Closing the Gaps in Student Support→ACCs paired with Affinity Groups:

- b) Explorers: who are not in a specific ACC (*Can we get them into a group, and if not, how can we best support them?*)

1. Ideally we want to scale the practices that are working well (e.g., Promise Scholars)
2. Is it possible to have case management for more students than are in the some of the existing programs
3. How do we bring the “big idea” down to more actionable practices?

Three Main Themes to Focus on in Building Our ACCs:

1. **Welcome** students: In what ways do we want to welcome student to this ACC? Building the culture & community of the ACC
2. **Career**: What career related events already exist in this area/ What can we do to supplement what already exists or build out new engagements for students?
3. **Community**: What type of culture do we want to build for the students in this ACC? What sense of community already exist in this ACC that we can connect students to?

GP Team ACCs: two meetings a month (first meeting to meet with the specific ACC; second meeting to connect with the other communities to share and collaborate)
