

## Notes: GP Steering Committee Meeting – 2-3pm 2/26/20

### Getting Started:

Introduced Sunny Green, our regional GP coordinator and coach. She attended Al Solano's session last week.

Group check-in: how are we feeling about how we're doing?

In general – we are more comfortable; folks “expect” us and are used to us

Jane – we are doing a LOT; a bit overwhelmed juggling all these projects plus teaching load

Alex – communicating about the work and addressing concerns is becoming more comfortable as he's settling in.

Yvette – impressed w/ how professional our communications have become

Rene – also a bit overwhelmed (good and bad); being able to see our vision for the semester has been helpful. We're doing a LOT, and we've come a long way from where we were a year ago

Pete – has been getting good feedback. Feels like people are starting to be on board.

Kelsey – excited about student advisory group; a bit overwhelmed as well cuz had to miss a few meetings

Sunny – now has 10 colleges. Connecting w/ each team is her focus, to be a resource for all of us.

Kristi – our work is more grounded. It's starting to sink in to the college that GP is really about college redesign rather than just inventory project.

Allie – cool to watch our concepts in 1<sup>st</sup> and 2<sup>nd</sup> year becoming real. We've gotten through some of the bigger hurdles.

Emily – getting to do focus groups has been fun and interesting. Looking forward to LFM.

### Dean's Update (Kristi)

- Schedules for us as Steering Committee – looking ahead. For Faculty: what is our availability/interest. Where do we see ourselves next year in this work? ***Please make appt w/ Kristi to chat about it in the next few days (b/4 Monday 3/2).*** Think about your place, how much time, what kind of leadership and/or input role you see yourself regarding:
  - Two big complementary projects in the fall:
    - Implementation of the maps – program mapper platform, talking to marketing, beta testing, etc so we have something students can use by spring hopefully
      - How things look on the web
      - Printed materials
    - Cross functional, wrap-around supports (ala Al's session)
      - Success teams
      - Cross functional teams

### Cluster Activities (Alex & Emily)

- Been to Puente, Eve ESL class, ICC, EOPS, etc.

- It's been going well. Timing was challenging. We didn't finish. Going with RP group cluster feedback 1<sup>st</sup> was better, then the online piece. Alex will do it w/ an online class. We've been able to reach a nice cross-section thus far. Hopefully ICC will send the online survey link to their own clubs as well.
- We could plan a Bldg 10 activity for more feedback – will discuss at LFM

### **Division Meeting Feedback (Jane)**

Handout on summary of their feedback.

Richer conversations around the career piece than some other divisions.

**Welcome Center Advisory Group Feedback** – they think GP overall would be very helpful for HS counselors and students \*before they come to CC. Can be a tool to help “legitimize” CC.

### **Caring Campus & CAGP20 (Allie)**

Caring Campus – we paused on the application, a bit premature

GP20 – commitment to partner w/ Calif Demonstration GP Project – a training program which brings technical support to campuses. Applications due next Friday March 6<sup>th</sup>.

### **3-4 Team Mtg – break into teams**

Look at different program mappers and explore them. As leads, what are the positives, the pitfalls, and overall reactions. 15 mins or so. Get a “first reaction”, as if you are a student snooping around on the website.

**Flex Day Planning** – will talk through it at LFM meeting. Will discuss next week.
