

Community Health Internship

Breathe California of the Bay Area (BCBA) is a non-profit agency that has been combating lung disease since 1911. Our mission is to fight lung disease in all its forms and to work with our community to protect lung health. As part of the agency's effort to promote community health, we are looking for a **Community Health Intern** to assist our staff. The programs involved are asthma, environmental health, anti-tobacco, lung disease, and community outreach. There are special programs for seniors and children.

Duties & Responsibilities:

- Assist with the delivery of agency health education programs for adults and students.
- Outreach to target populations for health education delivery opportunities.
- Schedule services, events such as health fairs, other activities in the community, schools and at corporations.
- Prepare information dissemination bins for health fairs
- Assist with the completion of reports.
- Manage epidemiological data for evaluation.

Qualifications:

- Enrolled in public health, health science or health related educational program
- Excellent communications skills.
- Familiar with Microsoft Word, Excel, PowerPoint, Outlook
- Non-smoker.
- Bilingual skills a plus.

Benefits:

- Health agency experience, training provided.
- Academic credit.
- Making a difference in the community.
- Develop references for future employment.
- Develop public speaking skills.

Hours: 10 hours per week

The internship is unpaid. School credit available.
