Calendar of Important Dates

Summer Intersession 1992

Placement Tests  See Schedule of Classes for dates, times, and places
Registration  See Schedule of Classes
June 22  Classes begin
July 3  Independence Day Holiday
July 6  Last day to petition for Summer AA/AS degree or certificate
July 31  Summer Intersession six-week classes close
August 14  Summer Intersession eight-week classes close

Fall Semester 1992

April 29  Applications available
Placement Tests for Fall Semester 1992  See Schedule of Classes for dates, times, and places
Counseling/Registration, new and returning students  See Schedule of Classes for dates, times, and places
August 19  Day and evening classes begin
September 1  Last day to add semester-length classes
September 1  Last day to drop classes with eligibility for enrollment fee refund
September 7  Labor Day Holiday
September 11  Last day to drop classes without appearing on student record
September 25  Last day to declare CR/NC option for designated courses
September 25  Last day to apply for Fall AA/AS degree or certificate
November 13  Veterans' Day Holiday
November 14  Declared recess
November 17  Last day to drop a semester-length class in which a student is failing without possible F grade
November 25  Evening classes recess
November 26-28  Thanksgiving recess

Registration for continuing students
See Schedule of Classes for dates, times, and places
December 8-14  Final examinations (evening classes)
December 14-18  Final examinations (day classes)
December 19-January 15  Inter-Semester recess

Spring Semester 1993

October 19  Applications available
Placement Tests for Spring Semester 1993  See Schedule of Classes for dates, times, and places
Counseling/Registration, new and returning students  See Schedule of Classes for dates, times, and places
January 20  Day and evening classes begin
February 2  Last day to add semester-length classes
February 2  Last day to drop classes with eligibility for enrollment fee refund
February 12  Lincoln Day Holiday
February 13  Declared recess
February 15  Washington Day Holiday
February 16  Last day to drop classes without appearing on student record
February 26  Last day to declare CR/NC option for designated courses
February 26  Last day to apply for AA/AS degree or certificate
April 5-10  Spring recess
April 22  Last day to drop a semester-length class in which a student is failing without possible F grade
Placement Tests for Fall Semester 1993  See Schedule of Classes for dates, times, and places
Registration for continuing students
See Schedule of Classes for dates, times, and places
May 18-24  Final examinations (evening classes)
May 26-June 2  Final Examinations (day classes)
May 31  Memorial Day Holiday
June 2  Commencement

Summer Intersession 1993

Placement Tests  See Schedule of Classes for dates, times, and places
Registration  See Schedule of Classes
June 14  Classes begin
July 5  Independence Day Holiday
July 6  Last day to petition for Summer AA/AS degree or certificate
July 23  Summer Intersession six-week classes close
August 6  Summer Intersession eight-week classes close
The current College of San Mateo campus was opened in 1963, followed by Cañada College, Redwood City, in 1968, and Skyline College, San Bruno, in 1969. Construction of Cañada and Skyline was made possible in large part from proceeds from a second bond issue of $12.8 million approved by District voters in 1964.

**District Master Plan**

**Mission**
San Mateo County Community College District, recognizing each individual’s right to education, is committed to leadership in providing quality education in partnership with its community to:

- identify and respond to the educational needs of the community;
- provide an environment which enables students to understand their individual potential;
- encourage the pursuit of lifelong learning in a changing world; and maintain a climate of academic freedom in which a variety of viewpoints may be shared.

**Goals**
To fulfill its mission, San Mateo County Community College District has established the following goals. In pursuit of these goals, the overriding concern of the District will be maintenance of quality even at the expense of scope of service.

San Mateo County Community College District shall:

1. provide varied general educational opportunities which acquaint students with the broad outlines of human knowledge and experience;
2. provide lower-division transfer programs which prepare students for continued education in four-year colleges and universities;
3. offer occupational education and training programs directed toward career development, in cooperation with business, industry, labor, and public service agencies;
4. offer developmental/remedial education to enable students to develop those basic skills essential to successful completion of college goals;
5. identify and meet community needs not otherwise served by college credit courses by offering self-supporting

Community Service classes and activities;
6. provide a program of student services to assist students in attaining their educational and career goals; and
7. actively support a program of affirmative action for underrepresented groups in recruitment and personnel employment.

In order to fulfill its educational mission and to attain the goals described herein, San Mateo County Community College District commits itself to effective analysis and evaluation of programs, services, and performance of personnel. It shall plan, organize, and manage its resources to achieve maximum effectiveness, efficiency, and accountability. Participation by the College community in these endeavors is desirable and appropriate.

**The College**
College of San Mateo, the oldest of the three colleges in San Mateo County Community College District, is located on a 153-acre site that provides a panoramic view of the north Bay Area.

Completed at a cost of almost $19.5 million, the campus opened in 1963 and currently serves more than 15,000 day and evening students. It enrolls students from the entire District, although its chief service area is central San Mateo County.

The College’s main educational structures are built along a north-south axis provided by the main pedestrian mall. A second mall, running east and west, connects the Fine Arts Center with the Library. In addition to three main lecture halls, the College has a three-building science center, an engineering building, a planetarium, a complex which houses dental assisting, cosmetology, nursing, and one which houses electronics and aeronautics. A separate area houses the horticulture programs, Extended Opportunities Programs and Services and the Multicultural Center.

To assist students in profiting from their education, the College helps them explore their interests and abilities, choose their life work, and plan an educational program which will prepare them for that work. It offers this assistance through a formal program of guidance and counseling, and through informal student-teacher relationships which are among the most distinctive and valuable of its services. The Col-
lege recognizes the educational value of organized student activities and encourages students and faculty participation in these activities.

Situated close to San Francisco and several fine colleges and universities, College of San Mateo is part of a colorful community which enjoys many cultural advantages. Many College of San Mateo graduates transfer to the University of California, California State Universities, and other major public and private colleges and universities. Because the needs of these students who transfer for upper division work are carefully provided for in the curriculum, the College enjoys a fine reputation among the universities of the State. CSM graduates have consistently had a pattern of success in transfer educational institutions. Many College of San Mateo students, having temporarily completed their formal education with the Associate in Arts or the Associate in Science degree, find employment in business and industry.

Accreditation
College of San Mateo is fully accredited by the Western Association of Schools and Colleges, the recognized local agency which is affiliated with the Federation of Regional Accrediting Commissions of Higher Education.

Revision of Regulations
Any regulation adopted by the administration of College of San Mateo will be considered an official ruling and will supersede regulations on the same subject which appear in this Catalog and other official publications, provided that the new regulation has been officially announced and posted.

Veterans and Veterans’ Dependents
College of San Mateo is listed by the Veterans Administration as qualified to certify students who are working toward an AA/AS degree program for benefits under Chapter 34 (Veterans), Chapter 35 (Veterans’ Dependents) and Chapter 31 (Vocational Rehabilitation). All students, except those under Chapter 31, buy their own books and supplies. Those interested in attending College of San Mateo under any of these chapters should contact the Office of Admissions and Records in the Administration Building to determine eligibility for benefits.

For academic credit purposes, a veteran is defined as an honorably discharged member of the United States Armed Forces who was on active duty for one year or longer. Upon presentation of separation or discharge papers, veterans are exempted from the Health Science and Physical Education requirements for the AA/AS degree. They are also granted six units of elective credit toward the AA/AS degree.

In addition, veterans who qualify may receive credit for military service schools toward the Associate in Arts/Science degree upon presentation of proof to the Office of Admissions and Records. They must have completed a minimum of 12 units with a grade-point average of 2.0 at College of San Mateo. Units of credit for military service (6 units) and military service schools will be recorded and so annotated on the student’s academic record.

High School Diplomas
The College does not issue high school diplomas. Students who wish to complete requirements for the diploma should consult the high school they last attended to determine graduation requirements. College courses used to satisfy a high school diploma requirement may not be used toward a college degree and cannot be repeated for college credit. Students who are unable to make arrangements with their previous high schools can contact the office of the high school district in which they now reside. Counseling/advising services for high school diplomas may be obtained by residents of the San Mateo Union High School District by telephoning the SMUHSD Adult Education Counselor at (415) 347-9871.

A fee (currently $3 per transcript) is charged if the student has previously requested two or more transcripts. Transcript request forms are available from and submitted with appropriate payment to the Office of Admissions and Records. Telephone 574-6593. An unofficial computer printout of a student’s record reflecting courses taken during or after the Spring 1981 semester may be purchased by a student at the counter of the College of Admissions and Records. Photo identification is required; the current charge is $1 per copy.

Policy of Nondiscrimination
College of San Mateo is committed to equal opportunity regardless of sex, marital status, handicap, race, color, religion or national origin, for admission to the College, enrollment in classes, student services, financial aid, and employment in accordance with provisions of Title VI of the 1964 Civil Rights Act, Title IX of the Educational Amendments of 1972 (45 CRF 86), Section 504, Rehabilitation Act of 1973 (P.L. 93-112), and the Americans With Disabilities Act of 1990.

It is important that students, staff, and all others associated with the College understand the importance of reporting concerns about possible violations of this policy. The College’s commitment to equal opportunity demands full investigation of possible violations and an opportunity for a fair and impartial hearing on any matter relating to these laws and policies.

Any person seeking information concerning these laws and policies or claiming grievance because of alleged violations of Title VI of the 1964 Civil Rights Act and Sec. 504 of the Rehabilitation Act of 1973 should contact the Dean of Special Programs and Services, Administration Building, Room 215, telephone 574-6434.

All grievances will be reviewed in terms of Title VI and Title IX law, and persons involved will be advised of the provisions of the law and their legal rights. If normal channels are not available or fail to meet legal requirements, the necessary action will be initiated. The office will maintain a record of all Title VI and Title IX grievances, and will report to the Affirmative Action Committee the general nature of such grievances and progress toward their resolution.

Transcripts
Official transcripts of a student’s academic record at College of San Mateo will be sent to employers, colleges and other institutions upon written request by the student. Only courses taken at College of San Mateo will appear on the transcript. Transcripts from high school and other colleges will not be forwarded. Students may also request “issued to student” copies to be sent to themselves.
Policy on Sexual Harassment

It is the policy of San Mateo County Community College District and College of San Mateo to prohibit, in any and all forms, the sexual harassment of its students and staff. Sexual harassment of students by other students or staff, and/or the harassment of staff by students or other staff is considered intolerable behavior that will be investigated and acted upon immediately.

Students or staff seeking further information concerning this policy or claiming grievance because of alleged violations of this policy should contact either the Vice President, Student Services, Administration Building, Room 275, telephone 574-6118; or the Dean of Special Programs and Services, Administration Building, Room 215, telephone 574-6434.

Policy on Drug-Free Campus

San Mateo County Community College District and College of San Mateo, in compliance with the Federal Drug-Free Schools and Communities Act Amendments of 1989, prohibit the use, possession, sale or distribution of alcohol, narcotics, dangerous or illegal drugs or other controlled substances, as defined in California statutes, on District or College property or at any function sponsored by the District or Colleges.

Students are expected to conduct themselves as responsible citizens and in a manner compatible with the community college function as an educational institution. Students are subject to civil authority and to all District and College rules and regulations.

Students found to be in violation of the drug-free campus policy by manufacturing, distributing, dispensing, possessing or using controlled substances, as defined in California statutes, on any District property will be subject to disciplinary measures up to and including possible cancellation of registration.

Persons seeking further information concerning this policy or the health risks and effects associated with alcohol and narcotics or other dangerous or illegal drugs should contact the Health Center, Building 1, Room 226 (574-6396).

Privacy Rights of Students

The Family Educational Rights and Privacy Act (Sec. 438, P.L. 93-380, as amended) requires educational institutions to provide: access to official educational records directly related to the student; an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate; that the College must obtain the written consent of the student before releasing personally identifiable information from records to other than a specified list of persons and agencies; and that these rights extend to present and former students of the College.

The Act provides that the College may release certain types of "Directory Information" unless the student submits a request in writing to the Records Officer that certain or all such information not be released without his/her consent. "Directory Information" at this College includes: (1) student’s name and city of residence; (2) participation in recognized activities and sports; (3) dates of enrollment; (4) degrees and awards received; (5) the most recent previous educational agency or institution attended; and (6) height and weight of members of athletic teams.

A copy of the College Policy, the Family Educational Rights and Privacy Act (Sec. 438, P.L. 93-380) and other pertinent information and forms are available in the Office of Admissions & Records, Administration Building, Room 210, during normal business hours.

Educational Opportunities at Other San Mateo County Community Colleges

San Mateo County Community College District also operates Cañada College in Redwood City and Skyline College in San Bruno which offer a number of special programs not available at College of San Mateo:

Cañada College

Programs

Drama
Early Childhood Education
English Institute
Health Care Interior Design
Home Economics/Fashion Design
Italian
Microcomputer Technician

Skyline College

Programs

Astronomy

San Bruno, CA 94066
(415) 355-7000 (day)
(415) 738-4251 (evening)
Fees

Enrollment Fee
An enrollment fee of $6 per unit (pending legislative approval) is payable by all students at the time of registration, with a maximum of $60 per semester. The enrollment fee is calculated each term based upon the student’s combined enrollments at College of San Mateo, Cañada College, and Skyline College.

The Board of Governors of the California Community Colleges has established a grant program to help low income students pay the enrollment fee. Information on eligibility requirements and application deadlines, as well as application forms, are available in the Financial Aid Office.

In addition to other costs, students classified as non-residents of the State of California must pay a tuition fee. See details under Non-Resident Tuition Fee.

Health Fee
All students, except those registering only for telecourses, off-campus classes or weekend classes, and except high school students enrolling through the Concurrent Enrollment Program, are required to pay a non-refundable $7.50 health fee each semester at the time of registration for day or evening classes. The summer session health fee is $5.00. In addition to campus health services, the fee provides emergency sickness and accident insurance coverage which is in effect when the student is on campus or attending a College-sponsored event.

Under certain circumstances a student may be exempted from paying the health fee on religious grounds. Further information is available from the Office of the Vice President, Student Services.

Parking Fee
All persons driving motor vehicles onto campus and utilizing the parking facilities during regular class hours, including final examinations, are required to pay a parking fee. Parking permits are not required however for students enrolling in classes which meet only on Saturday. Student parking permits are available for $20 per semester ($10.00 for summer session). One-day parking permits (75 cents) for all student lots are available at the Security Office.

Permits may be purchased during the registration process. Parking fees are not refundable unless an action of the College (e.g., cancellation of the class) prevents a student from attending class. Parking is on a first-come, first-served basis. A permit is not a guarantee of a parking space. The College and San Mateo County Community College District accept no liability for vandalism, theft or accidents. Use of parking facilities is at the user’s risk. Parking and traffic regulations are enforced by the Campus Security Office staff, and violators are cited to the Municipal Court. The College reserves the right to change parking requirements for special events.

For further information, contact the Campus Security Office, which is open Monday through Friday from 7:45 a.m. to 8:00 p.m. and on Fridays from 7:45 a.m. to 3:00 p.m. when classes are in session. The Security Office is located in the Student Center Building; telephone 574-6415.

Associated Students Fee (optional)
The fee for an Associated Students Express Card is $3 per semester. The Express Card is good for special student discounts at events sponsored by the Associated Students, movie theaters, restaurants, and at more than three hundred other community businesses. The funds collected through the sale of Express Cards help support a wide range of student activities, services and scholarships.

Non-Resident Tuition Fee
No tuition is charged to legal residents of California. Students who have not been residents of California (as defined in the Education Code) for one year or longer prior to the beginning of a term are required to pay a non-resident tuition fee of $113 per unit (in 1992-93) at the time of registration. Residency status is determined by the Office of Admissions and Records.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from his/her father or his/her mother if the father is deceased, or, if the case of permanent separation of the parents, from the parent with whom the minor maintains his/her abode. The residence of a minor cannot be changed by act of the minor or that of the minor’s guardian while the minor’s parents are living.

An adult must take steps to establish legal residency in California at least one year prior to the beginning of the term in order to be classified as a resident student for that term. Information concerning accept-

able documentation of intent to establish and maintain California residency is available in the Office of Admissions and Records.

Other Expenses
Students must purchase their own textbooks and supplies. A considerable saving is possible through the purchase of used texts from the on-campus College of San Mateo Bookstore. Excluding living and transportation costs, the total of all expenses for a full-time student should not exceed $500 per semester for California residents. Special equipment is needed for certain programs such as Electronics, Drafting, Nursing, Cosmetology, Engineering, Art and Architecture, involving an additional initial outlay ranging from $100 to $450. Please refer to course descriptions for special costs.

Fee Refund Policy

Enrollment Fee
A student who cancels registration prior to the beginning of classes or officially withdraws from all classes on or before the last day to add semester-long classes is entitled to a full refund less a $10 processing fee.

A student enrolled in summer session or exclusively in less than semester-long classes and who cancels registration prior to the beginning of classes or officially withdraws from all classes within the first two weeks of instruction in those classes is entitled to a full refund less a $10 processing fee.

A student who officially completes a change of program within the prescribed period and, as a result, reduces the number of units in which he/she is enrolled is entitled to a refund (with no processing fee) if the change places the student in a different enrollment fee category.

A processing fee will be charged only once each semester or session. If a student pays an enrollment fee of less than $10, and cancels registration or withdraws from all classes before the deadline, the processing fee is equal to the enrollment fee.

An eligible student may elect to have a credit in lieu of a refund of fees due, and may thereby avoid payment of a processing fee. This credit will be carried by the District for a maximum of two semesters beyond the semester in which the refund was due. After that time, the student will not be eligible for the credit or the refund.
The enrollment fee will be fully refunded if an action of the College (e.g., class cancellation) prevents the student from attending class.

Health and Parking Fees
Not refundable unless an action of the College (e.g., class cancellation) prevents the student from attending class.

Associated Students Fee
Payment for the optional Associated Students Express Card is non-refundable unless an action of the College (e.g., class cancellation) prevents the student from attending the College.

Non-Resident Tuition Fee
A student is entitled to a full refund if tuition has been collected in error.

A student who cancels his/her registration prior to the beginning of classes, or who officially withdraws from the College prior to Friday of the fourth week of the semester, is eligible for a full refund less a $50 processing fee.

A student who officially reduces his/her program prior to Friday of the fourth week of the semester is eligible to receive a full refund for the units dropped.

A student who officially withdraws or reduces his/her program on or after Friday of the fourth week is not eligible for a refund.

Exceptions
Exceptions to the Refund Policy may be authorized by the Vice President, Student Services in cases of extraordinary circumstances beyond the control of the student.

Library Media Center
The Library Media Center is located on the lower floor of the Library, offering many listening/viewing stations for CSM students. There are also two audio labs and two video screening classrooms, as well as preview rooms, recording studios, a media materials/graphics production area and equipment storage, repair and distribution areas.

The Library Media Center staff oversees this area and provides assistance with use of non-print materials. The non-print collections contain more than 8,000 disc records, CD’s, films, videotapes, 8,000 tape and cassette recordings, and thousands of slides and filmstrips. The on-line catalog (GEAC) also identifies non-print items available throughout the County which can be borrowed by CSM users.

KCSM TV and FM
KCSM TV and FM are public broadcasting stations licensed to the college district and operated by College of San Mateo.

KCSM TV is a full-color broadcast station affiliated with PBS. It broadcasts to San Mateo County and throughout the Bay Area via its 1.5 million watt transmitter located on Mt. San Bruno. KCSM FM is a 24-hour public radio station affiliated with NPR. Its broadcast signal also covers the County and most of the Bay Area. Its transmitter and tower are located on the CSM campus. KCSM TV broadcasts on UHF Channel 60 and KCSM radio broadcasts on 91.1 on the FM band. Both stations carry a wide variety of programming to meet the educational, cultural and informational needs of the students and of the community.

Studies for both KCSM TV and FM are located adjacent to the Media Center on the lower floor of the Library building. Station facilities are made available through the Broadcasting Arts department for the training of students in broadcast skills. Both radio and television are also used to broadcast credit courses for the convenience of those students who are unable to come to campus. These telecourses allow students to essentially attend their lecture classes by watching them at home on television or listening to them on radio. Usually three campus sessions are included as part of a telecourse. Telecourses carry full college credit and are transferable to many four-year colleges.

Instructional Resources

Library
With its panoramic view of the Bay Area, the three-story Library is an inviting place in which both students and faculty may study, browse, and research. The Library collections, designed to meet and support the varied learning needs of students, reflect over 60 years of careful selection.

The main floor houses reference services and materials, periodical collections, the reserve books and textbook reserves, circulation services, an extensive reading room, group study rooms, photocopiers and rental typewriters. The balcony houses the open-stack general book collections and individual study carrels. (Non-print materials are located on the lower floor in the Library Media Center.)

As a member of the Peninsula Library System (a county-wide consortium involving all of the public libraries and the three college libraries), the Library offers its users access to more than 2.5 million items. These resources are made available through the GEAC Library System database operated by PLS. Items at any one of 33 sites throughout the county can be borrowed by a CSM patron, and can even be delivered to the Library if desired.

The CSM Library owns over 80,000 volumes of books, receives more than 45 current magazines and newspapers, and stores more than 16,600 pieces of microfilm and microfiche. The on-line catalogs provide access to both print and non-print materials, and other electronic searching/information retrieval tools are available. Assistance is always gladly provided by Library staff. Hours of service vary according to the academic calendar; current schedules are always posted at the Library.

Of special interest is the U.S. Government Documents collection. Since 1987, following its designation as a Federal Depository Library, the Library has been assembling a broadly-based, well-rounded collection of important government materials.
Special Programs

Athletics
College of San Mateo participates as a member of the Golden Gate Conference in the following intercollegiate sports: Baseball, Women's Basketball, Men's and Women's Cross-Country, Women's Tennis, Football, Women's Softball, and Men's and Women's Track and Field.

In order to be eligible a student must adhere to the California State Athletic Code and Golden Gate Conference eligibility rules and regulations.

The following principles pertain to all matters of eligibility:

1. In order to be eligible, a student-athlete must be actively enrolled in a minimum of 12 units during the season of sport. Such eligibility is required for non-conference, conference, and postconference participation.

2. To be eligible for the second season of competition, the student-athlete must complete and pass 24 semester units with a cumulative 2.0 grade point average. These units must be completed prior to the beginning of the semester of the second season of competition. All units must be completed and passed at a regionally accredited post-secondary institution.

3. A student transferring for academic or athletic participation, who has previously participated in intercollegiate athletics at another California Community College, must complete 12 units in residence prior to the beginning of the semester of competition.

4. In order to continue athletic participation in any sport, the student-athlete must maintain a cumulative 2.0 grade point average in accredited post-secondary coursework computed since the start of the semester of first participation.

5. The 12-unit residency rule for previous participants will be waived for a student-athlete who has not competed at a post-secondary institution in the past five years.

6. In meeting the unit requirements, courses in which grades of D, F, or NC were received may be repeated. Under special circumstances, courses that have been completed with a grade of C or better may be repeated; however, the units will not be counted.

Student/athletes who plan to transfer prior to receiving an AA degree should meet with their counselor/advisor and verify eligibility status for transfer based on past work and test scores from high school.

Those students who wish to seek financial assistance (athletic scholarship) and be eligible for competition must meet minimum requirements based on Bylaws, Article 5 in the NCAA manual.

Questions regarding eligibility should be addressed to the Dean of Physical Education/Athletics. Telephone: 574-6461.

Cooperative Admissions Program (CAP)
The University of California, Berkeley, and College of San Mateo have entered into a Cooperative Admissions Program with the College of Letters and Science, the School of Environmental Design, Electrical Engineering and Computer Science for students who were not admitted to UCB because of space limitation, but were eligible for admission.

This program requires the student to spend the first two years at College of San Mateo completing specific requirements for his/her major and for admission to the College of Letters and Science. The student will be guaranteed admission as a junior, after completing 56 minimum semester units, for the specific majors and in a non-impacted major in the College of Letters and Science. For more information, contact the Dean of Special Programs and Services at 574-6434.

Foreign Study Program
The San Mateo County Colleges, in cooperation with the American Institute for Foreign Study, offer students of all ages the opportunity to study and live abroad, earning up to 15 units toward an AA/AS degree which are transferable for Bachelor's degree credit. Current offerings include a London Semester in the fall, a Semester in Paris or Florence in the spring, and a summer program in Guadalajara. Students applying to participate must have completed at least 12 college units with a minimum GPA of 2.0.

Costs, including flights and living accommodations, are reasonable and financial aid is available. Early planning is advisable. For further information, contact the Office of Admissions and Records, Building 1, Room 218, telephone 574-6595.

Honors Program
The CSM Honors Program was established with one goal in mind: to seek out students of exceptional ability and purpose, and to provide these students with the education they merit. The program is open to all students regardless of major, age, or background, and leads to the Associate of Arts/Science degree and/or transfer to the University of California or California State University systems in the junior year.

Affiliation may be at one of three levels:
1. President's Scholar – completes the full Honors Program curriculum before graduation and/or transfer
2. Associate – takes a minimum of one Honors Program course per semester
3. Member – takes a minimum of one Honors Program course in any semester.

Entry requirements vary with level of affiliation, but generally include a grade point average of 3.3 and eligibility for English 100, or other achievements which indicate ability to benefit from honors courses. President's Scholars will complete approximately 18 units in the program, made up of selected general education breadth courses and a Capstone Thesis in their major. Additional units will be needed to satisfy degree requirements, and will be taken outside the program. Students interested in applying should talk with their counselor/advisor and the Honors Program Coordinator, Building 13-103, or call 574-6268.

Instructional Television
College transfer classes are offered by College of San Mateo on television. Telecourses present college-level instructional material for students who wish to gain academic credit for a degree, a certificate or for personal enrichment. The credits earned may be applied to College of San Mateo programs or transferred to most colleges and universities. See the Schedule of Classes for information on course offerings.
Matriculation

Matriculation is the process which brings the College and a student who enrolls for credit into an agreement for the purpose of developing and realizing the student’s educational objective. The agreement acknowledges responsibilities of both parties to enable students to attain their objectives efficiently through the College’s established programs, policies and requirements. All students, except those exempted on the basis of locally established criteria (e.g., holders of A.A./A.S. or higher degrees), are expected to complete matriculation requirements.

The College provides matriculation services organized in several interrelated components:

1. Admissions: Collects and analyzes information on each applicant, identifies students needing special services, and assists students to enroll in a program of courses to attain their educational goals.

2. Skills Assessment and Placement Testing: Measures students’ abilities in English, reading, mathematics, learning and study skills, and assesses students’ interests and values related to the world of work. In addition to helping students with course selection, assessment results are used to determine honors eligibility and for referral to specialized support services.

3. Orientation: Acquaints students with College facilities, special programs, services, as well as academic expectations and procedures.

4. Advisement/Counseling and Course Selection: A process in which students meet with a counselor/advisor to develop an individual educational plan, choose specific courses, and update their plans periodically.

5. Student Follow-up: Ensures that the academic progress of each student is regularly monitored, with special efforts made to assist students who have not determined an educational goal, who are enrolled in pre-collegiate basic skills courses, and/or who have been placed on academic probation.

Each matriculated student is expected to:

1. Express at least a broad educational intent at entrance and be willing to declare a specific educational goal following the completion of 15 semester units of degree applicable credit coursework.

2. Attend classes regularly and complete assigned coursework.

3. Cooperate in the development of a student educational plan within 90 days after declaring a specific educational goal, and subsequently abide by the terms of this plan or approved revision thereof, making continued progress toward the defined educational goal.

Note: The College may withhold matriculation services from students failing to cooperate in meeting the above expectations.

Each matriculated student is entitled to:

1. Participate in the process of developing his/her student educational plan. A student who believes the College has not afforded him/her the opportunity to develop or implement this plan may file a complaint in the Office of the Vice President for Student Services, Building 1, Room 273.

2. Be given equal opportunity to engage in the educational process regardless of sex, marital status, physical handicap, race, color, religion or national origin. A student who alleges he/she has been subject to unlawful discrimination may file a grievance in the Office of the Dean of Special Programs and Services, Building 1, Room 215.

3. Challenge any prerequisite, filing a petition in the Office of the Vice President for Instruction, Building 1, Room 135, on one or more of the following grounds:
   a. the prerequisite is not valid because it is not necessary for success in the course for which it is required;
   b. the student has the knowledge or ability to succeed in the course despite not meeting the prerequisite; or
   c. the prerequisite is discriminatory or is being applied in a discriminatory manner.

4. Obtain a waiver from the appropriate instructional division dean of any prerequisite or corequisite course for a particular term because the course is not available during that term.

5. Request a waiver of any matriculation requirement on the basis of extraordinary circumstances by filing a petition in the Office of the Vice President for Student Services.

6. Review the matriculation regulations of the California Community Colleges and exemption criteria developed by this District and file a complaint when he or she believes the College has engaged in any practice prohibited by these regulations. The regulations are available and complaints may be filed in the Office of the Vice President for Student Services.

Alternative matriculation services are available for students who require special accommodations in the educational setting:

1. Students with physical, visual, communication or learning disabilities are advised to contact: Enabler Center, Building 16, Room 151 or call 574-6438.

2. Students with difficulty in reading, writing, math and other basic skills are advised to contact: EOPS or Multicultural Center, Building 20, Room 107 or call 574-6158 or 574-6154.

3. Students who speak English as their second language may contact: Multicultural Center, Building 20, Room 107 or call 574-6154.

Any student who wishes to challenge any requirement of Matriculation should contact the Office of the Vice President for Student Services, Building 1, Room 273.

Re-Entry Program

The Re-Entry Program is designed for individuals whose education has been postponed or interrupted. A special Re-Entry class offers the opportunity to evaluate one’s interests and abilities through vocational tests and heightened self-awareness. Instruction is provided in basic skills such as test reading, test taking, and math review, along with an introduction to campus facilities. Tutorial assistance and child care are available. Support through small group discussions, individual counseling and reading materials is offered in the Career Development Center. Phone 574-6571 for further information.

Summer Intersession

A balanced offering of day and evening summer session classes enables students to accelerate their programs and satisfy course or curriculum requirements. The summer session also affords opportunity to exceptionally able high school students, after completing the sophomore year, to take selected college courses. Further information may be obtained by calling the Office of Admissions and Records, 574-6165.
Admission

Students must be admitted to College of San Mateo before they are permitted to register. The first step is to file a written application for admission on a form supplied by the College.

Prospective students should obtain high school and college transcripts from all institutions they have attended and bring these transcripts with them when they come to the campus for counseling and registration. High school transcripts are not required if the applicant has not attended high school within the past five years.

New students, except those specifically exempted from Matriculation requirements, are required to take the CSM Placement Tests (English, Reading, Mathematics) before meeting with a counselor/advisor for program planning. Placement testing times and locations are published in the Schedule of Classes each semester.

Students planning to enroll in the Cosmetology, Dental Assisting or Nursing program must file a separate application in addition to the application for admission to the College. To obtain the appropriate application form, telephone 574-6363 (Cosmetology), 574-6211 (Dental Assisting), or 574-6219 (Nursing). Students planning to enroll in an advanced foreign language course are required to take the appropriate foreign language placement test.

Transfer Credits

Credit will be allowed for lower-division work done at other colleges and universities accredited by the Western Association of Schools and Colleges or equivalent accrediting body.

Credit will not be allowed for units awarded at other colleges or universities in the following categories: credit by examination, military schooling credit, military service credit, Advanced Placement credit, College Level Examination Program (CLEP), or credit by other equivalency examinations.

All work presented by submission of official transcripts will be evaluated by the Office of Admissions and Records. Such transcripts must be sent directly by the issuing institution to College of San Mateo.

High School Graduates

Normally, graduation from high school or successful completion of the California High School Proficiency Examination or the General Education Development Examination (GED), with an overall average of 55 and no score below 50, is a prerequisite for admission. Persons over 18 years of age may also be admitted even if they are not high school graduates.

High School Students

Students attending high school as juniors or seniors may register concurrently for CSM classes with the approval of the Dean of Admissions and Records. Interested students must submit a Concurrent Enrollment Application (available from high school counselors), together with the required recommendation and high school transcript.

A high school grade point average of 2.0 (C) is required for participation in this program. Residency requirements as detailed on this page apply to high school students. Concurrently enrolled high school students are exempted from payment of the enrollment fee and health fee.

Because of enrollment limitations, high school students may not be permitted to enroll in classes in certain impacted programs.

In special cases, with the high school principal's recommendation, freshman and sophomore high school students may be considered for admission under the procedure outlined above.

California Residency

It is not necessary to be a legal resident of California (as defined in the Education Code) in order to attend College of San Mateo. Students who have not been California residents for a full year before the opening day of a given term must pay a non-resident tuition fee in addition to the fees paid by California residents. See the Index (Residence Requirements) for further details.

Former Students of College of San Mateo

Former students of College of San Mateo are normally eligible to return. However, if they have less than a 2.0 grade point average in courses taken at College of San Mateo, they will be readmitted according to provisions of the current academic standards policy of the College (see Index: "Academic Policy"). Prior to being readmitted, former students must clear any holds on their records due to unpaid fees, fines, etc.

International Students

College of San Mateo is authorized under Federal law to enroll non-immigrant international students. College of San Mateo does not normally admit persons who enter the United States as visitors (B-1/B-2 visa) to its International (F-1 visa) Student Program. In order to be admitted to the program, an international student must:

1. complete the equivalent of an American high school education with satisfactory grades (normally a B or 3.0 average),

2. demonstrate sufficient command of English to profit from instruction at the College. A minimum score of 480 on TOEFL is required,

3. present evidence of sufficient funds to cover tuition fees and living expenses while attending College of San Mateo. The tuition fee for the 1992-93 academic year is $113 per unit of credit.

4. provide proof, before registration, of medical and health insurance coverage or enroll in a health insurance plan provided for foreign students by San Mateo County Community College District.

International students are required to complete 12 units of class work each semester to maintain their status. Tuition covering the first semester must be paid in full prior to the issuance of the Form I-20 for visa purposes.

Under certain circumstances of unforeseen financial hardship, continuing international students may petition for a waiver of the tuition fee.

A special international student application is available from the International Student Center. Applications for the Fall 1992 semester must be filed by April 15, 1992. Applications for the Spring 1993 semester must be filed by October 15, 1992.

Choice of College

Residents of the District may elect to attend College of San Mateo, Cañada College or Skyline College. In the event the capacity of one college is reached, students may be diverted to one of the other colleges. Academic major and date of application will be taken into consideration if such diversion becomes necessary.
Registration

Counseling/Advising Appointments
Upon completion of admission requirements, new and returning students will be given an opportunity for counseling/advising prior to registration and the opening of each semester. (See Calendar on page 2.) Most students enrolling in classes must obtain program approval from a counselor/advisor before they register.

Registration Deadlines
Students must complete registration in semester-length classes within the first two weeks of instruction. Students in evening classes which meet once a week must be in attendance at the second class meeting. Evening classes meeting twice a week require attendance at the third class meeting in order to register.

Unit Load Limitations
A normal class load for a full-time student is 15 units. No student will be permitted to take more than 19 units without special approval of the counselor/advisor and the Coordinator of Counseling Services. Students working full time should limit their program to six or fewer units. Combinations of work and college study should be carefully discussed with the counselor/advisor.

A program of 12 units or more is considered a full-time load for athletic eligibility, financial aid, international students (F-1 visa), veterans benefits, Social Security benefits, and most other benefits which are dependent upon student enrollment status.

Audit Policy
Students are allowed to register as auditors in a limited number of classes to which the course repetition policy applies if they have previously enrolled for credit for the maximum number of times allowed for the particular course.

Students should register for these classes in the normal manner; they will be notified if they have reached the course repetition limit and given the opportunity to register as auditors if space is available.

An auditing fee of $15 per unit is payable at the time of enrollment as an auditor. Auditors are not charged the regular enrollment fee which is paid for credit enrollment. The non-resident tuition fee does not apply to auditors. Students enrolled in ten or more units for credit are not charged a fee for auditing up to three units.

No student auditing a course will be permitted to change enrollment status in that course to receive credit. See the current Schedule of Classes for courses (denoted by an asterisk) that may be audited.

Program Changes
Students wishing to add and/or drop classes must follow the prescribed procedure as outlined in the Schedule of Classes. A student who stops attending a class is not automatically dropped from the roll, and may receive a penalty grade. It is the student’s responsibility to withdraw officially from one or more classes, or from all classes, following prescribed timelines and procedures.

Withdrawal from Classes
Students wishing to withdraw from a class must obtain a Petition to Change Program (add/drop form) from their counselor/advisor or the Office of Admissions and Records, Building 1, Second Floor. Official withdrawal is the responsibility of the student. A student who does not withdraw in accordance with established procedures may receive a grade of F.

A student may withdraw from a semester-length class during the first four weeks of instruction and no notation will be made on the student’s academic record. In courses of less than a regular semester’s duration, a student may withdraw prior to the completion of 30 percent of the period of instruction and no notation will be made on the student’s academic record.

After the fourth week of instruction, a student may withdraw from a semester-length class, whether passing or failing, at any time through the last day of the fourteenth week of instruction; a W grade will be recorded on the student’s academic record. In courses of less than a regular semester’s duration, a student may withdraw prior to the completion of 75 percent of the period of instruction; a W grade will be recorded on the student’s academic record.

A student who must withdraw for verifiable extenuating circumstances after the deadline may petition the Academic Standards Committee for an exception to this policy.

The academic record of a student who remains in class beyond the time periods set forth above must reflect an authorized symbol other than W (see Index: “Grades, Grade Points”).

A student failing to follow established withdrawal procedures may be assigned an F grade by the instructor.

Veterans’ Benefits
Eligible veterans of the armed forces have ten years from their date of separation from active duty to take advantage of their educational benefits.

To initiate Veterans Administration benefits, veterans should report to the Veterans Clerk in the Office of Admissions and Records (Administration Building, second floor) and bring: (1) two copies of their DD214 (separation papers); (2) one copy of their marriage/divorce certificate; and (3) copies of birth certificates of children. Copies of all documents must be certified by the issuing agency. Notarized photocopies are not acceptable.

Veterans who have previously attended college must file official copies of college transcripts with the Veterans Assistant in the Office of Admissions and Records. For further information, contact the Office of Admissions and Records, 574-6165.
Grades and Scholarship

Units of Work and Credit
A unit of college credit normally represents one hour each week of lecture or three hours of laboratory, or similar scheduled activity, during one full semester.

Grades, Grade Point Average and Academic Record Symbols
Grades from a grading scale are averaged on the basis of their point equivalencies to determine a student’s grade point average. The highest grade (A) receives four points, and the lowest grade (F) receives 0 points, using only the following evaluative symbols.

Symbol    Definition                Grade Points
A          Excellent                   4
B          Good                        3
C          Satisfactory                2
D          Passing, less than satisfactory 1
F          Failing                     0
*CR        Credit (at least satisfactory; units awarded not counted in GPA) 0
*NC        No Credit (less than satisfactory or failing; units not counted in GPA) 0
I          Incomplete                  0
IP         In Progress                 0
RD         Report Delayed             0
W          Withdrawal                  0

*Used in courses in which grades of Credit or No Credit are given. The units earned with a grade of Credit count as units completed. No Credit means the student is not charged with units attempted and is not credited with units completed.

I - Incomplete
This symbol is used in case of incomplete academic work for unforeseeable, emergency and justifiable reasons. Conditions for removal are set forth by the instructor in a written record which also indicates the grade to be assigned in the event that the student fails to meet the stated conditions. The student will receive a copy of this record, and a copy will be filed by the Dean of Admissions and Records. A final grade will be assigned by the instructor when the stipulated work has been completed and evaluated. In the event that the work is not completed within the prescribed time period, the grade previously determined by the instructor will be entered in the permanent record by the Dean of Admissions and Records.

An Incomplete must be made up no later than one year following the end of the term in which it was assigned. Established College procedures may be utilized to request a time extension in cases involving unusual circumstances. The I shall not be used in the computation of grade point average.

IP - In Progress
This symbol is used in the student’s permanent record to confirm enrollment and to indicate that the class extends beyond the normal end of the term. It indicates that work is in progress and that unit credit and a grade will be assigned when the course is completed.
The IP is not be used in the computation of grade point average.

RD - Report Delayed
This symbol is used only by the Dean of Admissions and Records for the purpose of indicating that there has been a delay in reporting the grade due to circumstances beyond the student’s control. It is replaced by a permanent symbol as soon as possible.
The RD is not be used in the computation of grade point average.

W - Withdrawal
See Index: “Withdrawal from Classes.”

Credit/No Credit Options
Each division of the College may designate courses in which a student may elect to receive a letter grade or be graded on a Credit/No Credit basis.

Grade option courses allow students to explore various fields of study and to broaden their knowledge, particularly outside their major field, without jeopardizing their grade point average. Courses in which such option exists will be so designated by the Division Dean in consultation with appropriate members of the division faculty.

Students electing a Credit/No Credit option must submit the appropriate form to the Office of Admissions and Records within the first 30% of the term. Changes will not be permitted after this time.
The utilization of courses graded on a Credit/No Credit basis to satisfy major or certificate requirements must be approved by the Division Dean in consultation with appropriate members of the division faculty. A maximum of 12 units toward an Associate degree or 6 units toward a certificate may be applied from courses in which the student has elected a Credit/No Credit option. Additionally, each division of the College may determine certain courses in which all students are evaluated on a Credit/No Credit basis only. These courses will be so identified in the class schedule and are exempt from the above 12/6 unit limitation.

Four-year colleges and universities vary widely in the number of units of Credit/No Credit courses they accept. Students should consult the catalog of the college to which they may transfer for its regulations in this regard.

Final Examinations
Final examinations are required and will be given in accordance with the final examination schedule. The final examination schedule is printed in the class schedule so that students may plan their programs to avoid conflicts or an excessive load.

Grade Reports
A student is held responsible for his/her own academic progress. Grade reports are mailed to each student at mid Semester. Following final examinations at the end of the semester, the student is sent the report of his/her final grades which serves as the basis for computing the student’s standing.
Student Responsibilities

Conduct
The principle of personal honor is the basis for student conduct. The honor system rests on the sincere belief that College of San Mateo students are mature and self-respecting, and can be relied upon to act as responsible and ethical members of society. Each individual has the obligation to observe the College code of rules and regulations.

Social or other functions using the name of the College are thereby identified as College functions and become subject to the same standards of conduct and supervision, whether conducted on or off the campus.

Social or other functions for which no College staff member is listed as a sponsor are not considered College functions. Further, no off-campus organizations may use the name or imply College sponsorship in any publicity or other information.

Any student may be subject to disciplinary action, including suspension and/or expulsion, if his/her actions on campus are disruptive or are in violation of College rules and regulations. In cases involving disciplinary action, the student will have access to established appeals procedures.

Student Grievances and Appeals
Students are encouraged to pursue their academic studies and become involved in other sponsored activities that promote their intellectual growth and personal development. The College is committed to the concept that, in the pursuit of these ends, the student should be free of unfair and improper actions on the part of any member of the academic community. If, at any time, a student feels that he/she has been subject to unjust actions, or denied his/her rights, redress can be sought through the filing of an appeal or grievance. Detailed information is provided in the Student Handbook, which is available at the Student Activities Office. For further information concerning any aspect of student grievances or rights of appeal, students should contact the Office of the Vice President, Student Services.

Fines
Fines are assessed for failure to comply promptly with library regulations, and students are also required to pay for careless or unnecessary damage to College property. Students who are delinquent in their financial obligations to the College may not receive grade reports or other records of their work until such delinquencies have been adjusted to the satisfaction of the College authorities. Future admission/registration may be denied until these delinquencies are removed.

Secret Organizations
Sororities and fraternities and other secret organizations are banned on community college campuses under the Education Code of the State of California.

Extended Absence
Students who will be absent from any class or classes for one week or longer for any health reason should request notification to instructors by the Student Health Center. Telephone: 574-6396.

Students who will be absent from any class or classes for one week or longer for other personal emergencies should request notification to instructors by the Dean of Counseling, Advising and Matriculation (see Index: “Attendance Regulations”).

If a medical or personal emergency requires absence of more than one week, the student should consult with his/her instructors and counselor/advisor regarding the advisability of continuing in classes.

Withdrawal from Individual Classes
There are established procedures for withdrawing from a portion of your college program (see Index: “Program Changes”).

Withdrawal from College
Students who must withdraw from all their classes after registration may obtain a Petition to Withdraw from All Classes from their assigned counselor/advisor. Students not assigned to a counselor/advisor may obtain this petition from the Counseling Center, Building 1, Room 130. The completed form is to be returned within five college days to the Office of Counseling Services, Building 1-207. Failure to withdraw officially may result in grades of F (see Index: “Program Changes”).

Evening class withdrawal forms are available in the Office of Admissions and Records. Failure to withdraw officially may result in penalty grades of F.

If a student stops attending without withdrawing officially and is not dropped by the instructors for non-attendance by the deadline date, the instructors will be required to issue a letter grade - NOT a W. Under extenuating circumstances a student may petition for a W after the deadline date. Petition forms are available from and submitted to the Office of Special Programs and Services (Building 1, Room 215, telephone 574-6434).

Leave of Absence
College policy permits the granting of a leave of absence to students who must withdraw from all their classes in cases involving extenuating circumstances, defined as verified cases of accident, illness, or other extraordinary circumstances beyond the control of the student.

A semester for which a student is granted a leave of absence is not included in the determination of academic progress. Satisfactory academic progress must be maintained in order to avoid probation or dismissal under the CSM Academic Standards Policy.
Academic Policies

Academic Standards Policy

The Academic Standards Policy of College of San Mateo is based on a cumulative grade point average of C (2.0), the minimum standard required for graduation or transfer. A grade point average of less than 2.0 is considered deficient.

Grade point average (GPA) is determined by dividing the total number of grade points earned by the total number of units attempted.

Probation

A student is placed on academic probation under the following criteria:

1. Academic Probation based on grade point average: A student who has attempted at least 12 semester units, as shown by official records, is placed on academic probation if the student has earned a cumulative grade point average below 2.0.

2. Academic probation based on failure to maintain satisfactory progress: A student who has enrolled in a total of at least 12 semester units, as shown by official records, is placed on academic probation when the percentage of all units in which a student has enrolled for which entries of W, I and NC are recorded reaches or exceeds 50 percent. (See "Withdrawal from Classes.") Normally, a dismissed student must remain out of day and evening classes for one semester before petitioning the Academic Standards Committee for reinstatement.

A dismissed student may present a written appeal to the Academic Standards Committee requesting immediate reinstatement if dismissal has resulted from unusual circumstances. A registered student making such an appeal should remain in classes until the decision of the Academic Standards Committee is made.

Academic Renewal Policy

A maximum of two semesters and one summer session of work which is substandard (i.e., less than a 2.0 grade point average) and not reflective of the student's present scholastic level of performance may be alleviated and disregarded in the computation of grade point average under the following conditions:

1. The academic renewal policy will be applied only when alleviation of prior work is necessary to qualify a student for admission to a program, for transfer to another institution, or for graduation from or completion of a certificate program at College of San Mateo. It is the responsibility of the student to establish that this condition is met.

2. A period of at least three years must have elapsed since the work to be alleviated was completed.

3. A semester is defined as all work done during a single academic term. The terms need not be consecutive. Only full semesters of substandard work can be alleviated; the policy cannot be applied to single courses.

4. A student seeking alleviation must have completed 9 units of work with a 3.5 cumulative grade point average, or 15 units with a 3.0 cumulative grade point average, or 21 units with a 2.5 cumulative grade point average, or 24 units with a 2.0 cumulative grade point average since the work to be alleviated was completed.

5. The substandard work to be alleviated may have been completed at any college or university; however, the work upon which the application for alleviation is based must be completed at one of the San Mateo County Community Colleges.

Determination of the applicability of this policy will be made only following formal application to the Office of Admissions and Records. When academic work is alleviated, the permanent record is appropriately annotated in a manner to ensure that all entries are legible and that a true and complete record is maintained.

Attendance Regulations

Regular attendance in class and laboratory sessions is an obligation assumed by every student at the time of registration. By being absent from class, the student misses both the content of the particular session and the continuity of the course as developed in a single period of work. When a student’s failure to attend class places his/her success in jeopardy, the instructor may drop the student from class.

In all cases it is the instructor’s prerogative to determine when absences are excessive. An instructor has the right to drop a student from class when such absences jeopardize the student’s opportunity to successfully complete the class work or to benefit from the instruction. A guideline used by many instructors is that excessive absence is represented by twice the number of hours the class meets in one week for semester-long classes and one-ninth of the scheduled meetings in classes which meet for less than a full semester.

Absence means non-attendance and includes non-attendance for illness or personal emergency. Absences due to a student’s participation in a school-sponsored activity are to be considered as excused absences, but it is the student’s re-
sponsibility to notify the instructor in advance of the absence, and the student is responsible for all work missed. It is noted again that it is the instructor’s prerogative to determine when such absences are excessive.

Any student dropped from a class because of this regulation may appeal in writing to the Attendance Committee within five academic calendar days of the drop if there are extenuating circumstances. A student making such an appeal may, with the permission of the instructor, remain in class until the decision of the Attendance Committee is reached. The Attendance Committee will make a recommendation to the instructor after considering such an appeal.

Open Enrollment

Every course offered at College of San Mateo (unless specifically exempted by legal statute) is open for enrollment and participation by any person who has been admitted to the College and who meets the prerequisites of the course provided that space is available.

Credit by Examination

A currently enrolled student may be permitted to obtain credit for designated courses, if he/she is especially qualified through previous training or instruction and can demonstrate such qualifications, by successfully completing an examination approved by the appropriate division. Credit will not be allowed for a course for which credit has been previously granted or for which credit has been earned in a more advanced course in the same sequence. A student may earn up to 12 units through credit by examination, which will be applied toward the A.A./A.S. degree. Units earned by examination will NOT be counted for financial aid purposes. Credit by examination may also be earned through certain Advanced Placement Examinations (see Advanced Placement Examination Credit on next page) and completion of certain specialized certificate/license programs.

A student may challenge a course for credit by examination only one time. A challenge examination may not be used in order to improve a grade already received for a course.

Academic Review Committee

The Academic Review Committee considers requests for waivers and/or exceptions with respect to academic policies. Inquiries should be directed to the Office of Admissions and Records.

Course Repetition

A. Repeated for Credit

The Board of Trustees of San Mateo County Community College District has adopted a policy (District Rules and Regulations, Section 6.12) which permits a student to repeat certain courses for credit a maximum of 3 times (for a total of four class enrollments). These courses require increasing levels of student performance or provide significantly different course content each subsequent semester. Such courses are designated as “may be repeated for credit” in the College catalog. Courses which are not so designated may not be repeated under this policy. Further information on this policy is available from counselors/advisors.

B. Grade Alleviation

A student who has received a grade of D, F, or NC in a course taken at a college of the San Mateo County Community College District may repeat the course one time at College of San Mateo for the purpose of grade alleviation. Under unusual circumstances, a student may petition the Vice President, Student Services, for permission to repeat a course more than once. On petition to the Office of Admissions and Records, the student may have the grade of the repeated course used in computation of the grade-point average. The original grade will remain on the transcript, but will no longer affect the grade-point average. Course repetition completed at any college of the San Mateo County Community College District will be honored; course repetition involving work completed at a non-district institution may be honored. Students may apply for such consideration to the Office of Admissions and Records. In no case will the unit value of a course be counted more than once. Courses in which the student has received grades other than those of D, F or NC are not subject to the provisions of this policy.

