$750.

Recommended Stance and Justification

Support, oppose, watch? Why?

I support this bill because veterans should be entitled to educational assistance for the application fee that are required to apply to an approved program of education at an institution of higher learning. I really feel think this will help veterans that are in college.

 **Bill Description**

Venezuela's political and economic status are largely the result of the United States' sanctions against it. Conveniently, these sanctions and sudden interest in Maduro happened to arise soon after Venezuela stopped accepting the American dollar.

 **Recommended Stance and Justification**

Support, oppose, watch? Why?

Support; Venezuela has been on the US's radar as a potential oil supplier since the Reagan era. A 1988 document sent from the US state dept to the embassy in Caracas clearly stated that the objective in Venezuela was access to oil. The United States' intentions have nothing to do with the interests or wellbeing of the Venezuelan people. We should support this.

Current status

Held at the desk

Bill Description

It plans to reauthorize a cooperation agreement the U.S. struck with Jordan in 2015 (a three-year deal to streamline defense sales, secure the country's borders with Iraq and Syria, and fight ISIS); authorizes sanctions against the regime of Bashar al-Assad in Syria unless several conditions are met—conditions which are unlikely to be met, such as releasing political prisoners and no longer targeting civilian populations; extend an existing loan guarantee program with Israel through 2023, while increasing protections for state and local governments that refuse to invest in or contract with companies which boycott Israel. Basically, it allows state and local governments to punish those who boycott Israel which is a violation of our first amendment right to free speech and the right to assembly/protest. Americans would be penalized for disagreeing with the government.

Recommended Stance and Justification

Support, oppose, watch? Why?

OPPOSE! This bill is disgusting with a side of EW; it's misleading, misinformed, unconstitutional, and pretty overtly fascist. We need to staunchly oppose this. We have no business sticking our noses into the affairs of perhaps the most volatile geopolitical zone in the world and masquerading it as genuine concern, etc. Shut it down!!!!

The purpose of this bill is to simplify financial aid for students, it would add increase the income threshold section for students to say that they are expecting 0 dollars worth of family contribution and it would also add more data to be shared between the IRS and the department of Education to simplify financial aid. But it would also give an automatic max pell grant to the students who are low income.

 **Group(s) impacted**

Students who are applying to colleges or transferring.

 **Last action**

Feb-17-2019

Purpose of Bill

To criminalize female genital mutilation, the surgical extraction of the clitoris, which may or may not include sewing a vagina shut and/or cutting pieces of the labia. Anesthesia is rarely used; it happens while the victim is conscious. The act is usually performed with an unsterile

tool, such as a knife, scissors, or in especially unusual cases, fingernails. The purpose of FGM is to eliminate sexual desire in women to deter them from promiscuity.

Group(s) impacted

Women

Last action

Referred to the Committee on the Judiciary, and in addition to the Committee on Financial Services

Current status

Not yet received

Bill Description

As stated prior, it criminalizes FGM, which is something that is denounced by the UN and is the source of worldwide activism against violence towards women. There are cases of FGM in the United States; to criminalize the act and create support systems for victims would be a step in the right direction in showing support for women's health and safety. The criminalization and subsequent prosecution of the enforcers/performers of FGM would be, in itself, justice.

Recommended Stance and Justification

Support, oppose, watch? Why?

We should watch this bill since it also isn't released in full yet

Current status

Not yet received

Bill Description

Not sure what the "and for other purposes" refers to yet obviously, or what's ultimately intended by the title alone, but it seems like it's trying to affirm marijuana as something legally distributed by certified sellers and therefore recognized as a non-criminal substance. Because it mentions an amendment of the Controlled Substances Act, there's a chance that it may amend the section that strengthens law enforcement authority in the prevention of drug abuse, which would mean less arbitrary prison sentences for marijuana possession or use. The Controlled Substances Act was a Nixon-era War on Drugs bill that passed in '71. I'm pretty sure I can assume how a Democratic congressmen from Oregon would reform it.

Recommended Stance and Justification

Support, oppose, watch? Why?

We should watch it. If this bill intends to decriminalize marijuana under the Controlled Substances Act, that would definitely reduce the number of people imprisoned, perhaps even allow for sentence adjustments for some folks. If that is the case, keeping our eye on this seems like a good move.
