# ***Definitions***

## ***Concurrent Enrollment***

HS students that come to CSM on their own, register and enroll in classes that are already scheduled for enrichment or advancement. They may or may not receive dual credit.

## ***Dual Enrollment***

HS students that take CSM specific courses within their high school day ON the high school campus for access reasons and they receive dual credit for the courses and a grade bump for the courses if they are UC/CSU transferable

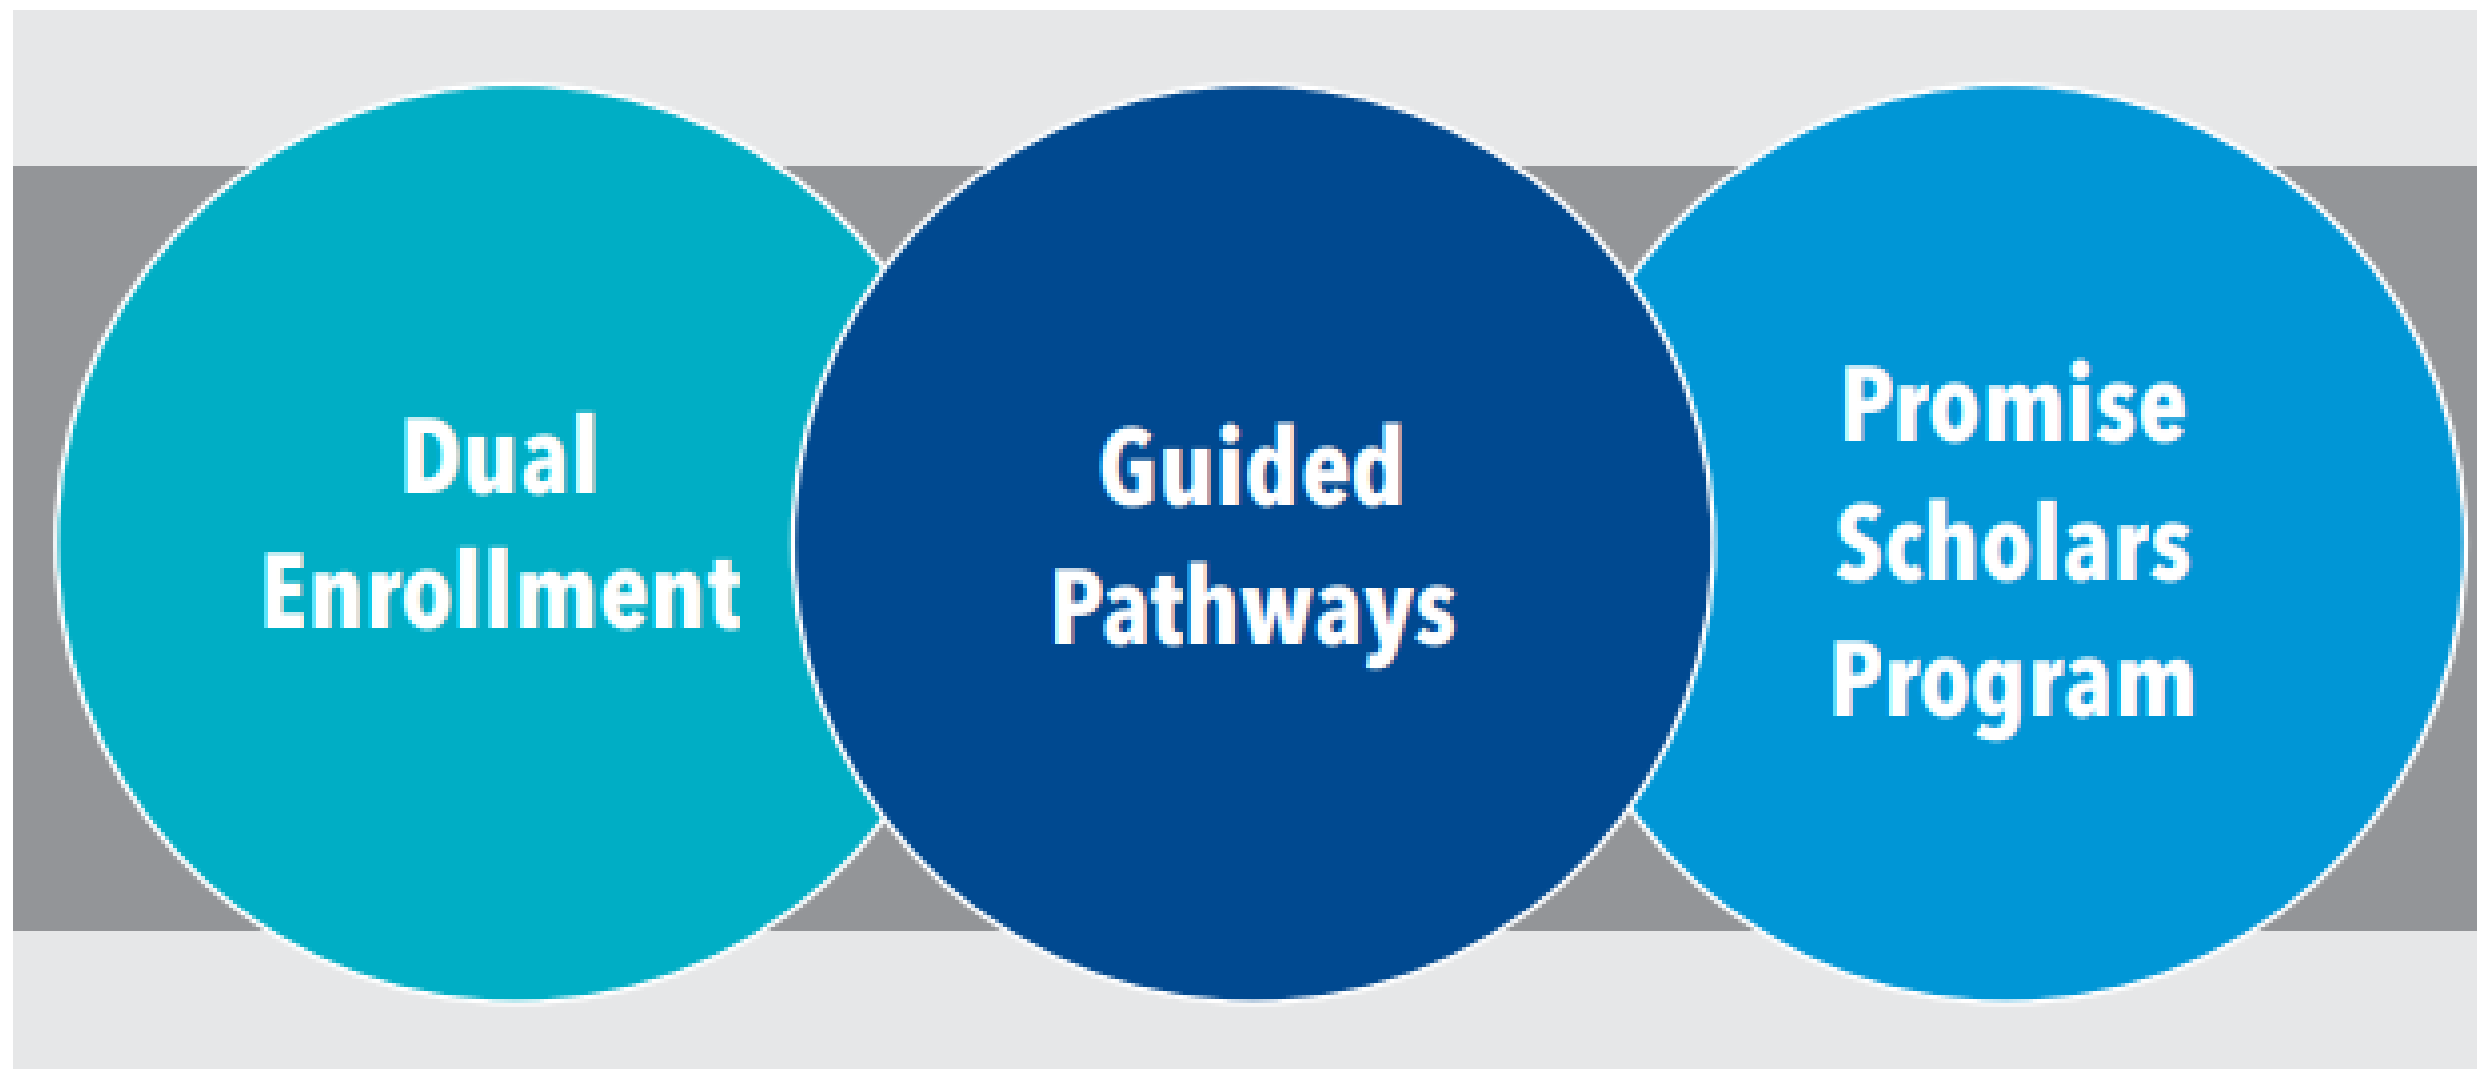

## ***Middle College***

HS students from San Mateo Union that take social studies & English with high school faculty & earn the rest of their high school grad requirements via CSM classes, in Bldg 12 on our campus