C. Special Circumstances

Under special educationally justifiable circumstances, repetition of credit courses other than those for which substandard work has been recorded may be permitted. The student must obtain prior written permission from a counselor/advisor before such course repetition will be authorized. Normally, a student may repeat such a course only once. Under unusual circumstances, a student may petition the Vice President, Student Services, for permission to repeat a course more than once. When evaluating a student’s transcript for graduation, grades awarded for courses repeated under this provision are not considered in calculating the student’s grade point average, and in no case is the unit value of the repeated course be counted more than once.

Honors

Scholarship Honors

College of San Mateo is affiliated with the California Community College Honor Scholarship Society, Alpha Gamma Sigma. The local chapter is the Eta Chapter. Students carrying 12 units or more of graded classes in a semester and who achieve a GPA of 3.30 or higher in their semester course work will be recognized at end of the semester by inclusion on the Dean’s List of Honor Students. Eligibility for permanent membership in Alpha Gamma Sigma is recognized at commencement if the graduating student has maintained a cumulative GPA of 3.5 or higher for all recognized college work. For further information students should consult the faculty advisor for Alpha Gamma Sigma.

Honors at Graduation

Honors are awarded at graduation based upon cumulative GPA as follows:

- 3.30 - 3.49 Graduation with Honors
- 3.50 - 4.00 Graduation with High Honors
Advanced Placement Examination Credit

College of San Mateo gives credit or placement to students completing the College Board Advanced Placement Exams in art, music, social science, English, foreign language, mathematics and/or science as follows.

**Academic Advising/ Counseling**

Certain faculty members are officially designated as counselors/advisors. Each regular student who is enrolled in more than six day units is assigned a counselor/advisor who is a specialist in a field. Counselors/advisors are available by appointment during the registration period and throughout the academic year. Counselors/advisors assist students in planning programs of study; they must approve the final program for each semester and must be consulted about changes. However, each student is responsible for fulfilling his/her own graduation and/or transfer requirements.

The Office of Counseling Services will make appointments or interviews with counselors/advisors for the purpose of assisting students in the selection of educational goals and a course of study and to complete registration.

Personal counseling is available to all registered students through their counselors and/or through psychologists/counselors with specialized personal counseling skills. The staff will attempt to help students develop their full potential and obtain maximum benefit from their college experience. When appropriate, students may be referred to other offices for specialized assistance. Appointments for special services may be made in person, by telephone, through a counselor/advisor, or through the Student Health Center.

**Career Development Center**

The Career Development Center, located in the Student Center (Building 5), is a college resource designed to assist students in making decisions about their college major and/or career. It has current information about career opportunities and college transfer programs, as well as a library of college catalogs, audiovisual materials and the EUKEKA computerized career information system.

The career clusters include current bulletins and career descriptions, as well as salary levels and the employment outlook for specific job types. Reference books include the Occupational Outlook Handbook and the Dictionary of Occupational Titles which give detailed descriptions of career opportunities.

The catalog section includes catalogs from virtually every college and university in California, popular out-of-state colleges and universities, and foreign study catalogs and programs. The microfiche catalog collection has the catalogs of all U.S. colleges as well as some in other countries.

In addition, a variety of short courses, open forums, individual and group career exploration activities and professional career counselors are offered to help students with academic, personal and career planning. Resume writing assistance and instruction in job interviewing techniques are also available. Descriptions of individualized and group Career & Life Planning class offerings are found in the Description of Courses section of this catalog under the heading Career & Life Planning.

Students and members of the community are encouraged to visit the Career Development Center (Building 5, Room 128). The Center is open from 8 a.m. to 9:30 p.m. Monday through Thursday and from 8 a.m. to 4:30 p.m. Friday. For information call 574-6571.

**Child Development Center**

The Mary Meta Lazarus Child Development Center, located at the east end of the campus overlooking the Bay, provides a comprehensive child development program as a service to assist students who have young children. Eligible children are those from 2½ through 5 years of age with a parent who is a student at a District College. For more information call 574-6279.

**Disabled Student Services**

Students entering college with physical disabilities who need assistance should contact staff for a pre-enrollment interview to determine support services needed. The Enabler Center provides tutoring, note taking, reader services, mobility assistance, special parking permits, assistance with classroom access, orientation to the campus, and referral to campus resources. (Enabler Center, Building 16, Room 151, 574-6438; College Specialist for the Physically Disabled, Building 17, Room 130, 574-6215.)

The Learning Disabilities Assessment Center offers students with possible learning disabilities individual educational assessment, support services, and assistance with educational planning. If you suspect or know you have a learning disability, contact the staff to schedule an appointment. Diagnostic testing may be administered to develop an educational plan for academic success. Support services may include tutoring, student skills, test-taking assistance, books on tape, and liaison with instructors and counselors. (Building 18, Room 193, 574-6433.)

The High Tech Center for Disabled Students offers specialized training in the use of hardware and software adaptations appropriate to a particular student's disability. Students served include those with learning disabilities, acquired brain injuries, orthopedic disabilities, visual and hearing impairments. Building 18, Room 193, 574-6432.)

Adapted Physical Education classes are designed to help improve a student's level of physical fitness. Based on an individual assessment, a program is developed to fit the student's special needs. (Gymnasium, Building 8, Room 109A, 574-6469.)
Drop-In Counseling/Advising

Drop-In counseling/advising services are available in the Counseling Center. The Center is located in Building 1, Room 130, and is available to part-time students and members of the community who wish to assist them with program planning and counseling, daily from 8 a.m. to 3 p.m.

Evening drop-in counseling services are available in the Career Development Center (Building 5, Student Center, Room 128) on Monday through Thursday evenings from 5:30 p.m. until 6:30 p.m. Counseling/advising is available by appointment between 6:30 p.m. and 8:30 p.m. Contact the Career Development Center (574-6571) for an appointment. Persons desiring academic advising should bring transcripts of previous work to the interview.

Employment Services

A student employment service provided by the Employment Development Department and JOBTRAK is located in the Career Development Center to assist students currently enrolled in good standing to secure employment. Telephone 574-6151 for more information.

Extended Opportunity Programs and Services (EOPS)

EOPS is a specialized student support program for educationally and economically disadvantaged students, which is jointly funded by the State of California and San Mateo County Community College District. Eligible students receive additional financial assistance, supplemental counseling and tutoring, as well as opportunities to participate in workshops and field trips not available to other students.

In order for a student to be considered for the EOPS program, the following criteria apply: (1) Full-time (12 units) enrollment, (2) qualification to receive a Board of Governors Grant (BGOGG) based upon low income or receipt of public assistance, (3) completion of less than 70 college-level units, and (4) meeting the educational disadvantage definition, as determined by the EOPS guidelines.

Interested students who may possibly be eligible should make further inquiries to apply by visiting the EOPS Office, located in Building 20, Room 109, or by calling 574-6158.

Financial Aid

The financial aid program at College of San Mateo is dedicated to the concept that no individual should be denied an education solely for financial reasons. Any student applying for admission to the College who has a financial need for assistance is urged to apply for aid.

The Financial Aid Office administers a program of grants, loans, and work-study programs which are awarded to qualified students. The Financial Aid Office assists and encourages students to apply for grants (Cal Grant Programs A, B, and C) through the California Student Aid Commission. The annual deadline is March 2. Students must be enrolled in a minimum of 6 units to be eligible for consideration.

Financial aid can assist students in paying enrollment fees, for books, transportation, room and board, and other educational expenses. Students who need financial assistance to pay the enrollment fee are encouraged to apply for the Board of Governors Grant. There is no minimum unit requirement for this program.

All financial aid awards are based on need; the determination of need is based upon a careful analysis of family income and assets, liabilities, number of children, medical expenses, etc. While the determination of the student’s financial need is geared mainly to the student’s educational and vocational career plans, it is recognized that frequently the student may have personal considerations that play an important part in this determination. Each application is evaluated on an individual basis with special and extenuating circumstances taken into consideration. Students must meet certain academic progress eligibility criteria prior to receiving financial aid and must maintain financial aid satisfactory progress standards while receiving financial aid.

Students are advised that determination of eligibility takes a minimum of eight weeks from the time the application is determined complete. Students are strongly encouraged to observe application deadlines. Applications received after established deadlines will be considered subject to the availability of funds.

For information regarding specific assistance programs and financial aid satisfactory progress standards, students should visit the Financial Aid Office on the second floor of the Administration Building, Room 221. Applications for small emergency loans are available through the Office of the Coordinator of Counseling Services, also located on the second floor of the Administration Building.

Health Services

Health Center services include first aid, nursing assessment, health counseling, arrangement for emergency transportation, stress management, hearing and vision screening tests, blood pressure screening and tuberculosis skin tests.

Other services include nutrition, exercise and weight loss counseling, and referral to psychologists, physicians, clinics, or community agencies.

Absences in excess of five days for medical reasons should be reported to the Health Center by the student so that instructors can be notified.

An ill or injured person who is unable to communicate and whose family cannot be reached will be sent to the nearest hospital.

Insurance

The College provides limited accident and emergency illness insurance coverage to its students while they are on campus or at a College-sponsored event.

The College has endorsed a voluntary health insurance program which may be purchased by students who are not covered by their own or their parents’ policies. The voluntary policy provides for 24 hours around-the-clock protection at an advantageous group rate. Detailed information is available in the Student Health Center.

Learning Skills Center

Located on the second floor of Building 18, the Learning Skills Center provides learning assistance for all CSM students. Unit credit is available. The following services are available:

The Reading Center offers diagnosis of reading skills, instruction in improving comprehension, vocabulary, and reading speed, and reinforcement of phonics and spelling skills. (Building 18, Room 192; 574-6437)

The Writing Center offers diagnosis in writing skills, tutorial instruction in grammar, sentence structure and essay composition, tutorial assistance in composing papers for a CSM class, and assistance in
completing assignments from any CSM English class. (Building 18, Room 187; 574-6436.)

The Language Arts Computer Writing Facility is used as an interactive classroom for certain English composition courses and as an open lab for students enrolled in any English course. Thirty Macintosh computers and six printers enable students to write and revise class assignments. (Building 18, Room 188; 574-6314.)

The Learning Disabilities Assessment Center offers students with possible learning disabilities individual educational assessment, support services and assistance with educational planning. If you suspect or know you have a learning disability, contact the staff to schedule an appointment. Diagnostic testing may be administered to develop an educational plan for academic success. Support services may include tutoring, student skills, test-taking assistance, books on tape, and liaison with instructors and counselors. (Building 18, Room 193; 574-6433.)

The High Tech Center for Disabled Students offers specialized training in the use of hardware and software adaptations appropriate to a particular student’s disability. Students served include those with learning disabilities, acquired brain injuries, orthopedic disabilities, visual and hearing impairments. Referrals can be made by contacting the staff for an appointment. (Building 18, Room 193; 574-6432.)

Multicultural Center

The Multicultural Center is part of the general campus counseling program which is open to all students, regardless of background. The program’s emphasis is the recruitment and sustained enrollment of students who seek to continue their educational opportunities while improving language skills and overcoming social and/or economic disadvantages. The staff is made up of full-time bicultural and/or bilingual certificated counselors and support personnel. To facilitate students’ successful participation, the program offers academic advising and personal counseling, and other student services in a supportive and culturally enriching environment. The Center is located in Building 20, Rooms 107, 112, and 113. Phone 574-6154.

Psychological Services

Psychological Services offers confidential, individual consultation regarding personal concerns, as well as group counseling, seminars on various topics, classes in developing coping skills, and referral to other on- and off-campus resources. These services are available to all day and evening students. Appointments may be made through the Health Center, Building 1, Room 226, telephone 574-6396, or directly with Psychological Services staff.

Scholarships

The Foundation for San Mateo County Community College District is a nonprofit tax-exempt corporation which exists to broaden the educational opportunities of students. Established in 1967, The Foundation provides scholarships and short term loans to help students achieve their goals.

The Foundation awards approximately $100,000 in scholarships each year which assist hundreds of students at the District’s three Colleges. In addition, a number of outside organizations award scholarships directly to College of San Mateo students, bringing the annual total of awards at this College to more than $100,000.

Contributions to The Foundation are received from many sources: individuals, businesses, civic groups, community organizations and other foundations. Some are memorials while others are endowments or given to establish specific scholarship funds.

Many gifts are intended for direct transmittal to student recipients. Some contributions specify who is to receive the assistance (field of study, based on merit or financial need, type of student – two-year transferring, re-entry, etc.); others specify the College at which the award is to be made. Some leave both the recipient and the College to the discretion of The Foundation, in which case funds are allocated to the Colleges in proportion to the number of full-time students. Awards are made at each College by a scholarship committee.

Scholarship applications and further information about the College of San Mateo Scholarship Program are available from the Office of the Dean of Special Programs and Services, Building 1, Room 215; telephone 574-6434.

Testing

Placement tests are designed to measure knowledge of English, reading, and mathematics. It is highly recommended that all students take the placement tests prior to enrolling at College of San Mateo. This is especially important for students who will be enrolled in English, reading or mathematics courses, as well as those preparing to earn an Associate in Arts or Science degree or transfer to a four-year college or university. Students are advised to discuss their placement results with a counselor/advisor prior to determining their academic program and prior to developing an educational plan. No fee is charged for the testing and pre-registration is not required. Students must bring their Social Security number and photo identification to the testing. Special English, reading and listening tests for non-native speakers of English are given at all scheduled testing sessions. All sessions are accessible to students in wheelchairs.

Students enrolling in an English composition class must fulfill the skill level prerequisite for that class if the prerequisite course requirement has not been met. Skill level prerequisite may be satisfied by an appropriate score on the English/Reading placement test. See English and Reading course listings for more information regarding skill level prerequisites. Under specific guidelines from the Language Arts Division, English and reading tests may be repeated only after three years.

Students enrolling in any mathematics courses are strongly encouraged to take the appropriate SMCCCD placement test in addition to fulfilling the course prerequisite if the prerequisite course was not taken at one of the SMCCCD colleges. Students may repeat the same level mathematics placement test one time only. CSM does not accept alternate test scores for mathematics placement.

Testing for skill level evaluation for placement in advanced Spanish, French and German classes is given in the Media Center by the Foreign Language Department.

Special testing is also available to assess learning and study skills, and to access interest and values related to the identification of educational objectives and occupational choices. Further information may be obtained by calling the Testing Office, 574-6175.
Refer to the Schedule of Classes for placement testing dates and locations. Study skills testing and assessment is offered during the semester at workshops conducted by the Transfer Center. The Career Development Center offers personal and vocational assessment service which is available to all students. Students receive assistance in establishing their educational and vocational goals, and in planning leisure activities.

Personal assessment is also available through a series of Career and Life Planning classes. Most of these classes are designed as 6- and 8-week courses. (See course descriptions.) Interpretations of self-assessment tests given in these classes and explanations of placement test results help students appraise their interests, personal adjustment, and special abilities. These tests are useful to students to verify or make effective educational and vocational plans.

**Transfer Center**

Located with the Career Development Center in Bldg. 5, Room 128, the Transfer Center provides important services to assist students in planning for transfer to a four-year college or university. Information and workshops are offered on choosing a college, completing transfer application forms, essay writing, college costs and financial aid. CSM has special Transfer Admission Agreements with a number of four-year institutions which can guarantee transfer admission in a specific major. Interested students should visit the Transfer Center. Telephone: 358-6839.

**Tutoring Center**

The Tutoring Center assists students to achieve academic success by providing free one-to-one and small group tutoring. To schedule a tutoring session, sign up in the Center which is located on the lower floor of the Library, Building 9. If you wish to be a tutor, apply for an interview with the Coordinator. Phone 574-6329.

**Associated Students**

The Associated Students of the College of San Mateo (ASCSM) is the official representative student government organization at College of San Mateo. The Associated Students organization is charged with the responsibility of assessing and meeting student needs and of providing student input into the decision making process of the college. The activities of the organization are carried out by the Student Senate and major advisory committees in the areas of Finance and Administration, Public Relations, Programs, Services, Academic Affairs, Inter-Club Council and the Café International.

Major elected and appointed officers and representatives of the association are as follows:

**Finance and Administration Committee**

The Finance and Administration Committee of the Senate is responsible for matters of budget, personnel, equipment purchase and maintenance, facilities use, election guidelines, constitutional amendments and by-law amendments sponsored by the Senate, and statewide legislative issues.

**Public Relations Committee**

The Public Relations Committee of the Senate is responsible for the publication of the *Monday Morning Blues* senate newsletter, press releases to the public media, advertising for student participation in student government, and marketing of student body express cards.

**Programs Committee**

The Programs Committee is responsible for providing social, cultural, recreational and educational programs for students. The Programs Committee is organized into sub-committees which have responsibility for program development in specific areas or for specific events. Sub-committees are formed as determined by the priorities and interests of students. Typical sub-committees are as follows:

- Contemporary Entertainment
- Speakers and Lectures
- Arts and Exhibits
- Film and Video
- Outdoor Recreation
- Multi-Cultural Programming

Programs developed or supported by the Programs Committee have included such events as: speeches by U.S. Presidential, Vice-Presidential and Congressional candidates; jazz performances, art shows, acoustic concerts, craft shows, spring festivals, film festivals, video shows, African-American history programs, Cinco de Mayo Festivals, singers, dancers, comedy shows, and a wide variety of lectures on such contemporary topics as nuclear energy, First Amendment freedoms, space technology, U.S. foreign policy, nuclear disarmament, and racism.

**Senate**

The Senate is responsible for the administrative affairs of the association including the monitoring of programs approved by the Senate and the representation of the association's viewpoint in college-wide matters.

The Senate is comprised of students elected at-large in an annual campus-wide election.
the book exchange service, the free swim and summer swim programs, instructor evaluation surveys, carpooling programs, the concessions at various campus events, and the merchant discount program.

**Academic Affairs Committee**

The Academic Affairs Committee is responsible for reviewing academically related issues and making recommendations to the Senate regarding such issues. Topics reviewed recently have included changes in the academic calendar, student evaluation of courses, and a review of current "college hour" policies. The committee is made up of student representatives who serve on college advisory committees and is open to all interested students.

**Inter-Club Council**

The Inter-Club Council is comprised of representatives from each student club on campus. Its purpose is to provide an information exchange between clubs, coordinate events sponsored by more than one club, and advise the Senate regarding support for club activities.

**Café International Advisory Committee**

The Café International coffee house was created in 1989 by the Associated Students to serve student needs by creating a comfortable study and conversation area for the campus. The Café International Advisory Committee is responsible for the ongoing review and major operating policy recommendations for the program. The Committee meets approximately once each month and is comprised of three student senators appointed by the Senate, the student General Manager of the Café International, the College Coordinator of Student Activities, and a member of the Business Division faculty.

Further information about the Associated Students can be obtained by contacting current student officers through the Student Activities Office or one of the following Associated Students advisors: Arnett Cavel, Dean of Special Programs and Services, Bldg. 1-215; or Steve Robison, Coordinator of Student Activities, Bldg. 5-125. Meeting times for Associated Student groups are available through the Student Activities Office in the Student Center Building, 5-125.

**Associated Students Express Card**

The Associated Students offers students an identification/discount card which allows the holder to have free access to all campus events sponsored by the Associated Students. Special merchant discounts are also available from community businesses that offer discounts to card holders. All students are encouraged to obtain an Associated Students Express Card during registration through payment of a $5 per semester fee. Revenues support a wide variety of student activities, services and programs which help make the College of San Mateo an exciting and enjoyable place to attend. Among the activities and services that have been supported by these fees are the Child Development Center, multicultural events, intramural sports, student scholarships and loans, the CSM parcours, the guest speakers program, student lounge remodeling, copy machine services, game and recreational services, the merchant discount program, graphic arts services for student groups, Library lounge furniture and magazine subscriptions, the founding of the Café International coffee house, and student representation in college and state-wide matters affecting students. Contact the Student Activities Office in the Student Center Building for further details and a complete list of card benefits.

**Student Clubs and Organizations**

In order to gain maximum benefit from college life, a student is encouraged to participate in one or more of the many student clubs and organizations on campus. The groups listed below offer opportunities to students for both social and educational contacts. Each group elects its officers and plans its own program for the semester. The activities of each group depend largely upon the enthusiasm of its membership. Students are encouraged to contact an advisor listed below for further details about the club or organizations in which they are interested. Additional information may be obtained by contacting the Student Activities Office located in the Student Center building.

**Adapted Physical Education Students**

- John Hogan

**Aeronautics**

- Steve Cooney

**Alumni Association**

- Steve Robison

**Ambassadors**

- Michael McHargue

**Amnesty International**

- Michael Kimball

**Architecture (American Institute of Architects, CSM Chapter)**

- Paul Zimmerman

**Asian Students Union**

- Gladys Chau

**Astronomy Club**

- Michael Chriss

**Ballet Folklorico**

- Sylvia Aguirre

**Baseball Club**

- to be announced

**Broadcasting Students**

- George Mangan

**Cheerleaders** (see "Spirit Leaders Association")

**Child Development Center Parents Advisory**

- Michael Chriss
Housing Assistance
Dormitories and other types of college-sponsored housing are not offered by College of San Mateo. However, the Student Activities Office maintains up-to-date listings of housing available in the community. The majority of listings are rooms in private homes, but apartments and houses are also available.

Student Government and Club Information
Information concerning any aspect of student government, student activities or clubs may be obtained in the Student Activities Office. This office also provides these groups with duplicating and publicity services.

Student Center Facilities Use
The Student Activities Office is responsible for the supervision of the Student Center Building, including the Recreation/Games area, the Student Center Lounge, and other Student Center facility use.

Referral Services
The Student Activities Office maintains current referral listings of services available through the College and other community agencies. It can assist students through referrals to the campus Health Center, Psychological Services, Tutorial Center, Child Development Center, and other community agencies for such services as legal assistance, family planning, and women’s services.

Transportation Information
Bus discount tickets, bus schedules, train schedules, car-pool matching services, maps, and general transportation assistance are also available through the Student Activities Office.

Campus Posting Approval
All signs, flyers, or similar materials must be approved through the Activities Office as to time, place and manner of distribution prior to being posted or distributed on campus.

Copy Machine Cards
For the convenience of students, magnetic cards for campus copy machine use may be obtained in the Student Activities Office in denominations of 100 copies for $8, 500 copies for $30, and 1000 copies for $50.

For more information please visit the Student Activities Office in the Student Center (Bldg. 3, Room 125) or telephone 574-6141.

Vending Refunds
If campus vending machines are not vending properly, refunds are available through the Student Activities Office.

Campus Publications
The following publications are issued by College of San Mateo:

Campus Activities Announcements/Calendar – A publication prepared and distributed by the Student Activities Office on a monthly basis announcing activities, new events and items of interest to the faculty and students of the College. Submit items for publication to the Student Activities Office.

Career Information Series Guide – A guide listing services offered by the Career Development Center which provide an orientation to career and life planning. It includes a schedule of the weekly career seminars held in the Career Development Center.

Class Schedule - A listing and description of courses offered each term (Fall Semester, Spring Semester, Summer Inter-Session). The publication also includes information on admissions and registration, fees, student services and other related matters.

Monday Morning Blues – A weekly newsletter published by the Associated Students Senate as a way of informing students of events sponsored by the Associated Students and promoting school spirit and interest.

The San Matean – A student newspaper published weekly, serving a two-fold purpose of providing full coverage of activities on campus and of giving experience to journalism students.

Student Handbook – A manual for students containing information about College of San Mateo, policies and procedures, staff, student organizations and services published by the Student Activities Office. This handbook is designed to assist new students with program planning, campus vocabulary and campus resources, and it includes recommendations to help students in registering for classes.
A.A./A.S. Degree Requirements

Graduation from College of San Mateo with the Associate in Arts or Science degree is based upon the completion of 60 units of lower-division college-level work, including the requirements A through E listed below. An application for the degree must be filed in the Office of Admissions and Records during the last semester of attendance (refer to calendar for the college year for deadline).

Graduation requirements for an individual student are those listed in the College of San Mateo Catalog of the year in which the student begins studies at CSM. Those requirements may be followed throughout the student’s course of study. However, if a break in attendance occurs before graduation, the graduation requirements shall become those listed in the College Catalog which is current at the time studies are resumed.

A. RESIDENCE

Either 48 units of the 60 units required or the last 12 units must be completed at College of San Mateo.

B. SCHOLARSHIP

A minimum grade point average of 2.0 in the last 60 units, and a minimum grade point average of 2.0 in courses taken at College of San Mateo and submitted as part of the 60 units.

C. COMPETENCY REQUIREMENTS

1. Math/Quantitative Reasoning

This competency requirement may be satisfied with any of the following:

a. Appropriate scores on ACT math, SAT math, or CSM Math Placement Test as follows:
   - ACT: standard score of 15 or above on math test;
   - SAT: quantitative score of 400 or above;
   - CSM Math Test 2 – 21 or above;
   - CSM Math Test 3 – 21 or above;
   - CSM Math Test 4 – 20 or above

b. Completion with a grade of C or higher of an elementary algebra (MATH 110 or MATH 111 and 112) or higher math course at College of San Mateo or other college or university;

c. Completion with a grade of C or higher of an intermediate algebra or higher math course in high school within four years prior to receiving the AA/AS degree;

d. Completion of any one of the following courses with a grade of C or higher:
   - Any course with Mathematics 110 or higher math prerequisite
   - Business 115
   - Computer and Information Science 240, 250, 252, 270, 290, 304, 360, 370
   - Chemistry 192
   - Economics 123
   - Electronics Technology 230 or both 231 and 232
   - Manufacturing and Industrial Technology 101
   - Plumbing 702, 742
   - Psychology 121
   - Real Estate 131

2. English

This competency requirement may be satisfied by:

a. Completion with a grade of C or higher of one of the following courses: English 100, 101, 102, 120, 125, or 835 or

b. In the case of non-native speakers, completion of English 400 with a grade of C or higher.

In addition, students who have not completed English 100 with a grade of C or higher must have:

a. demonstrated at least 11th grade level comprehension on the Reading Placement Test.

b. completed Reading 802 with a grade of C or higher.

D. MAJOR

A list of courses for each major is specified by the division involved. A minimum of 18 units must be required, 15 of which must be taken at College of San Mateo. A division may require more than 18 units for a given major. A grade point average of 2.0 in the major is required.

If courses totaling 18 units are required for a given major, they cannot be used to satisfy any other A.A. or A.S. degree requirement. Units required beyond the 18-unit minimum may, if appropriate, be used to satisfy other A.A. or A.S. degree requirements.

E. GENERAL EDUCATION

General Education introduces the student to areas of study that develop breadth of outlook and contribute to a balanced educational development. The courses are complementary to, but different in emphasis from, the specialized training one receives for a job, a profession or a particular field of study.

1. American History and Institutions, California State and Local Government

This requirement may be satisfied in two different ways:

a. by completing either Political Science 200: National, State and Local Government (5 units), or, for foreign students, Political Science 205: American Society (5 units); or (Courses used to satisfy the American History and Institutions, California State and Local Government requirement may not be used to satisfy requirements listed under 5b, Social Sciences.)

b. by completing one of the options in each of the groups listed below.

GROUP 1: AMERICAN HISTORY AND INSTITUTIONS

a. History 201, 202 – United States History (6 units), or

b. Political Science 250, 260, 210, 220, 255 or 215 (3 units), or

c. History 100, 102 – Western Civilization (6 units), or

d. History 101, 102 – Western Civilization (6 units), or

e. History 201 or 202 – plus any one of the following 3-unit history courses:
   - 242 The African-American in U.S. History (3)
   - 260 Women in American History (3)
   - 270 Civil War and Reconstruction (3)
   - 350 The American West (3)
   - 360 The South in American History (3)

f. History 810 – American History and Current World Affairs (3)
GROUP 2 - CALIFORNIA STATE AND LOCAL GOVERNMENT

a. Political Science 310 - California State and Local Government (2 units), or

b. History 315 - History of San Mateo County (3 units), or

c. History 310 - California History (3 units), or

d. Sociology 200 - Urban Sociology (3 units), or

e. Ethnic Studies 101 or 102 (3 units)

2. Language and Rationality

a. English, Literature, Speech
T.semester courses (6 units) are required. One of these shall be a composition course: English 800 or equivalent (820, 825, 835) or English 400 or English 100, and the other shall be selected from the following list. Courses marked with an asterisk (*) also satisfy the Communication and Analytical Thinking Requirement (2b). Credit for English 100 may be earned by those students who can demonstrate equivalent knowledge through examinations acceptable to the Language Arts Division and the Office of Instruction.

- English: 100*, 110*, 120*, 130*, 140*, 161, 162, 163, 165*, 195, 210*, 400* (for non-native speakers), 680, 690
- Speech: 100*, 111, 112, 120*, 130, 150 680, 690, 844 (for non-native speakers)

b. Communication and Analytical Thinking
This requirement may be satisfied by completing one of the following courses:

- English, Literature and Speech: indicated by * in the above listing.
- Business: 295, 401
- Economics: 123
- Math: 125, 130, 200, 222, 241, 251
- Social Science: 111

3. Health Science
Two units of Health Science are required (Health Science 100 (2 units) or 120 (2 units) or two classes selected from Health Science 102-114. One unit of Consumer Arts & Science 310 may be used in lieu of Health Science 113. The requirement may be waived for veterans of the U.S. Armed Forces with one or more years active service and for nursing students who complete Nursing 211, 212, 221 and 222, or equivalent, with a grade of C or higher.

4. Physical Education
Students must complete two semester-long activity courses in Physical Education or Dance, unless excused, to complete the requirements for the Associate in Arts or Associate in Science degree. The two courses for this requirement may not be taken concurrently. Courses involving Varsity Athletics do not count for activity credit unless the number of units is at least one per semester.

In accordance with policy adopted by the Board of Trustees, this requirement may be waived for students in any of the following categories:

a. Graduates of accredited community colleges or other accredited colleges and universities.

b. Persons enrolled in Evening classes (i.e., those who complete in such classes at least 60% of the courses taken at this college in fulfillment of A.A./A.S. degree).

c. Veterans of the U.S. Armed Forces with one or more years of active service.

d. Persons excused for medical reasons. Approved medical waiver must be filed in the Office of Admissions & Records.

Students wishing to request a waiver of this requirement for any reason not specifically provided for above, may petition for consideration through regularly established college procedures. Inquiries should be directed to the Office of Admissions and Records.

5. Additional Requirements
Of the following four areas, a, b, c, d, 12 units are required. One area may be satisfied by the major. If so, the 12 units would be selected from the remaining three areas with at least 3 units from each. (Students majoring in Liberal Studies may elect to have area a, b, or c, satisfied provided they complete at least six units in the area in fulfilling their major.)

a. Natural Science (at least 3 units)

PHYSICAL SCIENCE
Astronomy 100, 101

Chemistry 100, 192, 210, 220, 224, 225, 231, 232, 250, 410, 420
Electronics Technology 100, 110
Fashion Merchandising 113
Geography 100
Geology 100, 101, 210
Humanities 127-128*
Manufacturing and Industrial Technology 100
Meteorology 100
Oceanography 100
Physical Science 100, 675, 676
Physics 100, 210, 220, 250, 260, 270
When both HUM. 127 and 128 are taken, three units will be allowed to fulfill the Physical Science requirement and three units will be allowed toward the Humanities requirement.

LIFE SCIENCE
Biology: 100, 102, 110, 111, 125, 130, 140, 145, 150, 160, 180, 184, 200, 210, 220, 230, 240, 250, 260, 265, 266, 675
Consumer Arts and Science 310
Horticulture 311, 312, 320, 340
Paleontology 110

Majors fulfilling Area a.: Chemistry, Dental Assisting, Geology, Horticulture, Life Science, Nursing, Physical Science, Physics.

b. Social Science (at least 3 units)

Anthropology 110, 180
Business 101, 102
Consumer Arts and Science 412
Economics 100, 102
Ethnic Studies 101, 102, 150, 151, 152, 160, 261, 262, 290, 425, 430
Geography 110
History 100, 101, 102, 110, 201, 202, 242, 260, 270, 310, 315, 350, 360, 810
Political Science 100, 110, 130, 150, 170, 200, 205, 210, 215, 220, 250, 255, 260, 310, 520
Psychology 100, 105, 108, 110, 201, 300, 330, 410, 480
Social Science 220, 221
Sociology 100, 105, 110, 141, 200, 300, 340, 391

Majors fulfilling Area b.: Ethnic Studies, Fashion Merchandising, Social Science.

c. Humanities (at least 3 units)

Architecture 100
Art 101, 102, 103, 105, 106, 108, 141, 350
Chinese 111, 112, 121, 122, 131, 132
English 110, 120, 130, 140
Ethnic Studies 288, 350, 351, 585
Engineering 666
Environmental Hazardous Materials Technology 100
Film 461
Fire Technology 715
Horticulture 411
Journalism 110
Machine Tool Technology 750
Management 100
Manufacturing & Industrial Technology 200
Medical Assisting 100
Military Science 1a
Plumbing 701 or 741
Real Estate 100
Speech 100, 120, 150
Welding Technology 300

d. Electives
All courses not included in the major requirements or specified above in the General Education requirements are considered electives, with the exception of those courses listed in this catalog with the notation "units do not apply toward AA/AS degree."

c. Occupational Programs

Specialized occupational programs are offered in more than fifty occupational fields (see tabular listing on page 46) for students planning to prepare for gainful employment. All occupational programs are carefully developed by advisory committees composed of college staff and selected representatives from the business and industrial community.

These programs are designed to develop personal and technical competencies necessary for successful employment and job advancement.

Program Planning

Students enrolling at College of San Mateo should plan a program of studies which will meet their education goals. Their objective may be to transfer to a four-year college or university.

Depending on the program they follow, they may also receive an Associate in Arts or Associate in Science degree from College of San Mateo. On the other hand, their objective may be to enter an occupational field after becoming qualified through one of numerous Associate in Arts/Science degree programs or through one of several certificate programs.

If in the course of their enrollment at College of San Mateo students find it advisable to change their program of studies, they may do so, in conference with their counselor/advisor. However, students should be aware that any changes may result in extending the time necessary to fulfill all requirements.

Students have the responsibility for planning their programs.
Transfer Planning

This section is designed to help students plan an educational program at CSM which will prepare them to transfer to the University of California, California State University, or a private college or university to earn a bachelor's degree. Students are encouraged to meet regularly with a CSM counselor/advisor and use the resources of the CSM Transfer Center to plan an academic program which will assure a smooth transition to the transfer institution of their choice. It is strongly recommended that students plan to earn an Associate in Arts or Associate in Science degree at CSM in addition to preparing for transfer; with careful planning, both objectives can be reached by taking essentially the same set of transferable courses.

CSM Transfer Center

The CSM Transfer Center provides information and offers workshops on choosing a college, transfer admission requirements, completing transfer application forms, essay writing, college costs and financial aid. Transfer Center staff can provide details about special Transfer Admission Agreements that CSM has developed with a number of four-year institutions which can guarantee students transfer admission in a specific major.

Students with a clear transfer objective stand the best chance of meeting requirements in a timely manner. They can make the best use of their time and coursework by deciding on a transfer institution and major as soon as possible. Students unable to make these decisions when they enter College of San Mateo may follow a general transfer pattern of courses while taking advantage of Transfer Center resources in making transfer plans.

Once they have chosen a major and the university to which they plan to transfer, students should consult the Major Preparation Agreements section of this Catalog to determine whether specific CSM courses are listed for their intended major and university. Transfer Center staff and CSM counselors/advisors can assist students in planning for transfer, and university representatives often visit CSM to meet with students interested in transferring to their institutions. It is wise for students to consult the catalog of the university to which they plan to transfer to become familiar with specific transfer admission requirements. Many college and university catalogs are available for reference in the Transfer Center, and students may write directly to the admissions office of the institution to obtain an information bulletin which outlines requirements for admission as a transfer student.

Located with the Career Development Center in Bldg. 5 (Student Center), Room 128, the Transfer Center is open Monday through Thursday from 8:00 a.m. to 4:30 p.m., on Friday from 8 a.m. to 12:30 p.m., and on Tuesday evenings from 5:30 to 8:30 p.m. Telephone: 358-6839.

Transfer of Credit

Students expecting to transfer to a four-year college or university can usually complete their freshman and sophomore years at College of San Mateo. Students must normally complete 60 transferable semester units to be classified as juniors upon entering a four-year college or university.

Students enrolled in a transfer program can complete most of their general education and lower division requirements before transferring. High school subject deficiencies may be made up at College of San Mateo in order to meet university admission requirements. In some instances students may qualify for transfer to the college of their choice by maintaining an acceptable grade point average at College of San Mateo in a minimum of 56 units of appropriate transfer courses.

Requirements for Transfer Students

A student can transfer from College of San Mateo to a four-year college or university as a junior without loss of time or credits by completing the following:

1. Lower Division Courses for the Major. These courses, which should be completed before transferring, provide the necessary background and preparation in order for the student to concentrate on the major beginning in the junior year. See the Major Preparation Agreements in this section of the catalog and check with your counselor/advisor.

2. General Education Requirements (sometimes called "Breadth Requirements"). These are the courses required to obtain a bachelor's degree regardless of major. Courses in writing, critical reading, mathematics, humanities and social sciences are included in general education.

3. Electives. When courses for the major and general education requirements have been completed, enough elective courses must be taken in order to bring the total of all course work to 56 transferable units (or to 60 units for students earning the Associate in Arts or Science degree at CSM before transfer).

Transfer Admission Procedures

Students should take the following steps in applying for admission as a transfer student to a four-year college or university:

1. Request application forms from the admissions office of the transfer institution approximately one year in advance of planned transfer. Applications for the University of California and the California State University are available at CSM in the Transfer Center, Counseling Center and Office of Counseling Services.

2. Submit completed application forms during the specified filing period. Do not send them early as they will not be accepted before the initial filing date.

3. If an entrance exam (SAT, ACT) is required for transfer admission, register for the exam as soon as possible, at least six months in advance of transfer. Registration forms are available from the CSM Testing Office, located in the Counseling Center (Bldg. 1, Room 130).

4. Submit a request to the CSM Office of Admissions and Records to have a transcript of your academic record sent to the transfer institution at the time(s) specified by that institution. Transcripts must be requested well in advance of the date required. Four-year colleges and universities will also require transcripts of work completed at all other educational institutions.
California State University

The California State University offers instruction to undergraduate and master's degree students in the liberal arts and sciences, applied fields, and professions, including teaching. Nearly 1,500 degree programs in 240 subject areas are offered. CSU assigns high priority to California community college transfer students who have completed the first two years of their baccalaureate program, including those applying for impacted programs. CSU campuses make every effort to see that California community college transfer students are admitted as their first-choice campus.

The California State University has twenty campuses: Bakersfield, Chico, Dominguez Hills, Fresno, Fullerton, Hayward, Humboldt, Long Beach, Los Angeles, Northridge, Pomona, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo, San Marcos, Sonoma and Stanislaus.

University of California

The University of California offers bachelor’s, master’s and doctoral degree programs in a broad array of subject areas. Last year, more than 6,000 students transferred from California’s community colleges to the University, and more than one-fifth of UC’s bachelor degrees were awarded to students who started out at a community college. The University is encouraging even more community college students to take this step in the coming years.

The University of California has a long-established relationship with College of San Mateo and has developed several special programs to help community college students with the transfer process. The University’s articulation agreements with CSM make it possible for prospective transfer students to select appropriate courses. Community college students receive priority consideration for admission to impacted programs. The Intersegmental General Education Transfer Curriculum allows prospective transfer students to satisfy the lower division breadth/general education requirements of any UC campus before transferring.

While all of the campuses have the same requirements for undergraduate admission, they differ in size, enrollment, and in academic programs offered. The UC campuses are located in both rural and urban settings throughout the state with enrollments ranging from 7,500 at Riverside, to 36,000 at Los Angeles. In addition, the nine campuses vary in styles of campus life, with student populations reflecting a variety of cultures from the United States and abroad. The University of California includes eight general campuses: Berkeley, Davis, Irvine, Los Angeles, Riverside, San Diego, Santa Barbara, and Santa Cruz. A ninth campus in San Francisco offers graduate and professional programs in the health sciences.

California Independent Colleges and Universities

There are more than 300 privately supported (or independent) degree-granting colleges and universities in California. Independent institutions enroll about one-quarter of all students attending four-year colleges and universities in California. The most distinctive feature of California’s accredited independent colleges and universities is their diversity of character, academic emphasis, and programs. They include both religious and secular institutions, non-profit and profit-making institutions, and professional schools that offer only a single occupational specialty as well as universities offering a full array of bachelor’s, master’s, and doctoral degree programs.

When choosing from among the privately supported colleges and universities in California, you may wish to review the type of certification a particular institution has received. Note: In selecting a California independent college or university, students are advised to give first priority to those institutions which are fully accredited by the Western Association of Schools and Colleges. If you would like more information about the certification process as specified in California’s Educational Code, please contact the California Postsecondary Education Commission at (916) 445-7933.

Certification of General Education

College of San Mateo will verify the completion of lower division general education requirements for transfer to the University of California or the California State University system. Certification of partial completion of general education requirements is available for students transferring to a CSU campus who are unable to complete all requirements before transferring. Students who transfer without certification will be required to meet the general education requirements of the specific UC or CSU campus to which they transfer. Meeting these local requirements usually necessitates taking additional courses following transfer. The Intersegmental General Education Transfer Curriculum (IGETC) meets the requirements of both the UC and CSU systems. See page 32 for details.
General Education Requirements for California State Universities

48 units are required to complete the CSU General Education requirements. A maximum of 39 of these units may be taken at CSM; the remaining nine units must be taken at the CSU campus granting the baccalaureate degree. A course may not be used in more than one area or sub-area. See page 32 for information on the Interssegmental General Education Transfer Curriculum (IGETC), an alternative way to complete CSU General Education requirements as a community college student.

AREA A: Communications in the English Language and Critical Thinking.
Nine units required. Select at least one course from each area.
A1 – Oral Communications
Speech 100 (3), 120 (3), 150 (3)
A2 – Written Communications
English 100 (3), 110 (3), 120 (3), 130 (3), 140 (3), 165 (3), 400 (5)
A3 – Critical Thinking
English 165 (3)
Social Science 111 (3)

AREA B: Physical Universe and its Life Forms.
Ten units required. One course required from each group: B1, B2, and B4. Must include one lab course (B3) marked with * below.
B1 – Physical Science
Astronomy 100 (3), *101 (1)
Chemistry 100 (3), *210 (5), *224 (4), *410 (4)
Geography 100 (3)
Geology 100 (3), *101 (1), *210 (4)
Humanities 127 & 128 (6)
Meteorology 100 (3)
Oceanography 100 (3), *101 (1)
Physical Science 100 (3), 675 (1)
Physics 100 (3), *210 (4), *250 (4)
B2 – Life Science
Paleontology 110 (3)
Psychology 105 (3)

B4 – Math Concepts, Quantitative Reasoning and Application
Economics 123 (4)
Psychology 121 (3)

AREA C: Arts, Literature, Philosophy, and Foreign Language.
Nine units required. Select one course from each of three different subject areas.
Anthropology 180 (3)
Architecture 100 (3)
Chinese 111 (3), 112 (3), 121 (3), 122 (3), 131 (3), 132 (3)
English 110 (3), 120 (3), 130 (3), 140 (3), 161 (3), 162 (3), 163 (3)
Ethnic Studies 288 (3), 350 (3), 351 (3), 585 (3)
Film 451 (3), 452 (3), 461 (4), 462 (4), 463 (1), 464 (1), 465 (1)
German 110 (5), 111 (3), 112 (3), 120 (5), 121 (3), 122 (3), 130 (5), 131 (3), 132 (3), 140 (3)
Japanese 110 (5), 111 (3), 112 (3), 120 (5), 121 (3), 122 (3)
Latin 112 (3)
Music 100 (3), 202 (3), 275 (3)

In addition to the G.E. requirements listed above, the California State University system requires all graduates to satisfy a requirement in U.S. History and American Ideals, U.S. Constitution, and California State and Local Government. These courses may also be used to satisfy Area D requirements at all CSU campuses except Chico. CSU Chico does not normally allow double counting of these courses.

U.S. History and American Ideals

Intersegmental General Education Transfer Curriculum (IGETC)

The Academic Senates of the University of California and the California State University approved the implementation in Fall 1991 of an Intersegmental General Education Transfer Curriculum (IGETC), a series of courses that community college students can use to satisfy lower division general education requirements at any CSU or UC campus. The IGETC provides an alternative to the CSU General Education Requirements and replaces the UC Transfer Core Curriculum. Since the IGETC supersedes the UC Transfer Core Curriculum (TCC) option, new students (those entering Fall 1991 and after) will complete the IGETC, not the TCC. However, for continuing students who have been following the TCC requirements, the University of California will honor the TCC policy through Spring 1993.

The IGETC permits a student to transfer from a community college to a campus in either the CSU or UC system without the need, after transfer, to take additional lower-division general education courses to satisfy campus G.E. requirements.

Completion of the IGETC is not a requirement for transfer to a CSU or UC, nor is it the only way to fulfill the lower-division general education requirements of the CSU or UC prior to transfer. Students may find it advantageous to take courses fulfilling CSU’s general education requirements or those of a particular UC campus. Students pursuing majors that require extensive lower-division major preparation may not find the IGETC option to be their best choice. The IGETC will probably be most useful for students who want to keep their options open before making a final decision about transferring to a particular CSU or UC campus.

In preparing for transfer to a CSU or UC campus in a specific major, students should consult their counselor/advisor concerning recommended major preparation courses which parallel those taken by freshmen and sophomores at the CSU/UC campus.

IMPORTANT NOTE:
The course requirements for all areas must be completed before the IGETC can be certified by College of San Mateo. All courses must be completed with grades of C or better.

Area 1 - English Communication
CSU – 3 courses required, one from each of the three groups below
UC – 2 courses required, one from each from Group A and Group B
Group A: English Composition
ENGL 100
Group B: Critical Thinking
ENGL 165
SOSC 111
Group C: Oral Communication
SPCH 100, 120, 150

Area 2 - Mathematical Concepts and Quantitative Reasoning
CSU and UC – one of the following courses:
MATH 125, 200, 222, 241, 242, 251, 252, 268

Area 3 - Arts and Humanities
CSU and UC – at least 3 courses which total 9 or more semester units, with at least one course from the Arts and one from the Humanities
Note that LIT 111, SPAN 201, and SPAN 202 are 2-unit courses; all other courses listed in this area are 3-unit or 5-unit courses.

Foreign language courses taken to meet this requirement must not overlap in content. For example, since FREN 120 covers the same material as FREN 121 and 122 combined, it is not possible to use both FREN 120 and FREN 121 toward meeting this requirement.

Students who take HIST 201 or 202 may not use HIST 102 to meet this requirement for UC.

Arts Courses
ART 101, 102, 103, 106, 108
ETHN 288, 585
FILM 451, 452
MUS. 100, 202, 275

Humanities Courses
ETHN 350, 351
FREN 120, 121, 122, 130, 131, 132, 140, 161, 162
GERM 130, 131, 132, 140
HIST 100, 101, 102
HUM. 101, 102, 111, 112, 113, 114, 125, 127, 128, 131, 133, 136
LIT. 101, 105, 113, 115, 143, 151, 201, 202, 231, 232, 251, 301, 302, 430
PHIL 100, 244
SPAN 130, 131, 132, 133, 140, 161, 162, 251
SPCH 111, 112

Area 4 - Social and Behavioral Sciences
CSU and UC – at least 3 courses which total 9 or more semester units, with courses from at least two disciplines.

Courses listed in this area are 3 units each except PLSC 200 (5 units).

Students who take both ETHN 151 and SOCI 141 will receive credit at UC for only one of those two courses.

Students who take both PLSC 200 and 210 will receive credit at UC for only one of those courses.

ANTH 110, 180
ECON 100, 102
ETHN 101, 102, 150, 151, 152, 160, 261, 262, 425
GEOG 110
HIST 110, 201, 202, 242, 260, 270, 310, 350, 360
PLSC 100, 110, 130, 150, 170, 200, 210, 215, 220, 255, 256, 520
PSYC 100, 105, 110, 201, 300, 410
SOCI 100, 105, 110, 141, 200, 300, 340
Area 5 - Physical & Biological Sciences

CSU and UC – at least two courses required, with a total of at least 7 semester units, including at least one Physical Science course and at least one Biological Science course. At least one course must include a laboratory component.

The units associated with each course are shown in parentheses, and courses with a laboratory component are listed with an asterisk (*).

UC will not give credit for PSCI 100 if it is taken after a college course in Astronomy, Chemistry or Physics.

IGETC Advisement for UC-Bound Transfers

The purpose of the Intersegmental General Education Transfer Curriculum (IGETC) is to provide an option for community college transfers students to fulfill lower division general education/breadth requirements before enrolling at any campus of the California State University or the University of California.

Since all courses used for the IGETC must be completed before entering the University, it is sometimes mistakenly considered an admissions requirement. The IGETC does not change existing University and campus-specific transfer admission or prerequisite requirements. However, it is important to understand the relationship of UC admission, general education breadth (IGETC or campus-specific), major preparation and graduation requirements.

Admission Requirements

The University has a common set of requirements which specify minimum eligibility, in terms of subject and scholarship level, for admission as a transfer student. However, several campuses and majors have additional requirements (i.e., "selection criteria") that may go well beyond minimum eligibility, and usually include a higher GPA and/or completion of lower division major preparation courses. This is particularly true for programs where the number of applications greatly exceeds the number of spaces available. It is imperative that transfers applying to such campuses and majors meet these additional requirements so that they are competitive for admission.

General Education/Breadth Requirements

These requirements are designed to give University undergraduates a broad background in a variety of major academic disciplines. Each school and college at every UC campus has its own set of requirements, accounting for more than 40 general education patterns systemwide. This presents a confusing array of choices for transfer students, especially those applying to more than one UC campus. In an effort to address this concern and to strengthen preparation, the Academic Senate, in
1988, approved the UC Transfer Core Curriculum which specified a common pattern of courses that transfers could opt to take to fulfill the lower division general education requirements at all UC campuses. The UC Transfer Core Curriculum has now been superseded by the IGETC.

**Major Preparation Requirements**

These requirements stipulate the courses students need in order to have the appropriate academic background for a particular major. Transfer students who have selected a major should work toward completing all lower division requirements for that major. In fact, in many cases, completing a portion of the major requirements is essential to gain admission to the major at the junior level.

**Graduation Requirements**

These requirements are campus-specific and include courses that all students, regardless of major, must complete in order to graduate.

The IGETC is most advantageous for transfers who have not yet decided on a major or a campus. Once a student has identified a major, it is important for him or her to work toward fulfilling any required preparatory courses—particularly in those professional or "high unit" majors that select applicants on the basis of satisfaction of lower division major requirements. It is important to note that this does not preclude a student from following the IGETC; however, the IGETC should not be used to the exclusion of completing any preparatory courses needed for admission.

In general, it is not advisable for transfers to Engineering majors at any UC campus to use the IGETC. Students entering "high unit" majors, such as those in the sciences, can follow the IGETC but must be careful to complete any needed lower division major preparation. For example, majors in the sciences not only have specific science prerequisites, but also have substantial mathematics requirements.

