California Code of Regulations, Title 8, Section 5199 Aerosol Transmissible Diseases, Appendix E

Our ride-along agreement requires students to have:

- the Hepatitis B series completed
- a yearly Pulmonary tuberculosis (TB) test
- Up-to-date COVID-19 vaccinations

Note:

Because of the timing for flu shots, students applying for a fall semester EMT offering will not be expected to turn in proof of a current Influenza vaccination until after the course begins. However, the rest of your immunization records can be sent in with the application.
