

Key Words in Mathematical Expressions

Addition	Subtraction	Multiplication	Division
sum	difference	product	quotient
increased by	decrease	twice	ratio
greater than	less than	three times, etc.	divisor
larger than	smaller than	times	dividend
more than	fewer than	multiply	divide
add	subtract	factors of	into
exceeds	diminished by		

of – multiply as in one half of 20 means $\frac{1}{2}$ (20)

is means =

supplementary: angles that add to 180°

complementary: angles that add to 90°