The listing below specifies the various majors, by campus that have substantial lower division prerequisites that may make the IGETC option inappropriate for transfers to follow:

**Berkeley**

The College of Engineering, College of Environmental Design, College of Chemistry, and the Haas School of Business all have extensive and very prescribed major requirements. Moreover, the IGETC requirements generally exceed the college-specific breadth requirements in these areas, making the IGETC an ill advised option. Also, the College of Natural Resources does not have College-wide breadth requirements, and therefore, applicants to this college are advised to focus on completing prerequisites for their intended major.

Applicants to the College of Letters and Science can follow the IGETC, keeping in mind that preparation for the major is very important—particularly in the Biological and Physical Sciences (which includes Computer Science). This is also currently true for the following majors: Development Studies, Economics, Mass Communications, Political Economy of Industrial Societies, Political Science, Psychology, and the Social Science field major.

**Davis**

The IGETC is not appropriate for students transferring to majors in the College of Engineering. In addition, majors in Biological Sciences, Psychology, and Environmental Policy Analysis and Planning are "high unit" majors with lower division preparation needed for admission. The IGETC can be done, but students must take care to meet the lower division requirements for these majors.

**Irvine**

The IGETC is not optimal for transfers to the Schools of Engineering, Biological Sciences or Physical Sciences. Students entering any major can use the IGETC, but should consider lower division degree requirements and major preparation when planning their programs.

**Los Angeles**

The IGETC is not appropriate for students transferring to the School of Engineering and Applied Science, and the School of Nursing. All majors in the School of Theater, Film and Television, the School of the Arts, and the College of Letters and Science will honor the IGETC. Students entering majors that require specific or substantial preparation, such as science majors, may use the IGETC but need to carefully plan their programs.

**Riverside**

The IGETC is not appropriate for students transferring to the College of Engineering. Students entering the Biological or Physical Sciences should be aware that the IGETC requirements exceed the breadth requirements for the College of Natural and Agricultural Sciences, and that these majors require substantial lower division preparation. The IGETC works well for all majors in the College of Humanities and Social Sciences. Students preparing to study Business Administration are encouraged to complete the IGETC, as well as lower division major preparation, to promote admission to this program.

**San Diego**

The IGETC is not appropriate for students transferring to majors in the Division of Engineering. Students entering any other major, however, can successfully use the IGETC. It is important to remember that two of the five colleges at San Diego, Fifth and Revelle, will not accept the IGETC.

**Santa Barbara**

The IGETC is not appropriate for students transferring to the College of Engineering. Students planning to major in: Biological Sciences, Biopsychology, Chemistry, Environmental Science, Geology, or Geophysics can use the IGETC, but must be careful to complete lower division major prerequisites if they are to make normal, timely progress through the major.

**Santa Cruz**

Although all majors at UCSC will honor the IGETC, students planning to major in: Biological Sciences, Chemistry, Computer and Information Sciences, Computer Engineering, or Earth Sciences, must pay special attention to completing lower division major prerequisites if they are to make normal, timely progress through the major.

This information is intended to serve as a guideline for advising UC-bound transfers about the IGETC option. Since each student's circumstances differ, advisors need to evaluate whether using the IGETC makes good sense based on a student's academic background, and choice of campus and major.
Transfer Core Curriculum for University of California

Students who began their studies at College of San Mateo (or another community college) before Fall 1991 and who plan to transfer to any campus of the University of California may fulfill UC lower division breadth and general education requirements by completing the CSM-UC Transfer Core Curriculum. Students enrolling at a community college for the first time in Fall 1991 or thereafter are to follow the new Intersegmental General Education Transfer Curriculum (see page 32), which is available to all students. Students also have the option of completing the specific lower division breadth and general education requirements of the UC school and campus to which they intend to transfer.

Students who do not complete the breadth and general education requirements by either means before transferring to UC will be subject to the regulations regarding breadth and general education requirements of the school and college of the campus to which they have been admitted. Because these requirements vary among schools, colleges and campuses of the University, the student can retain the greatest flexibility of transfer choice by completing the Transfer Core Curriculum or the Intersegmental General Education Transfer Curriculum (IGETC).

All courses taken as part of the Transfer Core Curriculum must be completed with a grade of C or higher. No course may be used toward meeting more than one requirement.

I. Foreign Language Proficiency
This requirement may be fulfilled by completion of two years of a foreign language in high school with a grade of C or better, or by performance on tests such as earning a minimum score of 550 on an appropriate College Board Achievement Test in a foreign language, or by completion of any one of the following CSM courses:

- French 120, 122, 130, 131, 132, 140, 161, 162
- German 120, 122, 130, 131, 132, 140
- Japanese 120, 122
- Spanish 120, 122, 130, 131, 132, 133, 140, 161, 162, 201, 202, 251, 620

II. English Composition
This requirement may be fulfilled by completion of English 100 and one of the following CSM courses:

- English 110, 120, 130, 140, 165

III. Mathematics/Quantitative Reasoning
This requirement may be fulfilled by earning a minimum score of 600 on the Mathematics section of the Scholastic Aptitude Test (SAT), or 550 on the College Board Achievement Test in Mathematics (Level I or II), or by completion of any one of the following CSM courses:

- Mathematics 125, 200, 202, 241, 242, 251, 252, 253, 268, 270, 275

IV. Arts and Humanities
This requirement may be fulfilled by completing any three of the following CSM courses, including at least one Arts course and at least one Humanities course:

- Arts
  - Art 101, 102, 103, 106, 108
  - Filmm 451, 452
  - Music 100, 202, 275

- Humanities
  - English 110, 120, 130, 140
  - Ethnic Studies 350, 351, 425
  - History 100, 101, 102, 110, 201, 202, 242, 260, 270, 310, 350, 360
  - Humanities 101, 102, 111, 112, 113, 114, 125, 127, 128, 131, 133, 136
  - Literature 101, 105, 113, 115, 143, 151, 153, 200, 201, 202, 231, 232, 251, 301, 302, 430
  - Philosophy 100, 244
  - Speech 111, 112

V. Social and Behavioral Sciences
This requirement may be fulfilled by completion of any three of the following CSM courses:

- Anthropology 110, 180
- Economics 100, 102
- Ethnic Studies 101, 102, 150, 151, 152, 160, 261, 262, 290
- Geography 110
- Journalism 110

Political Science 100, 110, 130, 150, 170, 200, 210, 215, 220, 250, 255, 260, 520

Psychology 100, 105, 110, 201, 300, 410

Sociology 100, 110, *141, 200, 300, 340

*Note: Either Ethnic Studies 151 or Sociology 141, but not both, will partially fulfill this requirement.

VI. Physical and/or Biological Sciences
This requirement may be fulfilled by completion of two or more of the following CSM courses. At least one course must include a laboratory (*). Seven (7) units are required; unit values of courses are shown in parentheses. Certain restrictions apply to courses marked ©; see note below.

- Astronomy 100(3), *101(1)
  - Chemistry ©100(3), ©210(5), ©220(5), ©224(4), ©225(4), ©250(4)
  - Geography 100(3)
  - Geology ©100(3), *101(1), *210(4)
  - Humanities 127(3), 128(3)
  - Meteorology 100(3)
  - Oceanography 100(3), *101(1)
  - Paleontology 110(3)
  - Physical Science 100(3)
  - Physics 100(3), ©210(4), ©220(4), *250(4), *260(4), *270(4)

© Note: No credit for Biology 145 if taken after 220. If Biology 250, 260, 265, and 266 are all taken, credit allowed for two courses only. No credit for Chemistry 100 if taken after 210, 224 or 410. Credit allowed for only one series: Chemistry 210, 220 or Chemistry 224, 225. If both Geology 100 and 210 are taken, credit allowed for one course only. If Physics 210 and 250 are both taken, deduct 3 units from 210. Similarly, deduct 2 units from 220/260, and deduct 2 units from 220/270.

Note: In preparation for transfer to a UC campus in a specific major, students should consult their counselor/advisor concerning the recommended major preparation courses which parallel those taken by freshmen and sophomores at the UC campus.
CSM Courses Transferable to All University of California Campuses

A student planning to transfer to one of the campuses of the University of California can usually complete the first two years of his or her work at College of San Mateo. In some cases, students may wish to make up high school course deficiencies or grade point average deficiencies. Using the general catalog of the University campus to which you plan to transfer, you should work with your counselor/advisor in planning your program. The current issues of the University publications "Prerequisites and Recommended Subjects" and "Answers for Transfers" are helpful planning guides. They list the requirements for admission, breadth requirements and requirements for the major, all of which should be carefully considered in planning your program at College of San Mateo.

NOTE: Courses with marked with a (*), (+), (#), or (@) are transferable with limitations as specified. If you have any questions, see your counselor/advisor.

Paleontology 110

Philosophy 100, 244

**Physical Education** All classes in the following series: 100–199*, 200–299*, 300–399*
* Note: Credit limited to 4 units.

**Physical Science** 100*, 675+
* Note: No credit if a transferable course in Astronomy, Chemistry, or Physics taken.
+ Note: Credit for Honors courses limited to 3 units per term, 6 units total, in any or all subject areas combined.

**Physics** 100*, 210+, 220+, 250+, 260+, 270+
* Note: No credit if taken after PHYS 210 or 250.
+ Note: If PHYS 210/250 taken, limited to 3 units credit for 210; if PHYS 210/270 taken, limited to 2 units credit for 210; if PHYS 220/260 taken, limited to 2 units credit for 220.

**Political Science** 100, 110, 130, 150, 170, 200*, 210*, 215, 220, 250, 255, 260, 310, 520
* Note: Credit limited to either PLSC 200 or 210.

**Psychology** 100, 105, 110, 121*, 201, 300, 410, 675+
* Note: Credit limited to only one of the following courses: ECON 123, MATH 200, or PSYC 121.
+ Note: Credit for Honors courses limited to 3 units per term, 6 units total, in any or all subject areas combined.

**Social Science** 111, 220, 221

**Sociology** 100, 105, 110, 141*, 200, 300, 340
* Note: Credit limited to either ETHN 151 or SOCI 141.

**Spanish** 110*, 111*, 112*, 120+, 121*, 122+, 130#, 131#, 132#, 140, 161, 162, 201, 202, 251
* Note: Credit limited to 5 units.
+ Note: Credit limited to 5 units.
# Note: Credit limited to 5 units.

**Speech** 100, 111, 112, 120*, 150*
* Note: Credit limited to either SPCH 120 or 150.

**SPECIAL NOTE:**
The following courses are also transferable, contingent upon a review of the course outline by a UC campus:

680 – 689 — Selected Topics
690 — Special Projects

Maximum credit allowed in selected topics and special projects is 3 units per term, with 6 units total in any or all subject areas combined.
### Major Preparation Agreements

Major preparation agreements list the CSM courses which students are advised to take in preparation for transfer to the specified university in the specified major field. These courses are equivalent to the corresponding lower division courses at the university which prepare freshman and sophomore students for junior-level work in the major. Students should make every effort to complete these CSM courses before transfer.

CSM has major preparation agreements with the following universities for the major listed. If the university and/or major in which a student is interested is not listed, the student should consult with the Transfer Center or a counselor/advisor for guidance.

For Language Requirement: 3 years of one language in high school (grade C or better) or 2 semesters of one language at CSM (5 unit course, grade C or better).

Additional Degree Requirements:
Seven or more of the courses listed below must be completed before admission (The remaining courses must be completed before graduation).

Additional Language English course beyond Reading and Composition: ENGL 165, LIT 101, 105, 113, 115, 143, 151, 200, 231, 232, 251, 301, 302, or 430
Two courses from Behavioral Sciences: ANTH 110; PSYC 100, 105, 110, 201, 300, 340, 410; SOCI 100, 105, 110, 141, 200, and/or 300
Two courses from Natural Sciences: ASTR 100/101; BIOL 100, 110, 125, 130, 140, 145, 150, 160, 180, 200, 210, 220, 230, 240, 250, 260, 265; CHEM 210, 220, 224, 231, 232, 250; GEOG 100; GEOL 100/101, 210, 220, 230, 250; METE 100; OCEN 100/101; PSCI 100; PHYS 100, 210, 220, 250, 260, and/or 270
Two courses related to foreign country: ETHN 510; HIST 100; HUM 101, 111, 127; and/or PLSC 520
Three Social Science courses in addition to the Behavioral Sciences courses: ANTH 100; GEOG 110; HIST 201, 202, 270, 310, 350, 360; PLSC 110, 200, 210, 250; PSYC 100, 105, 110, 201, 300, 340, 410; SOCI 100, 105, 110, 141, 200, and/or 300

Menlo College

Business Administration
ACTG 121, 131
BUS. 100
ECON 100, 102
MATH 241
MATH 200 or ECON 123

Saint Mary's College of California

Accounting
ACTG 121, 131
BUS. 201
ECON 100, 102
ECON 123 or MATH 200
MATH 125 or 241 or 251 or 270
CIS. 110 or 115, 116 or 250

Business Administration
ACTG 121, 131
BUS. 201
ECON 100, 102

University of Southern California

Business Administration
BUS. 205
ECON 100, 102
ENGL 100 and ENGL 110 or 120 or 130 or 140 or 165
MATH 241, 242

California State University, Chico

Business Administration
ACTG 121, 131
BUS. 201
ECON 100, 102
MATH 125 and 241

California State University, Hayward

Business Administration
ACTG 121
BUS. 201 and BUS. 300 or 301, 311 or 303, 311
BUS. 295 or CIS. 110 or CIS. 115, 116
ECON 100, 102
ECON 123 or MATH 200
MATH 224, 241 and MATH 125 or 242
PSYC 100

Economics
ECON 100, 102 and 123
MATH 241, 242

California State Polytechnic University, Pomona

Business Administration
ACTG 121, 131
BUS. 201, 295
ECON 100, 102 and 123
MATH 241

California State University, Sacramento

Business Administration
ACTG 121, 131
BUS. 201
ECON 100, 102
ECON 123 or MATH 200
ACTG 121, 131 (B.S. degree only)
MATH 241, 242 (B.S. degree only)
MATH 125 (B.A. degree only)
CIS. 110 or 115, 116 or 250
(recommended for both B.S. and B.A.)
COMMUNICATION
University of California, Berkeley
Mass Communications
HIST 202
PLSC 200 or PLSC 210
ANTH 110 or ECON 100 or ECON 102 or PSYC 100 or SOCI 100
Menlo College
Communications
BUS. 100
FILM 451 or 452
JOUR 110, 120
Saint Mary's College of California
Communications
JOUR 110, 120
SPCH 111, 120
Two semesters of one foreign language
California State University, Hayward

SPCH 100, 120, 130
California State University, Sacramento
Communication Studies
BCST 115, 131 and BCST 231 or 232
FILM 461 or 462
SPCH 100

COMPUTER SCIENCE
University of California, Berkeley
Computer Science
CIS 290, 291
ENGR 260
MATH 251, 252, 253, 268 and 270
University of California, Davis
Computer Science
CIS 250
MATH 251, 252, 253, 270 and 275
Menlo College
Computer Information Systems
BUS. 100
CIS 250
ECON 100, 102
ECON 123 or MATH 200
MATH 252 or 262 and MATH 268
Computer Science
CIS 250
ECON 123 or MATH 200
MATH 252, 253, 268 and 270

CRIMINAL JUSTICE
California State University, Hayward
Criminal Justice Administration
ADMJ 100, 104, 106, 108 and 120
California State University, Sacramento
Criminal Justice
ADMJ 100, 104, 108 and 120

ENGINEERING
University of California, Davis
Aeronautical Science and Engineering
CHEM 210, 220
CIS. 240, 241
ENGR 100
ENGR 230, 260
MATH 251, 252, 253, 270 and 275
PHYS 250, 260
SPCH 100
PHYS 270 (recommended)

Chemical Engineering
CHEM 210, 220, 250, 231 and 232
CIS. 240, 241
ENGR 100
ENGR 230, 260
MATH 251, 252, 253, 270 and 275
PHYS 250, 260
SPCH 100
PHYS 270 (recommended)

Civil Engineering
CHEM 210, 220
CIS. 240, 241
ENGR 100
ENGR 111, 230 and 260
MATH 251, 252, 253, 270 and 275
PHYS 250, 260
SPCH 100
ENGR 210, 270 and 666
(recommended)
PHYS 270 (recommended)

Computer Science and Engineering
CHEM 210, 220
CIS. 250, 251
ENGR 100
ENGR 230, 260
MATH 251, 252, 253, 270 and 275
PHYS 250, 260
SPCH 100
PHYS 270 (recommended)

Electrical Engineering
CHEM 210, 220
CIS. 250, 251
ENGR 100
ENGR 230, 260
MATH 251, 252, 253, 270 and 275
PHYS 250, 260
SPCH 100
ENGR 210, 270 and 666
(recommended)
PHYS 270 (recommended)

Materials Science and Engineering
CHEM 210, 220
CIS. 240, 241
ENGR 100
ENGR 230, 260
MATH 251, 252, 253, 270 and 275
PHYS 250, 260
SPCH 100

PHYS 270 (recommended)
ENVIRONMENTAL STUDIES/NATURAL RESOURCES

University of California, Berkeley

Conservation and Resource Studies
BIOL 102, 210 and 220
CIS 240, 241
ENGL 100 and ENGL 110 or 120 or 130 or 140
MATH 200
Two courses from the following:
ECON 100, 102 or PLSC 110 or PLSC 200 or PLSC 210 or SOC 100

Forest Products
BIOL 220
CHEM 210, 220 and 231
ECON 100, 102
ENGL 100 and ENGL 110 or 120 or 130 or 140
MATH 200 and MATH 251, 252
PHYS 210, 220 or PHYS 250, 260

Forestry and Resource Management
BIOL 180, 210, 220 and BIOL 230 or 110
CHEM 210, 220
CIS 240, 241
ECON 100
ENGL 100 and ENGL 110 or 120 or 130 or 140
ENGR 111
GEOL 100, 101
MATH 200, 251, 252 and 253

Political Economy of Natural Resources
ECON 100, 102
ENGL 100 and ENGL 110 or 120 or 130 or 140
MATH 241, 242 or MATH 251, 252
One course in either History or Political Science
One course in Humanities
At least 10 units in Natural or Physical Science (including one laboratory course).

University of California, Santa Cruz

Environmental Studies
BIOL 200
ECON 102
MATH 200 or 241 or 242
PLSC 100 or 200 or 210
PHIL 100 or 244 (recommended)
One of the following: CHEM 100, 192, 210, 220, 224, 225, GEOG 100, GEOL 100, 210, 220, OCEN 100, PHYS 100, 210, 220, 250, 260, or 270

California State University, Hayward

Environmental Studies
BIOL 101, 184 and 200
CHEM 100 and 192
ECON 102 and 123
GEOG 100
GEOL 100

Humboldt State University

Fisheries
BIOL 102, 210, 220 and 230
CHEM 410, 420
GEOL 210
MATH 200 and MATH 241 or 260
OCEN 100, 101
PHYS 210

Forestry
BIOL 180, 220
CHEM 410
GEOL 210
MATH 200 and MATH 241 or 260
PHYS 210

Natural Resources Planning and Interpretation
ANTH 110
BIOL 102, 210, 220 and 230
CHEM 410
GEOG 100, 110
GEOL 210
MATH 200

Oceanography
BIOL 230
CHEM 210, 220
GEOL 210
MATH 200, 260, 261, 262 and 263
OCEN 100, 101
PHYS 250, 260

Range Management
BIOL 102, 220 and 230
CHEM 210
GEOL 210
MATH 200
MIE 100
PHYS 100

Wildlife Management
BIOL 102, 210, 220 and 230
CHEM 210, 220, 410 and 420
MATH 200, 222 and MATH 241 or 260
PHYS 210

California State University, Sacramento

Environmental Studies
BIOL 102 and 110
CHEM 410
ECON 100 or 102
GEOL 210

HUMANITIES/ LANGUAGES

University of California, Berkeley

English
ENGL 100 and ENGL 110 or 120 or 130 or 140
LIT 201

History
HIST 100, 101 and HIST 201 or 202

University of California, Davis

English
ENGL 100, 110, 161, and 162
LIT 115, 201, 202, 231 and 232

LIBERAL STUDIES
Saint Mary's College of California
Liberal Arts (Diversified)
ENGL 100 and ENGL 110 or 120 or 130 or 140 or 161 or 165
ENGL 200 or 210 or ETHN 267
ETHN 288 or 585 or any transferable course in ART, FILM, or MUS
ETHN 510 or any transferable course in LIT
HIST 201 or PLSC 210
PSYC 100, 201
SPCH 100 or 111 or 112 or 120 or 150 or 184
Any transferable courses in BIOL (at least one course with laboratory)
Any transferable courses in CHEM or FSCI (at least one course with laboratory)
Any transferable courses in HUM, PHIL, or foreign languages
Electives in Social Science: ETHN courses numbered 101 through 262 and 290 through 425, GEOG 110; any transferable courses in ANTH, ECON, HIST, PLSC, PSYC, and/or SOCI
Electives in Math and Science: GEOG 100; any transferable courses in ASTR, BIOL, CHEM, ENGR, GEOF, HSCI, METE, OCEN, PALM, PSCI, and/or PHYS

California State University, Hayward
Liberal Studies: Credential Track
ART 101 or 102 or 103 or 104 or 106 or MUS 100
ASTR 100, 101 or CHEM 100 or CHEM 210 or GEOG 100 or GEOG 101, 102 or GEOL 210 or GEOL 230 or METE 100 or OCEN 100, 101 or PHYS 100 or PHYS 210
BIOL 110, 200 and BIOL 111 or 130 or 140 or 145 or 150 or 210 or 220
ENGL 100, 110 and ENGL 120 or 130 or 161
ENGL 155 or SOCI 111
EDUC 101
HIST 100 or 101
SPCH 100
Two of the following courses: FILM or MUS, PHIL, or any foreign language

Three transferable courses from at least two different disciplines in Social Sciences: Courses in ANTH, ECON, GEOG, PLSC, PSYC, and/or SOCI
Two courses in one foreign or sign language
One course in ART, MUS, or DANC

Liberal Studies: Liberal Arts Track
ART 101, 214 and 301
BIOL 110 (Students must complete the BIOL 1002 lab course upon transfer)
CHEM 192 and 210
ENGL 100 and ENGL 110 or 120 or 130 or 140
GEOG 110, 111 and 120
MUS 100
PHYS 210 or 250
SPCH 100, 120

California State University, Sacramento
Liberal Studies
ANTH 110 or ECON 100 or GEOG 110
BIOL 110
ENGL 100
HIST 100 or HUM 101 or HUM 102
Biological Sciences
HUM 101
JOUR 110
Philosophy
PHIL 100
SOSC 111
PHIL 244 (acceptable for Philosophy minor only)

LIFE/PHYSICAL SCIENCE
University of California, Berkeley
Astrophysics
MATH 251, 252, 253, 270 and 275
PHYS 250, 260 and 270
Bioresource Sciences
BIOL 210, 220
CALS 310
CHEM 210, 220, 231 and 232
CIS. 240, 241 or MATH 200
ECON 100
ENGL 100 and ENGL 110 or 120 or 130 or 140
MATH 251, 252 and 253
PHYS 250, 260
Chemical Engineering

Biol 210, 220, 230
CHEM 210, 220, 231
MATH 251, 252
PHYS 250, 260

Molecular and Cell Biology, Option I: Emphasis in Biology and Molecular Biology
GENETICS, IMMUNOLOGY, or MICROBIOLOGY
Biol 210, 220, 230
CHEM 210, 220, 231, 232 and 250
MATH 251, 252, 253
PHYS 250, 260

Molecular and Cell Biology, Option II: Emphasis in Cell Physiology, Cell and Development Biology, or Neurobiology
Biol 210, 220, 230
CHEM 210, 220, 231 and 232
MATH 251, 252, 253
PHYS 250, 260

Molecular and Cell Biology, Option III: Emphasis in Biophysics
Biol 210, 220
CHEM 210, 220, 231 and 232
MATH 251, 252, 253, 270 and 275
PHYS 250, 260, 270

Physics
MATH 251, 252, 253, 270 and 275
PHYS 250, 260, 270
CHEM 210, 220 (recommended)

Plant Biology
Biol 210, 220
CHEM 210, 220, 231 and 232
CIS 240, 241
ENGL 100 and ENGL 110 or 120 or 130 or 140
MATH 251, 252, 253
PHYS 210, 220 or PHYS 250, 260

University of California, Davis

Animal Science
Biol 110, 210 and Biol 220 or 240
CHEM 210, 220
MATH 200, 241 and 242

Biological Science
Biol 110, 145, 210, 220 and 230
CHEM 210, 220, 231, 232 and 250
MATH 200 and Math 241, 242 or 251, 252, 253
PHYS 210, 220
BIOL 240 (recommended)

Chemistry
CHEM 210, 220, 231, 232 and 250

Geology
GEOL 100, 101, 210 and 220

Physics
CHEM 210, 220
CIS 240, 241
MATH 251, 252, 253, 270 and 275
PHYS 250, 260 and 270

Zoology A.B.
BIOL 110, 210 and BIOL 220 or 240 or PHYS 220
CHEM 210, 220
MATH 241, 242
PHYS 210, 220
GEOL 220 (recommended)

Zoology B.S.
BIOL 110, 210 and BIOL 220 or 240
CHEM 210, 220, 231 and 232
MATH 241, 242 or MATH 260, 261
PHYS 210, 220
CHEM 290 (recommended)
GEOL 220 (recommended)
MATH 262 (recommended)

University of California, Santa Barbara

Biochemistry-Molecular Biology (B.A.)
Biol 210, 220, 230
CHEM 210, 220
MATH 251, 252, 253
PHYS 210, 220
CHEM 231, 232 (will satisfy Organic Chemistry requirement only by petition at UCSB)
MATH 275 (recommended)

Biological Sciences and Aquatic Biology (B.A.)
BIOL 210, 220, 230
CHEM 210, 220, 231 and 232
MATH 200 and MATH 241, 242 or 251, 252, 253
PHYS 210, 220

Botany and Zoology (B.A.)
BIOL 210, 220, 230
CHEM 210, 220, 231 and 232
MATH 200 and MATH 241, 242 or 251, 252, 253
PHYS 210, 220

Chemistry (B.A. and B.S.)
CHEM 210, 220, 231 and 232
MATH 251, 252, 253
CHEM 232 (B.S. only)
MATH 275 (B.S. only)
PHYS 210, 220 (B.A. only) or PHYS 250, 260, 270 (both B.A. and B.S.)

Ecology and Evolution (B.A.)
BIOL 210, 220, 230
CHEM 210, 220
MATH 200 and MATH 241, 242 or 251, 252, 253
PHYS 210, 220

Microbiology (B.A.)
BIOL 210, 220, 230
CHEM 210, 220, 231 and 232
MATH 200 and MATH 241, 242 or 251, 252, 253
PHYS 210, 220

Physics (B.A. and B.S.)
CHEM 210, 220
MATH 251, 252, 253 and 275
PHYS 250, 260, 270

Physiology and Cell Biology (B.A.)
BIOL 210, 220, 230
CHEM 210, 220, 231 and 232
MATH 200 and MATH 241, 242 or 251, 252, 253
PHYS 210, 220

Menlo College

Biotechnology Management
ACTG 121, 131
BUS 100
CHEM 410
CIS 110
ECON 100, 102
MATH 241
MATH 200 or ECON 123
PHYS 210

Saint Mary’s College of California

Biology
BIOL 210, 220
CHEM 210, 220, 231, 232 and 250
MATH 241, 242 or 251, 252
PHYS 210, 220 or 250, 260, 270

Chemistry
CHEM 210, 220, 231 and 232
MATH 251, 252, 253
PHYS 210, 220 (B.A. degree only) or 250, 260, 270 (B.A. and B.S. degree)
BIOL 110 (for Biochemistry concentration)

Geology
CHEM 210
GEOL 210, 220
MATH 251 or 241, 222 (B.A. degree only)
PHYS 210 or 250 (B.A. degree only)
CHEM 220 (B.S. degree only)
CIS 240, 241 (B.S. degree only)
MATH 251, 252, 253 (B.S. degree only)
PHYS 210, 220 or 250, 270 (B.S. degree only)

Physics
CHEM 210, 220
MATH 251, 252, 253 and 375
PHYS 250, 260 and 270

California State University, Hayward

Biological Sciences
BIOL 210, 220, 230
CHEM 210, 220
MATH 222 or 260
PHYS 210, 220

Chemistry
CHEM 210, 220 and 250
CIS 230, 231 or 240, 241
MATH 251, 252, 253 and 270
PHYS 250, 260, 270

Geology
CHEM 192
CIS 110
GEOL 210, 220
MATH 251
PALE 110
PHYS 210, 220

Physical Science
ASTR 100
BIOL 110 or 230
CHEM 210, 220
GEOL 210
MATH 251, 252, 253
METE 100
PHYS 210, 220 or 250, 260, 270

Physics
CHEM 210, 220
MATH 251, 252, 253 and 270
PHYS 250, 260, 270

MATHEMATICS

University of California, Berkeley

Mathematics/Applied Mathematics
MATH 251, 252, 253, 270 and 275

University of California, Davis

Mathematics
MATH 251, 252, 253, 270 and 275

University of California, Santa Barbara

Mathematics and Mathematical Sciences
CIS 240, 241 and CIS. 115, 116 or 250, 251
MATH 251, 252, 253, 270 and 275
PHYS 210 or 250

Note: Students must take UCSB’s MATH SCY upon transfer.
## Saint Mary's College of California

### Mathematics
- MATH 251, 252, 253, 268 and 270
- CIS 250, 350 (for concentration in Computer Science only)
- PHYS 250, 260, 270 (for B.S. degree only)
- One additional course from BIOL, CHEM, CIS, PSCI, or PHYS (for B.S. degree only)

## California State University, Hayward

### Mathematics
- CIS 250, 251
- MATH 251, 252, 253 and 270

## California State University, Sacramento

### Mathematics
- CIS 240, 241 or 250, 251
- MATH 251, 253, 270 and 275

## SOCIAL SCIENCE

### University of California, Berkeley

#### Afro-American Studies
- ETHN 261, 262
- HUM 131

#### Development Studies
- ANTH 110
- ECON 100, 102
- PLSC 110
- MATH 200
- ARCH 100 (recommended)
- GEG 110 (recommended)
- SOCI 100 (recommended)

#### Geography
- GEG 100, 110

#### Latin American Studies
- SPAN 110, 120, 130 and 140

#### Legal Studies
- ECON 100, 102
- HIST 100, 101
- MATH 200
- PHIL 100

#### Political Economy of Industrial Societies
- ECON 100, 102
- HIST 101, 102
- MATH 200
- PLSC 110

#### Political Science
- HIST 100 or 101 and HIST 201 or 202
- PLSC 110 and PLSC 200 or 210

#### Psychology
- BIOL 125 or 160 and two from the following: BIOL 110, 210, 220, 230 and 260.
- Please note: No credit for BIOL 220 unless 210 is also taken.
- MATH 200 or PSYC 121

### University of California, Davis

#### Anthropology
- ANTH 110
- BIOL 125

#### Anthropology
- ANTH 110
- BIOL 125

#### Geography
- GEG 110

#### Political Science
- PLSC 110, 130, 150, 215 and PLSC 200 or 210

#### Psychology
- BIOL 125 and BIOL 110 or 145
- MATH 200
- PSYC 100, 121
- Please note: UC accepts transfer credit for one of either MATH 200 or PSYC 121.

#### Sociology
- SOCI 100, 105 and 300

## University of California, Santa Cruz

#### Psychology
- PSYC 100, 105 and 121

#### Sociology
- SOCI 100, 105

## California State University, Hayward

#### Anthropology
- ANTH 110
- BIOL 125

#### Ethnic Studies
- ETHN 101, 102, 261 and 350

#### Geography
- GEG 100, 110

#### Political Science
- PLSC 100, 110, 130, 150, 170 and PLSC 200 or 210

#### Psychology
- BIOL 110
- MATH 200
- PSYC 100, 105

## California State University, Sacramento

#### Anthropology
- ANTH 110
- BIOL 125

#### Geography
- GEG 100, 110

#### Government
- PLSC 110, 130 and 200

#### Psychology
- PSYC 100, 300
- PSYC 105, 121 (Will meet subject matter requirement for upper-division course; no upper-division units will be granted)

#### Sociology
- SOCI 100
- SOCI 105 (General Sociology and Race and Ethnicity areas of study only)
- SOCI 110 (Family and Socialization area of study only)

Degree and Certificate Requirements

Accounting
Associate in Arts Degree with a major in Accounting; Transfer Program; Certificate Program

Recommended high school preparation: typing, general office procedures, English basic skills.

Career Opportunities: graduates may be employed in entry-level positions in government offices and private companies.

A.A. Degree
Major requirements: ACTG 121, 131, 142; BUS. 129, 201; BUS. 295 or 303, 311, 312, and 321. Total: 21 semester units.
Suggested Electives: Bus 101, 115, 311; Econ 100, 102.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Certificate Program
Certificate requirements: completion of A.A. degree major requirements listed above with a grade of C or higher in each course.

Administration of Justice
Associate in Science Degree with a major in Administration of Justice; Transfer Program; Certificate Program

A.S. Degree
Major requirements: ADMJ 100, 102, 104, 106, 108, 120; ENGL 825; 3 elective units. Total: 24 semester units.
Suggested electives: ADMJ 165 is highly recommended for transfer students; ADMJ 125, 153 are also desirable.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.S. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Certificate Program
This program is designed for pre-service students and consists of the following pre-service courses.
Certificate requirements: ADMJ 100, 102, 104, 106, 108, 120, 153 with a grade of C or higher in each course. Total: 21 semester units.

POST (Peace Officers Standards and Training Commission) Certification
Upon completion with a grade of C or higher of each of the following special courses, students will receive POST certification of completion. Elective credit may be applied to the A.S. degree.

Post Certification Courses:
ADMJ 755 Advanced Officers Course, 1-2.5 units;
ADMJ 770 Advanced Dispatcher/Clerk, 1-2.5 units;
ADMJ 771 Reserve Officers Basic Training Module A, 3 units;
ADMJ 772 Reserve Officers Basic Training Module B, 5 units;
ADMJ 773 Reserve Officers Basic Training Module C, 4 units.

Aeronautics
Transfer Program
Transfer programs are available for four-year degree curricula at San Jose and San Francisco State Universities and other institutions which provide Aeronautics or Design and Industry majors.

Aeronautics: Airframe and Powerplant Technology
Associate in Science Degree with a major in Airframe and Powerplant Technology; Certificate Programs

Recommended high school preparation: elementary algebra, intermediate algebra, plane geometry, drafting, general shop, physics, or physical sciences. Students should check course descriptions and prerequisites and discuss recommended sequence with counselors/advisors.

Career Opportunities: students who complete courses and obtain a Federal Aviation Certificate and Associate in Science degree in Airframe and Powerplant Technology have excellent opportunities for steady employment by airlines as well as other aircraft operations.

Because of Federal Aviation Administration regulations regarding attendance and performance, the following special rules apply to all maintenance courses (AERO 300 through AERO 370): 1. Any time missed during one of these courses must be made up before the end of the eight-week course. If more than three days or 18 hours are missed in any one course, the student will receive a "W," and the course must be repeated before he/she can receive credit for the course. Advancement to other courses is allowed if the student has completed AERO 300/301 and 310/311 or the equivalent of AERO 310/311 (ELEC 240/241, 242/243) with a grade of C or higher. 2. Less than 70% (letter grade of C) will be considered a failing grade. A final examination will be given at the end of each eight-week course. Failure to achieve a 70% on this final examination will require that the course be repeated. The student may advance to other courses if AERO 300/301 and 310/311 or the equivalent of 310/311 (ELEC 240/241, 242/243) have been completed with a grade of C or higher.

A.S. Degree
Option 1
Major requirements: AERO 300, 301, 310, 311; AERO 330, 331, 350, 351, 370, 371; AERO 320, 321, 340, 341, 360, 361; Total: 56 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

If a student has an airframe or powerplant license, upon application to the Aeronautics Department, 7 units of credit may be granted and the A.S. Degree may be completed under Option 2 or 3.

Option 2 (for those students who already have an airframe license)
Major requirements: AERO 320, 321, 340, 341, 360, 361 plus 6 units selected from DRAF 120; ELEC 110, 280; MANU 100; PHYS 100; WELD 300. Total: 27 semester units plus 7 units credit granted for airframe license.
Plus General Education and other requirements for the A.S. degree (see Index: General Education).

**Option 3** (for those students who already have a powerplant license)

**Major requirements:** AERO 330, 331, 350, 351, 370, 371 plus 6 units selected from DRAF 120; ELEC 110, 280; MANU 100; PHYS 100; WELD 300. Total: 27 semester units plus 7 units credit granted for powerplant license.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

**Certificate Program**

Students may apply for a Certificate in Airframe and Powerplant Technology upon completion of one of the following options:

**Option 1**

**Certificate requirements:** AERO 300, 301, 310, 311, 320, 321, 330, 331, 340, 341, 350, 351, 360, 361, 370, 371 with a grade of C or higher in each course. Total: 56 semester units.

If a student has an airframe or powerplant license, upon application to the Aeronautics Department, 7 units of credit may be granted and the Certificate requirements may be completed under Option 2 or 3.

**Option 2** (for those students who already have an airframe license)

**Certificate requirements:** AERO 320, 321, 340, 341, 360, 361 with a grade of C or higher in each course. Total 21 semester units plus 7 units credit granted for airframe license.

**Option 3** (for those students who already have a powerplant license)

**Certificate requirements:** AERO 330, 331, 350, 351, 370, 371 with a grade of C or higher in each course. Total: 21 semester units plus 7 units credit granted for powerplant license.

**Aeronautics: Airframe Technology**

**Certificate Program**

**Certificate requirements:** AERO 300, 301, 310, 311; AERO 330, 331, 350, 351, 370, 371 with a grade of C or higher in each course. Total: 35 semester units.

**Aeronautics: Powerplant Technology**

**Certificate Program**

**Certificate requirements:** AERO 300, 301, 310, 311; AERO 320, 321, 340, 341, 360, 361 with a grade of C or higher in each course. Total: 35 semester units.

**Aeronautics: Aircraft Maintenance Technology**

**Associate in Science Degree with a major in Aircraft Maintenance Technology**

This major is designed especially for students who already possess both the airframe and powerplant licenses granted by the F.A.A. Upon application to the Aeronautics Department, students may receive 13 units of credit toward an Associate in Science degree in Aircraft Maintenance Technology. Applicants must have completed 12 units at College of San Mateo with a 2.5 G.P.A. and be enrolled at the College at the time of application.

**Major requirements:** 18 units selected from the following courses: DRAF 120; ELEC 110, 280; PHYS 100; MANU 100; WELD 300, COOP 641 (3 units). Total: 18 semester units plus 13 units granted for airframe and powerplant licenses.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

**Aeronautics: Avionics**

(See Electronics Technology: Avionics)

**Aeronautics: Commercial Pilot**

**Associate in Science Degree with a major in Commercial Pilot; Certificate Program**

Recommended high school preparation: intermediate algebra, plane geometry, drafting, trigonometry, general shop, and physics or physical sciences or business administration. Students should check course descriptions and prerequisites, and discuss recommended sequence with counselors/advisors.

Designed for the student who plans to become a commercial pilot, flight instructor, airline pilot or fixed-base operator, this program may also be used as basic training for aviation business and entrance into air traffic control employment.

**A.S. Degree**

**Major requirements:** AERO 100, 101, 102, 115, 126, 137; METE 100. Total: 21 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

**Certificate Program**

**Certificate requirements:** completion of A.S. degree major requirements listed above, with a grade of C or higher in each course.

**Aeronautics: Pilot Technology**

**Associate in Science with a major in Pilot Technology**

This major is designed especially for students who already possess a commercial pilot, instrument, and multi-engine license or an airline transport pilot license. Upon application to the Aeronautics Department, students may receive 11 units of credit toward an Associate in Science degree in Pilot Technology. Applicants must have completed 12 units at College of San Mateo with a 2.5 G.P.A. and be enrolled at the College at the time of application.

**Major requirements:** 12 units selected from the following courses: AERO 115; ASTR 100; BUS 100, 101; CIS 110; ELEC 110; MANU 100; PHYS 100. Total: 12 semester units plus 11 units granted for Commercial pilot, instrument, and multi-engine license or airline transport pilot license.

**Agriculture**

**Transfer Program**

Recommended high school preparation: chemistry, physics, elementary algebra, intermediate algebra, geometry, trigonometry, mechanical drawing, two years in one foreign language.

Students who intend to major in Agriculture should plan a course at College of San Mateo to meet the general requirements for junior standing, as well as the lower division requirements, of the specific college or university to which they plan to transfer.
Apprenticeship Related Instruction
Classes of related training are offered for apprentices in certain trades as indicated in the section on curriculum for Apprenticeship Training. These classes follow the course outlined by the appropriate Joint Apprenticeship Committee and the Division of Apprenticeship Standards of the State of California.

Archaeology
(See Anthropology courses.)

Architecture
Associate in Science Degree with a major in Architecture; Transfer Program
Recommended high school preparation: academic program including mathematics (4 years), science (4 years), English (4 years), art (1 year), mechanical drawing (1 semester). Students should check course descriptions and prerequisites, and discuss recommended sequence with an architectural counselor/advisor.

A.S. Degree
Major requirements: ARCH 120, 125, 130, 140, 145, 150, 160, 210, 220, 230, 240. Total: 30 semester units.
Suggested Electives: ARCH 100, 112; MATH 241, 242 and PHYS 210, 220 or MATH 251, 252, 253 and PHYS 250, 260, 270.
Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program
Recommended courses: A.S. Degree major requirements listed above. Total: 30 semester units.
Suggested Electives: Selected from those listed above, as required by transfer institution.

Students should consult the catalog of the college or university to which they plan to transfer.

Architecture: Architectural Engineering, Landscape, City and Regional Planning
Transfer Program
Students who plan to transfer to a university or college offering a professional program in Architecture should consult the catalog of the advanced institution of their choice and then arrange a schedule of suitable transfer courses.

Art
Associate in Arts Degree with a major in Art; Transfer Program

A.A. Degree
Major requirements: ART 201, 202, 206, 207, 214, 301 plus 9 units in other Art courses. Total: 27 semester units.
Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Art: Commercial
Associate in Arts Degree with a major in Commercial Art
Recommended high school preparation: design, drawing, painting.
Career opportunities: employment in advertising, manufacturing, public relations, or communications. Experienced artists frequently specialize in a particular product or field such as fashion, industrial art, advertising, story illustration, or interior design.

A.A. Degree
Major requirements: ART 201, 202, 206, 207, 301, 328; TA&G 351. Total: 20 semester units.
Suggested electives: ART 214, 223, 231, 241, 305; BUS. 175; CRER 410; SPCH 100.
Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Art: Art History
Transfer Program
Recommended courses: ART 101, 102, 103, 201, 301; HIST 100, 101. Total: 21 semester units.
Suggested electives: ART 214, 350; ANTH 110; ENGL 165, 195; FILM 451, 452; French, German, or Italian; HIST 102; HUM. 101, 102, 111, 112, 113, 114, 127, 128; LIT. 101, 105, 301, 302, 430.

Art: Commercial, Illustration
Transfer Program
Recommended courses: ART 101 or 102, 103, 201, 207, 214, 301. Total: 18 semester units.
Suggested electives: ART 202, 206, 223 or 231, 328.
Students should consult the catalog of the college or university to which they plan to transfer.

Art: Fine Arts
Associate in Arts Degree with a major in Fine Arts: Drawing or Painting or Printmaking or General Studio Art.

A.A. Degree
Fine Arts Core Course Requirements: ART 101 or 102, 103, 201, 214. Total: 12 semester units plus area of emphasis.

Art: Fine Arts, Drawing
Major requirements: Fine Arts Core Course Requirements plus ART 202, 206, 207, 301. Total: 24 semester units.

Art: Fine Arts, General Studio Art
Major requirements: Fine Arts Core Course Requirements plus ART 206 or 207, 223 or 231, 237 or 241, 301 or 305, 405 or 411. Total: 27 semester units.
Suggested elective: ART 351.

Art: Fine Arts, Painting
Major requirements: Fine Arts Core Course Requirements plus ART 206 or 207, 301 and any two of the following courses: ART 223, 224, 231, 232. Total: 24 semester units.
Suggested electives: ART 202, 206 or 207, 224 or 232, 351.
Art: Fine Arts, Printmaking

Major requirements: Fine Arts Core Course Requirements plus ART 206 or 207, 301, and any two of the following courses: ART 237, 238, 241, 242. Total: 24 semester units.
Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Art: Interior Design

Associate in Arts Degree with a major in Interior Design; Certificate Programs

A.A. Degree

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Certificate Program: Interior Design

Certificate requirements: ART 142, 145, 146, 147, 148, 149, 153, 155, 156, 157 with a grade of C or higher in each course. Total: 30 semester units.

Certificate Program: Interior Design (ASID)

This is an expanded program that stresses drawing skills, knowledge of materials and the esthetics of interior design principles. Meets ASID student chapter requirements.

Certificate requirements: ART 101, 102, 142, 145, 146, 147, 148, 149, 153, 155, 156, 157, 201, 301, 641 (3 units); FASH 113; plus 12 units of other Art courses, or 9 units of Art courses and 3 units of floral design with a grade of C or higher in each course. Total: 60 semester units.

Art: Painting

Associate in Arts Degree with a major in Painting

Suggested Electives: Art 101, 102, 103, 406.
Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Art: Photography

Associate in Arts Degree with a major in Photography

Suggested electives: ART 101, 201, 214, 237, 301; FILM 461; TA&G 351, 352.
Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Broadcasting Arts

Transfer Program

Career opportunities: Radio and television positions are available for engineers, broadcasters, and sound and video-control technicians. Students in the Broadcasting Arts programs not only receive instruction in theoretical aspects of the field but also have additional, important opportunities to work in and with live facilities. Through actual on-the-air broadcasts from the campus stations, KCSM-FM and KCSM-TV, students receive practical experience that provides excellent preparation for immediate employment or for transfer to a four-year program.

The following courses are suggested electives for all Broadcasting Arts majors: ART 350; BUS. 101, 175; FILM 451, 452, 461; ELEC 110, 200, 250, 260, 302; SPCH 111, 120.

Transfer Program

Recommended courses: completion of A.A. degree requirements listed below with a grade of C or higher. Students should consult the catalog of the college or university to which they plan to transfer.

Broadcasting Arts: Broadcast Engineering

Associate in Arts Degree with a major in Broadcast Engineering; Certificate Program

A.A. Degree

Major requirements: ELEC 200; BCST 110, 131, 231, 244, 301, 302; CIS 110. Total: 26 semester units.
Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Certificate Program

Certificate requirements: completion of A.A. degree major requirements listed above with a grade of C or higher in each course. Total: 26 semester units.

Broadcasting Arts: Radio Broadcasting, Operations

Associate in Arts Degree with a major in Radio Broadcasting, Operations; Certificate Program

A.A. Degree

Major requirements: BCST 110, 115, 131, 132, 195, 231; BUS. 300 or CIS 160; plus three units selected from BCST 135, 192, 194, 301, 641; BUS. 101; ELEC 110; SPCH 111. Total: 21 semester units.
Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Certificate Program

Certificate requirements: BCST 110, 115, 131, 132, 192, 194, 195, 231; BUS. 300 or CIS 160; ELEC 110 with a grade of C or higher in each course. Total: 27 semester units.

Broadcasting Arts: Television Broadcasting, General

Associate in Arts Degree with a major in Television Broadcasting, General; Certificate Program

A.A. Degree

Major requirements: BCST 110, 131, 231, 232, 241; BUS. 300 or CIS 160; plus 6 units selected from BCST 115, 192, 194, 242, 244, 641, ELEC 110. Total: 24 semester units.
Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Certificate Program

Certificate requirements: completion of A.A. degree major requirements listed above with a grade of C or higher in each course. Total: 24 semester units.

Broadcasting Arts: Television Broadcasting, Operations

Associate in Arts Degree with a major in Television Broadcasting, Operations; Certificate Program
A.A. Degree

Major requirements: BCST 110, 131, 231, 232, 241, 242; BUS. 300 or CIS 160; plus 6 units selected from BCST 243, 244, 301, 641; ELEC 110. Total: 28 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Certificate Program

Certificate requirements: completion of A.A. degree major requirements listed above with a grade of C or higher in each course. Total: 28 semester units.

Building Inspection

Associate in Science Degree with a major in Building Inspection; Certificate Program

A.S. Degree

Major requirements: BLDG 700, 710, 720, 730, 740, 750; 3 units selected from BLDG 760 or 780; 3 units selected from ENGL 820 or 800 or higher or MGMT 110; 3 units selected from MGMT 120 or 235. Total: 24 semester units.

Suggested electives: BLDG 790; EHMT 100; MANU 100; PHYS 100.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Certificate Program

Certificate requirements: completion of A.S. degree major requirements listed above with a grade of C or higher in each course.

Business

Career Programs

The following programs are designed to prepare students for employment in specific careers. They emphasize business skills for immediate employment; general courses provide a background for promotion in chosen occupational areas. Students planning to complete a four-year degree in these areas should consult the catalog of the college or university to which they plan to transfer.

Business: Business Information Processing

Associate in Arts Degree with a major in Business Information Processing; Certificate Programs

Recommended high school preparation: typing, business math, microcomputers, accounting, business English, and office work experience.

Career Opportunities: graduates may be employed in entry-level positions and mid-level office management. Students develop the ability to organize and manage work tasks and information through the use of computer/office technology. These programs offer training in decision-making and administrative duties that are required for promotion.

A.A. Degree

(Business: Business Information Processing)

Completion of one of the following options:

Microcomputers/Word Processing option

Major requirements: BUS. 100, 115, 300; 303/334 or 368/369; 307, 311, 321, 325, 340, 344, 345, 350, 360, 361; 366 or 370; 401. Total: 25 semester units.

Microcomputers/Data Base and Spreadsheet Functions option

Major requirements: ACTG 100, 142; BUS. 100, 115, 129, 300; 303 or 368; 311, 312, 313, 321, 322, 323, 340, 344, 345, 350. Total: 26 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Certificate Programs

(Business: Business Information Processing, Microcomputers/Word Processing)

Certificate requirements: completion of A.A. degree major requirements listed above with a grade of C or higher in each course.

(Business: Business Information Processing, Microcomputers/Data Base and Spreadsheet Functions)

Certificate requirements: completion of A.A. degree major requirements listed above with a grade of C or higher in each course.

Business: Escrow

Associate in Arts Degree with a major in Escrow; Certificate Program

The California Escrow Association recommends 27 units of required core courses and 12 units of suggested electives for the A.A. degree. See a Real Estate Department counselor/advisor for guidance regarding these courses and for information regarding the Escrow Certificate.

A.A. Degree

Major requirements: R.E. 100*, 121, 131, 301*, 303*, 305; BUS. 100; BUS. 115 (or MATH 120 or higher); BUS. 401; plus 12 units selected from the following courses: ACTG 100, 121; BUS. 101, 201, 305, 307; ECON 100 or 102; PSYC 100; R.E. 110, 141, 143, 210, 235; SPCH 100 or 120. Total: 39 semester units.
Business: Merchandising (Management)

A.A. Degree with a major in Merchandising (Management); Certificate Program

A.A. Degree

Major requirements: BUS. 100, 101, 115, 170, 175, 180, 641 (6 units); ACTG 100 or 121. Total: 27-29 semester units.  
Plus General Education and other requirements for the A.A. degree, (see index: General Education).