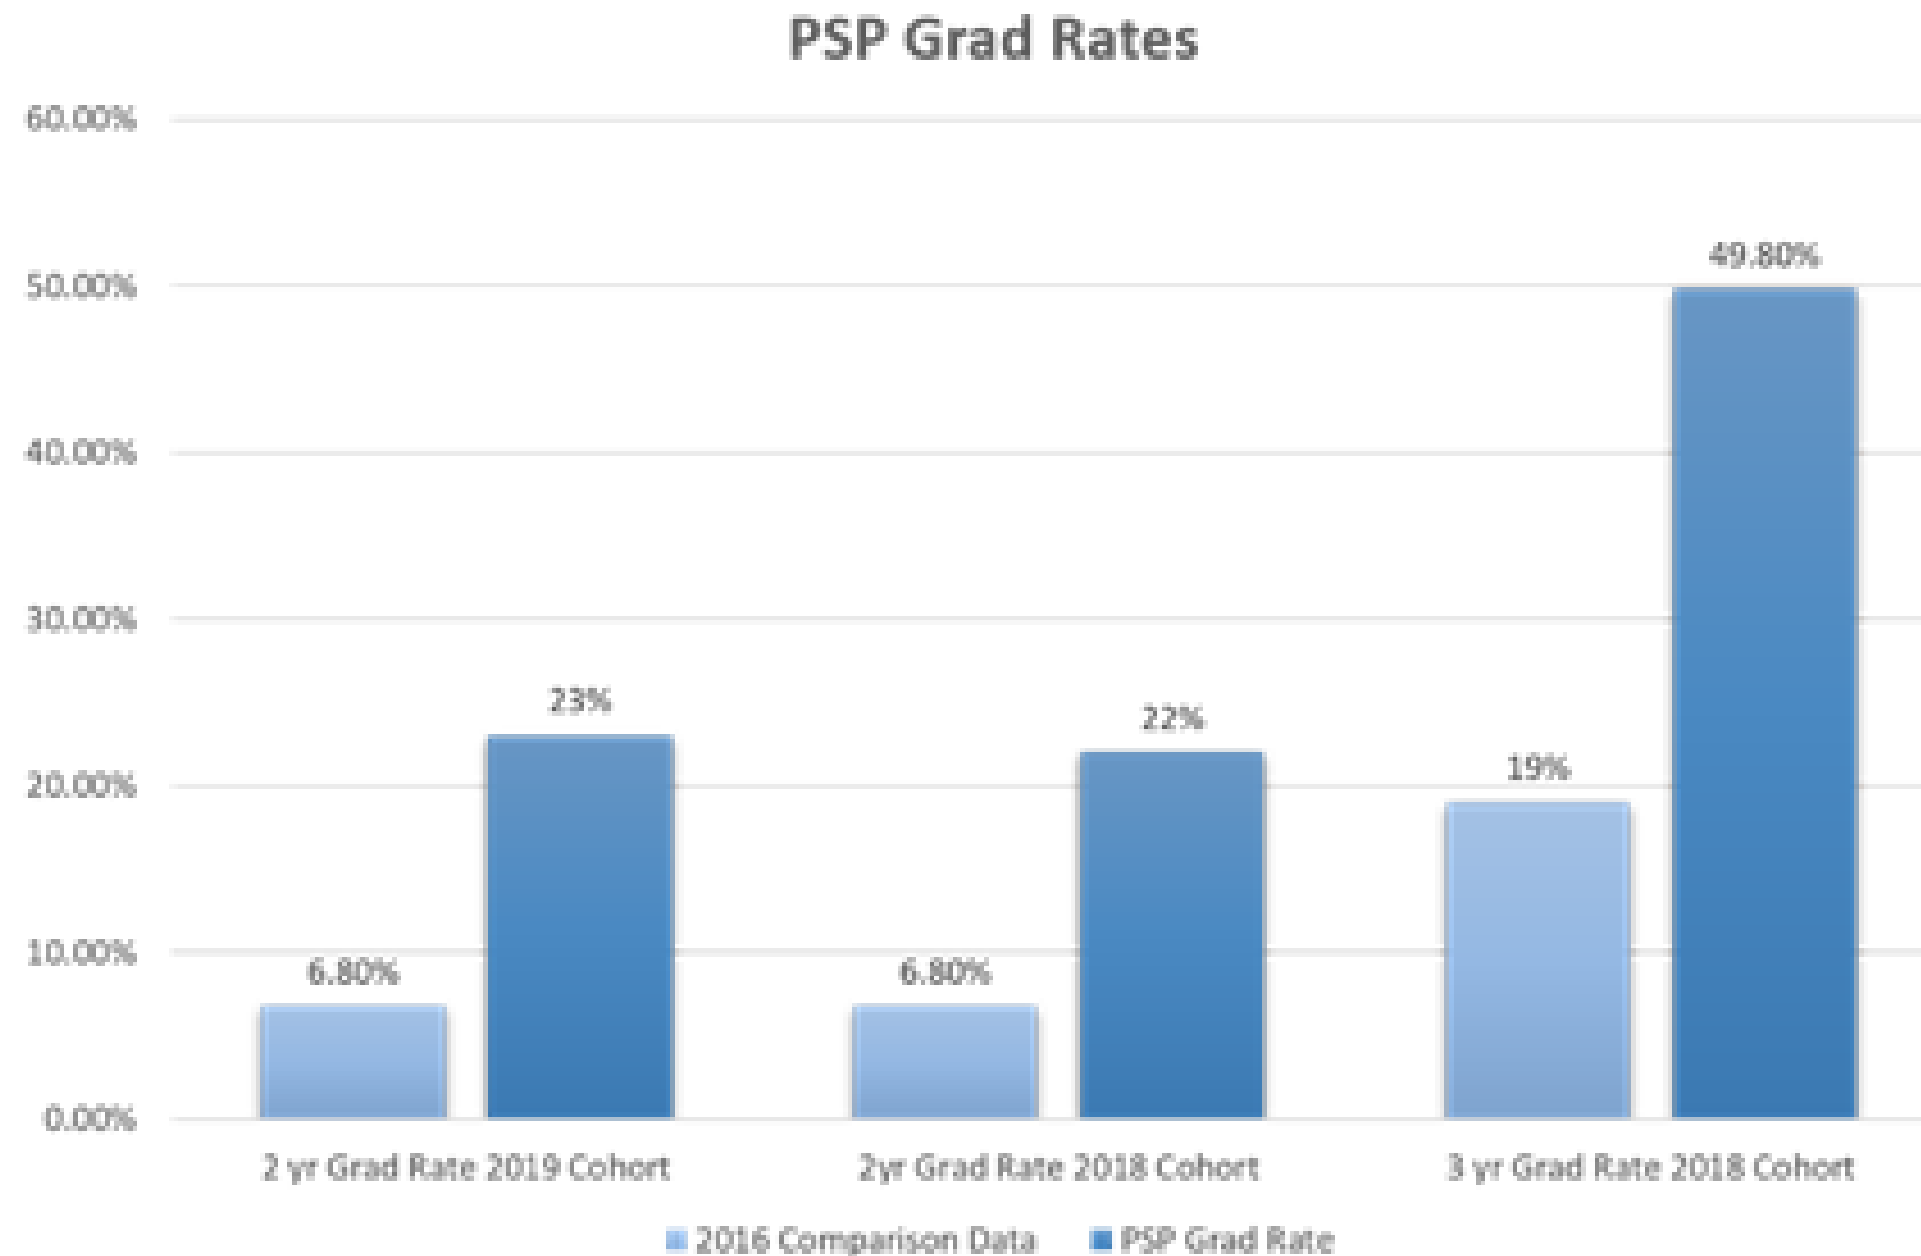

# ***Who: Target Population***

- First-generation college-bound students
- First in their family to earn a high school diploma
- Member of an identified minority group
- English language learner including those who have been reclassified
- Socioeconomically disadvantaged students
- Students not identified to participate in Guided Studies, Academic Support or AVID
- Homeless or Foster Youth
- On track to meet graduation requirements (not credit deficient), and may or not be on track to complete A-G requirements
- Second semester 10th Grade GPA range of 1.75 - 3.0 GPA
- AB540, nonAB50, and dreamers in our K12
- Special Education students (IEP/504) (DRC eligible)

# ***WHY for Dual Enrollment***

# WHY for Dual Enrollment

# ***WHY for Dual Enrollment***

- *Students who may not already be college bound or who are underrepresented in higher education*
- *Our vision for dual enrollment at CSM is to work with all of our high school partners to connect, provide direction and momentum for all of our community college bound high school students. We seek to connect in a meaningful way with students by building intentional pretransfer and workforce preparation pathways. We believe it is our moral imperative to create college bound pathways for all of our students.*

# ***Approach for Dual Enrollment***

- *Approaches to offering our dual enrollment courses with our high school partners:*
  - *1. Offer courses via CSM faculty embedded in the high school day and instructing on the high school campus*
  - *2. Where high school faculty meet minimum qualifications and our course outlines align with theirs, offer courses via the high school faculty instructing appropriately aligned courses*