Certificate Program

Certificate requirements: completion of the major requirements listed above, with a grade of C or higher in each course. Total: 24 units.

Chemistry

Associate in Science Degree with a major in Chemistry and Transfer Program

Major requirements: CHEM 210, 220, 231, 250. Total: 19 semester units.  
Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Computer and Information Science

Associate in Science Degree with a major in Computer and Information Science; Transfer Program; Certificate Program in Computer Support Specialist

Recommended preparation: for all of the course work described in the CIS program, fluency in the English language and keyboarding skills are essential. Testing for proficiency in the reading and writing of English is done regularly through the testing facilities of CSM Student Services. Students who wish to be tested should contact the Testing Office in Room 1-130. Keyboarding skills may be improved in the Business Skills Lab.  
Job requirements vary among companies, and students’ course selection for the A.S. degre in CIS or the Computer Support Specialist Certificate should be guided by these requirements. Therefore, it is important for students to check these requirements with companies for which they plan to work. For this, the Career Center and the Cooperative Education Office may be able to help.

A.S. Degree

In order to receive an A.S. degree in Computer and Information Science, students must complete the recommended courses for the transfer program or the certificate requirements listed below for the Computer Support Specialist Program plus the General Education and other requirements for the A.S. degree (see Index: General Education) for a total of 60 semester units.

Certificate Program (Computer Support Specialist)

This program is designed to train students to develop systems in a microcomputer environment or to support such systems. Students may choose to concentrate in applications or systems development. Graduates of this program will be able to support microcomputer systems in companies in numerous industries as those companies take advantage of microcomputer and networking technologies. The program will accommodate those who want to enhance their computer skills as well as those new to computers.

Certificate requirements: CIS 110, 115/116, 119, 150; ELEC 110, 215; ENGL 100; MATH 120 or 122-123 or higher math class; 4 units selected from the following: CIS 240/241 or 250/251; 6-8 units selected from the following: CIS 130/131, 152, 252/253, 270/271, 272/273, 290/291, 304/305, 312, 313, 320, 360/361, 370/371, 641; 5 units selected from the following: CIS 160, 170, 171; BUS. 303, 304, 311,
Cooperative Education

Cooperative Work Experience Education enables students to earn college credit for work and learning done on their current job. The job must be major or career related. Cooperative Education involves: a. students attending CSM full or part time and working full or part time; or b. students working full time one semester and attending CSM the next. These programs allow students to earn additional college credit while learning through an actual job experience. Cooperative Education provides the opportunity to use classroom theory in the job setting. Further information is available in the Cooperative Education Office, located in the Career Development Center in Building 5, telephone 574-6171.

Cosmetology

Associate in Arts Degree with a Major in Cosmetology; Certificate Program

The Cosmetology Program consists of 1600 hours training in theory and practical skills in all phases of beauty culture. Units are based on hours in attendance.

High school preparation: Completion of tenth grade or equivalent is required by State Law. Students must be 17 years of age to be eligible for State Examination. Note: High school students may enroll in cosmetology training at College of San Mateo in their junior or senior year by contacting their respective schools and the Cosmetology Department.

Priorities for Admission: (1) San Mateo County residence. (2) High school graduation or equivalent and 18 years of age or older. (3) Applications will be reviewed according to date and time of receipt in Bldg. 21, Rm. 101. Contact the Cosmetology Department, 574-6363, for application information and forms.

When space is available, students with previous training may be eligible for admission to the Advanced Standing program in Cosmetology within a one-year period of withdrawal from a previous school and upon submission of State Board records to the Cosmetology Department. No student who has completed more than 800 hours of approved training in another school will be admitted to the Advanced Standing program.

A.A. Degree

Major requirements: COSM 712, 722, 732, 742, with a grade of C or higher in each course; BUS. 115. Total: 43 semester units.

Suggested electives: FASH 113; BUS. 101; ACTG 100; PSYC 100; SOCI 100; SPCH 120.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

One-Year Certificate Program

Upon satisfactory completion of 1600 hours (with grades of C or higher), students will be qualified to take the California State Board of Cosmetology examination for licensure as a cosmetologist.

Certificate requirements: COSM 712, 722, 732, 742, all with a grade of C or higher. Total: 40 semester units.

Special Courses in Cosmetology

COSM 750, Brush-up: refresher course to upgrade skills for students who have satisfactorily completed an approved course of training with a minimum of 1600 hours or for out-of-state cosmetologists in preparation for the California State Board of Cosmetology Examination.

COSM 754, Manicuring: completion of 350 hours prepares a student to take the California State Board of Cosmetology Examination in Manicuring and subsequent employment in this field only.

COSM 760, Cosmetology Instruction Preparation: preparation for California State Board of Cosmetology Instructor examination; 600 hours instructor training plus up to 150 hours, if necessary, to correct deficiencies.

Data Processing

(See Computer and Information Science and Business: Business Information Processing)

Dental Assisting

Associate in Science Degree with a Major in Dental Assisting; Certificate Program

Admission Requirements: To be eligible for enrollment in the Dental Assisting programs, the applicant must:
1. be a high school graduate or equivalent;
2. have completed high school math or algebra and one year of keyboarding and English or their equivalent with a C grade or better;
3. attain placement in ENGL 801 or eligibility for ENGL 800;
4. be admitted to the college and have a C average in all completed college courses.

A.S. Degree

Major requirements: DENT 711, 712, 713, 721, 722, 731, 732, 735, 741, 742, 751, 752, 763; BUS. 115; PSYC 108 or SOCI 100; SPCH 120; COOP 647 (2.5 units). Total: 40 semester units.

A grade of C or higher is required for all Dental Assisting courses.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Certificate Program

One-Year Certificate

First Semester

DENT 711, 721, 731, 735, 741, 751, 763, READ 812 or ENGL 830 for 17.5-20 semester units.

Second Semester

DENT 712, 713, 722, 732, 742, 752; COOP 647; SPCH 850. Total for 15.5 semester units.

Total: 33-35.5 semester units.

The College of San Mateo Dental Assisting Certificate will be awarded to all students completing the above required courses with a grade of C or better.

Upon successful completion of either program with a grade of C or higher in all courses required for the certificate, the student is eligible to take the National Certification Examination to become a Certified Dental Assistant, and the California Registration Examination to become a Registered Dental Assistant.
Drafting Technology

Associate in Science Degree with a major in Drafting Technology; Transfer Program; Certificate Program

Recommended high school preparation: elementary algebra and mechanical drawing. Students should check course descriptions and prerequisites and discuss recommended sequence with counselors/advisors.

Career Opportunities: Drafting is common to all manufacturing and construction activities. The draftsman interprets the engineer’s ideas, presenting them in the language of manufacturing and construction. Graduates of the Drafting Technology Program have several opportunities available. They may go directly into industry as a draftsman with the potential to be a designer. They also have the option of continuing their education at one of the state colleges in pursuit of a Bachelor’s degree in Industrial Technology.

A.S. Degree

Major requirements: DRAF 201,202, 301,302. Total: 28 semester units.

Suggested electives: ELEC 110; MANU 120; PHYS 100.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.S. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Certificate Program

Certificate requirements: completion of A.S. degree major requirements listed above and DRAF 400; MANU 102 or MATH 130; ELEC 110; MTT 200 or 750; MANU 100 or PHYS 100 or 210, MANU 120 with a grade of C or higher in each course. Total: 45 semester units.

Computer Aided Drafting (CAD)

Certificate Program

Certificate requirements: 3 units selected from: DRAF 120, 201, TA&G 201, COOP 647; 9 units selected from DRAF 121, 100 (plus special project), 122, 123; 3 units selected from BUS 300, 344, 345, CIS 110; 3 units selected from ARCH 120, 140, ELEC 110, 210, 215, 260; ENGR 210; MTT 703; TA&G 165. Total: 18 semester units.

Education

Transfer Program

Students who are planning for a career in teaching at the elementary or secondary level should concentrate on meeting the General Education requirements of the college they plan to attend. The program of courses recommended for a student who plans to teach will, to a considerable degree, depend upon the credential sought and the teacher education college the student plans to attend. However, EDUC 100 should be taken as an introduction to this profession.

Electronics Technology

Associate in Science Degree with a major in Electronics Technology; Transfer Program; Certificate Program

A.S. Degree (Day)

Major requirements: ELEC 200* or 201/202*, 210, 250, 260, 280, 300, 302, 310, 330, 350, 360, 362 with a GPA of 2.0 or higher. Total: 41.5-42.5 semester units.

Suggested electives: BUS, 100, 301 or 303, 305 or 307; CIS 150, 230/231, 250/251; DRAF 120; ELEC 386; PHYS 100 or 210

*To meet math requirement, ELEC 230 or 231/232 or MATH 120 or equivalent must be taken concurrently with ELEC 200 or 201/202. Students planning to transfer should begin with MATH 120 or higher.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

A.S. Degree (Evening)

Major requirements: ELEC 710* or 201/202*, 720, 260, 730, 310, 360, 740, 280 or 330. Total: 28-30 semester units.

Suggested electives: BUS, 100, 301 or 303, 305 or 307; CIS 150, 230/231, 250/251; DRAF 120; ELEC 386; PHYS 100.

*To meet the math requirement, ELEC 230 or 231/232 or MATH 120 or equivalent must be taken prior to or concurrently with ELEC 710 or 201 and 202.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Certificate Program (Day)

Certificate requirements: completion of A.S. degree major requirements (day) listed above with a G.P.A. of 2.0 or higher.

Certificate Program (Evening)

Certificate requirements: completion of A.S. degree major requirements (evening) with a G.P.A. of 2.0 or higher and no grade lower than a C.

Advanced Placement (Degree/Certificate)

Students with extensive background in electronics from military, industrial or other educational institutions who wish to obtain a degree or certificate must complete a minimum of 19 units from the courses listed below, with a G.P.A. of 2.0 or higher and no grade lower than a C.

Course substitution waiver form must be filed with the Office of Admissions and Records to verify experience and/or course qualification.

Major requirements: ELEC 260, 280, 300, 302, 310, 350, 360, 362, 720, 730, 740; MATH 120 or higher; maximum of 4 units Cooperative Education. Total: 19 semester units for the certificate, plus General Education and other requirements for the A.S. degree (see Index: General Education).

Electronics Technology:

Avionics Systems Maintenance

A.S. Degree

Major Requirements: ELEC 110 or 200 or 242/243 or 710; ELEC 248/249, 340/341, 342/343, 346/347. Total: 28.5-31.5 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Certificate Program

Certificate requirements: completion of A.S. degree major requirements listed above with a G.P.A.
Engineering

Associate in Science Degree with a major in Engineering: Transfer Program

Recommended high school preparation: mathematics (four years); chemistry (one year); physics (one year); mechanical drawing (one year). Students should check course descriptions and prerequisites, and discuss recommended sequence with counselors/advisors.

A.S. Degree

Major Requirements: ENGR 210, 230, 260, 270 plus 5 additional units chosen from the following electives: CHEM 220 or 225, 231; CIS 130/131, 240/241, 250/251, 270/271; ECON 100, 102; ENGR 111, 166; GEOL 210; MATH 200, 270, 275; PHYS 270. Total: 19 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

The basic Engineering program prepares students for transfer with junior standing to a four-year college or university. Students should refer to the catalog of the college of their choice for special requirements; however, the following core subjects were approved unanimously by the Engineering Liaison Committee of the California Community Colleges, State Colleges and Universities, University of California, and private institutions.

The following courses will satisfy the Engineering Liaison Committee core program requirements: CHEM 224-225; CIS 240/241; ENGR 210, 230, 260, 270, 666; MATH 251-252-253, 270, 275; PHYS 250-260-270.

Engineering Technology: General

Associate in Science Degree with a major in Engineering Technology: Transfer Program

Engineering Technology is that part of the engineering field which blends scientific and engineering knowledge with technical skills in research, development and production. The College offers the general education, mathematics, science, engineering, and many of the technical courses for the lower division requirements in Engineering Technology.

A.S. Degree

Major requirements: ARCH 150, 160; ENGR 210; MATH 241-242; 6 elective units selected from area of technology specialization. Total: 24 semester units.

Suggested Electives: ACTG 100; ENGR 666; CIS 250/251; MATH 200; technical courses.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

Recommended courses: Completion of A.S. degree major requirements listed above plus Draf 120; CIS 240/241; ENGR 224; PHYS 210-220. Total: 43 semester units. Students should consult the catalog of the college or university to which they plan to transfer.

Engineering Technology: Electronics

Associate in Science Degree with a major in Engineering Technology: Electronics; Transfer Program

A.S. Degree

Major requirements: ELEC 200 or 201/202, 210, 250, 260, 300, 302, 310, 350, 360, 362 (evening courses ELEC 710, 720, 730, 740 may be substituted for corresponding day courses: ELEC 200 or 201/202, 250, 300, 350); MATH 241, 242. Total: 40.5-41.5 semester units.

Suggested electives: ENGR 666; CIS 230/231, 240/241, 250/251; MATH 200; BUS 301 or 303 or 308.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program (Cal Poly Program)

Recommended courses: completion of A.S. degree major requirements listed above plus PHYS 210, 220; CHEM 224. Students should consult the catalog of the college or university to which they plan to transfer.

English

Associate in Arts Degree with a major in English; Transfer Program

Major requirements: 18 units from English or literature courses. With Language Arts Division approval, certain courses in film, humanities, and foreign languages may be substituted for up to 6 units of English or literature. Total: 18 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Environmental Hazardous Materials Technology

Associate in Science Degree with a major in Environmental Hazardous Materials Technology; Certificate Program

This major prepares students to work with hazardous materials in compliance with governmental regulations and recognized standard industry practices. Emphasis is on practical knowledge and application in the hazardous materials field.

A.S. Degree

Major requirements: EHMT 100, 110, 130, 150, 200, 230; BIOL 110; CHEM 410, 420 cr (for transfer students) CHEM 210, 220; MANU 120. Total 36 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Certificate Program

Certificate requirements: completion of A.S. degree major requirements listed above with a grade of C or higher in each course.
Ethnic Studies

Associate in Arts Degree with a major in Ethnic Studies; Transfer Program

The multicultural emphasis of this program has attracted many persons currently employed in public school systems, social services and human relations, and professionals whose jobs involve interpersonal situations with multiracial groups.

A.A. Degree

Major requirements: ETHN 101, 102; plus 12 units selected from the following courses: ETHN 150, 151, 152, 160, 261, 262, 288, 290, 350, 351, 425, 430, 585. Total: 18 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

The Ethnic Studies program is structured for the student who plans to major in the Social Sciences, Social Welfare, Humanities, Ethnic Studies or related areas in either a two-year program or as transfer to a four-year institution. Ethnic Studies courses are transferable as Social Science, Humanities, Electives or Ethnic Studies, depending upon the respective institution. In addition, Ethnic Studies courses allow public school teachers the opportunity to meet California State requirements in ethnic education.

Transfer Program

Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Certificate Program

Certificate requirements: completion of A.A. degree major requirements listed above with a grade of C or higher in each course. Total: 30 semester units.

Filmmaking

Associate in Arts Degree with a major in Filmmaking; Transfer Program

A.A. Degree

Major requirements: FILM 451, 452, 461, 462 plus at least 6 units selected from FILM 463, 464, 465; ART 201, 301, 350, 351, 352, 353, 354, 355; BUS. 175, 180; ENGL 161, 162. Total: 20 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program

Filmmaking majors should check requirements for transfer to junior standing to the college of their choice or consult with a College of San Mateo counselor/advisor.

A.S. Degree

Major requirements: FIRE 715*, 718, 720, 730, 745; ENGL 835; three units selected from FIRE 705, 714, 725, 740; 14 units selected from State Fire Marshal certification courses, with a grade of C or higher in each course. (To select elective courses, obtain assistance from counselor/advisor.) Total: 35 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

It is recommended that the transfer student take the seven core courses and three units of Fire Technology electives only and concentrate in the area of general education for transfer to a junior standing in a four-year institution.

Certificate Program

Certificate requirements: completion of A.S. degree requirements listed above with a grade of C or higher in each course.

*In all Fire Technology programs, FIRE 715, Introduction to Fire Technology, may be waived for those students who have three or more years of certified service as professional fire fighters. (A letter verifying service must be filed with the Office of Admissions and Records.) If FIRE 715 is waived, another three units of Fire Technology courses must be substituted. FIRE 785, EHM 100 may be used to satisfy Fire Technology elective requirements.

Floristry

(See Horticulture: Floristry)
Foreign Languages
(See specific headings for majors in French, German and Spanish.)

French
Associate in Arts Degree with a major in French; Transfer Program

A.A. Degree
Major requirements: completion of 18 units of French language courses (excluding the 800 series). Total: 18 semester units.

With Language Arts Division approval, ART 103 and HIST 101 may be accepted as part of the 18 units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Geological Sciences
Associate in Science Degree with a major in Geological Sciences; Transfer Program

A.S. Degree
Major requirements: CHEM 210, 220; GEOL 210; OCEN 100, 101; PALN 110. Total: 21 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program
Recommended courses: major requirements for the A.S. Degree plus MATH 241-242 or 251-252; PHYS 210-220 or 250, 260, 270.

The mathematics and physics requirements vary at different four-year institutions. Consult the appropriate college catalog or your counselor/advisor for specific requirements.

German
Associate in Arts Degree with a major in German; Transfer Program

A.A. Degree
Major requirements: completion of 18 units of German language courses (excluding the 800 series). Total: 18 semester units.

With Language Arts Division approval, HIST 101 may be accepted as part of the 18 units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Horticulture
Career Opportunities: The horticulture program provides excellent preparation for immediate employment in the field. Employment opportunities include landscape construction and design, greenhouse nursery production, retail nursery sales, park/golf course management, garden maintenance, interior plantscaping, pest control, and floristry. In addition, the program prepares students for transfer to a four-year institution.

Horticulture: Environmental
Associate in Science Degree with a major in Environmental Horticulture; Certificate Program; Transfer Program.

A.S. Degree
Option 1: (Landscape Construction/Design)
Major requirements: HORT 311 or 711, 312 or 712, 315 or 701 and 702, 327 or 705, and one of the following: HORT 742, 706 or 325, 320; BIOL 145 or 110 (evening only); HORT 342 or 721, 340 or 709. Total: 21-27 semester units.

Option 2: (Nursery Management)
Major requirements: HORT 311 or 711, 312 or 712, 315 or 701 and 702, 327 or 705, and one of the following: HORT 742, 706 or 325, 320; BIOL 145, 110 (evening only); HORT 340 or 709, 330 or 777 and 778. Total: 21-30 semester units.

Option 3: (Landscape Management)
Major requirements: HORT 311 or 711, 312 or 712, 315 or 701 and 702, 327 or 705, and one of the following: HORT 742, 706 or 325, 320; BIOL 145, 110 (evening only); HORT 342 or 721, 330 or 777 and 778. Total: 21-30 semester units.

Grade C or higher required in all horticulture courses. Plus General Education and other requirements for the A.S. Degree (see Index: General Education).

Certificate Program
Options 1, 2, and 3
Certificate requirements: completion of A.S. degree major requirements listed above with a grade of C or higher in each course.

Transfer Program
Recommended courses: completion of A.S. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Horticulture: Floristry
Associate in Arts Degree with a major in Floristry; Certificate Program; Transfer Program.

A.A. Degree
Major requirements: HORT 411, 413, 414, 415, 416, 417, 418, 420 with a grade of C or higher in each course. Total: 24 semester units.

Certificate Program
Certificate requirements: completion of A.A. degree major requirements listed above with grade of C or higher in each course.

Suggested elective: HORT 325.

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.
Humanities
Associate in Arts Degree with a major in Humanities; Transfer Program

A.A. Degree
Major requirements: HUM. 111, 112, 113, 114; plus 6 units of electives selected from the list of courses satisfying the A.A./A.S. Degree Humanities requirements (see Index: General Education). Total: 18 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Life Sciences
Transfer Program
Recommended high school preparation: biology (1 year); chemistry (1 year); physics (1 year); mathematics (algebra, 2 years; geometry, 1 year; trigonometry, 1 semester).

For those students who wish to major in Biological Science or Medical Science and have little or no high school preparation in one or more of the above subjects, the following courses should be completed prior to attempting courses in the major sequence: BIOL 110; CHEM 192; MATH 110 or other appropriate level of math; PHYS 100.

The programs outlined below are typical of requirements to transfer with junior standing to a four-year college or university. In order to meet the requirements of specific institutions, the students should refer to the catalog of the college of their choice.

A.S. Degree
Major requirements: BIOL 210, 220, 230; CHEM 210. Total: 19 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program
Recommended courses: A.S. Degree major requirements; CHEM 220, 231, 232; MATH 120, 130; 12 units of biology electives (excluding BIOL 100 and 110); 8-12 units selected from PHYS 210, 220 or PHYS 250, 260, 270. Total: 62-66 semester units.

Students should consult the catalog of the college or university to which they plan to transfer.

Life Sciences: General
Associate in Arts Degree with a major in Life Sciences

For students who wish to receive a general life sciences degree but who do not necessarily plan on transferring to a four-year institution as biology majors. Those who plan on transferring as biology majors in various areas of life sciences should refer to the transfer programs listed below.

A.A. Degree
Major requirements: 4-5 units selected from BIOL 110, 210, 220, 230; 12-15 units selected from BIOL 102, 110, 111, 125, 130, 140, 145, 150, 160, 180, 184, 200, 210, 220, 230; 3 units from physical science. Total: 19-23 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Students are encouraged to group courses as follows to emphasize their major interests and to meet personal or academic needs:

Human Biology: BIOL 110, 125, 130, 160; CHEM 410 or 210.

Marine Biology: BIOL 110, 111, 150, 200; OCEN 100 or GEOL 100.

Natural History: BIOL 110, 111, 150, 200; GEOL 100 or METE 100 or GEOG 100.

Wildlife/Forestry: BIOL 102, 110, 111, 200, 180 or 184; GEOL 100 or METE 100.

Life Sciences: Medical
Associate in Science Degree with a major in Medical Sciences (Pre-Medical, Pre-Dental, Pre-Veterinarian, Medicine, etc.); Transfer Program

A.S. Degree
Major requirements: BIOL 210, 230; CHEM 210. Total: 19 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program
Recommended courses: 15 units selected from BIOL 240, 250, 260; 15-20 units selected from CHEM 210, 220, 231, 232; 8-15 units selected from MATH 241-242 or 251-252-253; 8-12 units selected from PHYS 210, 220 or 250, 260, 270. Total: 44-70 semester units.
Life Sciences: Pre-Nursing

Associate in Science Degree with a major in Pre-Nursing; Transfer Program

A.S. Degree

Major requirements: BIOL 240, 250, 260; CHEM 210-220 or 410-420. Total: 22-24 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

Recommended courses: A.S. degree major requirements; 4-12 units biology electives (excluding BIOL 100 and 110); 3-8 units science electives (PHYS 100, 210, or 220). Total: 29-36 semester units. Students should consult the catalog of the college or university to which they plan to transfer.

Machine Tool Technology

Associate in Science Degree with a major in Machine Tool Technology; Transfer Program; Certificate Program

The Machine Tool Technology major will utilize knowledge and skills in drafting, machining, fabrication, applied mathematics, welding, industrial computer, power systems, and other related subjects. Classes will focus on the applied technology through a combination of theory and laboratory.

Since this major focuses on a wide range of subject material and is less specialized than the single field major, graduates of the program will have a working knowledge in a wide range of manufacturing processes and may be qualified to work in the areas including machinist, engineering prototype, applied design, equipment modification, maintenance and repair, and related industrial activities.

Career Opportunities: The Machine Tool technician is a vital figure in any manufacturing industry. He or she must work from blueprints, understand manufacturing processes, and fabricate necessary parts through the use of lathes, mills, drills, grinding, numerical-control programming and many other processes.

A.S. Degree

Major requirements: MTT 110, 111, 120, 121, 210, 211, 220, 221, 702, 703, 704, 710, 720; DRAF 120; MANU 101, 102; WELD 300. Total: 34 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.S. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Certificate Program (Day)

Certificate requirements: completion of A.S. degree requirements listed above, with a G.P.A. of 2.0 or higher.

Certificate Program (Evening)

This program for the general machinist includes machine tool operations for lathes, mills, drill, cutter design and grinding, and many more related topics. Students are required to supply safety glasses, texts, and basic classroom materials. MTT 750 may be substituted for MTT 200 to fulfill the drafting requirement.

Certificate requirements: MTT 701 or MANU 101; MTT 702, 750, 755, 760; plus six units selected from MTT 703; DRAF 120; ELEC 110; WELD 300, with a G.P.A. of 2.0 or higher. Total: 19 semester units.

Machine Tool Technology: Computer Numerical Control Programming

Certificate Program

This program includes work designed for upgrade of employed machinists or those with manufacturing experience or training. Instructional units include math, blueprint reading, manual and computer programming, and production problems.

Certificate requirements: MTT 200 or 750 or industrial experience; MTT 701 or MANU 102; MTT 702, 703, 704; 4 additional units in MTT or Cooperative Education, with a G.P.A. of 2.0 or higher. Total: 18-21 semester units.

Recommended Elective: CIS 115/116.

Management

Associate in Arts Degree with a major in Management; Certificate Program

The program is designed for persons working at the supervisory level or for those interested in supervisory positions. An advisory committee composed of representatives from various types of business and industrial organizations has assisted the College staff in the development of the program.

A.A. Degree

(Management: Business Management)

Major requirements: BUS. 100; MGMT 100, 235; ACTG 100 or 3 units from the BUS. 300 series plus 12 semester units selected from the following: BUS. 101; BUS. 150 or 701 and 705 and 720; BUS. 170, 180; CIS 110; MGMT 105, 110, 120, 215, 220, 641. Total: 24 semester units.

(Management: Small Business Management)

Major requirements: BUS. 100; BUS. 150 or 701, 705, 720; ACTG 100 or 3 units from the BUS. 300 Series; MGMT 100 plus 12 units selected from the following: BUS. 101, 180, 201; CIS 110; MGMT 105, 110, 120, 215, 220, 235, 641. Total: 24 semester units.

(Management: Marketing Management)

Major requirements: MGMT 100, 235; BUS. 100, 180 plus 12 semester units selected from the following: BUS. 175; CIS 110; MGMT 105, 110, 120, 215; 1.3 units from the BUS. 300 series. Total: 24 units.

Plus General Education and other requirements for the A.A. degree, (see index: General Education).

Certificate Program

The Certificate in Management can be earned in Business Management, Small Business Management, and Marketing Management. It will be awarded upon completion of the major requirements listed above with a grade of C or higher in each course.
Mathematics

Associate in Science Degree with a major in Mathematics; Transfer Program

Recommended high school preparation: Four years of high school level mathematics, physics (one year), mechanical drawing (one year), two or more years of a foreign language (German, French, or Russian).

A.S. Degree Program

Major requirements: MATH 231; MATH 251-252-253; 6 to 8 units selected from MATH 200, 268, 270, 275 or CIS 240/241, 250/251, 270/271. Total: 22-25 semester units.

Plus General Education and other requirements for the A.A./A.S. degree (see Index: General Education).

Transfer Program

College of San Mateo offers a wide variety of courses for students who wish to major in Mathematics, enabling them to transfer to a university or four-year college at the end of the sophomore year. Students should consult the catalog of the college of their choice for special requirements.

Medical Assisting

Associate in Arts Degree with a major in Medical Assisting; Certificate Program

Recommended high school preparation: written and oral communication skills, typing, biology, psychology, and basic mathematics.

Career Opportunities for persons trained as medical assistants occur primarily in physicians' offices and clinics. Related positions are found in hospitals, insurance companies, medical publishing firms, laboratories, and pharmaceutical firms.

A.A. Degree

Major requirements: ACTG 100; BIOL 130; COOP 641 (Medical 3 units), MEDA 100, 110, 115, 120, 121, 140, 150, 160, 190. Total: 38 semester units.

Plus General Education and other requirements for the A.A./A.S. degree (see Index: General Education).

Certificate

Certificate requirements: completion of the above A.A. degree major requirements with a grade of C or higher in each course.

Medical Assisting: Medical Transcription

Associate in Arts Degree with a major in Medical Transcription; Certificate Program

A.A. Degree

Major requirements: BIOL 130; BUS. 300, 307, 303-304-366, 321; MEDA 110, 115, 140, 141, 160, 190 with a grade of C or higher in each course. Total: 27 semester units.

Certificate

Certificate requirements: completion of the above A.A. degree major requirements with a grade of C or higher in each course.

Military Science

Military Science is offered to qualified students on a full-time basis at College of San Mateo. Classes and leadership laboratory are conducted at San Jose State University under the supervision of the Professor of Military Science, San Jose State University.

Students may complete the first two years of Army ROTC while enrolled at College of San Mateo and qualify for enrollment in the advanced course (third and fourth year) at degree granting colleges and universities. Completion of ROTC and a baccalaureate degree qualify students for a commission in the United States Army Reserve or Regular Army.

Students may obtain enrollment forms from their counselor/ advisor or the Department of Military Science, San Jose State University (telephone 408/924-2920).

Naval ROTC

College of San Mateo students may enroll in Navy ROTC at the University of California, Berkeley. Interested students should contact the Department of Naval Science, University of California, Berkeley, (telephone 642-3551) for further information.

Music

Associate in Arts Degree with a major in Music; Transfer Program

A.A. Degree

Major requirements: 9 units from MUS 100, 101, 102, 103, 131, 132, 133, 170; 3 units from MUS 202, 275; 6 units from MUS. 170, 430, 451, 453, 460, 470, 490; 3 units from MUS. 301, 302, 303, 304, 320, 340, 360, 371, 372, 402, 403. Total: 21 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Nursing

Registered Nursing Program

Associate in Science Degree with a major in Nursing; Transfer Program

The College of San Mateo Nursing Program provides students with opportunities for learning at the College, local hospitals, and related health agencies. Clinical practice begins early in the first semester. A graduate of this program is prepared to care for patients in homes, hospitals, clinics, and doctor's offices.

Upon graduation, the candidate receives an Associate in Science degree and is eligible to take the California Registered Nursing examination. The graduate is also eligible to transfer to a four-year nursing program.

Admission Requirements: to be eligible for enrollment in the program, the applicant must:
1. Be a high school graduate or equivalent.
2. Have completed within the last five years MATH 110 with a grade of C or higher or passed the CSM Math Placement Test 2 with a score of 21 or higher.
3. Have completed one year of high school chemistry with lab or CHEM 410 or equivalent with a grade of C or higher.
4. Have completed within the last five years BIOL 250 or 265 or equivalent with a grade of C or higher.
5. Be eligible for ENGL 100.
6. Have a cumulative G.P.A. of 2.5 in all courses taken towards the nursing major.

A.S. Degree Program

Major requirements: NURS 211, 212, 221, 222, 231, 232, 241, 242; BIOL 240, 250-260 or 265-266; PSYC 100, 201; SOCI 100; SPCH 100 or 120; ENGL 100. Total: 66-67 semester units. Each course must be completed with a grade of C or
higher to qualify for the California State R.N. licensing examination.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Students interested in an LVN upgrade through the ADN plan or 30 Unit Option should call the Nursing Department at 574-6219 for additional information. Students who wish to transfer into the nursing program or challenge nursing courses should also call the Nursing Department.

Transfer Program

Students who intend to transfer with a major in Nursing should plan their course at College of San Mateo to meet the general requirements for junior standing, as well as the lower division departmental requirements, of the college or university to which they wish to transfer.

Please refer to Life Sciences: Pre-Nursing Program in this catalog.

Physical Science

Associate in Science Degree with a major in Physical Science; Transfer Program

Recommended high school preparation: elementary algebra, plane geometry, intermediate algebra, trigonometry, chemistry, physics.

A.S. Degree

Major requirements: at least one course in each of the following areas: ASTR 100, 101; CHEM 100, 410, 210; GEOL 100, 210; PHYS 100, 210, 220, 250. Total: 18 semester units.

Suggested Electives: CHEM 231, 250; HUM. 113, 125, 127, 128; CIS 420/421, 250/251; MATH 251, 252, 253; MATH 275; METE 100; PHYS 250, 260, 270; PSCI 100.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.S. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Physics

Associate in Science Degree with a major in Physics; Transfer Program

A.S. Degree

Major requirements: PHYS 250, 260, 270; plus 6 units from CHEM 210, 220, 224, 225, 231, 232, 250; CIS 420/421, 250/251, 270/271; MATH 200, 251, 252, 253 and 270, 275. (Note: A student completing both CHEM 210 and CHEM 224, will receive credit for CHEM 210 only; a student completing both CHEM 220 and CHEM 225, will receive credit for CHEM 220 only.) Total: 18 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.S. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Plumbing and Pipe Fitting

Associate in Science Degree with a major in Plumbing and Pipe Fitting; Certificate Program

The courses required for this degree are administered by College of San Mateo in conjunction with the Joint Apprenticeship and Training Council. Registration is limited to those individuals fulfilling the related instruction requirements of the State of California as an indentured apprentice. For information, contact the Plumbers JATC or the college Apprenticeship Related and Supplemental Training Coordinator.

Required high school preparation: at least 18 years of age, high school graduate or GED, one semester of algebra with a grade of C or higher, and one other semester of high school math with grade of C or higher.

A.S. Degree

Major requirements: PLUM 701, 702, 703, 704, 705, 706, 707, 708, 709, 710. Total: 35 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Certificate Program

Certificate requirements: completion of A.S. degree requirements listed above with a grade of C or higher.

Real Estate

Associate in Arts Degree with a major in Real Estate; Certificate Program

For a degree or certificate, a grade of C or higher is required in each course.

A.A. Degree

Major requirements: BUS. 100 or MGMT 100; RÉ. 100*, 105*, 110, 121, 131, 141, 260. Total: 18-24 semester units.

Suggested electives: ACTG 100 or 121; ARCH 100; BUS. 101, 170, 175, 150, 201, 401; BUS. 305 or 307; CIS 110; ECON 100, 102; PSYC 100.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).
Certificate Program
Certificate requirements: R.E. 100*, 105*, 110, 121, 131, 141, 200; 15 units selected from the following: 105 (if not taken to fulfill requirement), 122, 132, 142, 143, 145, 205, 210, 215, 220, 225, 230, 235, 301, 303, 305, 311, 313 with a grade of C or higher in each course. Total: 30-36 semester units.
* R.E. 100 and 105 are not required for persons with real estate broker’s or salesperson’s license. A photocopy of license must be filed with the Office of Admissions and Records.

Recreation Education

Transfer Program
Recommended high school preparation: see Physical Education Transfer Program.

Students who intend to transfer to a major in Recreation Education should enroll and participate in two P.E. activity classes per semester. Participation on at least one varsity athletic team is also recommended. (The semester of varsity participation would satisfy the two activity classes recommended for that semester.)

Suggested Electives: Biology, Chemistry, Anatomy, Physiology, Physics, Sports Psychology, and Health Science.

Refrigeration and Air Conditioning Mechanics

Associate in Science Degree with a major in Refrigeration and Air Conditioning Mechanics; Certificate Program

The courses required for this degree are administered by College of San Mateo in conjunction with the Joint Apprenticeship and Training Council. Registration is limited to those individuals fulfilling the related instruction requirements of the State of California as an indentured apprentice. For information, contact the Plumbers JATC or the college Apprenticeship Related and Supplemental Training Coordinator.

Required high school preparation: at least 18 years of age, high school graduate or GED, one semester of algebra with a grade of C or higher, and one other semester of high school math with a grade of C or higher.

A.S. Degree
Major requirements: PLUM 741, 742, 743, 744, 745, 746, 747, 748, 749, 750. Total: 35 semester units.

Plus General Education and other requirements for the A.S. degree (see Index: General Education).

Certificate Program
Certificate requirements: completion of A.S. degree requirements listed above with a grade of C or higher.

Social Science

Associate in Arts Degree with a major in Social Science; Transfer Program

Social Science fields are many and varied, and include such areas as Cultural Anthropology, Economics, Ethnic Studies, Geography, History, International Relations, Philosophy, Political Science, Psychology, and Sociology. Students should refer to the catalog of the college of their choice for special requirements.

A.A. Degree
Major requirements: ENGL 195 (recommended that this be taken concurrently with the student’s second course in the Social Sciences) plus 18 units selected from at least 3 of the following, with a minimum of 2 courses in one of the following: anthropology; economics (not including ECON 123); ethnic studies (not including ETHN 288, 350, 351, 585); geography (not including GEOG 100); history; political science; psychology (not including PSYC 121); social science (not including SOSC 111); sociology. Total: 19 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Spanish

Associate in Arts Degree with a major in Spanish; Transfer Program; Departmental Certification

A.A. Degree
Major requirements: completion of 18 units of Spanish language courses (excluding the 800 series). Total: 18 semester units.

With Language Arts Division approval, ANTH 110 may be accepted as part of the 18 units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Departmental Certification
Students who feel written proof of their proficiency in Spanish would be beneficial to their careers may apply for Departmental Certification after they have completed SPAN 140 and a minimum of two additional units and have passed the department tests on aural comprehension and speaking fluency.

Speech

Associate in Arts Degree with a major in Speech; Transfer Program

A.A. Degree
Major requirements: SPCH 100, 111 or 112, 120, 130, 150; 6 units selected from English or literature courses. Total: 21 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program
Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.
Technical Art and Graphics

Associate in Arts Degree with a major in Technical Art/Graphics; Transfer Program; Certificate Program

Career Opportunities: numerous opportunities for artists with technical art and graphics training, including research and development centers, technical publications, manufacturing plants, state and federal bureaus, educational institutions, and advertising agencies.

A.A. Degree

Major requirements: TA&G 201-202, 210, 220, 230, 300, 310, 352; TA&G 400 or 641; ART 202 or 328. Total: 36 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Certificate Program

Certificate requirements: completion of A.A. degree major requirements listed above with a grade of C or higher in each course. Total: 36 semester units.

Technical Art and Graphics: Industrial Design

Transfer Program

Career Opportunities: industrial designers work for manufacturing companies and independent design offices. Today, nearly every manufacturer of consumer hard goods, housewares, appliances, automobiles, and electronic equipment has a design staff or retains a consultant.

Students should refer to the catalog of the college of their choice for special requirements since the three California colleges approved by the Industrial Design Society of America vary considerably in their recommendations for undergraduate preparation.

Recommended courses: TA&G 201, 210, 220, 310. Total: 18 semester units.

Suggested Electives: MANU 120.

In addition, the three colleges referred to above typically also require these courses:

ART 102, 103; BIOL 110; ECON 100; PHYS 210, 220; SPCH 100.

Vocational Gardening

(See Horticulture)

Welding Technology

Associate in Science Degree with a Major in Welding Technology; Transfer Program; Certificate Programs

Recommended high school preparation: high school graduate or equivalent or 18 years of age, elementary algebra, physics, mechanical drawing, drafting, keyboarding, or word processing.

A.S. Degree

Major requirements: WELD 110, 111, 120, 121, 210, 211, 220, 221, 250; DRAF 120; ELEC 110; MANU 101, 200; PHYS 100 or MANU 100. Total: 48 semester units.

Plus General Education and other requirements for the A.A. degree (see Index: General Education).

Transfer Program

Recommended courses: completion of A.A. degree requirements listed above. Students should consult the catalog of the college or university to which they plan to transfer.

Welding Technology: Welding Technician

Certificate Program

Certificate requirements: completion of the major requirements listed above with a G.P.A. of 2.0 or higher.

Welding Technology: General Welder

Certificate Program

Recommended high school preparation: elementary algebra, physics, mechanical drawing.

Certificate requirements: WELD 110, 111, 120, 121, 250; DRAF 120; MANU 101, 200; PHYS 100 or MANU 100. Total: 27 semester units.

Welding Technology: Manufacturing Technology (formerly TIG Welder)

Certificate Program

Career Opportunities: The field of manufacturing technology offers employment in automobiles, aircraft, guided missiles, nuclear energy, railroads, radio, television, appliances, department stores and food processing plants.

Certificate requirements: WELD 300, 700; DRAF 120; ELEC 110; MTT 200 or 750; MTT 701 or MANU 101; MTT 755; DRAF 100; WELD 250 plus 3 units selected from BUS. 300, 303, and 304 or 301, 302 and 365 or ELEC 260 or 280 or MTT 702, 703 or 755 or BHMT 100. Total: 24 semester units.

Women’s Studies

College of San Mateo currently offers Women’s Studies courses in various academic disciplines. These include HIST 260: Women in American History (3 units), which surveys the accomplishments of American women from colonial times to the present. The roles played by American women of different racial and local origins are explored in depth. LIT 251: Women in Literature (3 units) investigates the images of women in English and American literature and introduces students to important contemporary women writers. PLSC 255: Women, Politics and Power (3 units) examines the changing role of women in the American political process. CRER 101-102-103: College Re-Entry (1-3 units) analyzes the student’s present abilities and interests, develops college-level study skills, examines career opportunities for women, and prepares academic and career counseling in a milieu supportive of women.

An academic major in Women’s Studies is now available at some four-year colleges and universities. Students interested in majoring in Women’s Studies should consult the catalog of the college of their choice for detailed information. In addition, the College of San Mateo offers a College Re-Entry Program for students whose formal education has been interrupted or postponed (see Index: Re-Entry Program).
Description of Courses

The following special courses may be offered in instructional programs as recommended by the appropriate Division Dean and approved by the Committee on Instruction. See class schedule for specific course descriptions and current semester offerings.

641 Cooperative Education (1-4) (Credit/No Credit or letter grade option.) Work experience in a field related to a career goal, supplemented by individual counseling from an instructor-coordinator. (See Index: "Cooperative Education.") (CSU)

680 – 689 Selected Topics (1-3) Hours by arrangement. Selected topics not covered by regular catalog offerings. Course content and unit credit to be determined by the appropriate division in relation to community-student need and/or available staff. May be offered as a seminar, lecture, or lecture/laboratory class. (CSU)

690 Special Projects (1-2) Hours by arrangement. Prerequisite: 3.0 G.P.A. in subject field. Independent study in a specific field or topic, directed by an instructor and supervised by the Division Dean. Students are eligible to request approval of a special project only after successfully completing at least two college-level courses in the subject field. (Note: Students normally may receive credit for only one special project per semester.) (CSU)

680 and 690 courses are also transferable to UC, contingent upon a review of the course outline by a UC campus. Maximum credit allowed in Selected Topics and Special Projects is 3 units per term, with 6 units total in any or all subject areas combined.

880 – 889 Selected Topics (1-3) Hours by arrangement. Nontransferable course. Selected topics not covered by regular catalog offerings. Course content and unit credit to be determined by the appropriate division in relation to community-student need and/or available staff. May be offered as a seminar, lecture, or lecture/laboratory class.

California Articulation Number (CAN)

The California Articulation Number (CAN) identifies some of the transferable lower-division introductory courses commonly taught within each academic discipline on college campuses.

The system assures students that CAN courses on one participating campus will be accepted in lieu of the comparable CAN course on another participating campus.

The CAN system is new and growing and designed to facilitate student transfer between and among public institutions of higher education in California. CANs are listed parenthetically after the course description in the section which follows.

Accounting

100 Accounting Procedures (3) Three lecture hours per week. Prerequisite: completion of or concurrent enrollment in BUS. 115 or 810 or equivalent. Recommended Preparation: eligibility for ENGL 800. Introductory course to prepare students to record business transactions using a formal accounting system. Includes practical applications of accounting procedures for both a merchandising and service business. A computer is used to practice the accounting procedures. (CSU)

121 Financial Accounting (5) Five lecture hours plus two lab hours by arrangement per week. Prerequisites: BUS. 115 or MATH 110 or equivalent and eligibility for ENGL 800. Recommended Preparation: completion of thirty or more college units. Study of generally accepted accounting principles, procedures, and concepts that apply to sole proprietorships, partnerships, and corporations. Practice in applying theory to the accumulation and recording of accounting data, leading to preparation of financial statements. (CSU/UC) (CAN BUS 2)

131 Managerial Accounting (5) Five lecture hours plus two lab hours by arrangement per week. Prerequisite: BUS. 311; ACTG 121 or equivalent with a grade of C or higher. Introduction to uses of accounting information by management for analysis, planning, decision-making, and control. Includes product cost accumulation, cost-volume-profit analysis, responsibility accounting, budgeting, and long- and short-term decision-making including capital budgeting. (CSU/UC)

142 Automated Accounting (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Prerequisite: ACTG 100 or 121 or equivalent. Practical application of accounting procedures utilizing a microcomputer and an integrated accounting software package. Study of software and hardware evaluation, internal control issues, and systems implementation as they apply to a computerized accounting environment. Manual to automated system conversion. (CSU)

171 Federal Income Tax I (3) Three lecture hours per week. Prerequisite: ACTG 121 or equivalent. Procedures for computing the income tax liability of individuals in accordance with the latest income tax laws and regulations. Practice in solving typical problems and in the preparation of tax returns.

172 Federal Income Tax II (3) Three lecture hours per week. Prerequisite: ACTG 121 or equivalent. Procedures for computing the income tax liability of partnerships, corporations, estates, and trusts in accordance with the latest income tax laws and regulations. Practice in solving typical problems in the preparation of tax returns.

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With Limitations
Administration of Justice

(Law Enforcement)

100 Introduction to Administration of Justice (3) Three lecture hours per week. Required of all Administration of Justice majors. Recommended Preparation: eligibility for ENGL 800. History and philosophy of administration of justice in America; recapitulation of the system; identification of the various subsystems, role expectations, and their interrelationships; theories of crime; education, and training for professionalism in the system. (This course is part of the core curriculum.) (CSU/UC*)

102 Principles and Procedures of the Justice System (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Detailed study of the role and responsibilities of each segment of the administration of justice system: law enforcement, judiciary, and corrections. Analysis of past, present, and future exposure to each subsystem; procedures from initial entry to final disposition; and the relationship each segment maintains with its system members. (This course is part of the core curriculum.) (CSU/UC*)

104 Concepts in Criminal Law (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Historical development; philosophy of law and constitutional provisions; definitions; classifications of crime and their application to the system of administration of justice; legal research, study of case law, and methodology and concepts of law as a social force. (This course is part of the core curriculum.) (CSU/UC) (CAN AJ 4)

106 Legal Aspects of Evidence (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Origin, development, philosophy, and constitutional basis of evidence; constitutional and procedural considerations affecting arrest, search, and seizure; kinds and degrees of evidence and rules governing their admissibility; judicial decisions interpreting individual rights and case studies. (This course is part of the core curriculum.) (CSU) (CAN AJ 6)

108 Community Relations (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Comprehensive exploration of the roles of administration of justice practitioners and their agencies. Analysis of relationships between agencies and the public. Emphasizes the professional image of the system of justice administration and the development of positive relationships between the system and the public. (This course is part of the core curriculum.) (CSU/UC)

120 Criminal Investigation (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Basic principles of criminal investigations. Includes human aspects of dealing with the public; specific knowledge necessary for handling crime scenes; interviews, evidence, surveillance, follow-up, technical resources, and case preparation. (CSU)

125 Juvenile Procedures (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of extent, causes, and prevention of juvenile delinquency; analysis of juvenile courts, probation, institutional treatment, and parole and prevention programs. The sociological and anthropological approaches to juvenile delinquency in terms of their relation to the administration of justice systems. (CSU)

153 Patrol Procedures (3) Three lecture hours per week. Prerequisite: completion of or concurrent enrollment in ADMJ 100. Recommended Preparation: eligibility for ENGL 800. Methods, techniques, and responsibilities of the patrol unit. The value of a one-person car as opposed to a two-person car; marked vs. unmarked patrol cars; beat patrol and observation; police hazards and how to handle them. (CSU)

165 Police Organization and Administration (3) Three lecture hours per week. Prerequisites: ADMJ 100 and 102 or possession of POST Basic Certificate. Recommended Preparation: eligibility for ENGL 800. Study of police organization and administration. Covers chain of command, span of control, functional supervision, unity of command, and the purpose of the police organization and administration. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

755 Advanced Officers Course (1-2.5) Twenty to forty lecture hours per semester by arrangement. Prerequisite: satisfactory completion of a basic law enforcement course approved by POST (Peace Officer Standards and Training Commission). New laws, recent court decisions, current enforcement procedures, new concepts in law enforcement technology, community relations, and other refresher training as may be necessary. Certified by POST (Peace Officer Standards and Training Commission). (To maintain competency, may be repeated for credit as required by POST.)

762 Security Baton Training (.5) Total of twelve lecture hours. Study of the legal and moral aspects of the use of force. Instruction in baton procedures, defensive and offensive control, and arrest techniques. Students must meet performance objectives. This course is certified by POST (Peace Officers Standards and Training Commission) and fulfills the requirements of the Consumer Affairs Division. Students should contact the Administration of Justice Office before the class meets.

766 Chemical Agent Instruction (.5) Eight lecture hours per semester by arrangement. Prerequisite: completion of or concurrent enrollment in ADMJ 771 or 772. History and use in law enforcement of nonlethal chemical agents. Field application and exposure to chemical agents and first aid for exposure victims. Safety instruction for firing range operation; care, safety, and use of chemical agent weapons, including range familiarization. Conforms to POST (Peace Officers Standards and Training) requirement for chemical agents training. (Note: Any person convicted of a felony may be violating the law by participating in this course.)

770 Advanced Dispatcher/Clerk (1-2.5) Twenty to forty lecture hours per semester. Preparation for a position as a dispatcher and/or complaint clerk with a law enforcement agency. Review of procedures to upgrade the skills of those presently employed in this field.

771 Reserve Officers Basic Training Module A (3) Forty-four lecture and twenty lab hours per semester. Arrest,
search, and seizure; theory and practical application of related laws; firearms, legal consideration, safety standards, and procedures. Range-firing of weapon and qualification by students. Students must meet performance objectives upon completion of course. Course is certified by POST (Peace Officer Standards and Training Commission) as required under Penal Code Section 832.6 (a) (1). (Note: Any person convicted of a felony may be violating the law by participating in the firearms portion of this course.)

772 Reserve Officers Basic Training Module B (5) Eighty lecture and sixteen lab hours per semester. Prerequisite: ADMJ 771. Role of the back-up officer, including law, communications, driver awareness, force and weaponry, patrol procedures, traffic, and custody and defense tactics. Upon completion of the course, students must meet the required performance objectives. Course certified by POST (Peace Officer Standards and Training) to partially fulfill requirements for Reserve Peace Officers defined under Penal Code Section 822.6 (a). (Note: Any person convicted of a felony may be violating the law by participating in the firearms portion of this course.)

773 Reserve Officers Basic Training Module C (4) Sixty-eight lecture hours. Prerequisites: completion of Modules A and B of Reserve Officers Basic Training as defined by POST. Criminal law, criminal evidence, criminal investigation, introduction to law enforcement, juvenile procedures, patrol procedures, police-community relations, and traffic laws and control. Certified by POST (Peace Officer Standards and Training Commission). When successfully completed with ADMJ 771 and 772, meets minimum classroom requirements for Non-designated Level I Reserve Officers.

880 - 889 Selected Topics (1-3) (See first page of Description of Courses section.)

---

Aeronautics
(Also see Meteorology 100)

Students in airframe and powerplant courses required to provide their own tools and supplies and to pay fees for airplane taxing.

100 Private Pilot Ground School (3.0) Three lecture hours per week. Prerequisite: day students, completion of or concurrent enrollment in METE 100. Corequisite: for day students, concurrent enrollment in AERO 126. Recommended Preparation: eligibility for ENGL 800. Preparation to take FAA Private Pilot written examination. Principles of flight, Federal Aviation Regulations, flight environment, aircraft performance, and aviation weather. Weather charts, navigation, cross country flight planning, emergency procedures, and aviation medical considerations. (CSU)

101 Instrument Pilot Ground School (3.0) Three lecture hours per week. Prerequisites: for day students, AERO 100 and 126 and METE 100, all with a grade of C or higher; for evening students, private pilot license or AERO 100 with a grade of C or higher. Corequisite: for day students, concurrent enrollment in AERO 115 and 137. Recommended Preparation: eligibility for ENGL 800. Preparation to take FAA Instrument Pilot written examination. Federal Aviation Regulations, principles of IFR flight, instrument navigation, IFR flight environment, ATC clearances, charts for instrument flight, instrument approaches. IFR operations, holding patterns, departure and arrivals, meteorology/weather charts, IFR flight plan, emergency procedures, physiology of IFR flight. (CSU)

102 Commercial Pilot Ground School (3.0) Three lecture hours per week. Prerequisites: for day students, AERO 100, 101, 115, and 137 with a grade of C or higher; for evening students, private pilot license or AERO 100 with a grade of C or higher. Recommended Preparation: eligibility for ENGL 800. Preparation to take FAA Commercial Pilot written examination. Includes Federal Aviation Regulations 67, 71, 73, 137, and advanced navigation. Also includes high performance aircraft systems and operations, weather and forecast charts. (CSU)

115 Aircraft Powerplant for Pilots (3) Three lecture hours per week. Theory, operation, and nomenclature of reciprocating and turbine powerplants. Basic construction of induction, ignition, lubrication, propellers, and other systems; use of performance curves. (CSU)

126 Introduction to Aeronautics for Pilots (3) Three lecture hours per week. Study of subsonic, transonic, and supersonic flight with emphasis on stability and control. Aircraft nomenclature, design features, systems components, and construction, including fixed and rotary wing aircraft. Weight and balance, load-factor calculations on aircraft, and introduction to the Federal Aviation Regulations systems. (CSU)

130 Introduction to Aeronautics for Mechanics (3) Three lecture hours per week. Prerequisite: one year of high school algebra with a grade of C or higher. Corequisite: concurrent enrollment in ELEC 242/243. Recommended Preparation: eligibility for ENGL 800. Introduction to aeronautical technology, including basic electricity, shop mathematics, history of flight, aerodynamics, and aircraft propulsion systems. Designed primarily for students planning to enter the FAA approved maintenance curriculum. (CSU)

(Also see ELEC 242/243, Aircraft Electricity)

137 Federal Aviation Regulations (3) Three lecture hours per week. Prerequisite: completion of or concurrent enrollment in AERO 101. Study and practical application of Federal Aviation Regulations and the Airman’s Information Manual in relation to general operating and flight rules, definitions and abbreviations, pilot certification, and National Transportation Safety Board accident reporting. (CSU)

300 General Maintenance I (2.5) Five lecture hours per week for eight weeks. Prerequisites: AERO 130 and ELEC 242/243 OR at least one year (2,000 hours) of practical experience in the aviation maintenance industry. (Experience must be verified and approved by the aeronautics coordinator.) Corequisite: concurrent enrollment in AERO 301. Blueprint reading, mechanical drawing, aircraft weight and balance procedures, and other maintenance functions as specified in Federal Aviation Regulations Part 147. (CSU)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
301 General Maintenance Lab I (4.5) Twenty-seven and one-half lab hours per week for eight weeks. Corequisite: concurrent enrollment in AERO 300. Aircraft weighing, nondestructive testing, basic heat treating, use of technical manuals, and other maintenance functions as specified in Federal Aviation Regulation Part 147. (CSU)

310 General Maintenance II (2.5) Five lecture hours per week for eight weeks. Prerequisites: AERO 130 and ELEC 242/243 OR at least one year (2,000 hours) of practical experience in the aviation maintenance industry. (Experience must be verified and approved by the aeronautics coordinator.) Corequisite: concurrent enrollment in AERO 311. Fundamentals of direct and alternating current electricity, fundamentals of applied mathematics, fundamentals of applied physics as specified by Federal Aviation Regulation Part 147.

311 General Maintenance Lab II (4.5) Twenty-seven and one-half lab hours per week for eight weeks. Corequisite: concurrent enrollment in AERO 310. Calculate and measure electrical power volts, amps and resistance as specified by Federal Aviation Regulation Part 147.

320 Powerplant Maintenance I (2.5) Five lecture hours per week for eight weeks. Prerequisites: AERO 300/301 and 310/311. Corequisite: concurrent enrollment in AERO 321. Piston engine construction and operation and basic powerplant indicating systems, as specified in Federal Aviation Regulations Part 147. (CSU)

321 Powerplant Maintenance Lab I (4.5) Twenty-seven and one-half lab hours per week for eight weeks. Corequisite: concurrent enrollment in AERO 320. Inspection and repair of opposed and radial piston engines; powerplant inspections; inspection of engine indicating systems as specified by Federal Aviation Regulations Part 147. (CSU)

330 Airframe Maintenance I (2.5) Five lecture hours per week for 8 weeks. Prerequisites: AERO 300/301 and 310/311. Corequisite: concurrent enrollment in AERO 331. Principles of aircraft sheet metal structures, identification of aircraft fasteners, and aircraft sheet metal layout and fabrication as specified in Federal Aviation Regulations Part 147. (CSU)

331 Airframe Maintenance Lab I (4.5) Twenty seven and one-half lab hours per week for eight weeks. Corequisite: concurrent enrollment in AERO 330. Installation of special rivets and fasteners, inspection and repair of sheet metal structures, fabrication of tubular structures, and other aircraft structural maintenance functions as specified by Federal Aviation Regulations Part 147. (CSU)

340 Powerplant Maintenance II (2.5) Five lecture hours per week for eight weeks. Prerequisites: AERO 300/301 and 310/311. Corequisite: concurrent enrollment in AERO 341. Fundamentals of turbine engine construction and operation and piston and turbine engine fuel metering systems as specified in Federal Aviation Regulations Part 147. (CSU)

341 Powerplant Maintenance Lab II (4.5) Twenty-seven and one-half lab hours per week for eight weeks. Corequisite: concurrent enrollment in AERO 340. Inspection and service of turbine engines and repair of engine fuel metering components as specified in Federal Aviation Regulations Part 147. (CSU)

350 Airframe Maintenance II (2.5) Five lecture hours per week for eight weeks. Prerequisites: AERO 300/301 and 310/311. Corequisite: concurrent enrollment in AERO 351. Principles of construction of aircraft wooden structures, repair of aircraft synthetic material, and principles of rigging fixed- and rotary-wing aircraft as specified in Federal Aviation Regulations Part 147. (CSU)

351 Airframe Maintenance Lab II (4.5) Twenty-seven and one-half lab hours per week for eight weeks. Corequisite: concurrent enrollment in AERO 350. Application of aircraft covering material; aircraft painting; rigging of fixed-and rotary-wing aircraft as specified in Federal Aviation Regulations Part 147. (CSU)

360 Powerplant Maintenance III (2.5) Five lecture hours per week for eight weeks. Prerequisites: AERO 300/301 and 310/311. Corequisite: concurrent enrollment in AERO 361. Theory of operation of engine fire detection and control systems; theory of operation and construction of aircraft propellers and related components as specified in Federal Aviation Regulations Part 147. (CSU)

361 Powerplant Maintenance Lab III (4.5) Twenty-seven and one-half hours per week for eight weeks. Corequisite: concurrent enrollment in AERO 360. Inspection and repair of engine exhaust and cooling systems; repair and balancing of propellers as specified in Federal Aviation Regulations Part 147. (CSU)

370 Airframe Maintenance III (2.5) Five lecture hours per week for eight weeks. Prerequisites: AERO 300/301 and 310/311. Corequisite: concurrent enrollment in AERO 371. Theory of operation of aircraft hydraulic, pneumatic, oxygen, and auto-pilot systems and other aircraft systems and components as specified in Federal Aviation Regulations Part 147. (CSU)

371 Airframe Maintenance Lab III (4.5) Twenty-seven and one-half lab hours per week for eight weeks. Corequisite: concurrent enrollment in AERO 370. Inspection and repair of aircraft hydraulic, fuel, pneumatic, and instrument systems and other aircraft components and systems as specified in Federal Aviation Regulations Part 147. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 - 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 - 889 Selected Topics (1-3) (See first page of Description of Courses section.)

---

**Anthropology**

(Also see Biology 125)

110 Cultural Anthropology (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of culture as the man-made environment of particular societies. Introduction to the anthropological point of view. Cross-cultural comparisons of cultural practices in specific societies and sub-cultures, including contemporary ethnic groups in the United States. (CSU/UC) (CAN ANTH 4)

180 Magic, Science & Religion (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL
Apprenticeship Training

The courses in this section are administered by College of San Mateo in conjunction with various trade and industry joint apprenticeship committees. Registration is limited to those students fulfilling the related instruction requirements of the State of California as indentured apprentices. For more information contact the Apprenticeship Office.

641 Cooperative Education (1-4) (See first page of Description of Courses section.)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Electrical Apprenticeship (ELEL)

Prerequisite: indenture in the Electrical Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

701 Electrical Apprenticeship I (3) Two and one-half lecture and two and one-half lab hours per week. Safety, wiring methods, tools, introduction to the code, structure of matter, wire, electron theory, resistance, Ohm’s Law, electrical math, power, fastening devices, conduit, series and parallel circuits, combination circuits, and overcurrent protection devices.

702 Electrical Apprenticeship II (3) Two and one-half lecture and two and one-half lab hours per week. Safety, wiring methods, voltage drop, magnetism, grounding, principles of generation, electrical plans, circuit calculations, DC motors and generators, three-phase AC, resistive circuits, general lighting, and first aid.

703 Electrical Apprenticeship III (3) Two and one-half lecture and two and one-half lab hours per week. Safety, wiring methods, math of AC circuits, incandescent lamps, electrical testing, inductance, AC and DC meters, rectifiers, transformers, reactance, capacitance, capacitors, Wholt job, projection, and isometric line sketching.

704 Electrical Apprenticeship IV (3) Two and one-half lecture and two and one-half lab hours per week. Safety, wiring methods, series and parallel RC & RL circuits, rigging, motor drives, calculations, LC circuits, fire alarms, refrigeration cycle, basic air conditioning, short circuit calculations, and T.I.

705 Electrical Apprenticeship V (3) Two and one-half lecture and two and one-half lab hours per week. Safety, theory, wiring systems, distribution systems, basic principles of A/C motors, power in A/C circuits (power factor) capacitors, split phase motors, repulsion motors including pole shaded, universal and three-phase and electrical riser diagrams, service and feeders, and three-phase transformers.

706 Electrical Apprenticeship VI (3) Two and one-half lecture and two and one-half lab hours per week. Motor starting, protective controls, hazardous locations, starters and relays, developing simple circuits, sequence control circuits, current analysis, trouble shooting, fluorescent lamps, wiring and piping, and circuit economics.

707 Electrical Apprenticeship VII (3) Two and one-half lecture and two and one-half lab hours per week. Nuclear safety, foremanship, resonance (series and parallel), semiconductors, busways, transistors, wiring roughing, amplifiers, electric closets, coupling networks, and oscillators.

708 Electrical Apprenticeship VIII (3) Two and one-half lecture and two and one-half lab hours per week. Application of electronics, measurement and control, emergency lighting, temperature, pressure and levels, metric system, static control, metrization, journeyman status, and code review.

Fire-Medic Apprenticeship (FIME)

Fire-Medic Apprenticeship

Prerequisite: indenture in the Fire-Medic Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

701 Fire Command IA Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. The role of the fireground officer, the emergency decision-making process, basic tactics and strategies, fireground stress, operational standards, and command and control components.

702 Fire Command IB Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Management of hazardous materials incidents, emergency response, D.O.T., CHEMREC, protective clothing and decontamination, evacuation, and containment and disposal.

703 Fire Instructor IA Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Preparation of course outlines, job breakdowns, behavioral objectives, and manipulative lesson plans. Instruction in the importance of the occupational analysis, terms of education, teaching methods, and the psychology of learning.

704 Fire Instructor IB Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Preparation of technical lesson plans, supplementary instruction sheets, test planning sheets, and written and oral examinations. Includes the fundamentals of evaluation, lesson plan formats, and the principles of effective instruction.

705 Fire Investigation IA Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Responsibilities of the investigator, cause and origin investigation, techniques and reports, and legal responsibilities.

706 Fire Management IA Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Management techniques, including management objective and participatory management, understanding human needs, decision making, and team building, Equal Employment Opportunity, communications, and disputes.

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
707 Fire Prevention IA Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Duties and responsibilities of prevention personnel, relation of building and fire codes, type and classification of flammable liquids, regulatory identification, and extinguishing systems.

708 Fire Prevention IB Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Life safety requirements in building construction, exiting, sprinkler systems, hood and duct systems, and smoke and fire detection and alarm systems.

711 Fire Heavy Rescue Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Heavy rescue method operations, basic building construction and collapse characteristics, organization, personnel limitations, environmental consideration, resource identification, ropes and application, vertical techniques, considerations and aerial hazards, damaged building operations, specialized situations, transportation emergencies, and high-rise and elevator rescue.

Emergency Medical Technician
Prerequisite: registration in the E.M.T. Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

771 Emergency Medical Technician/Nonambulatory (6) (Credit/No Credit grading.) One hundred lecture and five lab hours per semester by arrangement. Training for Emergency Medical Technicians; their roles and responsibilities in the primary and secondary survey and treatment of the patient.

775 Emergency Medical Technician/Nonambulatory – Re-Certification Apprenticeship (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Prerequisite: possession of a valid E.M.T.-I NA Certificate. Refresher course for those in need of EMT/Fire Service re-certification. Includes updated and new technology in emergency pre-hospital care.

Lithographer Apprenticeship (LITH)
Prerequisite: indenture in the Lithographer Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

701 Lithographer Apprenticeship I (1.5) (Credit/No Credit grading.) One lecture hour and two lab hours per week. Basic lithography. May include mechanical art assembly and color correction depending on the need of the individual apprentice.

702 Lithographer Apprenticeship II (1.5) (Credit/No Credit grading.) One lecture hour and two lab hours per week. Mechanical art assembly, densitometry/sensitometry, camera I, color correction, image assembly I, platemaking, basic offset press operation, and ink technology. Specific topics adapted to needs of the individual apprentice.

703 Lithographer Apprenticeship III (1.5) (Credit/No Credit grading.) One lecture hour and two lab hours per week. Mechanical art assembly, densitometry/sensitometry, camera I, camera II, color correction, image assembly II, platemaking, basic offset press operation, advanced offset press operation, and ink technology. Specific topics adapted to needs of the individual apprentice.

704 Lithographer Apprenticeship IV (1.5) (Credit/No Credit grading.) One lecture hour and two lab hours per week. Mechanical art assembly, densitometry/sensitometry, camera I, camera II, camera III, scanner operation, color correction, image assembly I, image assembly II, image assembly III, platemaking, basic offset press operation, advanced offset press operation, and ink technology. Specific topics adapted to needs of the individual apprentice.

Plumbing Apprenticeship (PLUM)
Plumbing and Pipe Fitting
Prerequisite: indenture in the Plumbing Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

701 Plumbing Apprenticeship I (3.5) Three lecture and two lab hours per week. Safety, first aid, use and care of tools, history of and materials used in the plumbing industry, and shop assembly.

702 Plumbing Apprenticeship II (3.5) Three lecture and two lab hours per week. Mathematics, science, and mechanics applying to plumbing.

703 Plumbing Apprenticeship III (3.5) Three lecture and two lab hours per week. Plumbing codes and water supply systems.

704 Plumbing Apprenticeship IV (3.5) Three lecture and two lab hours per week. Introduction to drawing and plumbing fixtures.

705 Plumbing Apprenticeship V (3.5) Three lecture and two lab hours per week. Advanced plumbing and piping layout, pipe fixtures and supports, and drainage.

706 Plumbing Apprenticeship VI (3.5) Three lecture and two lab hours per week. Aspects of plumbing service work.

707 Plumbing Apprenticeship VII (3.5) Three lecture and two lab hours per week. Cutting; gas and arc welding.

708 Plumbing Apprenticeship VIII (3.5) Three lecture and two lab hours per week. Hydronic and solar heating.

709 Plumbing Apprenticeship IX (3.5) Three lecture and two lab hours per week. Further instruction in drawing and plan reading. 710 Plumbing Apprenticeship X (3.5) Three lecture and two lab hours per week. Further instruction in plumbing codes, builders' transit levels, and basic heating.

Steafinning/Pipefitting
Prerequisite: indenture in the Steamfitter, Pipefitter Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

721 Steamfitter, Pipefitter Apprenticeship I (3.5) Three lecture and two lab hours per week. Safety and health; use and care of tools; soldering and brazing.

722 Steamfitter, Pipefitter Apprenticeship II (3.5) Three lecture and two lab hours per week. Mathematics and pipe measurements.

723 Steamfitter, Pipefitter Apprenticeship III (3.5) Three lecture and two lab hours per week. Oxyacetylene cutting and burning; basic shielded metal arc welding.

724 Steamfitter, Pipefitter Apprenticeship IV (3.5) Three lecture and two lab hours per week. Drawing interpretation.

725 Steamfitter, Pipefitter Apprenticeship

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
V (3.5) Three lecture and two lab hours per week. Rigging and signaling, pipe materials, and basic science.

726 Steamfitter, Pipefitter Apprenticeship VI (3.5) Three lecture and two lab hours per week. Pumps and steam systems.

727 Steamfitter, Pipefitter Apprenticeship VII (3.5) Three lecture and two lab hours per week. Introduction to industrial pipe fitting and hydronic heating systems.

728 Steamfitter, Pipefitter Apprenticeship VIII (3.5) Three lecture and two lab hours per week. Pipe drafting and blueprint reading.

729 Steamfitter, Pipefitter Apprenticeship IX (3.5) Three lecture and two lab hours per week. Advanced welding.

730 Steamfitter, Pipefitter Apprenticeship X (3.5) Three lecture and two lab hours per week. Gas-tungsten arc welding.

Refrigeration and Air Conditioning
Prerequisite:-indenture in the Refrigeration and Air Conditioning Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

741 Refrigeration & Air Conditioning Apprenticeship I (3.5) Three lecture and two lab hours per week. Basic refrigeration.

742 Refrigeration & Air Conditioning Apprenticeship II (3.5) Three lecture and two lab hours per week. Basic electricity.

743 Refrigeration & Air Conditioning Apprenticeship III (3.5) Three lecture and two lab hours per week. Refrigerant controls.

744 Refrigeration & Air Conditioning Apprenticeship IV (3.5) Three lecture and two lab hours per week. Basic and pneumatic controls.

745 Refrigeration & Air Conditioning Apprenticeship V (3.5) Three lecture and two lab hours per week. Brazing, piping, and hydronics.

746 Refrigeration & Air Conditioning Apprenticeship VI (3.5) Three lecture and two lab hours per week. Advanced electricity.

747 Refrigeration & Air Conditioning Apprenticeship VII (3.5) Three lecture and two lab hours per week. Electrical controls and wiring diagrams.

748 Refrigeration & Air Conditioning Apprenticeship VIII (3.5) Three lecture and two lab hours per week. Heat pumps.

749 Refrigeration & Air Conditioning Apprenticeship IX (3.5) Three lecture and two lab hours per week. Supermarket installations and refrigerator box load.

750 Refrigeration & Air Conditioning Apprenticeship X (3.5) Three lecture and two lab hours per week. Start-up testing and air balance.

Sheet Metal Apprenticeship
(SHMT)

Sheet Metal Prerequisite: indenture in the Sheet Metal Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

701 Sheet Metal Apprenticeship I (2.5) Two lecture and two lab hours per week. Introduction to sheet metal industry: opportunity and obligations; history; layout and pattern development; drafting and sketching; and safety and first aid.

702 Sheet Metal Apprenticeship II (2.5) Two lecture and two lab hours per week. Introduction to tools, handling of sheet metal, fastenings, types of materials, mathematics, service work, and field installation. Introduction to architectural sheet metal and parallel line development.

703 Sheet Metal Apprenticeship III (2.5) Two lecture and two lab hours per week. Employee-employer relations, layout and pattern, and fabrication and installation of architectural sheet metal.

704 Sheet Metal Apprenticeship IV (2.5) Two lecture and two lab hours per week. Service work, field installations, introduction to blueprint reading, and radial line development.

705 Sheet Metal Apprenticeship V (2.5) Two lecture and two lab hours per week. Use of time; layout and pattern development with introduction to triangulation, mathematics, and continuation of service.

706 Sheet Metal Apprenticeship VI (2.5) Two lecture and two lab hours per week. Mechanical field installation, use of power actuated tools, continuation of blueprint reading, blow pipe, introduction to plastic and fibers, food service and beverage equipment, and advanced triangulation.

707 Sheet Metal Apprenticeship VII (2.5) Two lecture and two lab hours per week. Round pattern development, sky lights, boiler breechings, lagging, rollation, short-cut methods, and special problems.

Sheet Metal Service
Prerequisite: indenture in the Sheet Metal Service Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

708 Sheet Metal Apprenticeship VIII (2.5) Two lecture and two lab hours per week. Duct design and assembly, calculation of airflow (CFM), and engineering of complete air conditioning systems.

721 Sheet Metal Service Apprenticeship I (2.5) Two lecture and two lab hours per week. Introduction to sheet metal service trade, including basic electricity and electrical controls, cooling, heating and its controls, and air movement and filtration, with special emphasis on safety.

722 Sheet Metal Service Apprenticeship II (2.5) Two lecture and two lab hours per week. Continuation of heating and combination controls; advanced electrical theory, motors, heating pumps, and safety.

723 Sheet Metal Service Apprenticeship III (2.5) Two lecture and two lab hours per week. Review of Sheet Metal Service Apprenticeship I and II; basic refrigeration and safety.

724 Sheet Metal Service Apprenticeship IV (2.5) Two lecture and two lab hours per week. Compressor changeout, basic piping, multi-system control, basic heat pump application, and safety.

725 Sheet Metal Service Apprenticeship V (2.5) Two lecture and two lab hours per week. Theory of multi-system controls, air distribution and valves, and safety.

726 Sheet Metal Service Apprenticeship VI (2.5) Two lecture and two lab hours per week. Theory of hydronic piping, hydronic and water pumps, and safety.

727 Sheet Metal Service Apprenticeship VII (2.5) Two lecture and two lab hours per week. Boilers, chillers, combination systems, and safety.

728 Sheet Metal Service Apprenticeship VIII (2.5) Two lecture and two lab hours per week. Airflow and control systems (MFG), cooling towers, evaporator condensers, energy and management systems, and safety.

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
743 Sheet Metal Welding Apprenticeship I (2) One lecture hour and three lab hours per week. Introduction to safety of sheet-metal welding, oxy-fuel welding, and power sources.

744 Sheet Metal Welding Apprenticeship II (2) One lecture hour and three lab hours per week. Shielded-metal arc welding, gas-tungsten arc welding, and gas-metal arc welding.

745 Sheet Metal Blueprint Reading Apprenticeship I (2) Two lecture hours per week. Introduction to reading plans and specifications, architectural plans, and structural plans.

746 Sheet Metal Blueprint Reading Apprenticeship II (2) Two lecture hours per week. Mechanical plans, electrical plans, and specialty plans.

747 Sheet Metal Solar Apprenticeship I (2) Two lecture hours per week. Introduction to solar heating: theory of operation, operation of an active system, collectors, heat storage, control systems, typical configurations, building considerations, basic collectors, installing rocks, and sensors and thermostats.

748 Sheet Metal Solar Apprenticeship II (2) Two lecture hours per week. Duct installation, fans and conventional heating devices, instrumentation, system check and start-up, leak temperature and pressure testing, hydronic systems, and schematics; installing components, piping, and heat pump systems.

Sprinkler Fitter Apprenticeship (SPFI)
Prerequisite: indenture in the Sprinkler Fitter Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

701 Sprinkler Fitter Apprenticeship I (3) Three lecture hours and one lab hour per week. Introduction to fire protection, including safety, first aid, and blueprint reading.

702 Sprinkler Fitter Apprenticeship II (3) Three lecture hours and one lab hour per week. Basic mathematics, introduction to National Fire Association #13 (N.F.P.A.); introduction to underground piping and overhead piping, learning to read underground plans.

703 Sprinkler Fitter Apprenticeship III (3) Three lecture hours and one lab hour per week. Related mathematics; continuation of N.F.P.A. #13; knowledge of sprinkler heads, occupancy classification, and valves; hanging and bracing piping; and introduction to basic soldering and brazing.

704 Sprinkler Fitter Apprenticeship IV (3) Three lecture hours and one lab hour per week. Review of blueprint reading; study of valve types and related devices; continuation of N.F.P.A. #13; introduction to various types of sprinkler systems; and math review.

705 Sprinkler Fitter Apprenticeship V (3) Three lecture hours and one lab hour per week. Math review with transit and level operations; underground installation review; continuation of N.F.P.A. #13, introduction to water supply for sprinkler systems; introduction to fire pumps; and N.F.P.A. #20 and #24.

706 Sprinkler Fitter Apprenticeship VI (3) Three lecture hours and one lab hour per week. Continuation of N.F.P.A. #13; introduction to hydraulics; study of pre-action and dry pipe systems; continuation of fire pumps; and introduction to principles of foremanship.

707 Sprinkler Fitter Apprenticeship VII (3) Three lecture hours and one lab hour per week. Continuation of N.F.P.A. #13; introduction to alarms for sprinkler systems; continuation of fire pumps; advanced soldering and brazing; use of gas and acetylene equipment; and trouble shooting.

708 Sprinkler Fitter Apprenticeship VIII (3) Three lecture hours and one lab hour per week. Introduction to arc welding. Emphasizes good foremanship, leadership, and the development of all-around techniques.

Architecture
Students intending to major in Architecture are advised to consult with the architectural counselor/advisor in the Math/Science Division before registering.

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

100 Survey of Contemporary Architecture (3) Three lecture hours per week. Basic values in contemporary architecture; its relationship to the environment, the individual and society, the home, the neighborhood, and the urban structure in general. A survey of the contributions of outstanding architects, engineers, and planners. Films, slides, lectures, and individual research. (CSU/UC*)

112 Surveying (2) Two lecture and three lab hours per week for twelve weeks. Prerequisite: MATH 130. Theory of measurements in surveying: measurement of distance, differential leveling and measurements of angles and directions, stadia techniques, and topographic mapping. (CSU/UC*)

120 Black and White Graphics (2) One lecture hour and three lab hours per week plus two lab hours per week by arrangement. Representational freehand drawing. Covers composition, visual perspective, and three-dimensional thinking. Includes an introduction to photography. A 35mm or larger format camera is necessary. Graphite supplies will be required. (To increase competency, may be repeated for a maximum of 4 units of credit.) (Fall only.) (CSU)

125 Architectural Photography (1) One lecture hour plus two lab hours per week by arrangement. Prerequisite: ARCH 120 or equivalent. The use of photography as a visual tool in the interpretation of architecture. Techniques of preparing a portfolio for transfer to professional schools of architecture. Extra supplies may be required. (To increase competency, may be repeated for a maximum of 2 units of credit.) (Spring only.) (CSU)

130 Color Graphics (1) One lecture hour and two lab hours per week. Representational freehand drawing involving watercolor and ink. Further development in composition, visual perspective, and three-dimensional thinking related to form

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
and space. Graphic supplies will be required. (To increase competency, may be repeated for a maximum of 2 units of credit.) (Spring only.) (CSU)

140 Perspective Drawing (2) One lecture and three lab hours per week. Prerequisite: ARCH 120 or equivalent and MATH 115 or equivalent. Basic techniques in the graphic communication of architects: orthographic and isometric projection, descriptive geometry, mechanical perspective, and shades and shadows. Graphic supplies will be required. (Spring only.) (CSU)

145 Delineation (2) One lecture and three lab hours per week. Prerequisite: ARCH 140 or equivalent. Three-dimensional representations with various drawing media to express architectural ideas and designs. Graphic supplies will be required. (To increase competency, may be repeated for a maximum of 4 units of credit.) (Fall only.) (CSU)

150 Statics (3) Three lecture hours per week. Prerequisite: completion of or concurrent enrollment in MATH 241 or 251. Analysis of forces and their effects on rigid body structures by both analytical and graphical methods in two and three dimensions. (Fall only.) (CSU/UC*)

160 Strength of Materials (3) Three lecture hours per week. Prerequisite: ARCH 150. Analysis of stresses and deformations caused by forces acting on simple structures; selection of beams, columns and joint configurations in the process of design. Introduction to statically indeterminate structures. (Spring only.) (CSU/UC*)

210 Architectural Design (3) Three lecture and three lab hours per week plus three lab hours per week by arrangement. Corequisites: concurrent enrollment in ARCH 120 and 666. Investigation into how design affects the environment and human existence therein, with research into peripheral areas through the use of architecturally related problems. Introduction to graphic thinking, critical thinking, and three-dimensional awareness. Investigation of proportion and scale, rhythm, balance, unity and contrast, transition, ordering systems, shade, color, texture, and basic materials. Problems in form, line, space, and composition. Graphic supplies will be required. (Fall only.) (CSU/UC*)

220 Architectural Design and Materials (4) Three lecture and three lab hours per week plus three lab hours per week by arrangement. Corequisites: ARCH 120, 210 and 666. Corequisite: concurrent enrollment in ARCH 140. Transfers admitted by portfolio evaluation only. Basic studies in spatial relationships involving human, environmental and architectural criteria. Continuation of ARCH 210 but on a more complex and higher plane. Problems in form, line, space, and composition. Introduction to the language and application of building materials including in-depth research of common materials used in building. Graphic supplies will be required. (Spring only.) (CSU/UC*)

230 Architectural Design and Practice I (4) Three lecture and three lab hours per week plus three lab hours per week by arrangement. Corequisites: ARCH 140 and 220. Corequisite: concurrent enrollment in ARCH 145. Transfers admitted by portfolio evaluation only. Continuation of ARCH 220, but on a more complex and higher plane. Advanced studies in spatial and visual relationships involving human, environmental, and architectural criteria. Introduction to design determinants as they relate to architectural practice. Introduction to electrical, mechanical, plumbing, and solar systems and structures as design determinants. Graphic supplies will be required. (Fall only.) (CSU/UC*)

240 Architectural Design and Practice II (4) Three lecture and three lab hours per week plus three lab hours per week by arrangement. Corequisites: ARCH 145 and 230. Corequisite: concurrent enrollment in ARCH 125 and 130. Transfers admitted by portfolio evaluation only. Continuation of ARCH 230, but on a more complex and higher plane. Advanced studies in the application of design determinants to architectural problems with an emphasis on integrated design solutions. Continued exploration of the language of building structure and spatial analysis as a means of architectural communication. Graphic supplies will be required. (Spring only.) (CSU/UC*)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

666 Introduction to Architecture (1) (Credit/No Credit grading.) Three lecture hours per week for six weeks. An intensive introduction to the problems faced by a beginning architecture student; academic and professional requirements, opportunities, and available areas of specialization and alternatives. (Fall only.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

---

Art

101 History of Art I (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of Ancient, Classical, Early Christian, Byzantine, and Medieval art. Emphasizes sculpture and architecture. (CSU/UC) (Completion of ART 101, 102, and 103 = CAN ART SEQ A)

102 History of Art II (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of Proto-Renaissance, Renaissance, and Baroque art. Emphasizes the development of painting from the 14th to the 17th Centuries. (CSU/UC) (Completion of ART 101, 102, and 103 = CAN ART SEQ A)

103 History of Art III (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of European and American art from the 18th Century to the present. Emphasizes the development of modern painting as a reaction against earlier traditions. (CSU/UC) (Completion of ART 101, 102, and 103 = CAN ART SEQ A)

105 Art of Asia and the Near East (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to some of the major monuments and themes of the visual arts of Asia and the Near East. Explores the connection between great works and the societies, values, and ideals that stimulated their creation. (CSU/UC)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
106 Survey of Contemporary Art (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of modern art with an emphasis on present works. Painting, sculpture, ceramics, glass, etc. Includes field trips to Bay Area galleries and museums. (CSU/UC)

108 History of American Art (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of art in America, its native artists, and its relations to the historical evolution of this country. Emphasizes portraiture, nature and genre painting, realism, fantasy, and symbolism. (CSU/UC)

141 Interior Design I (3) (Telecourse) Three lecture hours per week. Survey of the modern home site, design, furnishings, and decoration. (CSU)

201 Form and Composition I (3) Three lecture-critique and three lab hours per week. Drawing proficiency not required. Basic drawing course for college students. Study of two- and three-dimensional form and space relationships and the elements of design in pictorial composition. Sequence of problems based on still life. Drawing in various dry media and graphite. (CSU/UC*) (CAN ART 8)

202 Form and Composition II (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 201. Advanced composition; further study of three-dimensional form, in black and white and color; advanced pictorial composition in illustration and the fine arts. (CSU/UC*)

206 Figure Drawing and Portraiture (3) Three lecture-critique and three lab hours per week. Drawing the human figure in the modern approach from both live models and plaster anatomical casts, using charcoal, conte, and ink. Emphasizes gesture, line, texture, and expressiveness. To increase competency, may be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.” (CSU/UC*)

207 Life Drawing (3) (Credit/No Credit or letter grade option.) Three lecture-critique and three lab hours per week. Prerequisite: ART 201. Drawing the human figure in the traditional manner. Lecture and demonstration on artistic anatomy. Drawing in conte and pastel from the nude model, with emphasis on three-dimensional realism, as a basis for figure and portrait painting, sculpture, and drawing. (To increase competency, may be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

214 Color (3) Three lecture-critique and three lab hours per week. Drawing proficiency not required. Study of the physical and psychological properties of color. Stresses knowledge and skills needed to use color aesthetically. (CSU/UC*)

223 Oil Painting I (3) (Credit/No Credit or letter grade option.) Three lecture-critique and three lab hours per week. Prerequisite: ART 201 or 202; ART 214 and 301 recommended. Introduction to basic oil painting techniques and compositional ideas. Emphasizes the use of value, color, and light to model forms and create the illusion of three-dimensional objects in space. (CSU/UC*)

224 Oil Painting II (3) (Credit/No Credit or letter grade option.) Three lecture-critique and three lab hours per week. Prerequisite: ART 223; ART 214 and 301 recommended. Continuation of ART 223, with increased emphasis on color, composition, and development of a personal style. (May be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

231 Watercolor I (3) Three lecture-critique and three lab hours per week. Prerequisites: ART 201; ART 214 recommended. Introduction to the basic tools and techniques of water color; paints, washes, wet-into-wet, dry brush, transparent vs. opaque. Includes discussion of color theory, laws of diminishing contrast and compositional considerations. (CSU/UC*)

232 Watercolor II (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 231. Continuation of ART 231, with emphasis on more painting experience in various styles and techniques in watercolor, such as an addition of opaque paints and the use of collage to extend the painting experience. (To increase competency, may be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

237 Etching I (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 201. Introduction to the intaglio etching process as a fine art, with emphasis on traditional methods of timed etch in line and aquatint, soft ground, lift, drypoint, and mezzotint and their printing in value and color. Extra supplies may be required. (CSU/UC)

238 Etching II (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 237. Advanced course with individualized instruction in intaglio etching as a fine art. Emphasis is on contemporary printing methods. (To increase competency, may be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

241 Silkscreen I (2-3) Two-three lecture-critique and two-three lab hours per week. Introduction to the fine art application of the silkscreen with non-toxic water-base inks, including screen-building, basic stencils, printing technique, and concepts required to develop a completed print. Extra supplies may be required. (CSU/UC*)

242 Silkscreen II (2-3) Two-three lecture-critique and two-three lab hours per week. Prerequisite: ART 241. Advanced serigraphy; individualized instruction in water-based inks for the fine art use of the silkscreen. Extra supplies may be required. (To increase competency, may be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

301 Design (3) Three lecture-critique and three lab hours per week. Principles of composition, balance, rhythm, perspective, pattern, etc. Collage, drawing, and painting. (CSU/UC*)

305 Three-Dimensional Design (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 301. Volume, line, and space studies using paper, wire, wood, string, and plaster of Paris construction to create mobiles, stabiles and similar objects. (CSU/UC*)

328 Rendering Techniques (3) Three lecture-critique and three lab hours per week. Prerequisites: ART 202 and 301. Illustration techniques and tools of the commercial artist; professional procedure in developing rendering; development of an illustration from a pencil rough to a finished comprehensive. (To increase competency, may be repeated for a maximum of 12 units of credit.) (CSU)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
330 Images and Media (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 328 or equivalent. Recommended Preparation: ART 214, 231. Advanced course utilizing student’s skills and use of media from previous studio courses. Exploration of student’s original drawings through various media, mixture of media and based upon periods of art. Emphasizes individual creative problem solving and development of creative concepts from realism to abstraction. (CSU)

350 Visual Perception (3) Three lecture-critique hours per week. Visual exploration into natural forms and man-made objects as an expression of art using 35mm slide photography as the medium. Covers basic principles of perception, light, color, composition, and visual awareness. Encourages students to transmit their aesthetic, intellectual and emotional concerns through the photographic medium. Instruction in the use of 35mm cameras, lenses, film, and other creative controls of photography are included. Extra supplies may be required. (CSU)

351 Photography I (3) Three lecture-critique and three lab hours per week. Recommended Preparation: ART 201, 301, or 350. Introduction to basic black and white photographic skills and equipment. Precise methods of negative developing, printing, and finishing the fine photograph. Extensive darkroom work. Portfolio is produced. Extra supplies may be required. (CSU/UC*)

352 Photography II (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 351. For students who have basic black and white camera and darkroom skills. Refinement of visual and technical skills. Advanced exposure and development techniques applied to fine printmaking. Portfolio is produced. Extra supplies may be required. (To increase competency, may be repeated for a maximum of 12 units of credit.) (CSU/UC*)

353 Photography III (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 351. Broader aspects of technical perfection and visual awareness. Explores contemporary and creative forms of photography presentations, with emphasis on experimental techniques. Extra supplies may be required. (To increase competency, may be repeated for a maximum of 12 units of credit.) (CSU/UC*)

354 Color Photography I (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 351. Introduction to the use of color materials as an expressive medium. Access to color processor. Emphasizes mastery of the technical aspect of color balance and exposure. Extra supplies may be required. (CSU)

355 Color Photography II (3) Three lecture-critique and three lab hours per week. Prerequisite: ART 354. Continuation of ART 354, with emphasis on more refined control of color materials and more cohesive portfolio. Extra supplies may be required. (To increase competency, may be repeated for a maximum of 12 units of credit.) (CSU)

405 Sculpture I (3) (Credit/No Credit or letter grade option.) Three lecture-critique and three lab hours per week. Beginning clay modeling of abstract and human forms. Stresses analysis of form for realistic expression in dealing with the human form. Extra supplies may be required. (To increase competency, may be repeated for a maximum of 12 units of credit.) (CSU/UC*) (CAN ART 12)

406 Sculpture II (3) (Credit/No Credit or letter grade option.) Three lecture-critique and three lab hours per week. Prerequisite: ART 405 or equivalent. Introduction to armature building, construction, mold-making, casting, and removal process. Realistic and abstract approaches; abstract stressed. (To increase competency, may be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

411 Ceramics I (3) (Credit/No Credit or letter grade option.) Three lecture-critique and three lab hours per week. Elementary clay construction, including pinch, coil, and slab; methods of ornamentation, glazing, and firing; introduction to the potter’s wheel. Extra supplies are required. (CSU/UC*) (CAN ART 6)

412 Ceramics II (3) (Credit/No Credit or letter grade option.) Three lecture-critique and three lab hours per week. Prerequisite: ART 411. Continuation and advanced study of topics introduced in ART 411. Extra supplies are required. (To increase competency, may be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Astronomy

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

100 Introduction to Astronomy (3) Two lecture hours and one recitation hour per week. Survey of astronomy satisfying science requirements in state colleges and universities. Includes descriptive material on the solar system, stars, galaxies and, life in the universe, together with an introduction to the methods employed by astronomers in gathering information. (CSU/UC)

101 Astronomy Laboratory (1) Three lab hours per week. Prerequisites: MATH 110 or equivalent AND completion of or concurrent enrollment in ASTR 100. Use of planetarium for constellation identification, coordinate systems, and basic astronomical measurements of planets, stars and spectra. Occasional telescopic observations and visits to observatories. With ASTR 100, satisfies lab science requirements for U.C. and California State Universities. Extra supplies may be required. (CSU/UC)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
Biology

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

100 Introduction to the Life Sciences (3) Three lecture hours per week. Fundamental principles of life. The awareness of plant and animal interrelations and interdependencies. Examines the human role in the world of living things in relation to contemporary problems. One or more field trips may be required. (Intended for non-science majors with no previous experience in the biological sciences.) (CSU/UC)

102 Environmental Conservation (3) Three lecture hours per week. Study of the relationship of humans to the immediate and global environments, including the conservation of renewable and non-renewable resources, dynamics of ecosystems, and the interaction of plant and animal populations; alternative energy sources; and current problems caused by human interactions with the environment. One or more field trips may be required. (CSU/UC)

110 General Principles of Biology (4) Three lecture and three lab hours per week. Prerequisite: high school biology or equivalent. Recommended Preparation: eligibility for ENGL 800. Study of the principles of the biological sciences. Includes origin and evolution of life, cellular nature of living things, genetics, ecology, life cycles, and natural history. One or more field trips may be required. Extra supplies may be required. (CSU/UC)

111 General Nature Study (4) Two lecture and six lab/field hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to common flora and fauna of Bay Area biotic communities, with emphasis on methods of locating, identifying, preserving, and displaying selected species. Considers basic principles of biology, ecology, conservation, and nature photography as they relate to adaptation, life cycles, habits, habitats, and interrelationships. Lab includes methods of interpretation. Emphasizes internship co-op experience through local groups with a nature study orientation applied to education and recreation programs. (CSU)

125 Physical Anthropology (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Man’s place in nature; man’s evolution, genetics, and racial variation. Evolutionary basis of man’s behavior and social systems. One or more field trips may be required. (CSU/UC) (CAN ANTH 2)

130 Human Biology (3) Three lecture hours per week. Prerequisite: BIOL 100 or 110. Recommended Preparation: eligibility for ENGL 800. Introductory study of human anatomy and physiology, including the functional relationships of cells to each body system, with emphasis on the relationships of structures to the functions of each body system. Recommended especially for students in the Medical Assisting program. (CSU/UC)*

140 Animals and Man (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to animals around us and their relationship to man. Includes basic principles of animal biology and ecology. Views animals as predators, prey, servants, companions, and bearers of disease. Emphasizes historical and traditional viewpoints, contemporary issues, animal rights and human obligations. (General education course for non-science majors.) One or more field trips may be required. (CSU/UC)

145 Plants and Man (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to plants and their functions as they apply to man. Principles of living organisms, their structure-functions, evolution, and ecology. Emphasizes the role of plants in the development of human civilization and considers their impact as a primary food source for human population. One or more field trips may be required. (CSU/UC)*

150 Introduction to Marine Biology (4) Three lecture and three lab/field hours per week. Recommended Preparation: one college-level biology course and eligibility for ENGL 800. Introduction to physical oceanography, marine animals, marine plants, and marine ecology. Emphasizes the natural history of marine forms, including their taxonomy, morphology, and physiology. Describes bays, estuaries, and oceans as habitats. Extra supplies may be required. (CSU/UC)

160 Human Genetics (3) Three lecture hours per week. Prerequisite: high school biology or equivalent. Recommended Preparation: eligibility for ENGL 800. Survey of genetics with emphasis on human applications. Includes such broad topics as the principles of inheritance, gene expression and regulation, mutations and congenital defects, evolution, new scientific developments, and sociological implications. (CSU/UC)

180 Introduction to Forestry (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of the forest as a biological community; scientific and economic basis for forestry, including topics from ecology, dendrology, entomology, pathology, silviculture, mensuration, utilization, economics, and careers in forestry. One or more field trips may be required. (CSU/UC)

184 Wildlife Biology (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of wildlife species of North America, with emphasis on common mammals of the Pacific states. Additional selected and appropriate vertebrate species: identification, characteristics, life histories, abundance, and distribution. Basic biological and ecological principles directly applicable to wildlife issues of species and habitat conservation. One or more field trips may be required. (CSU/UC)

200 General Ecology (4) Three lecture and three lab/field hours per week. Prerequisite: one course in the biological sciences. Recommended Preparation: eligibility for ENGL 800. Introduction to the principles of ecology and field methodology. Includes diversity and distribution of flora and fauna, interrelationships of organisms and behavioral evolution, and energy flow relationships to ecosystems and population dynamics. Emphasizes global communities as well as local habitats and species. Lab includes methods of interpretation and presentation of field project data. (CSU/UC)

210 General Zoology (5) Three lecture and six lab hours per week. Prerequisites: BIOL 110 and CHEM 192 or 410 OR one year of high school biology with lab with a grade of B or higher and one year of high school chemistry with lab with a grade of B or higher. Recommended Preparation: eligibility for ENGL 800. Introduction to the principles of animal biology. Includes molecular basis of life; structure, function, and behavior as seen in invertebrates and selected chordates; ecology; zoogeography; and animal evolution. One or more field trips may be required. Extra supplies may be required. (CSU/UC)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
220 General Botany (5) Three lecture and six lab hours per week. Prerequisites: BIOL 110 and CHEM 192 or 410 OR one year of high school biology with lab with a grade of B or higher and one year of high school chemistry with lab with a grade of B or higher. Recommended Preparation: eligibility for ENGL 800. Principles of biology as illustrated by plants with emphasis on structure, physiology and reproduction in green plants. One or more field trips may be required. Extra supplies may be required. (CSU/UC) (CAN BIOL 6)

230 Introductory Cell Biology (4) Three lecture and six lab hours per week. Prerequisites: BIOL 110 and CHEM 192 or 410 OR one year of high school biology with lab with a grade of B or higher and one year of high school chemistry with lab with a grade of B or higher. Recommended Preparation: eligibility for ENGL 800. Evaluation and analysis of the living cell and its components. Examines metabolism of the cell and the bioenergetics involved as they relate to cellular development, growth, and reproduction. (Recommended for all life science and medical science majors.) One or more field trips may be required. Extra supplies may be required. (CSU/UC)

240 General Microbiology (5) Three lecture and six lab hours per week. Prerequisites: one semester of college chemistry and college-level biology with lab course. Recommended Preparation: eligibility for ENGL 800. Introduction to the morphology, physiology, and genetics of micro-organisms, with emphasis on bacteria and viruses. Includes environmental, applied microbiology, and the role of bacteria and viruses in health and disease. Laboratory work consists of isolation, cultivation, and identification of bacteria and techniques used to demonstrate microbial properties. (Recommended for students majoring in life science, physical science, and health science.) One or more field trips may be required. Extra supplies may be required. (CSU/UC)

250 Anatomy (4) Three lecture and three lab hours per week. Prerequisites: high school biology with a grade of B or higher OR BIOL 110 or 130. Recommended Preparation: eligibility for ENGL 800. Structure of the human body. Laboratory study and dissection of the human male and female. (Primarily intended for students of nursing, physiotherapy, physical education and related fields such as chiropractic. Elective for pre-dental, pre-medical, and pre-veterinary students.) Extra supplies may be required. Students may take either the BIOL 250-260 or the BIOL 265-266 series. (Spring only.) (CSU/UC*)

641 Cooperative Education (1-4) See first page of Description of Courses section. (CSU)

675 Honors Colloquium in Biology (1) One lecture hour per week. Prerequisite: limited to students in the Honors Program who have completed or are concurrently enrolled in an associated non-honors course in biology. Readings, discussion, and lectures covering selected advanced topics in biology to be determined by the Biology Department and the Honors Program. (CSU/UC*)

680 - 689 Selected Topics (1-3) See first page of Description of Courses section. (CSU)

690 Special Projects (1-2) See first page of Description of Courses section. (CSU)

880 - 889 Selected Topics (1-3) See first page of Description of Courses section.

Broadcasting Arts

110 Introduction to Broadcasting (3) Three lecture hours per week. Introduction to the radio and television broadcasting industry: its nature, organization, history, operation, regulation, programming, and business procedures. (CSU)

115 Media Performance (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. Introduction to the basics of announcing skills; development of interview techniques. Practice in reading typical radio copy, speaking ad lib, announcing, and microphone techniques developed through regular use of the studio facilities. (To increase competency, may be repeated for a maximum of 9 units of credit.) (CSU)

131 Radio Studio Techniques I (3) Two lecture and three lab hours per week. Prerequisite: concurrent enrollment in or completion of BCST 115 with a grade of C or higher. Study of the basic practices and procedures in radio broadcasting. The proper use of microphones, audio mixing consoles, tape recorders, and other common broadcast equipment, with emphasis on combo- and announcing programs. Extra supplies may be required. (CSU)

132 Radio Studio Techniques II (3) One lecture hour plus six lab hours per

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
week by arrangement. Prerequisite: BCST 131 with a grade of C or higher plus demonstration of acceptable operational ability. Continuation of BCST 131. Emphasizes basic multi-track production techniques, including pre- and post-production procedures. Advanced students may operate the radio broadcast station KCSM-FM as part of their laboratory assignment. (To increase competency, may be repeated for a maximum of 9 units of credit.) (CSU)

135 Radio Station Operations (3) One lecture hour plus six lab hours per week by arrangement. Prerequisite: BCST 132 with a grade of C or higher plus demonstration of acceptable operational ability. Remote broadcasts, recording out-of-studio activities and events, compiling and producing weekly station promotional materials, and assisting students in BCST 195 in producing weekly programs. (CSU)

192 Broadcast Time Sales (3) Three lecture hours per week. Fundamentals of time sales; its significance to the station and other departments; its relationship to clients and agencies. Instruction in all promotional materials. (CSU)

194 Writing for Radio and Television (3) Three lecture hours per week. Prerequisite: BUS. 305 or equivalent. Writing and editing for radio, television, and non-broadcast video, including news, interviews, dramatic scripts, public service announcements, and commercials. Covers libel and slander laws. Emphasizes format and content. (CSU)

195 Projects in Radio (2) (Credit/No Credit or letter grade option.) One lecture hour plus three lab hours per week by arrangement. Prerequisite: BCST 115 with a grade of C or higher plus demonstration of operational ability. Instruction in broadcast production, with major emphasis on researching a given subject and producing a series of half-hour or quarter-hour programs on it. Emphasizes the writing and final vocal delivery of the series. Programs may be aired on KCSM-FM. (CSU)

231 Television Studio Techniques I (3) One lecture hour and six lab hours per week. Prerequisite: BUS. 305 or equivalent. Recommended Preparation: concurrent enrollment in or completion of BCST 131 with a C or higher. Entry-level course in television production including all crew positions and operation of all equipment in the television studio (cameras, audio, switcher, CG, lights, etc.). Also includes writing, producing, and directing. (CSU)

232 Television Studio Techniques II (4) Two lecture hours and six lab hours per week. Prerequisite: BCST 231 with a grade of C or higher. Recommended Preparation: BCST 131 and 194 with a grade of C or higher. More complex television production involving all studio equipment and all crew positions. Greater emphasis on writing, producing, and directing. (To increase competency, may be repeated for a maximum of 8 units of credit.) (CSU)

241 Electronic Field Production (4) Two lecture hours and six lab hours per week. Prerequisites: BCST 232 with a grade of C or higher OR FILM 461 and BCST 231 with a grade of C or higher. Introduction to remote video production equipment, techniques, and principles. Includes producing, directing, writing, videography, audio recording, and editing. By the end of the semester, students must pass proficiency test on remote equipment and manipulative skills. (CSU)

242 Advanced Television Production I (4) Two lecture hours and six lab hours per week. Prerequisite: BCST 241 with a grade of C or higher. Combines skills from studio production, field production, and editing. All programs produced on 3/4" U-matic format. May include public service announcements, shorts, and magazine-style programs. Suitable program material may air on KCSM-TV. (CSU)

243 Advanced Television Production II (4) Two lecture hours and six lab hours per week. Prerequisite: BCST 242 with a grade of C or higher. Continued advanced activity in television operations and productions. Students are encouraged to create a video resume of their program material. Programs suitable for television are aired on KCSM-TV. (To increase competency, may be repeated for a maximum of twelve units.) (CSU)

244 Internship in Broadcasting (3) (Credit/No Credit or letter grade option.) One lecture hour and six lab hours per week. Prerequisite: concurrent enrollment in or completion of BCST 132 or 232 with a grade of C or higher. Supervised experience in broadcasting operations at KCSM-TV/FM. Students will be required to pass proficiency test on studio and remote equipment. (To increase competency, may be repeated for a maximum of twelve units of credit.) (CSU)

301 Radio and Television Technical Operations I (3) Two lecture hours plus five lab hours per week by arrangement. Construction, installation, and maintenance of equipment used in KCSM-FM and KCSM-TV, including lighting, audio, and video console equipment. (CSU)

302 Radio and Television Technical Operations II (3) Two lecture hours plus five lab hours per week by arrangement. Prerequisite: BCST 301. Advanced instruction in the subjects introduced in BCST 301, with additional emphasis on inter-communications equipment, videotape recorders, and FM and TV transmitters. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Building Inspection

700 Introduction to the Building Code (3) Three lecture hours per week. Survey of the four required courses covering building inspections, code terminology, techniques of inspection, and construction practices.

710 Building Code Applications (3) Three lecture hours per week. Prerequisite: BLDG 700 with a grade of C or higher or equivalent experience. Plan checking of building for compliance with the non-structural portion of the Uniform Building Code.

720 Electrical Wiring Inspection (3) Three lecture hours per week. Prerequisites: BLDG 700 and ELEC 110 with a grade of C or higher or equivalent experience. Electrical wiring for building inspection, covering single-family dwellings, multifamily dwellings, commercial locations, industrial locations (power installations), and specialized and hazardous locations.

730 Plumbing Inspection (3) Three lecture hours per week. Prerequisite: BLDG...
700 with a grade of C or higher or equivalent experience. Building regulations governing drainage systems, vents and venting, plumbing, water systems, building sewers, and gas piping.

740 Mechanical Code (3) Three lecture hours per week. Prerequisite: BLDG 700 with a grade of C or higher or equivalent experience. Regulations and inspection methods governing mechanical construction, heating and cooling equipment, combustion air, floor furnaces, wall furnaces, unit heaters, venting, ducts, ventilation systems, and refrigeration systems and equipment.

750 Advanced Plan Checking (3) Three lecture hours per week. Prerequisite: BLDG 710 with a grade of C or higher or equivalent experience. Study of engineering fundamentals and the structural plan checking of wood frame buildings based on the Uniform Building Code.

760 California Energy Regulations (3) Three lecture hours per week. Methods of compliance with energy regulations applicable to dwellings, apartments, condominiums, and hotels. Includes heat transfer, insulation, weather stripping, climate control systems, water heating, mandatory requirements, computer compliance, point system, component packages, appliance regulations, and solar systems.

770 Contractor’s License and Law (3) Three lecture hours per week. Prerequisite: experience in the construction field. Introduction to the legal requirements for a contractor’s license and a study of the contractor’s obligations to clients.

780 Non-Residential Energy Regulations (3) Three lecture hours per week. Methods of complying with energy regulations applicable to non-residential buildings. First and second generation regulations (offices, stores, grocery stores). Includes heat transfer, solar gain, mandatory requirements, heating and cooling design, ventilation and fan requirements, lighting, load calculations, energy budgets, component packages, and appliance regulations.

790 Blueprint Reading (3) Three lecture hours per week. Reading, understanding, and interpreting architectural plans for residential and commercial construction.

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Business

100 Contemporary American Business (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Current concepts of American business from the business perspective. Examination of societal issues affecting business in a dynamic economic environment. Includes the nature of major business functions and the roles of producer and consumer in the economy. (CSU)

101 Human Relations I (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Designed to increase competence in personal and interpersonal skills, which are critical prerequisites for a successful career in business. Covers perception, self-management, self-image, communication, prejudice, conflict management, leadership, and resistance to change. (CSU)

102 Human Relations II (3) Three lecture hours per week. Prerequisite: BUS. 101. Emphasizes self-directed learning of concepts and skills related to increased personal and professional effectiveness. Topics, generated from instructor and class interaction, focus on human relations issues of immediate concern to those taking the class. Requires student participation and involvement greater than that of the first semester course. (CSU)

115 Business Mathematics (3) Three lecture hours per week. Prerequisite: appropriate skill level as measured by a satisfactory score on CSM Math Placement Test One and other measures. Recommended Preparation: BUS. 810. Study of mathematics as applied to business, with emphasis on calculations involving interest, discount, negotiable instruments, financial statements and ratios, inventory pricing, depreciation, payroll, income tax, central tendency, and correlation. (CSU)

129 Machine Calculation (1) Three lab hours per week plus two lab hours by arrangement per week for eleven weeks. Prerequisite: appropriate skill level as measured by a satisfactory score on CSM Math Placement Test One and other measures. Recommended Preparation: BUS. 810. Instruction in the touch system on the printing calculator, the electronic display calculator, and the microcomputer 10-key pad. (CSU)

131 Money Management (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Develops understanding and skill in dealing with consumer financial planning, saving and borrowing money, real estate and security investments, estate planning, and income tax preparation. (CSU)

150 Small Business Management (3) Three lecture hours per week. Prerequisite: BUS. 100 or equivalent. Recommended Preparation: eligibility for ENGL 800. Examination of the opportunities and hazards of small business operation. Designed for business students who plan to establish or supervise a small business. Explores significant areas of vital interest to the prospective independent businessperson, including pre-opening requirements. (CSU)

155 Small Business Problem Solving (5) (Open entry/open exit.) (Credit/No Credit grading.) Total of eight lecture hours by arrangement. For individuals (open entry/open exit.) (Credit/No Credit grading.) Total of eight lecture hours by arrangement. For individuals interested in starting a business and for small business owners who may be experiencing problems in marketing, management, finance, and related areas. (May be repeated two times for credit.) (CSU)

156 Case Study Lab (1) One lab hour by arrangement per week. Corequisite: concurrent enrollment in day section of BUS. 150. Students work with an assigned small business or an individual considering going into business to assist with problem solving. Semester report required at conclusion. (CSU)

170 Salesmanship Fundamentals (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. The role and impact of personal selling in the marketing process. Considers principles and techniques employed effectively in the direct sales process. (CSU)

175 Advertising (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. The role of advertising in our economic life, with emphasis on advertising methods and media. (CSU)

180 Marketing (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Broad study of marketing principles and methods applicable to both consumer and industrial goods and services. Includes retailing and wholesaling consumer goods, marketing

(CSU) Transferable to California State Universities. (UC) Transferable to University of California. (*) With limitations
industrial goods, marketing policies and practices, and government relationship to marketing. (CSU)

201 Business Law I (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to the study of business law, including sources, agencies, and enforcement procedures. Emphasizes the ability to understand and review simple contracts and a basic understanding of contract law. Discusses sales warranties and consumer protection legislation. (CSU/UC) (CAN BUS 8)

280 Principles of Exporting (1) Three lecture hours per week for six weeks. Examines documentation, rules and regulations, and types of licensing required for exporting; considers financial arrangements, letters of credit, marketing resources abroad, and import regulations of foreign countries as they apply to U.S. exporters. (CSU)

281 Principles of Importing (1) Three lecture hours per week for six weeks. Examines the laws, rules, and regulations governing importing into the United States (application and purpose of import documentation, payment of import duty, and recovery by drawback) and regulation of off-shore manufacturing and assembly as well as other laws enforced by the U.S. Customs Service. (CSU)

282 International Transportation and Forwarding (1) Three lecture hours per week for six weeks. The operation of principal international transport modes. Purchase of transport services, transportation cost factors, intermodal methods and economics, allied services, and the role and duties of the foreign freight forwarder. (CSU)

283 Transportation of Dangerous Goods (1) Three lecture hours per week for six weeks. Regulation of transportation of dangerous or hazardous goods by all transport modes. Application of federal regulations, state and local laws, and international regulations. Emphasizes special packaging, labeling, marking, and container specifications. (CSU)

295 Computer Systems in Business (4) Three lecture and two lab hours plus one lab hour by arrangement per week. Prerequisites: BUS. 311 or equivalent; MATH 120 or equivalent; and concurrent enrollment in or completion of ACTG 100 or 121. Recommended Preparation: eligibility for ENGL 800. Introduction to business computers; principles of computer operations and system design. Flowcharting, writing, running, and debugging programs in BASIC for accounting and management. Use of microcomputer software applications for word processing, spreadsheets (Lotus 1-2-3), and database management. (CSU) (CAN BUS 6)

300 Introduction to Microcomputers (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. (Credit/No Credit grading.) Prerequisite: knowledge of typewriter keyboard. Recommended Preparation: eligibility for ENGL 800. Introduction to microcomputers, including components of a microcomputer system and disk operating system. Develops a familiarity with business application software, including fundamentals of word processing, spreadsheets, and data base management software programs. (To increase competency, may be repeated one time for credit.) (CSU)

301 Micro/Word Processing (WordStar): Beginning (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 305 or equivalent. Introduction to WordStar. Emphasizes preparing and editing business documents (using insert, delete, copy, and move functions), formatting, and printing. (To increase competency, may be repeated one time for credit.) (CSU)

302 Micro/Word Processing (WordStar): Intermediate (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 301. Increased text editing proficiency using WordStar software. Emphasizes advanced text manipulation, page formatting, printing features, merging files, and spelling checker. (To increase competency, may be repeated one time for credit.) (CSU)

303 Micro/Word Processing (WordPerfect): Beginning (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 305 or equivalent. Recommended Preparation: eligibility for ENGL 800. Introduction to WordPerfect software. Emphasizes preparing and editing business documents (using insert, delete, copy, and move functions), formatting, and printing. (To increase competency, may be repeated one time for credit.) (CSU)

304 Micro/Word Processing (WordPerfect): Intermediate (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 303. Recommended Preparation: eligibility for ENGL 800. Increased text editing proficiency using WordPerfect software. Emphasizes advanced text manipulation, page formatting, printing features, merging files, and spelling checker. (To increase competency, may be repeated one time for credit.) (CSU)

305 Micro/Keyboarding: Beginning (2) Three lecture hours plus two lab hours by arrangement per week for eleven weeks. Beginning course to develop keyboard skills by touch and to teach proper keyboard/typing techniques for microcomputers and electronic typewriters. (CSU)

306 Micro/Keyboarding: Skillbuilding (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: knowledge of the keyboard. Speed and accuracy development for all levels of competency. (To increase competency, may be repeated one time for credit.) (CSU)

307 Micro/Keyboarding: Formatting (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 305 or ability to type 30 wpm. Skill development in formatting letters, memos, reports, and tabulated material from a variety of source documents on microcomputers. (CSU)

311 Micro/Spreadsheet: Beginning (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 300 or equivalent. Recommended Preparation: eligibility for ENGL 800. Fundamentals of an electronic spreadsheet. Emphasizes building a worksheet using basic commands which include copying, formatting, identifying ranges, formula functions, and printing. (To increase competency, may be repeated one time for credit.) (CSU)

312 Micro/Spreadsheet: Advanced (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 311. Recommended Preparation: eligibility for ENGL 800. Advanced spreadsheet applications, using increasingly complex models and utilizing database functions, data query, macros, and graph applications. (To increase competency, may be repeated one time for credit.) (CSU)

(CSU) Transferable to California State Universities. (UC) Transferable to University of California. (*) With limitations
313 Micro/Spreadsheet Macros (1)
Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks.
Prerequisite: BUS. 312. Writing and using macros to automate spreadsheet key-strokes; naming and invoking techniques; preparing macro menus. (To increase competency, may be repeated one time for credit.) (CSU)

314 Business Decision Making Using Spreadsheets (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisites: BUS. 311 and 313 or equivalent. Advanced spreadsheet techniques including efficient spreadsheet design; optimization of spreadsheet performance; development and management of large spreadsheets; complex data relationships; detection and correction of spreadsheet errors; automated report printing; high-level functions and macros; relative and absolute addressing; importing and exporting data. Uses case study approach; includes accounting and financial applications. (To increase competency, may be repeated one time for credit.) (CSU)

321 Micro/Database Management: Beginning (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 300 or equivalent. Recommended Preparation: eligibility for ENGL 800. Introduction to database creation and applications for business to create forms, edit data, search for specific information, and print reports. (To increase competency, may be repeated one time for credit.) (CSU)

322 Micro/Database Management: Advanced (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 321. Advanced database applications. Includes data checking, processing and sorting, and producing reports. (To increase competency, may be repeated one time for credit.) (CSU)

323 Automated Business Databases (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 322 or experience in dBase III Plus; ability to create and modify databases and their reports and to use filters for conditions and indexes. Uses a computerized database as a tool for reaching business objectives and solving identified problems (accounts receivable, payroll, inventory control, etc.). Students create an automated business database, identify design issues, create and test design, document the program, evaluate it for effectiveness, and develop implementation strategies. (To increase competency, may be repeated one time for credit.) (CSU)

325 Electronic Filing and Records Management (2) One lecture hour and two lab hours plus one lab hour by arrangement per week. Develops record management skills — creating, maintaining, and managing data records — using alphabetic, numeric, geographic, and subject filing. Includes practice in microcomputer filing applications and data management experience. (CSU)

340 Micro/LAN Business Applications (2) Three lecture hours plus two lab hours by arrangement per week for eleven weeks. Prerequisite: knowledge of DOS. Networking computers to share business software such as electronic mail, multitasking operations, telecommunication, and word processing. Includes hands-on experience in maintaining connected systems and software. (To increase competency, may be repeated one time for credit.) (CSU)

344 Micro/DOS: Beginning (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Recommended Preparation: eligibility for ENGL 800. Introduction to the IBM-PC disk operating system (DOS). Includes the use of DOS commands, the editing function, processing files, and procedures for directing information to develop a basic understanding of the IBM-PC microcomputer system. (To increase competency, may be repeated one time for credit.) (CSU)

345 Micro/DOS: Advanced (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 344 or equivalent microcomputer experience. Use of DOS in fixed disk and floppy disk management. Creation and uses of batch and autexec files. Use of EDLIN and other DOS utilities. (To increase competency, may be repeated one time for credit.) (CSU)

346 Micro/DOS: Advanced Applications (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 345. Review of advanced DOS techniques using current DOS upgrades to control business application programs and to organize subdirectory structure for hard disk management. (To increase competency, may be repeated one time for credit.) (CSU)

350 Micro/Telecommunications (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Use of word processing and telecommunications software to transmit and receive data via a modem and telephone lines. Includes instruction in electronic mail, networking, protocols, and information sources. (To increase competency, may be repeated one time for credit.) (CSU)

351 Micro/Problem Solving with Software Integration (1) Three lecture hours per week for 5-1/3 weeks. Prerequisite: BUS. 304 or 369; 312; 322; 344; or equivalent. Introduction to use of PC technology in business problem-solving by integrating the three main software applications. Includes survey of programs and available packages, problem-solving techniques, and the integration process. (To increase competency, may be repeated once for credit.) (CSU)

360 Micro/Desktop Publishing: Beginning (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 301 or 303 or equivalent. Introduction to the basic capabilities and terminology of desktop publishing. Text entering, editing, saving, and printing using an IBM-PC and a desktop publishing program. Creation of simple documents such as a newsletter. (To increase competency, may be repeated one time for credit.) (CSU)

361 Micro/Desktop Publishing: Advanced (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 360. Continuation of Business 360. Planning, designing, creating, editing, and printing of business documents. Emphasizes page makeup and formatting for producing final copy printouts. Includes instruction in transferring information and graphs from other programs. (To increase competency, may be repeated one time for credit.) (CSU)

365 Micro/Word Processing (WordStar): Advanced (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 302 or equivalent. Use of WordStar software advanced features such as sub-directories, macros, desktop publishing, and conversions. (To increase competency, may be repeated one time for credit.) (CSU)
368 Micro/Word Processing (WORD): Beginning (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 305 or equivalent. Introduction to WORD software. Emphasizes preparing and editing business documents (using insert, delete, copy and move functions), formatting, and printing. (To increase competency, may be repeated once for credit.) (CSU)

369 Micro/Word Processing (WORD): Intermediate (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 368 or equivalent. Increased text-editing proficiency using WORD. Emphasizes advanced text control, page formatting, merging, and using columns. (To increase competency, may be repeated once for credit.) (CSU)

370 Micro/Word Processing (WORD): Advanced (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 368 or equivalent. Use of WORD advanced features. Includes footnotes, outlines, tables of contents, glossaries, line draw, and style sheets. Emphasizes desktop publishing features, including font changes and graphics. (To increase competency, may be repeated once for credit.) (CSU)

371 Micro/Windows Business Applications: Introduction to Windows (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 300 or equivalent. Introduction to Microsoft Windows. Emphasizes the use of Windows in a business environment. Includes the use of file management, the integration of business software applications, and Windows's relationship to the disk operating system. (To increase competency, may be repeated once for credit.) (CSU)

372 Micro/Windows Business Applications: Advanced Windows (1) Three lecture hours plus two lab hours by arrangement per week for 5-1/3 weeks. Prerequisite: BUS. 371 or equivalent. Emphasizes the use of advanced Windows techniques in a business environment. Includes the use of advanced file management and the integration of Windows software applications. Also includes the multitasking capabilities of Windows. (To increase competency, may be repeated once for credit.) (CSU)

401 Business Communications (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800 and ability to type. Comprehensive review of grammar, punctuation, and vocabulary used in business. Identifies, explains, and develops the communication skills and tools that contribute to effective verbal and written communications. Instruction includes exercises using microcomputers. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

701 How to Begin/Finance a Small Business (1) (Credit/No Credit or letter grade option.) Three lecture hours per week for six weeks. For people considering opening a small business as well as for those currently in small business. Entrepreneurial qualities and fundamentals of opening and operating a successful small business. Development of a business plan; legal aspects; sources of capital; loan packages; and financing a small business. (CSU)

702 The Business Plan for Small Business (1.5) (Credit/No Credit or letter grade option.) Three lecture hours per week for eight weeks. Development of a comprehensive business plan. Includes establishing business goals, financial projection, marketing research, product development, and personnel management. (CSU)

705 Marketing and Sales/Small Business (1) (Credit/No Credit or letter grade option.) Three lecture hours per week for six weeks. For people considering or currently operating a small business. Examines marketing and promotion techniques, sales strategies, and techniques for small businesses. (CSU)

711 Taxes and the Small Business Owner (1.5) (Credit/No Credit grading.) Three lecture hours per week for three weeks. Designed for business owners and individuals responsible for compliance with tax regulations. Covers practical aspects of record keeping as well as completing and submitting tax forms and schedules. (CSU)

720 Management/Motivation Strategies for Small Business (1) (Credit/No Credit or letter grade option.) Three lecture hours per week for six weeks. Examines management techniques, motivation guidelines, and current issues relevant to opening/operating a small business: franchising, family-owned and home business, and computer selection. (CSU)

723 Computers in Small Business (1) (Credit/No Credit grading.) Three lecture hours per week for three weeks. Designed to help small business owners/managers identify computer needs, review techniques for control of business, and develop a plan for acquiring and implementing a computer system. (Units do not apply toward AA/AS degree.)

810 Business Arithmetic (3) Three lecture hours per week. Prerequisite: completion of CSM Math Placement Test One (a score of less than 26 equals recommendation to enroll in BUS. 810). Fundamental arithmetic operations as applied to ordinary problems of business. Includes the basic processes, fractions, decimals, and percentages. (Units do not apply toward AA/AS degree.)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Career and Life Planning

101-102-103 College Re-Entry I, II, III (1-1-1) (Credit/No Credit grading.) Three lecture hours per week for six weeks. Designed for adults whose education has been interrupted. Includes analysis of present abilities and interests; investigation of new directions and objectives; investigation of career opportunities; development of college-level study skills; and guidance and counseling for meeting new goals. (CSU)

112 Voyages: Career and Life Planning (2) (Credit/No Credit grading.) (Telecourse.) Recommended Preparation: eligibility for ENGL 800. For those who are

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
undecided about career goals or are changing their career direction. Stresses the significance of clearly defined values and the development of strategies and goals for life work. (CSU)

132 Job Search Strategy (1) (Credit/No Credit grading.) Two lecture hours per week for eight weeks. Recommended Preparation: defined job objective. Designed to develop practical job search skills. Emphasizes the knowledge and skills required to write a resume and develop successful employment interview techniques. Students will learn to create a plan of action for becoming a successful job applicant. (CSU)

133 Career Choices (1) (Credit/No Credit grading.) Forty-eight lab hours by arrangement. An open-entry, individualized career exploration course designed for the student who prefers to work independently. Emphasis is on collecting career information which will assist in making career decisions. May be completed at the student’s own pace, may include a variety of tests to appraise aptitudes, interests, and values.

137 Life and Career Planning (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. A comprehensive approach to life and career planning. Emphasizes self-assessment, goal and value clarification, decision-making, and techniques for dealing with change. Explores career options and job search techniques. (CSU)

138 Skill Development for Career Growth (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. A practical, contemporary, and diversified approach to maintaining a healthy, purposeful, well-balanced life. Emphasizes the importance of developing effective personal skills for career growth. (CSU)

140 Peer Counseling (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. An orientation and training course to develop peer counseling skills, emphasizing the experiential process of interpersonal communication as well as the theoretical explanation of the counseling process and behavior. Gives students an opportunity to explore and communicate feelings while learning the principles of personal counseling. (CSU)

141 Peer Relations and Community Service (1) (Credit/No credit.) Three lecture hours per week for six weeks. Recommended Preparation: eligibility for ENGL 800. An orientation and training course to develop counseling skills, including principles of counseling and helping skills. Emphasizes the importance of group interaction, personal and interpersonal growth and understanding empathic communication skills. Students may be given the opportunity to do volunteer peer counseling work on campus or in the community. (CSU)

401 Introduction to College (1) (Credit/No Credit or letter grade option.) Two lecture hours per week for eight weeks. Designed to instruct and assist students in skill assessment, educational planning, and career development. (CSU)

402 Honors Seminar “A” (1) One lecture hour per week. Prerequisite: admission to Honors Program. Introduction to college. The process and tradition of academic scholarship. The techniques of learning, research, and student skills. (Fall only.) (CSU)

404 Honors Seminar “B” (1) One lecture hour per week. Prerequisite: admission to Honors Program. Introduction to scholarship. An interdisciplinary course which introduces students to contemporary research and scholarship in various fields of study. Taught by college faculty from various departments. Interconnectedness of scholarship emphasized. (Spring only.) (CSU)

406 Athletic Guidance Seminar (2) (Credit/No Credit or letter grade option.) Two lecture hours per week. Designed to assist student athletes in identifying values, educational and career goals, and transfer and eligibility requirements. Offered primarily for students competing in intercollegiate athletics and should be taken prior to or during the first semester of competition. (CSU)

410 College and Career Awareness (2) Two lecture hours per week. Open to all students but strongly recommended for entering freshmen enrolled in general courses with an “undecided” major or for students who wish to verify their career and educational choice. Acquaintance with campus facilities and activities, improvement of study habits and skills, educational planning toward a realistic, meaningful goal. Career planning to discover potential talents by means of tests measuring new interests and aptitudes. (CSU)

430 Career Exploration (1) (Credit/No Credit grading.) Three lecture hours plus one lab hour per week by arrangement for six weeks. Designed for those who wish to decide a college major, set career goals, or change careers. Self-assessment of interests, values, skills, and personality characteristics using a variety of tests and exercises. Assistance in exploration of majors and careers, effective decision making, and career planning. (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Chemistry

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

100 Survey of Chemistry (3) Three lecture hours per week. Prerequisite: one semester of high school level algebra or equivalent recommended. (This course is designed for non-science majors and is not open to students who have had or are taking CHEM 210.) Study of matter; survey of the chemical concepts and phenomena commonly encountered. (CSU/UC*)

192 Elementary Chemistry (4) Three lecture and three lab hours per week. Prerequisite: MATH 110 or one year of high school algebra. It is recommended that students enroll concurrently in MATH 115 or MATH 120 or 122. Chemical nomenclature and formula writing, and mathematical review, including logarithms and exercises in calculation relating to chemistry. (Provides preparation for students who do not have adequate preparation for CHEM 210 or 224.) Extra supplies may be required. (CSU/UC*)

210 General Chemistry I (5) Three lecture and six lab hours per week. Prerequisites: CHEM 192 OR high school chemistry with lab and two years of high school mathematics. Recommended Preparation: high school physics and eligibility for ENGL 800. Basic principles of atomic and molecular structure and bonding. Chemical reactions and equations, solutions, gas laws, stoichiometry, and related calculations. Extra supplies may be required. (Intended for students majoring in science fields and chemical engineering.) Students

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
who complete CHEM 210-220 and CHEM 224-225 will receive credit for CHEM 210-220 only. (CSU/UC*) (CAN CHEM 2)

220 General Chemistry II (5) Three lecture and six lab hours per week. Prerequisite: CHEM 210. Descriptive chemistry of the elements and qualitative analysis. Introduction to nuclear chemistry and detailed treatment of electrolysis, thermodynamics, coordination compounds, equilibrium, and kinetics. Extra supplies may be required. Students who complete CHEM 210-220 and CHEM 224-225 receive credit for CHEM 210-220 only. (CSU/UC*) (CAN CHEM 4)

224 Engineering Chemistry I (4) Three lecture and three lab hours per week. Prerequisite: CHEM 192 OR high school chemistry with lab and high school mathematics through trigonometry (concurrent enrollment in trigonometry acceptable). Recommended Preparation: high school physics. Mole concept and stoichiometry, solutions, gas laws, phase changes, thermochimisty, and related calculations. Extensive coverage of atomic theory, intermolecular and intramolecular bonding, with emphasis on applications to materials science. Extra supplies may be required. Students who complete CHEM 210-220 and CHEM 224-225 will receive credit for CHEM 210-220 only. (CSU/UC*)

225 Engineering Chemistry II (4) Three lecture and three lab hours per week. Prerequisite: CHEM 224. Detailed treatment of thermodynamics, equilibrium, electrochemistry, kinetics, and chemistry of complexes; introduction to nuclear chemistry. Extra supplies may be required. Students who complete CHEM 210-220 and CHEM 224-225 receive credit for CHEM 210-220 only. (CSU/UC*)

231 Organic Chemistry I (5) Three lecture hours, one recitation hour, and five lab hours per week. Prerequisite: CHEM 220 or 225. Introduction to basic concepts of structure and reactivity of organic compounds; reactions of major functional groups; reaction mechanisms; and synthesis. Principles and practice of laboratory techniques; methods of separation, purification, and synthesis. Theory and practice of instrumental methods, including spectroscopy. Designed as the first semester of a one-year organic course or as a one-semester survey. Extra supplies may be required. (CSU/UC)

232 Organic Chemistry II (5) Three lecture hours, one recitation hour, and five lab hours per week. Prerequisite: CHEM 231. More rigorous treatment of mechanisms, reactions, and synthesis; structure determination using classical and spectroscopic methods. Laboratory work implements techniques and skills taught in CHEM 231, including identification of unknown compounds and mixtures. Extra supplies may be required. (CSU/UC)

250 Quantitative Analysis (4) Two lecture and six lab hours per week. Prerequisite: CHEM 220. Recommended Preparation: eligibility for ENGL 800. Theory, calculations and practice of common analytical procedures. Includes gravimetric and volumetric methods; also, colorimetric, potentiometric, and other instrumental procedures. Extra supplies may be required. (Spring only.) (CSU/UC)

410 Health Science Chemistry I (4) Three lecture and three lab hours per week. Prerequisite: MATH 110 OR high school algebra. Recommended Preparation: eligibility for ENGL 800. Introduction to chemistry for the applied sciences, beginning with scientific measurement and the metric system, followed by chemical bonding, solution chemistry, acids and bases, redox reactions, gases, and general aspects of stoichiometry. Extra supplies may be required. Students who complete CHEM 210-220 and CHEM 410-420 will receive credit for CHEM 210-220 only. (CSU)

420 Health Science Chemistry II (4) Three lecture and three lab hours per week. Prerequisite: CHEM 410. Completes the sequence, focusing on organic and biochemical chemistry with special emphasis on the chemistry of carbohydrates, lipids, proteins, nucleic acids, and vitamins and their respective metabolism. Extra supplies may be required. Students who complete CHEM 210-220 and CHEM 410-420 will receive credit for CHEM 210-220 only. (CSU)

680 – 689 Selected Topics (1-3) See first page of Description of Courses section. (CSU)

690 Special Projects (1-2) See first page of Description of Courses section. (CSU)

880 – 889 Selected Topics (1-3) See first page of Description of Courses section. (CSU)

Chinese

Language Laboratory and Listening Requirement: since imitation, response, and independent practice are integral features of the study of a foreign language at the College, students enrolled in certain courses in foreign language are required to use the language laboratory as prescribed by each department.

111 Elementary Chinese I (3) Three lecture hours and one lab hour by arrangement per week. A beginning course in Mandarin Chinese with instruction and practice in understanding, speaking, reading, and writing. (CSU/UC)

122 Advanced Elementary Chinese II (3) Three lecture hours and one lab hour by arrangement per week. Prerequisite: CHIN 111 or equivalent with a grade of C or higher. A continuation of CHIN 111 with further development of the skills of understanding, speaking, reading, and writing. (CSU/UC)

131 Intermediate Chinese I (3) Three lecture hours and one lab hour by arrangement per week. Prerequisite: CHIN 121 or equivalent with a grade of C or higher. A continuation of CHIN 121 with further training in spoken and written Mandarin. (CSU)

132 Intermediate Chinese II (3) Three lecture hours and one lab hour by arrangement per week. Prerequisite: CHIN 131 or equivalent with a grade of C or higher. Approximately the second half of the semester's work in intermediate Mandarin Chinese as taught at four-year institutions. (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)
690 Special Projects (1-2) (See first page of Description of Courses section.)
(CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Computer and Information Science

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

100 Computers and Society (2) (Telecourse). One thirty-minute television program and lab assignment per week for sixteen weeks plus three-two-hour on-campus meetings. "ComputerWorks" covers terminology, concepts, and common microcomputer applications and prepares students to understand and utilize computers in both their personal and professional lives. IBM-compatible computers used to complete lab assignments for this course. (CSU)

110 Introduction to Computer and Information Science (3) Three lecture hours plus one lab hour per week by arrangement. Introduction to information systems exploring the use of computers and the development of computer systems: hardware, software, common PC and Macintosh applications, and programming in BASIC. (CSU/UC*)

115 Introduction to Program Design (3) Three lecture hours per week. Corequisite: concurrent enrollment in CIS 116. Introduction to computer programming for non-CIS majors and CIS majors with no previous programming experience. Includes computer hardware and operating systems concepts necessary for program coding, compilation, and execution; problem solving techniques; structured program design methods and tools; program coding, testing, and implementation; and documentation issues and techniques. Uses a high-level language to explore control structures, modularization, data, operators, scope of variables, parameters, and arrays. (CSU/UC*)

116 Open Computer Lab (1) (Credit/No Credit grading.) Three lab hours per week. Corequisite: concurrent enrollment in CIS 115. Use of microcomputers to complete lab assignments for CIS 115. (CSU/UC*)

130 Introduction to Expert Systems (2) Two lecture hours per week. Prerequisites: CIS 115/116 or knowledge of a programming language. Corequisite: concurrent enrollment in CIS 131. Introduction to fundamental principles, terms, and concepts of expert systems. Includes Artificial Intelligence, a survey of expert systems, user-oriented shells, natural language processing, knowledge acquisition, rule-based programming, and construction of a simple expert system. (CSU)

131 Open Computer Lab (1) (Credit/No Credit grading.) Three lab hours per week. Corequisite: concurrent enrollment in CIS 130. Use of microcomputers to complete lab assignments for CIS 130. (CSU)

150 Networks and Data Communications (3) Three lecture hours plus one lab hour per week by arrangement. Prerequisite: CIS 110 or 115/116. Basic principles of data communications and network concepts. Survey of common protocols and key elements needed to configure network systems, including local area networks. Also includes the use of data codes and their implications. (CSU)

152 Principles of Network Design and Management (3) Three lecture hours per week plus one lab hour per week by arrangement. Prerequisites: CIS 150 OR BUS 340 and 350. Basic concepts of network architecture, topology, design, implementation and management. Covers connectivity standards, network security issues, and network administration responsibilities. Also includes LAN, WAN, bridging, gateways and micro-to-mainframe links. (CSU)

160 Introduction to Macintosh (1) (Credit/No Credit or letter grade option.) Total of twelve lecture and twelve lab hours. Introduction to Macintosh operating system and user interface, with a survey of common applications, including word processing, graphics, and spreadsheet. (CSU)

170 HyperCard on the Macintosh I (1) (Credit/No Credit or letter grade option.) Total of twelve lecture and twelve lab hours. Prerequisite: CIS 160 or familiarity with Macintosh computer. Introduction to typical applications of HyperCard and authoring of HyperCard stacks. (CSU)

171 HyperCard on the Macintosh II (1) (Credit/No Credit or letter grade option.) Total of twelve lecture and twelve lab hours. Prerequisite: CIS 170 (or equivalent). Continuation of CIS 170. Design and creation of HyperCard stacks and introduction to scripting with HyperTalk. (To increase competency, may be repeated one time for credit.) (CSU)

240 FORTRAN Programming (3) Three lecture hours per week. Prerequisite: MATH 130 or high school preparation including one semester of Trigonometry. Corequisite: concurrent enrollment in CIS 241. Introduction to FORTRAN and its use in the solution of problems which can be modeled algebraically. Includes introduction to programming; algorithm development; representation of data; the syntax of specification, assignment, control, and I/O statements; arrays; and subprograms. (CSU/UC*) (Completion of CIS 240 and 241 = CAN CSCI 4)

241 Open Computer Lab (1) (Credit/No Credit grading.) Three lab hours per week. Corequisite: concurrent enrollment in CIS 240. Use of microcomputers to complete lab assignments for CIS 240. (CSU/UC*) (Completion of CIS 240 and 241 = CAN CSCI 4)

250 Programming Methods (3) Three lecture hours per week. Prerequisites: CIS 115/116 or a semester programming course in high school or college OR six months of professional programming experience. Corequisite: concurrent enrollment in CIS 251. Introduction to computer science and software engineering for CIS majors and computer professionals. Covers internal representation of data, memory utilization during execution, elementary data structures and dynamic memory allocation, modularization, recursion, algorithm efficiencies, and testing techniques. Includes problem solving using a high-level programming language, such as Pascal or MODULA-2. (CSU/UC*)

251 Open Computer Lab (1) (Credit/No Credit grading.) Three lab hours per week. Corequisite: concurrent enrollment in CIS 250. Use of microcomputers to complete lab assignments for CIS 250. (CSU/UC*)

252 Programming Methods II (3) Three lecture hours per week. Prerequisite: CIS 250/251 or one full year of professional programming experience. Corequisite: concurrent enrollment in CIS 253. Continuation of programming methodology for CIS majors or computer professionals. Includes lists, stacks, queues, trees, algorithm optimization techniques, machine-

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
level control, and large application development projects. (CSU)

253 Open Computer Lab (1) (Credit/No Credit grading) Three lab hours per week. Corequisite: concurrent enrollment in CIS 252. Use of microcomputers to complete lab assignments for CIS 252. (CSU/UC*) (Completion of CIS 250 and 291 = CAN CSCI 10)

304 Microsoft Windows Programming (3) (Credit/No Credit or letter grade option) Three lecture hours per week. Prerequisite: basic familiarity with Microsoft Windows/Graphical User Interface (GUI) and MS-DOS concepts, terminology and operation; CIS 270 or an equivalent first-semester C programming course or one year C programming experience. Corequisite: concurrent enrollment in CIS 305. Uses C as the main programming language for classroom discussions and assignments. Includes introduction to the Microsoft Windows Application Programming Interface (API); Windows fundamentals: painting with text, the keyboard, the mouse, the timer, child Windows controls; Windows resources: icons, cursors, bitmaps, strings, menus, accelerators, and dialog boxes; Windows memory management; the graphics device interface (GDI); data exchange and links. Students study Windows programming techniques and write Windows programs in C. (CSU)

305 Open Computer Lab (1) (Credit/No Credit grading) Three lab hours per week. Corequisite: concurrent enrollment in CIS 270. Use of microcomputers to complete lab assignments for CIS 270. (CSU/UC*)

272 Programming in C Language II (3) Three lecture hours per week. Prerequisites: CIS 270/271 or familiarity with elementary concepts of programming in C. Corequisite: concurrent enrollment in CIS 273. Continuation of CIS 270: C operators and control structures, structured programming, structures, files, data structures, bitwise operators, and programming environments. (CSU/UC*)

273 Open Computer Lab (1) (Credit/No Credit grading) Three lab hours per week. Corequisite: concurrent enrollment in CIS 272. Use of microcomputers to complete lab assignments for CIS 272. (CSU/UC*)

290 Microcomputer Assembly Language Programming (3) Three lecture hours per week. Prerequisite: knowledge of a programming language. Corequisite: concurrent enrollment in CIS 291. Includes computer organization, data representation, data structures, machine and assembly language programming, addressing techniques, subroutine linkage, assembly process, assembly directives, and macro definition and use. (CSU/UC*) (Completion of CIS 290 and 291 = CAN CSCI 10)

291 Open Computer Lab (1) (Credit/No Credit grading) Three lab hours per week. Corequisite: concurrent enrollment in CIS 290. Use of microcomputers to complete lab assignments for CIS 290. (CSU/UC*)

300 Systems Analysis and Design (3) Three lecture hours per week. Prerequisite: knowledge of a programming language. Recommended Preparation: CIS 210/211. Analysis of manual and computer-based systems from inception to implementation and evaluation. Includes data gathering, problem definition, cost/benefit analysis, I/O design, oral and written management presentations, hardware and software alternatives, and introduction to database concepts. Students analyze and design a system for a typical business application. (CSU)

360 Introduction to Database Management (3) Three lecture hours per week. Prerequisites: CIS 115/116 and a CIS 200- or 300-level course or two CIS 200- or 300-level courses. Corequisite: concurrent enrollment in CIS 361. Database management concepts focusing on the relational model. Covers data manipulation techniques based on the SQL standard, database design methodologies to handle any set of data requirements, and database administration issues with regard to control of centralized and distributed databases. Includes extensive use of a microcomputer DBMS to apply the theory to practical examples of database design, implementation, and manipulation. (CSU)

361 Open Computer Lab (1) (Credit/No Credit grading) Three lab hours per week. Corequisite: concurrent enrollment in CIS 360. Use of microcomputers to complete lab assignments for CIS 360. (CSU)

370 Object-Oriented Programming (3) Three lecture hours per week. Prerequisites: CIS 272/273 or 252/253 or experience with data structures such as stacks, queues, and trees. Corequisite: concurrent enrollment in CIS 371. Introduction to object-oriented programming. Includes objects, data encapsulation, data abstraction, methods, classes, and inheritance. C++ is the language used. (CSU/UC*)

371 Open Computer Lab (1) (Credit/No Credit grading) Three lab hours per week. Corequisite: concurrent enrollment in CIS 370. Use of microcomputers to complete lab assignments for CIS 370. (CSU/UC*)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

---

**Consumer Arts and Science**

310 Nutrition (3) *Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Carbohydrates, proteins, fats, vitamins and minerals as related to health of the body. Includes personalized nutritional assessment. (May be used to waive HSCI 113.) (CSU/UC) (CAN H C 2)*

412 Consumer Issues (3) *Three lecture hours per week. Study of problems facing the consumer; relationship of quality and cost to food, clothing, housing; resource management, legislation and agencies protecting the consumer. (CSU)*

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

**Cooperative Education**

Cooperative work experience education is offered in two basic programs: (1) the parallel plan, in which the student works and attends college classes during the same semester; and (2) the alternate semester plan, wherein the student can alternate between semesters of work and study. Under the parallel plan, students can earn up to four units of Cooperative Education credit per semester. Alternate semester students can earn up to eight units of Cooperative Education credit per semester of work. Students may choose between letter grading and Credit/No Credit grading. Cooperative Education is offered in the following fields: administration of justice, aeronautics, apprenticeship, architecture, business, broadcasting arts, building inspection, cosmetology, dental assisting, drafting technology, fashion merchandising, filmmaking, floristry, fire science, government, horticulture, medical assisting, nursing, physical education, real estate, technical arts & graphics, transportation, as well as each major field of study.

641 Cooperative Education (1-4) *(Credit/No Credit or letter grade option.)* Work must be in a field related to a career goal or major, supplemented by individual counseling from an instructor/coordinator. Students may be eligible for up to 4 units of credit per semester and the course may be repeated up to 4 semesters to earn up to 16 units. The student must have new learning opportunities in order to repeat the course. Seventy-five hours of work (approximately 5 hours per week) is equivalent to one unit of credit. Enrollment in 7 units of which Cooperative Education may be four of the seven is mandatory. (CSU)

645 Cooperative Education/Alternate Semester (1-8) *(Credit/No Credit or letter grade option.)* Work must be in a field related to a career goal or major, supplemented by individual counseling from an instructor/coordinator. Students in the alternate semester program may earn up to 8 units of Cooperative Education credit per semester. The program may be repeated for credit up to a total of 16 units. Students must have completed at least 7 units of credit in other course work before re-enrolling in Cooperative Education. The student must have new learning opportunities in order to re-enroll. (CSU)

647 Dental Assisting Cooperative Education (2.5) *Open to dental assisting students only. Supervised work experience. A practical application of skills learned in the academic classroom as applied to the areas of specialization to be selected by the student. Offered during spring semesters only. (CSU)*

For Veterans Only: The parallel plan qualifies for "institutional course" pay rates; the alternate plan qualifies for "Cooperative course" pay rates, as designated by the Veterans Administration. Students who are interested should contact the Cooperative Education Office, 574-6171, Building 5, Room 128.

Real Estate Internship: See catalog Real Estate listings.

Honors Internship: Check with the Co-op Office or the Honors Program to see if you are eligible to earn transferable honors credit for your Co-op Internship.

---

**Cosmetology**

The courses described below are open only to those students accepted in the Cosmetology Program. Completion of the tenth grade or equivalent required by California Board of Cosmetology; completion of the twelfth grade is recommended. A grade of C or higher is necessary for progression in sequence. Upon successful completion of the program with a C or higher, including satisfactory performance on a comprehensive "mock board" examination including both theory and practical performance, the candidate receives a Certificate in Cosmetology and is eligible to write the California Board of Cosmetology examination. Note: Applicants for the California State Board of Cosmetology licensure must be 17 years of age or older.

641 Cooperative Education (1-4) (See first page of Description of Courses section.)

712 Fundamentals of Cosmetology I (5-10)

722 Fundamentals of Cosmetology II (5-10) *Five lecture and fifteen lab hours per week. Prerequisites: admission to and registration in the Cosmetology program. Corequisite: COSM 712 and 722 must be taken concurrently. All subjects covered in COSM 712 and 722 are required for licensing as a cosmetologist by the California State Board of Cosmetology. (May be repeated for a maximum of 18 units.)*

732 Advanced Cosmetology I (5-10)

742 Advanced Cosmetology II (5-10) *Five lecture and fifteen lab hours per week. Prerequisites: minimum of 10 units with a grade of C or higher in COSM 712 and 722. Corequisite: COSM 732 and 742 must be taken concurrently. Continuation of Cosmetology 712 and 722. Cosmetology 732 and 742 are required for licensing as a cosmetologist. (May be repeated for a maximum of 30 units.)*

---

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
Dance

The classes listed below are identical to Physical Education classes with the same title. Dance classes may be used to satisfy the P.E. requirement for graduation.

121 Contemporary Modern Dance (1.5) Three lab hours per week. Fundamentals of contemporary dance technique, body alignment, and basic movements. (CSU/UC*)

130 Jazz Dance I (1.5) Three lab hours per week. Beginning techniques in jazz stage, jazz movements, fast jazz, jazz rock, jazz blues, and various other jazz combinations. (CSU/UC*)

132 Jazz Dance II (1.5) Three lab hours per week. Prerequisite: DANC 130. Continuation of Dance 130 with more complex routines and refining of basic skills. (CSU/UC*)

141 Beginning Ballet I (1.5) Three lab hours per week. Beginning study of ballet techniques and style, including barre, center floor, and dance variations. Explores modern ballet works. (CSU/UC*)

143 Intermediate Ballet II (1.5) Three lab hours per week. Prerequisite: DANC 141. Continuation of Dance 141, concentrating on barre, center floor, and dance variations. Explores classic ballet works. (CSU/UC*)

148 Beginning Ballet and Modern Dance (1) Two lab hours per week. Movement skills; rhythmic structure of dance; qualities of movement; and special design and appreciation of dance. Emphasizes modern ballet and modern dance styles in the creation of individual compositions. (CSU/UC*)

411 Dance Production I (1) Two lab hours plus two hours of individual practice by arrangement per week. Choreographic principles of dance composition and stage presentation in primitive, medi- eval, expressionist, cerebralist, jazz, improvisational, impressionist, formal ballet, modern ballet, Broadway musical, Americana, and folk dances. (If students wish to repeat this course, they may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

412 Dance Production II (2) Two lab hours plus two hours by arrangement per week, including concerts and individual practice hours. Prerequisite: DANC 121 or 141 or permission of instructor. A public stage dance performance, with the creation of new works by students for large groups, trios, duets, and solos. Participation in the technical and business aspects of student production. (CSU/UC*)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 - 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 - 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Dental Assisting

The courses described below are open only to those students accepted in the Dental Assisting Program. A grade of C or higher is necessary for progression in sequence. Upon completion of the program, the candidate receives a Certificate in Dental Assisting and is eligible to write the National Certification Examination and the California Registered Dental Assistant Examination. The program is open to part-time students.

647 Cooperative Education (1-4) (See first page of Description of Courses section.)

711 Office Procedures I (3) Two lecture and three lab hours per week. Dental patient records and history. Patient psychology, public relations, office management responsibilities, telephone and written communications, office manual, recall system, office billing, and dental jurisprudence and malpractice. (Fall only.)

712 Office Procedures II (1.5) Two lecture and three lab hours per week for nine weeks. Appointment control, daily production records and bookkeeping systems, case presentation, and computer experience. Collection methods, pre-paid dental insurance, expenses and disbursements, office machines, and payroll and banking procedures. Employment. (Spring only.)

713 Office Procedures III (1) Two lecture hours per week for eight weeks. Continuation of Dental Assisting 712. (Spring only.)
721 Dental Materials I (3) Two lecture and three lab hours per week. Equipment and safety procedures necessary in the dental laboratory and operatory. Physical properties, with study in dental cements, restorative impression materials, and gypsum products. Designed to develop skills necessary for manipulation in both the dental operatory and laboratory. Study of the principles of prosthodontics. (Fall only.)

722 Dental Materials II (2) One lecture hour and three lab hours per week. Study of thermostatic impression materials, dental casting alloys, removable prosthodontics, with special emphasis on dental assisting and registered dental assisting duties pertaining to dental materials. (Spring only.)

731 Dental Science I (3) Three lecture hours per week. Basic introduction to the hard and soft tissues of the oral cavity, tooth morphology, oral embryology, and oral histology. Pathological disturbances and pharmacology, with an introduction to oral health principles including nutrition.

732 Dental Science II (3) Three lecture hours per week. Further study in the hard and soft tissues of the oral cavity and anatomy of the head and neck. Introduction to the body systems, blood supply of the head and neck, and innervation of the teeth. (Spring only.)

735 Communication in Allied Health Professions (1) One lecture hour per week. Prepares allied health students to work and communicate effectively with patients, auxiliaries, practitioners, and other health professionals. (Fall only.)

741 Chairside Procedures I (3.5) Two lecture hours and three lab hours plus seven lab hours per week by arrangement in preparation for DENT 751. Introduction to clinical chairside procedures to be performed at the University of California and the University of the Pacific Schools of Dentistry. Beginning clinical application of chairside assisting techniques. Preparation of the patient and operatory area. Study of instrumentation, dental armamentarium, operative and fixed prosthodontic procedures, microbiology, sterilization procedures, dental office emergencies, and public health dentistry. (Fall only.)

742 Chairside Procedures II (3) Two lecture and three lab hours per week for duration of DENT 752; two lecture and one and one-half lab hours per week for duration of Cooperative Education enrollment, plus a total of six lecture and six lab hours by arrangement. Further study in chairside procedures. Emphasizes students' individual development. Study of dental specialties; instrumentation, application, procedure, and patient instruction. Introduction to intra-oral functions. DA and RDA levels. Coronal Polish by arrangement. (Spring only.)

751 Dental Clinic I (1.5) Seven lab hours per week for twelve weeks. Prerequisite: completion of or concurrent enrollment in DENT 711, 721, 731, 741, and 761. Introduction to and application of chairside skills; manipulation of dental materials and care of the dental patient. Held at local dental schools. (Fall only.)

752 Dental Clinic II (1) Seven lab hours per week for nine weeks. Prerequisites: completion of DENT 711, 721, 731, 741, 751, and 761, each with a grade of C or higher; and completion of or concurrent enrollment in DENT 712, 713, 722, 732, 742, and 762. Continuation of Dental Assisting 751. Applies chairside theory to practical experience at local dental schools and community health centers. (Spring only.)

763 Dental Radiology (2) One lecture hour and three lab hours per week. Designed to meet the standards established by the Board of Dental Examiners for the operation of dental radiographic equipment in California. Includes both didactic and clinical application, utilizing both DXTTR mammography and patients. Study of radiation, legislation, effects and protection, exposing techniques for the adult, pediatric, mixed dentition, and edentulous patients, utilizing the various types of dental films, identification and correction of faulty films, developing and processing procedures, record maintenance, mounting and evaluation of films. Emphasizes the student's individual development. (A California State Dental X-ray License will be issued by the Dental Assisting Department to students who successfully complete this course with a grade of C or higher.)

800 - 889 Selected Topics (1-3) See first page of Description of Courses section.

Developmental Skills

811 Specific Learning Skills Assessment (.5) (Credit/No Credit grading.) (Open entry/exit) Eight lecture hours by arrangement. Use of an assessment battery to determine specific learning capacity as well as academic skill levels in reading, spelling, and mathematics. Following assessment, students will design and implement, with the assistance of instructors, individual learning programs. (Units do not apply toward AA/AS degree.)

817 Adapted Computer-Assisted Instruction (5-3) (Credit/No Credit grading.) (Open entry/open exit) One and one-half to nine lab hours per week. Prerequisite: eligibility for Disabled Student Program and Services. Adapted computer access and specialized computer-assisted instruction for students with visual, physical, or language impairments, learning disabilities, acquired brain injuries, or deafness. Provides disabled students with the opportunity to enlarge their learning potential and increase academic efficiency. No previous computer experience required. (Units do not apply toward AA/AS degree.)

819 Study Skills for Academic Success (1.0) (Credit/No Credit grading.) Two lecture hours per week for eight weeks. Designed to assist students with specific learning problems to obtain study skills and develop learning strategies to reach their educational objectives. Includes understanding learning styles, intervention strategies, time management, note taking, test preparation, memory techniques, critical thinking, and problem solving. (Units do not apply toward AA/AS degree.)

880 - 889 Selected Topics (1-3) See first page of Description of Courses section.

Drafting Technology

(Also see Machine Tool Technology and Manufacturing and Industrial Technology.)

Extra supplies required in all Drafting Technology courses.

100 Introduction to Computer-Aided Drafting (2) One lecture hour and three lab hours per week. Prerequisite: one semester of college drafting (Drafting, Engineering Graphics, or Technical Arts and Graphics with a grade of C or higher).

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
102 Applied Drafting Mathematics (3)  
Three lecture hours per week. Prerequisite: MANU 101 or MATH 110 or equivalent. Geometry review, applied trigonometry, strength of materials, gears, and use of electronic calculators. (CSU)

120 Principles of Technical Drawing (3)  
Two lecture and four lab hours per week. Recommended Preparation: eligibility for ENGL 800. Basic mechanical drawing with instruction surveying the field of graphic communications. Technical sketching, visualization, descriptive geometry, orthographic projection, geometric construction, pictorial drafting methods, and sectional views; electromechanical and computer-aided drafting. (CSU)

121 Computer-Aided Drafting I (3)  
Two lecture and four lab hours per week. Prerequisite: one semester of college drafting or equivalent. A beginning AutoCAD course for students who have completed one semester of college drafting. Covers basic entities, edit commands, display controls, layering, text, dimensioning and isometric drawing. (CSU)

122 Computer-Aided Drafting II (3)  
Two lecture and four lab hours per week. Prerequisite: DRAF 100 or 121 Intermediate computer-aided drafting for students who have completed a basic course in AutoCAD. Includes plotting, wireframe modeling, AutoCAD 3D modeling, AutoShade, slideshows, blocks and attributes. (CSU)

123 Computer-Aided Drafting III (3)  
Two lecture and four lab hours per week. Prerequisite: DRAF 122 Advanced AutoCAD course. Covers advanced applications of AutoCAD such as architectural, electronic, and civil drafting. Also includes customizing menus and tables and the use of AutoLISP routines. (CSU)

201 Technical Drafting/CAD I (3)  
Four lecture and nine lab hours per week plus one lab hour per week by arrangement. Multi-view drawing, lettering, geometric shape description, sections, descriptive geometry, sketching, dimensioning, reproduction processes, charts, graphs, and an introduction to computer-aided drafting. (CSU)

202 Technical Drafting/CAD II (7)  
Four lecture and nine lab hours per week plus one lab hour per week by arrangement. Prerequisite: DRAF 201 with a grade of C or higher. Working drawings, detail and assembly drawings, threads and fasteners, gears, tolerancing, pictorial projections, intersections, developments, and basic CAD. (CSU)

301 Advanced Technical Drafting I (7)  
Four lecture and nine lab hours per week plus one lab hour per week by arrangement. Prerequisite: DRAF 202 with a grade of C or higher. Electrical and electronic drafting, logic diagrams, P.C. designs, piping, and computer-aided drafting applications. (CSU)

302 Advanced Technical Drafting II (7)  
Four lecture and nine lab hours per week plus one lab hour per week by arrangement. Prerequisite: DRAF 301 with a grade of C or higher. Geometric and true-position tolerancing, cams, hydraulics, assembly drawings, jigs and fixture design, welding, structural drawings, and computer-aided drafting applications. (CSU)

400 Basic Technical Design (3)  
Three lecture hours per week. Prerequisites: MANU 120 and concurrent enrollment in DRAF 301. Application of the materials covered in MANU 120 to the solution of design problems. Includes principles of design, mechanics, producibility, value engineering, computer-aided drafting, and resumes. (CSU)

641 Cooperative Education (1-4)  
(See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3)  
(See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2)  
(See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3)  
(See first page of Description of Courses section.) (CSU)

Economics

100 Principles of Macroeconomics (3)  
Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. The American economy; the price system; the role of business, labor, and government; the money and banking system; trends of national income and factors in its determination; problems and policies for stabilization and growth in an international economy. (CSU/UC) (CAN ECON 2)

102 Principles of Microeconomics (3)  
Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Supply, demand, and price determination in a market economy; business firm's costs, revenues, and price policies under conditions of competition through monopoly; role of government in cases of market failure; determination of wages, rent, interest, and profits; international trade and finance; comparative economic systems of other nations. (CSU/UC) (CAN ECON 4)

123 Business-Economic Statistics (4)  
Four lecture hours per week. Prerequisite: MATH 120 or equivalent with a grade of C or higher, or high school preparation including one and one-half years of algebra with grades of C or higher. Recommended Preparation: eligibility for ENGL 800. Designed for the Business and Economics major. Graphic presentation, measures of central tendency, dispersion, index numbers, time series, seasonal indexes, probability, hypotheses testing, type I and type II errors, Chi-square goodness-of-fit test, contingency tables, regression and correlation analysis. Introduction to using a computer. (CSU/UC*)

680 – 689 Selected Topics (1-3)  
(See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2)  
(See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3)  
(See first page of Description of Courses section.) (CSU)

Education

100 Introduction to Education (3)  
Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Integrates psychological, sociological, and philosophical foundations of education. Explores career opportunities and new directions in education. Includes planning of effective classroom environments. (CSU)

101 Field Experience in Education (3)  
Three lecture hours per week. Directed field experience in education for high school, secondary school, and elementary school teaching. Provides forty-eight hours
of observation (participation in guided field experience for students interested in a career in teaching). (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.)

690 Special Projects (1-2) (See first page of Description of Courses section.)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Electronics Technology

Extra supplies/lab fee may be required in all Electronics Technology courses.

100 Introduction to Electronics (3) Three lecture hours per week. Open to all students except those who are currently enrolled in or have completed a college electronics course. Study of basic electronics with a descriptive presentation and a non-mathematical approach. Stresses the influence of electronics in all phases of business, science, and daily life. (CSU)

110 Introduction to Fundamentals of Electronics (3) Two lecture and three lab hours per week plus one lab hour per week by arrangement. Reading simple schematic diagrams and constructing elementary electrical/electronics circuits; making measurements with multimeter and oscilloscopes; using DC power supplies and AC power sources; basic digital principles. Emphasizes laboratory experiments and techniques. (CSU)

115 Introduction to Electronics Soldering (1) One lecture hour and three lab hours per week for eight weeks. Soldering techniques and skills applied to wire, components, and printed circuits. Proper choice, use, and care of hand tools. Emphasizes neatness as well as workmanship. (CSU)

200 Passive Circuits and Analysis (5) Three lecture and six lab hours per week plus one lab hour per week by arrangement. Prerequisite: MATH 110 or 111/112 or one year of high school algebra with a grade of C or higher. Study of the circuit behavior of various combinations of resistance, capacitance, and inductance. Experiments and procedures parallel lecture material. Emphasizes the use of basic electronic measuring equipment. (CSU)

201 D.C. Electronics (3) Two lecture and three lab hours per week. Prerequisite: concurrent enrollment in or completion of ELEC 231 with a grade of C or higher. Study of direct current and its effect on resistors, inductors, and capacitors. The nature of electricity, resistance, basic circuit laws, Ohm’s Law, magnetism, inductance, capacitance, and the use of power supplies, multimeters, and oscilloscopes. (CSU)

202 A.C. Electronics (3) Two lecture and three lab hours per week. Prerequisite: ELEC 201 or equivalent with a grade of C or higher. Study of alternating current and its effect on resistors, inductors, and capacitors. The nature of AC, AC and resistance, inductive and capacitive reactance, transformers, resonance, and the use of power supplies, multimeters, and oscilloscopes. (CSU)

210 Introduction to Digital Electronics (1.5) Two lecture and three lab hours per week for eight weeks plus one lab hour per week by arrangement. Corequisite: concurrent enrollment in ELEC 110 or equivalent. Study of the theory and operation of basic digital logic gates and combinational logic circuits. Analysis techniques include truth tables, Karnaugh maps, and basic Boolean algebra. Emphasizes older as well as state-of-the-art hardware techniques. Hands-on lab experience with TTL, CMOS, and ECL IC devices. Includes common number systems and arithmetic methods emphasizing decimal, hexadecimal and binary concepts. (CSU)

215 Introduction to PC Hardware and Troubleshooting (3) Two and one-half lecture and one and one-half lab hours per week. Prerequisite: ELEC 110 with a grade of C or higher. Recommended Preparation: ELEC 210 or 260 with a grade of C or higher. Study of the installation, configuration, troubleshooting, and maintenance of the board-level electronic systems that make up an IBM compatible personal computer. Includes motherboard geography, power supplies, single- and multi-function peripheral cards, floppy and hard disk systems, BIOS, keyboard and mouse, and monochrome and color video systems. (CSU)

230 Applied Electronics Mathematics (3) Three lecture hours per week. Prerequisite: one year of high school algebra concepts with a grade of C or higher within the last three years. Basic applications of algebra to the solution of problems involving direct-current circuits. Elements of trigonometry, logarithms, complex numbers, and vector methods as applied to alternating current circuits and high-transmission lines. (CSU)

231 Basic Applied Electronic Mathematics (2) Two lecture hours per week. Prerequisite: one year of high school mathematics with a grade of C or higher within the past three years. Basic principles: algebra, trigonometry, logarithms, graphing, and scientific calculator use as applied to DC/AC circuits. (This course will transfer to CSU upon successful completion of ELEC 232.) (CSU)

232 Advanced Electronics Mathematics (1) One lecture hour per week. Prerequisite: ELEC 231 with a grade of C or higher. Corequisite: concurrent enrollment in ELEC 302. In-depth study of algebra, trigonometry, logarithms, and graphing, as applied to amplifier, oscillator, and microwave circuits. (CSU)

240 Aircraft Math and Physics (2) Two lecture hours per week. Corequisites: concurrent enrollment in AERO 130 and ELEC 241 and 242/243. Basic applications of arithmetic and algebra to the solution of problems involving direct-current circuits, alternating current circuits, power supplies, amplifiers, and oscillators found in avionics systems. (CSU)

241 Aircraft Math and Physics Lab (1) Three lab hours per week. Corequisite: concurrent enrollment in ELEC 240. Uses actual avionics circuits, circuit models, and computer-based training programs to apply the arithmetic and algebra reviewed in Electronics 240 to real avionics systems involving direct-current circuits, alternating current circuits, power supplies, amplifiers, and oscillators. (CSU)

242 Aircraft Electricity (3) Three lecture hours per week. Prerequisite: concurrent enrollment in or completion of AERO 130 with a grade of C or higher. Corequisite: concurrent enrollment in ELEC 243. A study of resistance, inductance, capacitance, direct current, alternating current, switches, wire, fuses, basic active devices and circuits, and aviation electrical fabrication techniques as they apply to aircraft electrical/electronics systems. (CSU)

243 Aircraft Electricity Lab (3) Nine lab hours per week. Corequisite: concurrent enrollment in ELEC 242. The construction and investigation of circuits and devices which include resistance, induc-
248 Introduction to Avionics Systems (5) Five lecture hours per week. Prerequisites: AERO 130 and ELEC 242/243 with a grade of C or higher or ELEC 110 and possession of an Airframe and/or Powerplant Certificate. Corequisite: concurrent enrollment in ELEC 249. Study of aircraft power generation and distribution systems, basic digital and computer systems, and basic sensor systems found in avionics systems. Emphasizes data buses and ARINC 429. (CSU)

249 Introduction to Avionics Systems Lab (2.5) Seven and one-half lab hours per week. Corequisite: concurrent enrollment in ELEC 248. Hands-on application of basic digital and computer systems found in avionics systems, emphasizing data buses and ARINC 429. (CSU)

250 Active Electronic Devices and Circuits (5) Three lecture and six lab hours per week plus one lab hour per week by arrangement. Prerequisites: ELEC 200 and 231 or equivalent with a grade of C or higher. Analysis and testing of the characteristics and simple circuit applications of active solid state electronic devices such as diodes and bipolar and field-effect transistors and thyristors. (CSU)

252 Instruments and Systems Measurements (2) One lecture hour and three lab hours per week. Prerequisites: ELEC 200 or equivalent qualification. Corequisite: concurrent enrollment in ELEC 250. Study of measuring equipment and techniques as applied to electronic devices, linear circuits, audio, telecommunications, and other electronic systems. (CSU)

260 Digital Logic Circuits I (3) Two lecture and three lab hours per week plus one lab hour per week by arrangement. Prerequisites: ELEC 110 and 210 with a grade of C or higher or equivalent qualification. Application of digital gates in combinational logic to produce the common digital-logic functions, including adders/subtractors, multiplexers/demux magnitude comparators, parity generators/checkers, encoders/decoders, flip-flops counters, registers, memories, data transmission systems, and A-to-D and D-to-A conversions. (CSU)

280 Electrical/Mechanical Assembly Technology I (3) Two lecture and three lab hours per week plus one lab hour per week by arrangement. Corequisite: concurrent enrollment in ELEC 250 or 720 or equivalent background. Basic hand skills required of electronics technicians. Fabrication and assembly techniques typical of the electronics industry, emphasizing industrial standards. (CSU)

300 Analysis of Linear Circuits (4) Two lecture and six lab hours per week plus one lab hour per week by arrangement. Prerequisite: ELEC 250 or equivalent with a grade of C or higher or completion of or concurrent enrollment in ELEC 232 or higher level math course. Analysis of single stage bipolar and FET amplifiers, including frequency response techniques. Analysis of discrete and monolithic multistage audio voltage and power amplifiers, operational amplifiers, and active filters. (CSU)

302 Modulation/Demodulation and Signal Processing Systems (3) Two lecture and three lab hours per week plus one lab hour per week by arrangement. Prerequisite: ELEC 250 with a grade of C or higher or equivalent qualification. Corequisite: concurrent enrollment in ELEC 232. Study of the signal-processing functions in modulation and demodulation of intelligence signals as used in audio and video communications systems. (CSU)

310 Introduction to Microprocessors (3) Two lecture and three lab hours per week plus one lab hour per week by arrangement. Prerequisite: ELEC 260 with a grade of C or higher or equivalent qualification. Covers the 8-bit microprocessor: the CPU instructional set, basic system, hardware, chip select systems, memory, and direct I/O. Emphasizes assembly language programming and software control of hardware. (CSU)

330 Electrical/Mechanical Assembly Technology II (3) Two lecture and three lab hours per week plus one lab hour per week by arrangement. Prerequisites: ELEC 280 and 250 or 720 with a grade of C or higher or equivalent industrial experience. Recommended Preparation: wordprocessing or keyboarding. Electronics symbols, designations, and hardware; research, identification, and use of industrial sources and literature; designing and developing master artwork for processing printed circuit boards; developing a prototype for a project and supporting it with documentation. (CSU)

340 Communications Systems Fundamentals (5) Five lecture hours per week. Prerequisites: ELEC 248/249 with a grade of C or higher or equivalent experience. Corequisite: concurrent enrollment in ELEC 341. Study of the dimensions of audio communication signals and systems and their application to avionics equipment used in modern aircraft electronic systems. Emphasizes basic theory and principles. Transducers, communications systems, and system interconnections used to demonstrate interrelationships. Modern aircraft documentation and equipment used for examples of systems. (CSU)

341 Communications Systems Fundamentals Lab (2.5) Seven and one-half lab hours per week. Corequisite: concurrent enrollment in ELEC 340. Hands-on study of audio communication signals and systems and their application to aircraft avionics equipment used in modern aircraft electronics systems. Emphasizes basic principles of set-up and measurement by following written procedures and the techniques of performing measurements and interpreting measured data. Uses communication trainers, along with avionics simulators and computer-aided instruction, to support the lab processes. (CSU)

342 RF, Transmission, Microwave and Radar Fundamentals (5) Five lecture hours per week. Prerequisites: ELEC 340/341 with a grade of C or higher or equivalent experience. Corequisite: concurrent enrollment in ELEC 343. Study of radio-frequency communication fundamentals and their application to avionics equipment used in modern aircraft electronic systems. Emphasizes basic theory and principles as applied to aircraft communication, navigation, and flight control. Uses RF system interconnections to demonstrate the application of theory to practice. Uses modern aircraft documentation and equipment simulations for examples of systems. (CSU)

343 RF, Transmission, Microwave and Radar Fundamentals Lab (2.5) Seven and one-half lab hours per week. Corequisite: concurrent enrollment in ELEC 342. Hands-on study of radio-fre-
quency communication fundamentals and their application to avionics equipment used in modern aircraft electronic systems. Emphasizes basic principles of set-up measurement by following written procedures and the techniques of performing measurements and interpreting measure data. Uses communication trainers, along with avionics simulators and computer-aided instruction, to support the lab processes. (CSU)

346 Radiotelephone Principles I (2)
Two lecture hours per week. Prerequisite: ELEC 342/343 with a grade of C or higher or equivalent experience. Corequisite: concurrent enrollment in ELEC 345. Basic theories and principles of radiotelephone operation. (CSU)

347 Radiotelephone Principles Lab I (1)
Three lab hours per week. Corequisite: concurrent enrollment in ELEC 344. Hands-on study of the basic theories, principles, practices, and rules and regulations of radiotelephone operation. Investigates significant concepts, theories, principles, and practices via lab experiment and project development. (CSU)

350 Advanced Circuit Applications (4)
Two lecture and six lab hours per week plus one lab hour per week by arrangement. Prerequisites: ELEC 232 and 300 with a grade of C or higher or equivalent qualifications. Discrete and monolithic applications of fixed and variable regulated power supplies, sine and non-sine wave RC oscillators, phase-locked loop circuits, and RF amplifiers. (CSU)

351 Advanced RF Circuits (2)
One lecture hour and three lab hours per week. Prerequisites: ELEC 350 or 740; ELEC 232 or MATH 120 or higher level math course with a grade of C or higher or equivalent qualifications. Study and application of RF circuits, emphasizing impedance matching, Class C amplifiers/multipliers, crystal oscillators, and AM/FM modulators/demodulators. (CSU)

360 Microcomputer Interfacing (3)
Two lecture and three lab hours per week plus one lab hour per week by arrangement. Prerequisite: ELEC 310 with a grade of C or higher or equivalent qualification. Programmable microprocessor compatible support chips. Interrupts, parallel data transfer techniques, serial data communications, A-to-D and D-to-A conversion, and software diagnostics. (CSU)

362 Radio-Frequency Communication (4)
Three lecture and three lab hours per week plus one lab hour per week by arrangement. Prerequisites: ELEC 232 or higher level math course, 300 and 302 with a grade of C or higher or equivalent qualification. Principles and techniques of radio frequency/microwave transmission and reception, including transmission lines and antennas. (CSU)

386 Advanced Digital Systems (3)
Two lecture and three lab hours per week. Prerequisite: ELEC 360 with a grade of C or higher or equivalent qualification. Study of 16- and 32-bit digital systems including hardware and software. (CSU)

641 Cooperative Education (1-4)
(See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3)
(See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2)
(See first page of Description of Courses section.) (CSU)

710 DC and AC Electronics Fundamentals (4)
Three lecture and three lab hours per week. Prerequisite: one year of high school algebra with a grade of C or higher. Theory and practice of DC and AC circuit behavior in various combinations of resistance, capacitance, and inductance. (CSU)

720 Active Circuits and Devices (4)
Three lecture and three lab hours per week. Prerequisite: ELEC 230 and 710 with a grade of C or higher. Analysis and testing of the characteristics and simple circuit applications of active solid-state electronic devices such as diodes, bipolar and field-effect transistors, and thyristors. (CSU)

721 Basic Semiconductor Circuits (4)
Three lecture and three lab hours per week. Prerequisites: ELEC 200 and 231 or equivalent qualification. Testing and simple evaluation of the characteristics of active solid-state electronic devices such as diodes, bipolar, and field effect transistors and thyristors. (CSU)

730 Applied Linear Amplifier Analysis (4)
Three lecture and three lab hours per week. Prerequisite: ELEC 720 with a grade of C or higher or equivalent qualification. Review of single-stage bi-polar and fet amplifiers, including frequency response techniques. Analysis of discrete and monolithic multistage audio voltage and power amplifiers, operational amplifiers, and active filters. (CSU)

731 Linear Analog Circuits (4)
Three lecture and three lab hours per week. Prerequisite: ELEC 721. Study of circuit characteristics in discrete and monolithic audio frequency linear amplifiers. Covers cascaded and multistage voltage amplifiers, differential amplifiers, operational amplifiers, power amplifiers, and active filters. (CSU)

740 Applied Electronics Circuit Analysis (4)
Three lecture and three lab hours per week. Prerequisite: ELEC 730 with a grade of C or higher. Discrete and monolithic applications of fixed and variable regulated power supplies, sine and non-sine wave RC oscillators, phase locked-loop circuits, RF amplifiers and oscillators, and AM-FM modulation circuits. (CSU)

760 Microwave Principles (3)
Three lecture hours per week. Prerequisite: ELEC 710 with a grade of C or higher or equivalent industrial experience. Transmission lines; active and passive microwave devices and their applications that operate in the microwave region. (CSU)

761 RF/Microwave Measurements (3)
Three lecture hours per week. Prerequisite: ELEC 760 or equivalent. Covers fundamentals of RF/Microwave measurement techniques and instrumentation and the interpretation of measured data, including power, gain/loss, frequency, noise, modulation, VSWR and impedance. Includes the use of spectrum analyzers, reflectometers and network analyzers. (CSU)

762 RF/Microwave Signal Analysis (3)
Three lecture hours per week. Prerequisite: ELEC 761 or equivalent. Study of signal properties and dimensions, including frequency, power, waveform, harmonics, intermodulation, and spectral distribution, as well as techniques used to process signals. Includes use of these concepts in test instrument using frequency markers, receivers, spectrum analyzers, distortion analyzers, and many signal processing circuits. (CSU)

763 RF/Microwave Circuit Analysis (3)
Three lecture hours per week. Prerequisite: ELEC 762 or equivalent. Study of transmission circuit properties, the propagation and reflection of signals, impedance and VSWR, and the Smith Chart. Covers

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
the use of the Smith Chart, polar network analyzers, and circuit design software.

(CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Engineering

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

111 Engineering Surveying (3) Two lecture and three lab hours per week. Prerequisite: MATH 130. Theory of measurements in surveying, measurement of distance, differential leveling and measurements of angles and directions; stadia techniques and topographic mapping; field astronomy; and theory of state plane coordinate systems. Extra supplies may be required. (CSU/UC*) (CAN ENGR 10)

210 Engineering Graphics (4) Three lecture and four lab hours per week. Prerequisites: One year of high school mechanical drawing or DRAF 120 AND concurrent enrollment in or completion of MATH 241 or 251. Fundamental principles of descriptive geometry with applications. Graphic mathematics, nomography, and graphical calculation. Introduction to Computer-Aided Design (CAD using IBM-PC/AT-type computers and CADKEY software. (CSU/UC*) (CAN ENGR 10)

230 Engineering Statics (3) Three lecture hours per week. Prerequisites: ENGR 210; PHYS 250; and MATH 252. It is recommended that students enroll concurrently in MATH 253. Plane and space force-moment systems, equivalent systems, and couples; equilibrium problems covering structures, machines, distributed force systems, and friction; free body diagrams and design concepts analyzed on CAD. (CSU/UC*) (CAN ENGR 8)

260 Circuits and Devices (4) Three lecture and three lab hours per week. Prerequisites: PHYS 260 AND concurrent enrollment in or completion of MATH 253. Introduction to circuits. Natural and forced response, network theorems; characteristics and circuit models of electronic devices and transistor amplifiers. Laboratory assignments include both standard bench techniques and computer-aided analysis. (CSU/UC*) (CAN ENGR 6)

270 Materials Science (3) Two lecture and three lab hours per week. Prerequisites: MATH 241 or 251; CHEM 210 or 224. Recommended Preparation: PHYS 250. Introduction to mechanics of solids with theory and ASTM standard tests. Atomic and crystal structure, imperfections, and resulting physical and chemical properties; phase transformations, microstructures, and heat treating. Structure and properties of metals, ceramics, polymers, semiconductors, and composites. Crystal modeling including interstitial sites and slip systems using CAD. Computer treatment of lab data and microstructural analysis. (CSU/UC*) (CAN ENGR 10)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

666 Careers in Engineering (1) (Credit/No Credit grading.) Two lecture hours per week for eight weeks. An intensive introduction to the problems faced by beginning engineering students; academic and professional requirements, opportunities, available areas of specialization, and alternatives. (CSU/UC)

680 - 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

880 - 889 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

English

(Also see Film, Literature, Reading, and Speech.)

The English Placement Test is required of all entering freshmen. Students transferring to College of San Mateo with credit in college English will not be required to take the test. They must, however, take the Reading Test if they have not completed English 100 or equivalent with a grade of C or higher. Designed to measure the entrant's ability in reading, the mechanics of writing, and composition, the English Placement Test is used (in addition to other information) to determine placement of students in English 100 and other English courses.

The English Program

The English program consists of transfer and nontransfer courses in composition, film, language, literature, reading, and speech. Entering students should enroll first in one of the following courses in composition:

Transfer Courses Nontransfer Courses

English 100 English 801 or 800
English 400 English 841, 842, 843, or 844

The English requirement for the AA/AS degree may be completed with additional units chosen from the following courses:

Transfer courses Nontransfer Courses

English 110, 120, English 875
130, or 140 Speech 801
English 400 Speech 844
Speech 100 or 120

Note that English 100 with a grade of C or higher is the prerequisite for English 110, 120, 130, and 140. English 800 with a grade of C or higher is the prerequisite for English 100, except for students who placed in English 100 on the placement test. Reading courses may be taken concurrently with any of the other courses in the English/Literature program.

Other English/Literature transfer courses are those numbered below 800; other English/Literature nontransfer courses are those numbered 800 or above.

The following English courses are credit-bearing but not degree-applicable, which means that the units count for the purposes of financial aid and veterans' benefits but not toward the AA/AS degree: 801, 830, 841, 842, 843, 844, 850, 853, 860, 875.

Concurrent enrollment in reading is strongly recommended for all students whose reading levels are below grade 11.0 as measured by the comprehension section of the Reading Test or subsequent course work.

100 Composition and Reading (3) Three lecture hours per week. Prerequisite: ENGL 800 or 400 with a grade of C or higher (or appropriate skill level indicated by the English placement tests and other measures as needed). (All ENGL 100 students who received a grade of C in ENGL 800 or 400 are strongly advised to enroll concurrently in ENGL 850.) Intensive reading and writing based on a study of primarily nonfiction materials. Students

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
write a minimum of 8,000 words; writing emphasizes expository forms. (CSU/UC) (CAN ENGL 2)

110 Composition and Literature (3) Three lecture hours per week. Prerequisite: ENGL 100 with a grade of C or higher. Study of fiction, drama, and poetry with extensive critical writing (a minimum of 8,000 words). (CSU/UC)

120 Composition and Poetry (3) Three lecture hours per week. Prerequisite: ENGL 100 with a grade of C or higher. Study of selected poetry with extensive critical writing (a minimum of 8,000 words). (CSU/UC)

130 Composition and Fiction (3) Three lecture hours per week. Prerequisite: ENGL 100 with a grade of C or higher. Study of the short story and the novel with extensive critical writing (a minimum of 8,000 words). (CSU/UC)

140 Composition and Drama (3) Three lecture hours per week. Prerequisite: ENGL 100 with a grade of C or higher. Study of selected dramatic works with extensive critical writing (a minimum of 8,000 words). (CSU/UC)

161 Creative Writing I (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130 or 140. The craft of writing short fiction, poetry, and drama. Students write a minimum of two stories or complete a drama project. (CSU/UC) (CAN ENGL 6)

162 Creative Writing II (3) Three lecture hours per week. Prerequisite: ENGL 161. Further instruction in the craft of fiction, with emphasis on writing for publication. (CSU/UC)

163 Creative Writing III (3) Three lecture hours per week. Prerequisite: ENGL 162. Instruction in the writing of long fiction for the prospective professional writer. (To increase competency, but may be repeated for a maximum of 12 units of credit.) (CSU/UC)

165 Advanced Composition (3) Three lecture hours per week. Prerequisite: ENGL 100 with a grade of C or higher. Designed for students who already have some experience with writing both formal and informal essays and want to go further into the techniques of effective essay and article writing, with particular emphasis on critical thinking skills, persuasive strategies, and the attendant concerns of style and audience. Includes formal instruction in principles of inductive and deductive reasoning, the relationship of language to logic, common logical fallacies, and methods of analysis and evaluation. (Fulfills critical thinking requirement for transfer students.) (CSU/UC)

195 Term Paper (1) (Credit/No Credit grading.) Two lecture hours per week for eight weeks. Prerequisite: eligibility for ENGL 100. A short course designed to assist the student who has never had the experience of writing a documented or research paper. Emphasizes the process and techniques involved in the actual production of a term paper. (CSU)

210 Word Study (3) Three lecture hours per week. Prerequisite: ENGL 860 or eligibility for ENGL 100. Study of the word stock of standard English, with emphasis on the vocabulary essential to academic work. Includes instruction in etymology, roots, dialects, context clues, semantics, and strategies for continued independent acquisition of vocabulary. (CSU/UC)

400 Composition for Non-Native Speakers (5) Five lecture hours per week. Prerequisite: ENGL 844 with a grade of C or higher (or appropriate skill level indicated by English placement tests and other measures as needed). It is recommended that students enroll concurrently in READ 802 and SPCH 100, 120, or 150. Intensive practice in the writing of expository essays based on the analysis of complex pieces of writing, both fiction and non-fiction. The student is expected to conform to the conventions of standard English by demonstrating an ability to use proper punctuation, mechanics, structures, and grammar and to employ a variety of sentence patterns. (Meets the competency standards required for the AA/AS degree and for entrance into English 100.) (CSU/UC)

411 Intermediate Composition (4) Five lecture hours per week. Prerequisite: appropriate skill level indicated by the English placement tests and other measures as needed. Students who have completed ENGL 801 with a grade of B or higher should also consider enrolling in this course. Intensive reading and writing of essays, plus a thorough review of sentence structure. (Note: The student will receive one unit of credit for span 411, the other three units will appear on the transcript as credit for either ENGL 100 or 801, depending upon the quality and quantity of the student's writing.) (CSU/UC)

811 Intermediate Reading, Interpreting, and Composition (4) Three lecture hours and two hours of writing practicum per week. Recommended Preparation: appropriate skill level indicated by the English placement tests and other measures as needed. Practice in writing based on the reading and study of essays and other prose. (Note: The student will receive one unit of credit for span 811; the other three units will appear on the transcript as credit for either ENGL 800 or 801, depending upon the quality and quantity of the student's writing.) (CSU/UC)

820 Technical Report Writing (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800 or higher. Training in writing for stu-
students in Aeronautics, Electronics, Computer & Information Science, Drafting, Engineering, Welding, Nursing, Machine Tool Technology, and other occupational fields. (Course may be substituted for ENGL 800 to meet competency requirement for AA/AS degree.)

825 Writing for Careers: Law Enforcement Personnel (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800 or higher. Training in writing for students in Administration of Justice program. (Course may be substituted for ENGL 800 to meet competency requirement for the AA/AS degree.)

830 Writing for Dental Assistants (1.5) One and one-half lecture hours per week. Offered primarily for students in the Dental Assisting Program. Training of dental assistants in the basic principles of technical and business writing; review of grammar, usage, and composition skills. (Units do not apply toward AA/AS degree.)

835 Writing for Careers: Fire Science (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800 or higher. Training in writing for Fire Science students and personnel. (Course may be substituted for ENGL 800 to meet competency requirement for the AA/AS degree.)

841 Writing for Non-Native Speakers I (2.5-5) (Credit/No Credit or letter grade option.) Five lecture hours per week. Recommended Preparation: appropriate skill level indicated by placement tests and other measures as needed. It is recommended that students enroll concurrently in READ 841 or higher course, SPCH 841 or higher course and READ 807. Designed to initiate the study of written academic English. Introduces, explains, and offers practice in the following: simple present, past, future, and the progressive tenses in statement/question formats; adverbs of frequency; SOME and ANY; and count and noncount nouns; quantity expressions; demonstratives; possessives; OTHER and ANOTHER; object pronouns; prepositional phrases; contractions; and punctuation. (Units do not apply toward AA/AS degree.)

842 Writing for Non-Native Speakers II (2.5-5) (Credit/No Credit or letter grade option.) Five lecture hours per week. Prerequisite: five units of ENGL 841 with a grade of C or higher or appropriate skill level indicated by placement tests and other measures as needed. It is recommended that students enroll concurrently in READ 841 or higher course, SPCH 841 or higher course and READ 807. Introduces beginning rhetoric in the form of a connected series of simple sentences on topics of daily life and continues the study of English sentence types, imperatives, four basic tenses (past, present, future and progressive), modals, expletives, contractions, special verbs, count/noncount nouns, plurals (regular/irregular), articles, pronouns, prepositions, adjectives, adverbs, correct word order, punctuation, and spelling. (Units do not apply toward AA/AS degree.)

843 Writing for Non-Native Speakers III (5) Five lecture hours per week. Prerequisite: five units of ENGL 842 with a grade of C or higher or appropriate skill level indicated by placement tests and other measures as needed. It is recommended that students enroll concurrently in READ 842 or higher course, SPCH 842 or higher course and READ 802. Continues the study and practice of structural elements such as sentence types, tenses (past, present, future, perfect), modals, count/noncount nouns, idiomatic verbs, pronouns, prepositions, adverbs, subordinate-coordinating conjunctions, compound-complex sentences, punctuation, and spelling and rhetorical elements such as expository paragraphs. (Units do not apply toward AA/AS degree.)

844 Writing for Non-Native Speakers IV (5) Five lecture hours per week. Prerequisite: READ 843 with a grade of C or higher or appropriate skill level indicated by placement tests and other measures as needed. It is recommended that students enroll concurrently in READ 801 or higher course (802 or 420) and SPCH 843 or 844. Covers mechanical operations such as spelling, punctuation, sentence structure, and grammatical structures in the context of the student's own writing. Practice in writing paragraphs and essays to develop composition skills. (Units do not apply toward AA/AS degree.)

850 Writing Workshop (1-5) (Credit/No Credit) (Open entry/open exit) One and one-half to nine lab hours per week. Includes individual assignments with a faculty member who will help students solve writing problems and correct writing errors. May include organization, development, and mechanics, with help tailored to the specific needs of the student. (May be repeated for a maximum of 9 units.) (Units do not apply toward AA/AS degree.)

853 Computer-Assisted Instruction in Composition (5-3) (Credit/No Credit grading) (Open entry/open exit) One and one-half to nine lab hours per week. Co-requisite: concurrent enrollment in a Language Arts class. Theory and practice of composition on the microcomputer. Emphasizes the use of the computer and suitable software in all phases of the composing process: generating, organizing, and developing ideas; drafting and revising large and small structures, including sentences, paragraphs, essays, stories, poems, etc.; proofreading, editing, and styling final drafts. No previous computer experience required; includes individual appointments with faculty. (To increase competency, may be repeated for a maximum of 9 units.) (Units do not apply toward AA/AS degree.)

860 Vocabulary (3) Three lecture hours per week. Use of the dictionary with emphasis on contemporary usage and practical application of vocabulary skills in the mastery of other subjects. Designed to increase and improve the student's word stock. (Units do not apply toward AA/AS degree.)

875 English Grammar (3) Three lecture hours per week. Study of basic grammar, including such topics as sentence structure, diction, agreement, punctuation, and troublesome verbs. (Units do not apply toward AA/AS degree.)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)
Environmental Hazardous Materials Technology

100 Introduction to Environmental Hazardous Materials Technology (3)
Three lecture hours per week. Survey of pollution legislation, regulatory framework, and environmental effects; discussion of career opportunities in handling and management of hazardous materials.

110 Waste Stream Generation/Reduction Treatment (3) Three lecture hours per week. Study of industrial processes and associated waste streams with emphasis on regulatory compliance. Focuses on material balance and waste minimization/treatment concepts.

130 Health Effects of Hazardous Materials (3) Three lecture hours per week. Prerequisite: BIOL 120. Emphasizes acute and chronic health effects produced by exposure to hazardous materials. Topics include routes of entry, risks, and control methods.

150 Hazardous Waste Management Applications (4) Three lecture and three lab hours per week. Prerequisite: EHMT 100. Survey of hazardous waste regulation, emphasizing generator compliance, site investigation and remediation, permitting, enforcement, and liability. Lab provides hands-on application of regulations at technician level.

200 Hazardous Materials Management Applications (4) Three lecture and three lab hours per week. Prerequisites: EHMT 100 and 130. Practical application of federal, state, and local laws and regulations relating to hazardous materials. Includes practical exercises in applying standards and completing necessary permits.

230 Safety and Emergency Response (4) Three lecture and three lab hours per week. Prerequisite: EHMT 130. Hands-on instruction in chemical and physical exposures. Includes hazard analysis, housekeeping and safety practices, and use and selection of PPE and instruments. Course satisfies OSHA 1910.120 requirement.

880–889 Selected Topics (1–3) See first page of Description of Courses section.

Ethnic Studies

101 Introduction to Ethnic Studies I (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of the historical and cultural presence of Native and Latin Americans in the United States, with special emphasis on their contributions to California's social, political, and economic institutions. Students study the roots of these groups from California and national perspectives. Provides the student with the general background of two of California's oldest ethnic groups and stimulates dialogue related to contemporary issues in California's institutional processes. (Satisfies State and Local Government requirement.) (CSU/UC)

102 Introduction to Ethnic Studies II (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of the historical and cultural presence of African-Americans and Asians in the United States, with special emphasis on their contributions to California's social, political, and economic institutions. Students study the roots of these groups from California and in the United States. Provides the student with the general background of two of California's oldest ethnic groups and stimulates dialogue related to contemporary issues in California's institutional processes. (Satisfies State and Local Government requirement.) (CSU/UC)

150 Social Dynamics of People of Color (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Social structure and dynamics of Third World institutions, with emphasis upon development and effectiveness of these institutions among Third World communities in the United States. Concentrates on the family, education, religion, and business. (CSU/UC)

151 Patterns of Prejudice and Racism I (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Analyzes patterns of prejudice and racism from a social-psychological perspective. Focuses on the prejudiced personality and how it develops, functions, and affects both the prejudiced individual and the victim. Examines both external and internal dynamics of prejudice and its manifestation in discriminatory behavior. (CSU/UC*)

152 Patterns of Prejudice and Racism II (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Sociological analysis of how major American institutions create, facilitate, support, and systematically reinforce patterns of racism and discrimination. Specifically, how these institutions function, are organized, and operate against Asians, African-Americans, Hispanics, Native Americans, women, and other oppressed groups in the U.S. and how they can be modified structurally and functionally to eliminate instead of foster racism. (CSU/UC)

160 Psychology of People of Color (3) Credit/No Credit or letter grade option. Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Psychological theories that provide viable alternative methods of analyzing the ideational and behavioral mechanisms operative among Third World persons. Explores methods of treatment of the major mental illnesses affecting each culture. (CSU/UC)

261 African-American Culture I (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Relevance of African culture to the study of African-American life, including the African diaspora and its impact on contemporary African-American cultural institutions. (CSU/UC)

262 African-American Culture II (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Emergence of modern African-American social movements in the United States, their leaders and philosophies, and contemporary issues, including the African-American consciousness movement, Pan-Africanism, counter-cultural forms of expression, and social problems. (CSU/UC)

288 African-American Cinema (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Contributions of African-Americans in the film industry and their historical relationship to the industry. Extensive use of films, supplemented by lecture and presentations by African-Americans involved in the film industry. (CSU/UC)

290 Law and the African-American Community (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Nature and extent of

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
crime among African-Americans in the U.S. Seeks to understand crime, suggest methods of control, and predict criminality within the African-American community. Covers crimes against persons and property, conviction rates among African-Americans, and application of penal codes. (CSU/UC)

350 Native American Way of Life (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of Native American philosophy, customs, and spiritual practices based on the works of Dr. Carlos Castaneda. Introduces the mystical knowledge of the Yaqui Indians and comparative study of Hindu Vedas, Buddhism, Heraultus, and Sufism. (CSU/UC)

351 The Primal Mind of the American Indian (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Advanced study of ancient religious philosophy among Native Americans that flourished before the Conquest and is still practiced; comparative analysis of the development of the magical mind of the early American people and the evolution of the logical European mind. Psychological evaluation of consciousness in the primal mind compared to the child’s. (CSU/UC)

425 The History of Asian People in the United States (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of Asian-American history from 1840 to the present, with special attention to the contemporary issues and problems prevalent in Asian-American communities. (CSU/UC)

430 Asian-American Communities in the United States (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to Asian-American communities in the United States. Includes community structure and social institutions; comparison of Asian-American community with other minorities and with the majority society. (CSU)

585 Third World Cinema (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of the history of film by and about Third World people and their contributions to the development of cinema. Focus on films by and about Third World people in Africa, Asia, the Caribbean, and the Americas. (CSU/UC)

680–689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880–889 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

**Fashion Merchandising**

113 Textiles (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of natural and synthetic fibers, yarns, fabric construction, and finishes. Care, cost, and labeling as related to consumer use. (CSU/UC) (CAN H EC 6)

117 Fashion Image (3) Three lecture hours per week. Analysis of figure types and problems; coordination of fashionable styles, colors, textures, and accessories; individualized assistance for developing a creative wardrobe on a budget. (CSU) (CAN H EC 20)

118 Fashion Design (3) Three lecture hours per week. Construction and use of flat patterns to create designs suitable for the individual and to enhance fabric performance. (CSU/UC)

151 Fashion Merchandising (3) Three lecture hours per week. Structure of ready-to-wear apparel industry, including the functions and policies of the various types of retail stores as they relate to the promotion of fashion merchandising; also considers the factors that affect the merchandising of fashion apparel. (CSU)

154 Fashion Promotion (3) Three lecture hours per week. Principles of fashion promotion, including the psychology of fashion and the function of the public relations offices. Techniques for presenting special events, exhibits, and retail store promotion. (CSU)

155 Fashion Buying and Management (3) Three lecture hours per week. Prerequisite: FASH 151. Principles of buying for resale in stores. Selection, planning, trade regulations, pricing, management and control. (CSU)

157 Visual Merchandising (3) Three lecture hours per week. Principles of display, use of equipment, and planning for window, showcase, and other display. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680–689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880–889 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

**Film**

451 Film History I (3) Three lecture hours per week. Survey of the evolution of the motion picture from the earliest efforts of European and American filmmakers through post-World War II productions. Emphasizes film appreciation, the language of film, and analysis for full film enjoyment. (CSU/UC)

452 Film History II (3) Three lecture hours per week. Prerequisite: FILM 451. Further study of the evolution of the motion picture. Emphasizes film appreciation, the language of film, and analysis for full film enjoyment. (CSU/UC)

461 Filmmaking I (4) Three lecture and six lab hours per week. Introduction to film theory, aesthetics, and 8mm production; includes screenplay writing and pre-production as well as crew work on super-8mm motion picture productions. (CSU/UC*)

462 Filmmaking II (4) Three lecture and six lab hours per week. Prerequisite: FILM 461. Advanced theory, aesthetics, critical writing and 8mm production. Students work on a production crew as well as write and produce their own motion pictures. (To increase competency, may be repeated for a maximum of 16 units of credit, after which students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

463 Screenwriting (1) Three lecture hours per week for five and one-half weeks. Prerequisite: FILM 462 or equivalent. A sixteen-hour module on devising film ideas, developing a film premise, preparing character biographies, developing scenes, structuring a story, and preparing a professional film script. (To increase competency, may be repeated for a maximum of 2 units of credit.) (CSU)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
464 Advanced Production (1) Three lecture hours per week for five and one-half weeks. Prerequisite: FILM 463 or equivalent. A sixteen-hour module on how to shoot motion pictures from a script, including scheduling and budgeting a film, translating a script into visuals, preparing a storyboard, and insuring that an editor has all the footage needed for continuity. (To increase competency, may be repeated for a maximum of 2 units of credit.) (CSU)

465 Video Editing (1) Three lecture hours per week for five and one-half weeks. Prerequisite: FILM 464 or equivalent. A sixteen-hour module on how to transfer raw film footage onto video; how to cut and arrange the footage into a finished motion picture, using state-of-the-art video-editing equipment; how to cut raw film to match the video edit; and how to add a soundtrack. (To increase competency, may be repeated for a maximum of 2 units of credit.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) See first page of Description of Courses section.

Fire Technology

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

701 Fire Command IA (2.5) (Credit/No Credit grading.) Forty lecture hours per semester. Covers the role of fireground officer, the emergency decision making process, basic tactics and strategies, fireground stress, operative standards, and command and control components. This course applies to State Fire Marshal Fire Officer Certification. (CSU)

702 Fire Command IB (2.5) (Credit/No Credit grading.) Forty lecture hours per semester. Management of hazardous materials incidents, emergency response, D.O.T., Chemtrec, protective clothing and decontamination, evacuation, and containment and disposal. This course applies to State Fire Marshal Fire Officer Certification. (CSU)

703 Fire Instructor IA (2.5) (Credit/No Credit grading.) Forty lecture hours per semester. Preparation of course outlines, job breakdowns, behavioral objectives, and manipulative lesson plans. Instruction in the importance of the occupational analysis terms of education teaching methods and the psychology of learning. This course applies to State Fire Marshal Fire Officer I, Fire Instructor I, and Public Ed Officer II Certification. (CSU)

704 Fire Instructor IB (2.5) (Credit/No Credit grading.) Forty lecture hours per semester. Preparation of technical lesson plans, supplementary instruction sheets, test planning sheets, and written and oral examinations. Includes the fundamentals of evaluation, lesson plan formats, and the principles of effective instruction. This course applies to State Fire Marshal Fire Officer I, Fire Instructor I, and Public Ed Officer II Certification. (CSU)

705 Fire Science Hydraulics (3) Three lecture hours per week. Basic mathematics, principles of hydraulics, calculations of engine and nozzle pressures, discharge, fire streams, friction loss, and pump operation and characteristics. Application of formulas to hydraulics and water supply problems. (CSU)

706 Fire Management I (2.5) (Credit/No Credit grading.) Forty lecture hours per semester. Management techniques, including management by objective and participatory management understanding human needs, decision making, and team building, equal employment opportunity, communication, and disputes. This course applies to State Fire Marshal Fire Officer Certification. (CSU)

707 Fire Prevention IA (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Provides a broad technical survey of the fire prevention codes and ordinances, inspection practice, and key hazards. Covers flammable and combustible liquids and gases, explosives, fireworks, extinguishing systems, and other topics. This course applies to State Fire Marshal Fire Officer I and Fire Prevention Officer I Certification. (CSU)

708 Fire Prevention IB (2.5) (Credit/No Credit grading.) Forty lecture hours per semester by arrangement. Recommended Preparation: FIRE 707. Focuses on codes, ordinances, and statutes pertaining to fire prevention practices in California. Includes building construction and occupancy, evacuation procedures, inspection reports, and processing plans. This course applies to State Fire Marshal Fire Officer I and Fire Prevention Officer I Certification. (CSU)

711 Rescue Systems One (1.5) (Credit/No Credit grading.) Sixteen lecture and thirty-two lab hours per semester by arrangement. Prerequisites: Fire Technology Certificate; FIRE 783 or 784; FIRE 785 or 788 or employment as a firefighter. Emphasizes safety in training, including rescue team organization, blocked access, structural damage, use of ropes, knots, rigging and pulley systems, descending, rappelling tools and techniques; surface rescue techniques; use of cribbing, wedges, cutting and prying tools. Training includes simulated rescue exercises and requires strenuous physical activities.

713 Driver/Operator IA (2) Thirty-two lecture and eight lab hours per semester by arrangement. Application of vehicle code laws to driving fire department apparatus in emergency and non-emergency conditions. Integrates laws and Fire Department rules to perform effectively as an "engineer."Synthesizes apparatus functions and characteristics with good driving practices and skills under emergency conditions.

714 Wildland Fire Control (3) Three lecture hours per week. Focuses on the principles and techniques used to extinguish wildland fires and to prevent and control their occurrence. Subjects include: California's wildland fire problem, safety, weather effects, wildland fuels, fire behavior, attack methods, urban-interfaces, and investigation. (CSU)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
715 Introduction to Fire Technology (3) Three lecture hours per week. Introduction to and history of fire protection and specific fire protection functions; basic fire chemistry and physics. Career opportunities in fire protection and related fields. (CSU)

718 Fundamentals of Fire Service Operations (3) Three lecture hours per week. Prerequisite: completion of or concurrent enrollment in FIRE 715. Fundamentals of fire department organization, management, and resources, including the use of those resources to control various emergencies. (CSU)

720 Fundamentals of Fire Prevention (3) Three lecture hours per week. Fundamentals of fire prevention techniques; hazards in ordinary and special occupancies; organization and functions of fire prevention bureaus; related procedures and regulations. (CSU)

725 Fire Apparatus and Equipment (3) Three lecture hours per week. Covers the operation, care and maintenance, specifications, capabilities, and effective use of fire service apparatus and related equipment. (CSU)

730 Fundamentals of Fire Protection Chemistry (3) Three lecture hours per week. Fundamentals of fire behavior and methods of control. Chemistry and physics of fire; fire characteristics of materials; extinguishing agents and fire control techniques. (CSU)

735 Fire Investigation IA (2.5) (Credit/No Credit grading.) Forty lecture hours per semester. Responsibilities of the investigator, cause and origin investigation, techniques of investigation and reports, and legal responsibilities. This course applies to State Fire Marshal Fire Officer I and Fire Investigator I Certification. (CSU)

736 Fire Investigation IB (2.5) (Credit/No Credit grading.) Forty lecture hours per semester. Prerequisites: FIRE 735 or FIME 705. In-depth discussion of investigation IA topics, including juvenile firesetter, report writing, and evidence collection and preservation procedures. This course applies to State Fire Marshal Fire Investigator I Certification. (CSU)

740 Building Construction for Fire Service (3) Three lecture hours per week. Fundamentals of building construction as it relates to fire protection, with emphasis on code requirements, utilization of building materials and their fire resistive qualities. (CSU)

745 Fundamentals of Fire Protection Systems & Equipment (3) Three lecture hours per week. Prerequisite: Completion of or concurrent enrollment in FIRE 715. Design and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection, and portable fire extinguishers. (CSU)

756 Cliff Rescue (1) (Credit/No Credit grading.) Sixteen lecture hours per semester by arrangement. Rescue problems and techniques in cliffside emergencies. Practical application of specialized emergency rescue tools and equipment under a wide variety of conditions.

757 Auto Extrication (1) (Credit/No Credit grading.) Sixteen lecture hours per semester by arrangement. Instruction in and practical application of the skills needed to extricate a victim safely from a vehicle involved in an accident.

783 Fire Fighter I Academy (7) Four lecture and eight lab hours per week plus sixteen lab hours per semester by arrangement. Designed for pre-service instruction in basic fire fighting knowledge and skills. Lecture and manipulative instruction in all areas of responsibility for a fire fighter. (Certificate of completion will be issued by the Fire Technology Department.)

784 Firefighter Recruit Academy (10.5) Sixteen lecture and twenty-four lab hours per week for seven and two-fifths weeks. Instruction in basic firefighting knowledge and skills for recruit firefighters. Lecture and manipulative instruction in all areas of responsibility for a firefighter except emergency medical care.

785 Emergency Medical Technician IN/A/FIS I (6) Five lecture and three lab hours per week. Basic life support services under field emergency conditions, including cardiopulmonary resuscitation and preparation of victims for transport to an acute care hospital. (To increase competency, may be repeated for a maximum of 12 units of credit.)

787 Emergency Medical Technician IN/A/FIS II: Recent Advances (1.5) (Credit/No Credit grading.) Twenty-four lecture and nine lab hours per semester by arrangement. Prerequisite: possession of a valid EMT-IFS Certificate. Refresher course in preparation for EMT-IFS recertification. Presents updated and new technology in the areas of emergency pre-hospital care. (May be repeated four times to maintain skills and certification.)

788 Recruit Emergency Medical Technician IN/A/FIS (5) (Credit/No Credit grading.) Twenty-seven and one-half lecture and twelve and one-half lab hours per week for two and two-fifths weeks plus eighteen lab hours by arrangement. Training in pre-hospital basic life support services under field emergency conditions.

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Foreign Language

Students who expect to transfer to a four-year institution are strongly advised to study a foreign language at CSM. Please see individual listings for offerings in Chinese, French, German, Japanese, Latin, and Spanish.

French

Language Laboratory and Listening Requirement: since imitation, response, and independent practice are integral features of the study of a foreign language at the College, students enrolled in certain courses in foreign language are required to use the language laboratory as prescribed by each department.

110 Elementary French (5) Five lecture hours plus two lab hours by arrangement per week. Recommended Preparation: eligibility for ENGL 800 or a higher English course. Conversation in the language, dictation, reading, study of the fundamentals of grammar, simple oral and written exercises, and introduction to French and Francophone culture. (CSU/UC)

111 Elementary French I (3) Three lecture hours plus one lab hour by arrangement per week. Recommended Preparation: eligibility for ENGL 800 or a higher English course. Covers approximately half of the semester’s work in French 110. (CSU/UC*)

112 Elementary French II (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: FREN 111 with a grade of C or higher (or appro-
private skill level indicated by French Placement Test and other measures). Covers approximately the second half of the semester's work in French 110. (French 111 and 112 are equivalent to French 110.) (CSU/UC*)

115 Beginning French I (3) (Telecourse) (Credit/No Credit or letter grade option.) A televised course that introduces basic idiomatic conversation and fundamentals of grammar. Stresses oral proficiency. Written assignments and work with tapes required. (CSU/UC*)

116 Beginning French II (3) (Telecourse) (Credit/No Credit or letter grade option.) Prerequisite: FREN 115 or equivalent with a grade of C or higher. Continuation of French 115. Further study of conversation and grammar with stress on oral proficiency; requires written assignments and work with tapes. Completion of FREN 115/116 is equivalent to completion of FREN 111/112. (CSU/UC*)

117 Advanced Beginning French I (3) (Telecourse) (Credit/No Credit or letter grade option.) Prerequisite: FREN 116 or equivalent with a grade of C or higher. Continuation of French 116. Further study of conversation and grammar with continued emphasis on oral proficiency. Written assignments and work with tapes required. (CSU/UC*)

120 Advanced Elementary French (5) Five lecture hours plus two lab hours by arrangement per week. Prerequisite: FREN 110 or 112 with a grade of C or higher (or appropriate skill level indicated by French Placement Test and other measures). Conversation in the language, dictation, further study of grammar and sentence structure, and oral and written exercises. Further study of French and Francophone culture. (CSU/UC)

121 Advanced Elementary French I (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: FREN 110 or 112 or equivalent with a grade of C or higher (or appropriate skill level indicated by French Placement Test and other measures). Covers approximately the first half of the semester's work in French 120. (CSU/UC*)

122 Advanced Elementary French II (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: FREN 121 or equivalent with a grade of C or higher (or appropriate skill level indicated by French Placement Test and other measures). Covers approximately the second half of the semester's work in French 120. (French 121 and 122 are equivalent to French 120.) (CSU/UC*)

130 Intermediate French (5) Five lecture hours plus one lab hour by arrangement per week. Prerequisite: FREN 120 or 122 with a grade of C or higher (or appropriate skill level indicated by French Placement Test and other measures). Reading of short stories, plays, or novels; review of grammar; conversation, composition, and dictation. (CSU/UC)

131 Intermediate French I (3) Three lecture hours plus one-half lab hour by arrangement per week. Prerequisite: FREN 120 or 122 with a grade of C or higher (or appropriate skill level indicated by French Placement Test and other measures). Covers approximately the first half of the semester's work in French 130. (CSU/UC*)

132 Intermediate French II (3) Three lecture hours plus one-half lab hour by arrangement per week. Prerequisite: FREN 131 with a grade of C or higher (or appropriate skill level indicated by French Placement Test and other measures). Covers approximately the second half of the semester's work in French 130. (French 131 and 132 are equivalent to French 130.) (CSU/UC*)

140 Advanced Intermediate French (3) Three lecture hours per week. Prerequisite: FREN 130 or 132 with a grade of C or higher (or appropriate skill level indicated by French Placement Test and other measures). Reading of selections from French literature, including a contemporary novel; further practice in conversation and composition; continued review of principles of grammar; analysis of idioms. (CSU/UC)

161 Reading in French Literature I (3) Three lecture hours per week. Prerequisite: FREN 140 with a grade of C or higher (or appropriate skill level indicated by French Placement Test and other measures). Reading and discussion of works of French literature. Continued review of principles of grammar. (CSU/UC)

162 Reading in French Literature II (3) Three lecture hours per week. Prerequisite: FREN 161 with a grade of C or higher. Further reading and discussion of works of French literature. Continued review of principles of grammar. (CSU/UC)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

801 Conversational French I, Elementary (2) (Credit/No Credit grading.) Three lecture hours per week. A practical course in the French language approached by way of conversation. Intensive drill in the patterns and idioms of daily speech, supported by sufficient grammar to give flexibility in the spoken language. May be considered an excellent preparatory course for students who have not taken a foreign language before. (This course will not fulfill the language requirements at California State Universities or at the University of California.)

802 Conversational French II, Advanced Elementary (2) (Credit/No Credit grading.) Three lecture hours per week. Prerequisite: FREN 801 or equivalent with credit. Further work in conversation following the model of French 801. (This course will not fulfill the language requirements at California State Universities or at the University of California.)

803 Conversational French III, Intermediate (2) (Credit/No Credit grading.) Three lecture hours per week. Prerequisite: FREN 802 or equivalent with credit. More advanced work in conversation following the model of French 802. (This course will not fulfill the language requirements at California State Universities or at the University of California.)

804 Conversational French IV, Advanced Intermediate (2) (Credit/No Credit grading.) Three lecture hours per week. Prerequisite: FREN 803 or equivalent with credit. Further advanced work in conversation following the model of French 803. (This course will not fulfill the language requirements at California State Universities or at the University of California.) (To increase competency, may be repeated for a maximum of 8 units of credit, after which students may petition to audit. See Index: "Audit Policy."

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
Geography

100 Physical Geography (3) (Credit/No Credit or letter grade option.) Three lecture hours per week plus field trips. Recommended Preparation: eligibility for ENGL 800. Basic characteristics of physical features and their interrelationships; environmental systems and their interactions with man. Maps, photos, and the regional concept are the primary tools for this study. (Satisfies the General Education requirement for Physical Science.) (CSU/UC) (CAN GEOG 2)

110 Cultural Geography (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Aerial distribution of the most important parts of human culture. Emphasizes the way people make a living resulting from their interaction with their environment in various parts of the world. (Satisfies Social Science requirement.) (CSU/UC) (CAN GEOG 4)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

German

Language Laboratory and Listening Requirement: since imitation, response, and independent practice are integral features of the study of a foreign language at the College, students enrolled in certain courses in foreign language are required to use the language laboratory as prescribed by each department.

110 Elementary German (5) Five lecture hours plus two lab hours by arrangement per week. Recommended Preparation: eligibility for ENGL 800 or a higher English course. Study and practice (both oral and written) of basic forms and patterns of German, development of a satisfactory pronunciation, learning and using vocabulary of high frequency, and reading of simple German texts. (CSU/UC)

111 Elementary German I (3) Three lecture hours plus one lab hour by arrangement per week. Covers approximately half of the semester’s work in German 110. Recommended for those students without any background in foreign language study. (CSU/UC*)

112 Elementary German II (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: GERM 111 or equivalent with a grade of C or higher (or appropriate skill level indicated by German Placement Test and other measures). Covers approximately the second half of the semester’s work in German

110. (German 111 and 112 are equivalent to German 110.) (CSU/UC*)

120 Advanced Elementary German (5) Five lecture hours plus two lab hours by arrangement per week. Prerequisite: GERM 110 or 112 or equivalent with a grade of C or higher (or appropriate skill level indicated by German Placement Test and other measures). Continuation of work begun in German 110 with further practice in listening, speaking, reading, and writing. (CSU/UC)

121 Advanced Elementary German I (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: GERM 110 or 112 or equivalent with a grade of C or higher (or appropriate skill level indicated by German Placement Test and other measures). Covers approximately the first half of the semester’s work in German 120. (CSU/UC*)

122 Advanced Elementary German II (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: GERM 121 or equivalent with a grade of C or higher (or appropriate skill level indicated by German Placement Test and other measures). Covers approximately the second half of the semester’s work in German 120. (German 121 and 122 are equivalent to German 120.) (CSU/UC*)

130 Intermediate German (5) Five lecture hours plus one lab hour by arrangement per week. Prerequisite: GERM 120 or 122 or equivalent with a grade of C or higher (or appropriate skill level indicated by German Placement Test and other measures). Review of grammar and syntax; reading of short works of fiction and non-fiction. (CSU/UC)

131 Intermediate German I (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: GERM 120 or 122 or equivalent with a grade of C or higher (or appropriate skill level indicated by German Placement Test and other measures). Covers approximately the first half of the semester’s work in German 130. (CSU/UC*)

132 Intermediate German II (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: GERM 131 or equivalent with a grade of C or higher (or appropriate skill level indicated by German Placement Test and other measures). Covers approximately the second half of the semester’s work in German

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
109 Environmental Health (1) Two lecture hours per week for eight weeks. Principles of ecology and critical appraisal of people's effect on the environment. Discussion of many types of environmental hazards and pollutants, emphasizing their effect on human health. (CSU/UC*)

111 Heart Disease and Cancer (1) Two lecture hours per week for eight weeks. Study of the two leading causes of death in the U.S. today, emphasizing prevention. Also covers causes, symptoms and warning signs, detection, and treatment. (CSU/UC*)

112 Current Health Issues (1) Two lecture hours per week for eight weeks. Analysis of the most important and most controversial health issues making today's headlines. Class discussions, supported by appropriate biological, medical, legal, and historical information. (CSU/UC*)

113 Selected Topics in Nutrition (1) Two lecture hours per week for eight weeks. Practical study of the principles of nutrition. Focuses on nutritional understanding, emphasizing the role of essential nutrients; identification of affordable sources of essential nutrients; selection of diet; evaluation of nutritional claims; responding to new information; and the role of nutrition in weight control. (CSU)

120 Heredity and Health (2) Two lecture hours per week. Survey of the fundamentals of human inheritance, looking particularly at the relationship between genetics and human health. Examines various biotechnological developments (recombinant DNA, gene therapy, in vitro fertilization, etc.) and their impact on the medical profession's ability to predict, detect, treat, and/or prevent many human disorders. (CSU)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
History

Also see Humanities

100 History of Western Civilization I
(3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. The rise and decline of the civilization of the ancient world, the rise of Christianity, the growth and decline of Medieval society, the Renaissance, the Reformation, and the opening of the modern world. (HIST 100-102 fulfills American Institutions requirement.) (CSU/UC) (CAN HIST 2)

101 History of Western Civilization II
(3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. The rise of modern Europe: the Enlightenment, the French Revolution, and the growth of Liberalism and nationalism. The emergence of modern society, economic problems of industrialization, development of modern ideologies, the World Wars, and international experiments of the 20th Century. (HIST 101-102 fulfills American Institutions requirement.) (CSU/UC) (CAN HIST 4)

102 History of American Civilization
(3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Social, cultural, and political development of the area of the United States from the colonial period through the age of revolution, early independence, reform and sectional crisis in the 19th Century to the problems of industrialization and the emergence of modern society. Effects of expansionism and immigration in the 19th and 20th Centuries upon the culture of America and the role of the United States in a pluralistic contemporary world. (HIST 100 or 101 plus HIST 102 fulfills American Institutions requirement.) (CSU/UC*)

103 Western Tradition I (2) (Tele-course) (Credit/No Credit or letter grade option.) Recommended Preparation: eligibility for ENGL 800. Covers the rise and decline of the civilization of the ancient world, the rise of Christianity, the growth and decline of Medieval society, the renaissance, and the age of exploration. (May not be taken for credit following History 100.) (CSU)

110 History of England (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Surveys the more important political, constitutional, economic, social, and cultural phases of the history of the English people. (CSU/UC)

201 United States History I (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of European expansionism in America, Indian-White encounters, colonial culture and institutions, the Revolution, the implementation of the Constitution, the Federalist and Jeffersonian eras, the age of Jackson, the slavery issue, and the Civil War. Covers economic, political, social, and cultural developments of the period. (HIST 201-202 fulfills American Institutions requirement.) (CSU/UC*) (CAN HIST 8)

202 United States History II (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Continues the work of History 201; explores the Reconstruction period, industrial expansion, social and economic development, and the foreign policies of the U.S. to the present. (HIST 201-202 fulfills American Institutions requirement.) (CSU/UC*) (CAN HIST 10)

242 The African-American in U.S. History
(3) Three lecture hours per week. Recommended Preparation: HIST 201 and eligibility for ENGL 800. Social, economic, and political facts as they relate to the African-American. Analyzes race relations, with special emphasis on the history of the African-American. (HIST 201 or 202 plus HIST 242 fulfills American Institutions requirement.) (CSU/UC)

260 Women in American History (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of the role played by American women from colonial times to the present. Explores the part played by American women of different racial and local origins. Examines attitudes of women as well as attitudes about women in America. (HIST 201 or 202 plus HIST 260 fulfills American Institutions requirement.) (CSU/UC)

270 Civil War and Reconstruction (3) Three lecture hours per week. Recommended Preparation: HIST 201 or 202 and eligibility for ENGL 800. Survey and analysis of the political, social, and economic problems of the North and South during the antebellum, Civil War, and Reconstruction eras. (HIST 201 or 202 plus HIST 270 fulfills American Institutions requirement.) (CSU/UC)

310 California History (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of major topics in California’s rapid growth, including the Indian culture; discovery and Spanish colonization; the Mexican period; the mission-ranchero era; the American take-over; the Gold Rush and the vigilante era; the constitutional, political, and economic growth of the State; and contemporary social, multi-ethnic, and economic issues as the most populous state in the Union. (Satisfies the requirement in California State and Local Government.) (CSU/UC)

315 History of San Mateo County (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of the county’s development to the present. The natural setting; discovery and exploration; mission-ranchero era; establishment of county government; advent of railroads; lumbering; industry; growth of Bayside and Coastside communities; and the Peninsula’s relation to the state and the nation. (Satisfies the requirement in California State and Local Government.) (CSU)

350 History of the American West (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. The movement of Americans west of the Mississippi River, with an emphasis on fur trading, cattle raising, farming, mining, railroads, community-building, Indian problems, and the character and image of the West and Westerners. (HIST 201 or 202 plus HIST 350 fulfills American Institutions requirement.) (CSU/UC)

360 The South in American History (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey course of the fifteen former slave states from the Colonial through the National period, the Civil War and Reconstruction; Populism and the "New South"; the 20th Century; Southern industrializa-
tion; the New Deal; the revolution of the Civil Rights Movement; and the election of Jimmy Carter. (HIST 201 or 202 plus HIST 360 fulfills American Institutions requirement.) (CSU/UC)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

810 American History and World Affairs (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of current issues, events, and institutional changes in the United States through analysis of their geographic and historical context and their relation to events and people at home and abroad. Lectures, films, research, and small discussion groups. (Fulfills American Institutions requirement for students working toward the Associate in Arts degree and not planning to transfer to a four-year institution.) (May be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU/UC)

Horticulture

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU/UC)

Horticulture – Environmental

311 Plant Materials I: Trees (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. Growth habits, cultural requirements, and landscape uses of ornamental trees adapted to the climates of California. Proper plant and maintenance techniques. (Fall only.) (CSU/UC)

312 Plant Materials II: Shrubs and Groundcovers (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. Growth habits, cultural requirements, and landscape uses of ornamental shrubs and ground covers adapted to the climates of California. Proper planting and maintenance technique. (Spring only.) (CSU/UC)

315 Landscape Management (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. Maintenance and management of turf areas, including golf courses, athletic fields, parks, and residential areas. Cultural requirements of trees, shrubs, vines, annuals, and ground cover. Operation of landscape maintenance equipment (Fall only.) (CSU/UC)

320 Introductory Plant Science (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. Introduction to scientific principles of higher plant structure, function, and reproduction to serve as a basis for further practical course work in the field of horticulture. (CSU/UC)

325 Interior Plantscape (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Study of various types of plant materials, containers, and growing media and of the environmental factors that affect plants used in interior plantscaping of commercial offices, hotels, and shopping centers. (CSU)

327 Nursery Management (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. History of the greenhouse industry. Practical application of the principles of nursery practice, including location, greenhouse design, equipment, and accessories required in a modern nursery. Plant propagation and plant growing techniques, using the college greenhouse. Experience in the growing, care, and maintenance of plants. Field trips to outstanding nurseries. (CSU)

330 Pest, Disease, and Weed Control (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. Symptoms, identification, and methods of control of the principal diseases, pests, and weeds important in California landscape industry. Chemical, biological, and cultural control and prevention. (Spring only.) (CSU)

340 Principles of Landscape Design (4) (Credit/No Credit or letter grade option.) Two lecture and six lab hours per week. Graphics, drafting, perspective, surveying, environmental planning, history, and design for the residential landscape. (Fall only.) (CSU)

341 Advanced Landscape Design (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. Prerequisite: HORT 340 or equivalent. Advanced graphics techniques, environmental planning and design, planting, structures, engineering, materials, and history of landscaping. (Spring only.) (CSU/UC)

342 Landscape Construction (3) (Credit/No Credit or letter grade option.) Two lecture and three lab hours per week. Planting and construction techniques: design, installation, and maintenance of sprinkler systems; cost finding and estimating for the landscape trades, including legal aspects of contracting. (Assists students in preparing for Landscape Contractor’s License Examination.) (Spring only.) (CSU)

411 Basic Floristry (3) Two lecture and three lab hours per week. Introduction to the care, identification, and mechanics of basic floral design. Surveys both historical and modern methods. Extra supplies required. (CSU)

413 Intermediate Floristry (3) Two lecture and three lab hours per week. Prerequisite: HORT 411 or equivalent. Continuation of the study of floral design, emphasizing modern and European styles, techniques, and philosophy, and the development of speed and proficiency. Extra supplies required. (CSU)

414 Advanced Floristry (3) Two lecture and three lab hours per week. Prerequisite: HORT 413 or equivalent. Advanced study of commercial floral design, focusing on wedding, funeral, and party arrangements. Emphasizes the development of individual design skills. Extra supplies required. (CSU)

415 Retail Floristry Management (3) Two lecture and three lab hours per week. Procedures used in operating a florist shop, including merchandising, accounting, advertising, employee relations, planning, buying, and marketing. (CSU)

416 Commercial Floristry Display (3) Two lecture and three lab hours per week. Prerequisite: HORT 411. Introduction to visual merchandising. Includes commercial floral design, party display, planning and layout, window and shop display, and prop-making. Extra supplies required. (CSU)

(*) With limitations
418 Introduction to Ikebana (3) Two lecture and three lab hours per week. Study of Japanese flower arranging, its history, philosophy, method and practice. Develops skills pertinent to the three schools of Ikebana (Ikenobo, Ohara, and Sogetsu). (CSU)

419 Bridal and Party Designs (1.5) One lecture and two lab hours per week. Prerequisite: HORT 413 or equivalent. Advanced study of floral design focusing on wedding and party work. Emphasizes reception, church, bridal party, theme parties, and centerpieces. (CSU)

420 Dry and Silk Flower Designs (3) Two lecture and three lab hours per week. Prerequisite: HORT 411. Study and practice of floral design, using dried and silk materials. Emphasizes identification of flowers and their uses. Also includes commercial methods of flower arranging to develop original design skills, especially in the use of dry and silk flowers in various combinations. Extra supplies required. (CSU)

Horticulture - Ornamental

701 Ornamental Horticulture I (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Soils, manures, and fertilizers; lawn establishment and management. (CSU)

702 Ornamental Horticulture II (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Landscape management: pruning of trees and shrubs; garden color using annuals, perennials, and bulbs. Basic pest control, including safety and storage of pesticides. (CSU)

705 Soils and Plant Growing (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Fundamental principles of soils, soil management, fertility, and plant nutrition. Soil types, origins, characteristics, and biological relationships. Commercial and natural fertilizers; soil conditioners; growing media; crop rotation; and watering. (CSU)

706 Plant Propagation (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Principles and practices of propagating plants for sale for landscape use, including laboratory work in making cuttings, grafting and budding, potting, and canning. Visits to wholesale and retail nurseries. Seedage, cuttage, layerage, and plant breeding and improvement. (CSU)

709 Principles of Landscaping (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Introduction to principles of residential landscaping, emphasizing fundamental design and construction. (CSU)

711 Landscape: Trees (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Tree classification, description, nomenclature, and morphology. Study in class of trees commonly used in California parks and gardens. Emphasizes plant identification. (CSU)

712 Landscape: Shrubs (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Study of shrubs and ground covers commonly used in California. (CSU)

721 Landscape Construction I (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Study of irrigation systems. Emphasizes piping, fittings, equipment, design, installation, and maintenance. (CSU)

722 Landscape Construction II (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Emphasizes installation of lawns, decks, patios, paths, and related elements. Includes contractors license requirements and estimating. (CSU)

731 Arboriculture (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Principles and practices of arboriculture, emphasizing care and maintenance of landscape trees. Study of the training and management of fruit trees, bush fruits, and ornamental shrubs. (CSU)

742 Greenhouse Management (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Propagation and culture of roses, carnations, chrysanthemums, orchids, potted plants, and other greenhouse crops. Pest and disease control. (CSU)

777 Pest Control I (2) (Credit/No Credit or letter grade option.) Two lecture hours and one lab hour per week. History and development of ornamental plant pesticides and biological controls. Emphasizes integrated pest management, especially San Francisco Bay Area pests and their control. Demonstrates testing and application equipment. Includes insect and related pests, their anatomy, growth, life cycles and classification. Preparation for State Applicator's, Advisor's, and Operator's License. (CSU)

778 Pest Control II (2) (Credit/No Credit or letter grade option.) Two lecture hours and one lab hour per week. Study of the biological (bacterial, fungal and viral) and abiotic (temperature, light, soil, water and air) causes of plant diseases. Study of the common weeds and vertebrate pests in ornamental gardens. Reviews controls, with an emphasis on Integrated Pest Management, including cultural, biological, and chemical. (CSU)

Humanities

(Also see History and Philosophy)

101 Introduction to Humanities: Greece through Reformation (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Explores the major cultural and intellectual movements of Western Civilization from Greece through the Reformation. Considers the development of literature, art, architecture, and music, along with their relationship to mythological, religious, and scientific attitudes toward man, nature, and God. (CSU/UC)

102 Introduction to Humanities: Reformation to Present (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Explores the major cultural and intellectual movements of Western Civilization from the Reformation to the present. Considers the development of literature, art, architecture, and music, along with their relationship to mythological, religious, and scientific attitudes toward man, nature, and God. (CSU/UC)

111 Religion, Literature, and Philosophy in Ancient Greece (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Examples drawn from Greek tragedy and philosophy focus on changing attitudes toward the gods, the hero, nature, society, and personal development. Explores concepts of justice, the significance of suffering and attitudes toward fate, human freedom, and responsibility. (CSU/UC)

112 Art and Architecture - Late Roman Empire to Renaissance (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800.

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
The development of art and architecture from the early centuries to the end of the Middle Ages. The rise of Christianity, church vs. state, Medievalism, the Renaissance, and Counter-Reformation. (CSU/UC)

113 The Social and Cultural Impact of the Scientific Revolution -17th through 19th Centuries (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Examines the development of modern science and the impact of the New Science on life and culture in the 17th through 19th Centuries from a humanistic perspective. Includes new conceptions of human destiny; the new scientific method and "reality"; the social and ecological effects of industrialization; the impact of technologically advanced Europe on the rest of the world; literary, artistic, philosophical, and political reactions to the new scientific culture; and the limitations of the scientific values and world view. (CSU/UC)

114 Film and Literature as Communication in the 20th Century (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Traces the part played by literature and film in reflecting and bringing about major changes in perception, consciousness, and thought and deals with some of the problems consequent to these changes. (CSU/UC)

125 Technology/Contemporary Society/ Human Values (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Humanistic and critical analysis of the impact of contemporary technology on the environment, economic and political systems, warfare, education, medicine, philosophy, behavior control, and human relations. Examines reasons for the rise of technological civilization in the West, the phenomenology of modern technology, and the problem of control. (CSU/UC)

127 Science and Art I: Prehistory to Renaissance (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Changing ideas of nature and the cosmos, from prehistory to the age of Newton. Development of scientific concepts of nature and their effect on man's perceptions of the world, as reflected in changing styles of art, music, literature, and philosophy. Social and cultural values that influenced and were influenced by scientific and artistic events of the time. (Completion of HUM 127 and 128 satisfies three units of Physical Science and three units of Humanities credit. Either course taken alone satisfies three units of Humanities credit only.) (CSU/UC)

128 Science and Art II: Renaissance to 20th Century (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Changing ideas of nature and the cosmos, from the Scientific Revolution to the 20th Century. Development of scientific concepts of nature and their effect on man's perceptions of the world, as reflected in changing styles of art, music, literature, and philosophy. Social and cultural values that influenced and were influenced by scientific and artistic events of the time. (Completion of HUM 127 and 128 satisfies three units of Physical Science and three units of Humanities credit. Either course taken alone satisfies three units of Humanities credit only.) (CSU/UC)

131 Cultural Achievements of African-Americans (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to Black aesthetics, concentrating on the religious, philosophical, literary, musical, and art forms of Africa and African-Americans. Explores the relationship that philosophy, myth, religion and socio-political traditions have had with each other by examining the arts, literature, film, music, and other creative forces. (CSU/UC)

133 Cultural Achievements of Asian Americans (3) Three lecture hours per week. Recommended Preparation: previous Ethnic Studies courses and eligibility for ENGL 800. Develops an awareness and understanding of Asian cultures through study of the heritage in religion, family, literature, music, arts, crafts, and foods. Includes guest lecturers, tours, demonstrations, and hands-on experiences. (CSU/UC)

136 Creative Women in Modern Times (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Explores the works and projects created by women in the Western world from the Renaissance to the present, including the achievements of women in statecraft, philosophy, the visual arts, music, photography, and film-making, especially in the 19th and 20th Centuries. (CSU/UC)

140 Cultural Heritage of San Francisco and Its Environ (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of the history, art, architecture, music, literature, and geography of San Francisco. Covers early California as well as the present but emphasizes the decades from the Gold Rush to the early part of the 20th Century. (CSU)

675 Honors Colloquium in Western Civilization I (1) One lecture hour per week. Prerequisite: limited to students in the Honors Program who have completed or are concurrently enrolled in an associated non-honors course in Western Civilization or the equivalent. Readings, discussion, and lectures covering selected advanced topics in Western Civilization to be determined by the Humanities Department and the Honors Program. (CSU/UC)*

676 Honors Colloquium in Western Civilization II (1) One lecture hour per week. Prerequisite: limited to students in the Honors Program who have completed or are concurrently enrolled in an associated non-honors course in Western Civilization or the equivalent. Readings, discussion, and lectures covering selected advanced topics in Western Civilization to be determined by the Humanities Department and the Honors Program. (CSU/UC)*

680 - 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 - 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Japanese

Language Laboratory and Listening Requirement: since imitation, response, and independent practice are integral features of the study of a foreign language at the College, students enrolled in certain courses in foreign language are required to use the language laboratory as prescribed by each department.

110 Elementary Japanese (5) Five lecture hours plus one lab hour by arrangement per week. A beginning course in Japanese emphasizing oral expression, reading, and written forms. (CSU/UC)

111 Elementary Japanese I (3) Three lecture hours plus one lab hour by ar-
120 Newswriting (4) Three lecture and three lab hours per week. Prerequisite: eligibility for ENGL 800. Techniques of news gathering, judging news values, and writing the news story. For practical experience, students write for the college paper, *The San Matean*, thus preparing them for future newspaper work. (CSU/UC*)

300 Newspaper Production (2) Six lab hours per week. Production of the student newspaper, *The San Matean*. Discussion and criticism of staff organization and newspaper content. (To increase competency, may be repeated for a maximum of 6 units of credit.) (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

880 - 889 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

Life Sciences

(See Biology)

Literature

100 Twentieth-Century Literature (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of selected fiction, poetry, and drama of the 20th Century. Lectures, discussions, related reading, and writing of critical papers. (CSU/UC)

105 The Bible as Literature (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of the significant writings of the Old and New Testaments and of the Apocrypha. (CSU/UC)

111 The Short Story (2) Two lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of short stories. Class discussion and occasional writing, both analytical and creative. (CSU/UC)

112 The Novel (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of novels of the late 19th and the 20th Century and of various aspects of literary criticism. Reading, discussion, and critical papers. (CSU/UC)

115 Introduction to Poetry (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of poetry from the time of Chaucer to the present. Lectures, discussions, related reading, and critical papers. (CSU/UC)

143 Modern Drama (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study – from a theatrical as well as a literary point of view – of the outstanding masterpieces

Journalism

110 Introduction to Journalism (3) Three lecture hours per week. Study of the historical background and modern functioning of the press (newspaper, radio, magazine, and television) in a democratic society, and its values and shortcomings. Covers the rights and duties of journalists and the legal limits of the freedom of the press. (CSU/UC) (CAN JOUR 4)

Library Studies

100 Introduction to Library Studies (1) (Open entry/open exit) Three lab hours per week. A self-paced course in the use and mastery of standard library tools and resources. Provides practical, hands-on introduction to library organization, access tools (card catalogs and indexes), and reference materials. Outlines research strategies. (CSU/UC)

680 - 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

880 - 889 Selected Topics (1-3) (See first page of Description of Courses section.)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
of the modern theater. Lectures, discussions, critical papers, and recorded performances by professional actors. (CSU/UC)

151 Shakespeare (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of representative plays and poems. Reading, discussion, critical papers, tests. (CSU/UC)

153 Shakespeare (1-3) (Credit/No Credit grading.) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Offered in three one-unit modules per semester. Study of representative plays and poems, with emphasis on Shakespeare's poetic and dramatic skills and techniques and his understanding of human nature. Reading, discussion, critical papers, tests. (CSU/UC)

201 American Literature I (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of American literature from the beginning through the period of Mark Twain. Lectures, reading, analysis and discussion of selected works, and critical papers. (CSU/UC) (CAN ENGL 14)

202 American Literature II (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of American literature since Mark Twain. Lectures, reading, analysis and discussion of selected works, and critical papers. (CSU/UC)

231 Survey of English Literature I (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of the typical works of major English writers from the time of Chaucer to the end of the 18th Century. Lectures, discussions, recorded readings, and critical papers. (Recommended for English majors.) (CSU/UC) (CAN ENGL 8)

232 Survey of English Literature II (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of the typical works of major English writers of the 19th and 20th Centuries. Lectures, discussions, recorded readings, and critical papers. (Recommended for English majors.) (CSU/UC) (CAN ENGL 10)

251 Women in Literature (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Images of women in literature from 1600 to the present. Study of selected women writers. Reading, discussion, and critical papers. (CSU/UC)

301 World Literature Masterpieces I (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of selected works of world literature from Oriental and Occidental classical periods through the 17th Century. Reading, discussion, lectures, and critical papers. (CSU/UC)

302 World Literature Masterpieces II (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Study of selected works of world literature by African, Asian, European, and South American authors writing in periods from the 18th Century to the present. Readings, discussion, lectures, and critical papers. (CSU/UC)

430 Mythology and Folklore (3) Three lecture hours per week. Prerequisite: ENGL 110, 120, 130, or 140 or equivalent. Survey of major gods and heroes, recurring mythological themes, and relationships between man and his gods, primarily in the Greek and Roman cultures. (CSU/UC)

680 - 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 - 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Machine Tool Technology

110 Introduction to Machine Tool Theory for the Lathe (1.5) Three lecture hours per week for eight weeks. Corequisite: concurrent enrollment in MTT 111 and MANU 101 or 102. Basic theory of metal removal with emphasis on lathe operation, measurement, cutting tools, safety, and other related subjects. (CSU)

111 Introduction to Machine Tool Practice for the Lathe (1.5) Nine lab hours per week for eight weeks plus one lab hour per week by arrangement. Corequisite: concurrent enrollment in MTT 110. Lab experience in lathe set-ups, tool grinding, surface finish, precision measurement, cutting tools, safety, and other related subjects. (CSU)

120 Advanced Machine Tool Theory for the Lathe (1.5) Three lecture hours per week for eight weeks. Prerequisites: MTT 110/111. Corequisite: concurrent enrollment in MTT 121 and MANU 101 or 102. Advanced machining processes with emphasis on thread specifications, surface finishes, metric measurements, tapers, and applied math problems. (CSU)

121 Advanced Machine Tool Practice for the Lathe (1.5) Nine lab hours per week for eight weeks plus one lab hour per week by arrangement. Corequisite: concurrent enrollment in MTT 120. Lathe operations to cut threads and tapers and perform advance work in surface finishes and measurements. (Lab supplies required.) (CSU)

200 Introduction to Machine Tool Technology (2) One lecture hour and three lab hours per week. Survey course for the manufacturing technology student who requires a generalized experience in machine tools. Includes instruction in bench work, measurement, threads, cutting tools, lathe, milling, grinding, saws and others. (Lab supplies required.) (CSU)

210 Introduction to Machine Tool Theory for the Mill (1.5) Three lecture hours per week for eight weeks. Corequisite: concurrent enrollment in MTT 211 and MANU 101 or 102. Basic theory of metal removal with emphasis on milling operation, cutter applications, and measurements. (CSU)

211 Introduction to Machine Tool Practice for the Mill (1.5) Nine lab hours per week for eight weeks plus one lab hour per week by arrangement. Corequisite: concurrent enrollment in MTT 210. Milling machine operations with emphasis on set-ups, layouts, and precision measurements. (Lab supplies required.) (CSU)

220 Advanced Machine Tool Theory for the Mill (1.5) Three lecture hours per week for eight weeks. Prerequisites: MTT 210/211. Corequisite: concurrent enrollment in MTT 221 and MANU 101 or 102. Theory of advanced milling machine processes with emphasis on indexing, boring, measuring, precision machining, and metalurgy. (CSU)

221 Advanced Machine Tool Practice for the Mill (1.5) Nine lab hours per week for eight weeks plus one lab hour per week by arrangement. Corequisite: concurrent enrollment in MTT 220. Advanced milling machine set-ups, including index-
ing, timing measurement, coordinate calculations and other related processes. (Lab supplies required.) (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

701 Applied CNC Mathematics (3) 
Three lecture hours per week plus one lab hour per week by arrangement. Prerequisite: basic machine tool training or equivalent industrial experience. Recommended Preparation: three units of MATH 811 or equivalent skill level. Mathematics focusing on skills needed for programming CNC machine tools. Includes algebra, geometry, trigonometry and some analytic geometry. Emphasizes using math to solve the practical problems faced in the work world of a computer numerical control programmer/machinist. (CSU)

702 Introduction to Numerical-Control Programming (3) Six lecture hours per week for eight weeks plus one lab hour per week by arrangement. Prerequisite: MTT 701. Designed for experienced machinists or advanced technical students. Continuation of MTT 701. Basic concepts in programming machine tools. Covers cutter path (points of transition), motion commands, set ups, miscellaneous functions, canned cycles, program input, sub routines, program editing and debugging. (CSU)

703 Introduction to Computer-Assisted Programming (3) Six lecture hours per week for eight weeks plus one lab hour per week by arrangement. Prerequisite: MTT 702. Instruction in Computer Aided Machining (CAM). Basic instruction in the use of software designed to help in programming CNC tools. Instruction also in the use of DOS, computer operation, program planning, use of basic word processors, and computer peripherals. Use of Smart Cam is the main source of CAM instruction with additional computer aids included. (CSU)

704 Advanced Computer-Control Programming for Production (3) Six lecture hours per week for eight weeks plus one lab hour per week by arrangement. Prerequisite: MTT 703. Combines the full use of all programming methods with job planning, machine operation, and set-ups. Emphasizes problem solving and operational sequence along with program management at the machine tool. Students will be responsible for developing the complete sequence of processes from planning to completed project. (CSU)

710 Grinding Processes (1) One lecture hour and three lab hours per week for eight weeks. Basic principles of grinding, including wheel nomenclature, abrasives applications, and grinding machines. Geometry of cutters and other tool grinding applications. Surface finishes and inspection techniques. Recommended for those with prior machining experience or students enrolled in the machine tool program. (CSU)

720 Tool and Die Theory and Practice (1) One lecture hour and three lab hours per week for eight weeks. Corequisite: concurrent enrollment in MTT 210 or 211 or prior machine experience. Fundamentals of tool and die manufacturing, with emphasis on nomenclature and die design for the basic processes: punches, blanking, piercing, and bending. Recommended for those with prior machining experience or students enrolled in the machine tool program. (CSU)

750 Machine Tool Theory and Practice I (3) Two lecture and four lab hours per week plus two lab hours per week by arrangement. Prerequisite: completion of or concurrent enrollment in MAM 101 or MTT 701. Instruction in basic machine tool procedures. This course is equivalent to MTT 200. Designed for the serious machine technology student. Instruction in the use, operation, set up of conventional machine tools. Topics covered include lathes, mills, grinders, tool geometry, physics of metal removal, measurement, and job planning. (CSU)

755 Machine Tool Theory and Practice II (2) One lecture hour and three lab hours per week. Prerequisite: MTT 750. Intermediate studies in machine tool. Allows skill development in individual areas of interest: tool and cutter grinding, E.D.M., tool design, numerical-control programming, thread cutting, and others. (Lab supplies required.) (CSU)

760 Machine Tool Theory and Practice III (2) One lecture hour and three lab hours per week. Prerequisite: MTT 755. Advanced studies in machine tool. Allows skill development in individual areas of interest: tool and cutter grinding, E.D.M., tool design, numerical-control programming, thread cutting, and others. (Lab supplies required.) (CSU)

Management

100 Introduction to Business Management (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of the principal functions of modern management, including planning, organizing, staffing, actuating, controlling, and decision-making. (CSU)

105 Financial Management (3) Three lecture hours per week. Prerequisite: ACTG 121 or equivalent. Survey of the concepts of financial management. (CSU)

110 Report Writing (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Principles of effective communication in a variety of business and industrial applications; emphasizes clarity, accuracy, and logic in the presentation of written, oral, and statistical materials. (CSU)

120 Management Communications (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Communication processes, both oral and written. Lectures, discussion, case studies, and oral presentations on such topics as the relationship between communication and organizational climate, perception and motivation, and the causes and patterns of miscommunication. (CSU)

215 Management of Human Resources (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Line supervision and personnel function in industry: selection and placement, wage and salary procedures, training and evaluation. (CSU)

220 Organizational Behavior (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Individual motivation, interpersonal communication, organizational influence, group dynamics, and decision-making in the organization; the relationship between culture, structure, and technology; leadership and the managing of organization conflict. (CSU)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
235 Techniques of Supervision (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Role of the manager: understanding and motivating employees; leadership, communications, problem solving, and decision-making; employee training, performance evaluation, and labor relations; supervising different types of workers; delegation; improving work methods; reducing costs; planning and managing time. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Manufacturing and Industrial Technology

100 Science for Technology (3) Three lecture hours per week. Recommended Preparation: one semester of high school algebra. Study of applied physics phenomena as related to simple devices, including forces, stress, motion acceleration, velocity, friction, energy, and basic thermodynamics. (CSU)

101 Applied Technical Mathematics I (3) Three lecture hours per week. Prerequisites: appropriate skill level as measured by a satisfactory score on Math Placement Test One in combination with previous math coursework. Students who have earned three units of credit in MATH 811 at one of the SMCCCD colleges (MATH 810 at Skyline College) need not take the Math Placement Test. Required of all Machine Tool Technology, Drafting, and Welding Technology students. Use of elementary algebra and applied geometry in the solution of technical problems. (CSU)

102 Advanced Applied Technical Mathematics (3) Three lecture hours per week. Prerequisites: MANU 101. Continuation of MANU 101. Application of more advanced techniques in technical mathematics. Includes instruction in geometry and trigonometry problem analyses, especially as applied to programming computer numerical-control machines. (CSU)

120 Industrial Materials and Processes (3) Three lecture hours per week. The study of metals common to industry and related industrial manufacturing processes. Includes the removing, shaping, and joining of metals as well as the processing of plastics, rubber, glass, and some exotic materials currently used in local industries. (CSU)

210 Introduction to Technology (1) Two lecture hours per week for eight weeks. Survey course for technology students. Defines various employment classifications and training requirements. Focuses on changes in the industrial environment, job possibilities, educational demands, and career choices. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Mathematics

(Also see Business 115, 810)

The normal sequence of mathematics courses at CSU is 110, 115, 120, 130, 222, 251, 252, 253, 275. A student who qualifies for a particular mathematics course is eligible for any course lower in sequence. If the student has not taken a mathematics course during the previous two years, it is strongly recommended that the student enroll in a course below the one for which he or she would normally be eligible.

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

110 Elementary Algebra (5) Day: five lecture hours per week; evening: six lecture hours per week. Prerequisite: appropriate skill level as measured by a satisfactory score on Math Placement Test One in combination with previous math coursework. Students who have earned three units of credit in MATH 811 at one of the SMCCCD colleges (MATH 810 at Skyline College) need not take the Math Placement Test. Study of elementary algebra through quadratic equations.

111 Elementary Algebra I (FIRST HALF) (3) Three lecture hours per week. Prerequisite: appropriate skill level as measured by a satisfactory score on Math Placement Test One in combination with previous math coursework. Students who have earned three units of credit in MATH 811 at one of the SMCCCD colleges (MATH 810 at Skyline College) need not take the Math Placement Test. Covers the first half of the semester's work of MATH 110. MATH 111-112 provides a two-semester study of MATH 110, a study of elementary algebra through quadratic equations.

112 Elementary Algebra II (SECOND HALF) (3) Three lecture hours per week. Prerequisite: MATH 111. Covers the second half of the semester's work of MATH 110.

115 Geometry (5) Day: five lecture hours per week; evening: six lecture hours per week. Prerequisite: MATH 110 or 112 at one of the SMCCCD colleges OR equivalent skill level (as measured by a satisfactory score on Math Placement Test Two in combination with a course equivalent to MATH 110 or 112). Study of the properties of plane and solid figures, using formal logic and the real number system. Includes some non-Euclidean, projective, and topological elements.

120 Intermediate Algebra (5) Day: five lecture hours per week; evening: six lecture hours per week. Prerequisite: MATH 110 or 112 at one of the SMCCCD colleges OR equivalent skill level (as measured by a satisfactory score on Math Placement Test Two in combination with a course equivalent to MATH 110 or 112). Recommended Preparation: MATH 115 OR one year of high school geometry. A comprehensive review of elementary algebra with certain topics studied in greater depth. Extension of fundamental algebraic concepts and operations, equations in two variables, graphs, systems of equations, exponential and logarithmic functions, sequences, and series.

122 Intermediate Algebra I (FIRST HALF) (3) Three lecture hours per week. Prerequisite: MATH 110 or 112 at one of the SMCCCD colleges OR equivalent skill level (as measured by a satisfactory score on Math Placement Test Two in combination with a course equivalent to MATH 110 or 112). Recommended Preparation: MATH 115 OR one year of high school geometry. Covers the first half of the
semester’s work of MATH 120. MATH 122-123 provides a two-semester study of the material in MATH 120, a comprehensive review of elementary algebra with certain topics studied in greater depth.

123 Intermediate Algebra II (SECOND HALF) (3) Three lecture hours per week. Prerequisite: MATH 122. Covers the second half of the semester’s work of MATH 120.

125 Elementary Finite Mathematics (3) Three lecture hours per week. Prerequisite: MATH 120 or 123 at one of the SMCCCD colleges OR equivalent skill level (as measured by a satisfactory score on Math Placement Test Three in combination with a course equivalent to MATH 120 or 123). Introduction to finite mathematics. Includes systems of linear equations and inequalities, matrices, set theory, logic, combinatorial techniques, elementary probability, linear programming, and mathematics of finance. Places particular emphasis on applications. (CSU/UC) (CAN MATH 12)

130 Analytic Trigonometry (3) Three lecture hours per week. Prerequisites: MATH 115 and MATH 120 or 123 at one of the SMCCCD colleges OR equivalent skill level (as measured by a satisfactory score on Math Placement Test Three in combination with a course equivalent to MATH 115 and MATH 120 or 123). Trigonometric functions of real numbers and angles, their graphs and periodicity; reduction formulas; function of multiple angles; identities and equations; radian measure; inverse functions; and solution of triangles. (CSU) (CAN MATH 8)

200 Elementary Probability and Statistics (4) Day: four lecture hours per week; evening: five lecture hours per week. Prerequisite: MATH 120 or 123 at one of the SMCCCD colleges OR equivalent skill level (as measured by a satisfactory score on Math Placement Test Three in combination with a course equivalent to MATH 120 or 123). Representation of data, use and misuse of statistics, measures of central tendency and dispersion, probability, sampling distributions, statistical inference, regression and correlation, contingency tables, and nonparametric methods. (CSU/UC*) (CAN STAT 2)

222 Precalculus (5) Day: five lecture hours per week; evening: six lecture hours per week. Prerequisite: MATH 130 at one of the SMCCCD colleges OR equivalent skill level (as measured by a satisfactory score on Math Placement Test Three in combination with a course equivalent to Precalculus/College Algebra). Study of limits, continuity, the derivative, applications of the derivative, and the definite integral. (CSU/UC*)

252 Calculus with Analytic Geometry II (5) Day: five lecture hours per week; evening: six lecture hours per week. Prerequisite: MATH 251. Study of the anti-derivative, techniques of integration, applications of the definite integral, exponential and logarithmic functions, parametric equations, polar coordinates, conic sections, and vectors. (CSU/UC*)

253 Calculus with Analytic Geometry III (5) Day: five lecture hours per week; evening: six lecture hours per week. Prerequisite: MATH 252. Study of Taylor polynomials and Taylor’s formula, infinite series, the calculus of functions of several independent variables, partial derivatives, multiple integration, and vector calculus to include Green’s theorem, Stokes’ theorem, and the divergence theorem. (CSU/UC*)

268 Discrete Mathematics (4) Day: four lecture hours per week; evening: five lecture hours per week. Prerequisite: MATH 251. Topics in discrete mathematics with particular emphasis on applications to computer science. Includes logic, sets, Boolean algebra, switching circuits, recursion, induction, graphs, trees, counting, and combinatorics. (CSU/UC)

270 Linear Algebra (3) Three lecture hours per week. Prerequisite: MATH 252. Vectors and matrices applied to linear equations and linear transformations; real and inner product spaces. (CSU/UC) (CAN MATH 26)

275 Ordinary Differential Equations (3) Three lecture hours per week. Prerequisite: MATH 253. With permission of the instructor, may be taken concurrently with MATH 253. Differential equations of first, second, and higher order; simultaneous, linear and homogeneous equations; solutions by power series; numerical methods, Fourier series, Laplace transforms, and applications. (CSU/UC) (CAN MATH 24)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

811 Arithmetic Review (1-3) (Credit/No Credit grading.) (Open Entry/Open Exit) Three hours per week of individualized instruction. Basic arithmetic facts and op-
erations of whole numbers, fractions, and decimals with applications. (Units do not apply toward AA/AS degree.)

812 Elementary Algebra Review (1) (Credit/No Credit grading.) Three hours per week of individualized instruction. Prerequisite: MATH 110 or 111/112. A review of elementary algebra. (Units do not apply toward AA/AS degree.)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

---

**Medical Assisting**

100 Introduction to Medical Assisting (3) Three lecture hours per week. Duties and responsibilities of a medical assistant in a physician’s office, clinic, hospital, or other medical facility. Emphasizes desirable personality traits and human relationships as well as medical ethics, specialties in the medical field, and office maintenance.

110 Basic Medical Terminology (3) Three lecture hours per week. Prerequisite: eligibility for English 800 or higher. Development of a medical vocabulary through the study of the principles of word construction and word analysis, with emphasis on spelling and pronunciation. Medical abbreviations and symbols. (CSU)

115 Medical Word Processing (3) Three lecture hours per week plus two lab hours per week by arrangement. Prerequisite: knowledge of keyboard and BUS 303 or equivalent. Training in production typing of medical letters, reports, and forms using the microcomputer.

120 Clinical Procedures I (4) Three lecture and three lab hours per week. Prerequisites: BIOL 130 and MEDA 110. Examination room techniques; asepsis and sterilization procedures; laboratory procedures and techniques of specimen collection; electrocardiograms; and injections and venipuncture. (Extra supplies may be required.) (Fall only.)

121 Clinical Procedures II (4) Three lecture and three lab hours per week. Prerequisite: MEDA 120 with a grade of C or higher. Administering medications; eye and ear lavage; electroencephalograms; removal of sutures and staples; bandaging and dressings; and other examination and clinical procedures. (Extra supplies may be required.) (Spring only.)

140 Medical Transcription: Basic (3) Three lecture hours per week plus two lab hours per week by arrangement. Prerequisites: MEDA 110 and 115; BIOL 130 recommended. Machine transcription of medical reports. (CSU)

141 Medical Transcription: Advanced (3) Three lecture hours per week plus two lab hours per week by arrangement. Prerequisites: MEDA 140; MEDA 190 and BIOL 130 recommended. Intensive transcription of hospital-type medical reports, including history and physical examinations, surgeries, discharge summaries, and radiologic and nuclear medicine reports.

150 Medical Office Procedures (3) Three lecture hours per week plus two lab hours per week by arrangement. Prerequisites: MEDA 100, 110 and 115. Fundamental office procedures applied to the medical field. Decision-making, setting priorities, finding information, coping with interruptions, and producing under pressure in medical office simulations.

160 Medical Insurance Procedures (3) Three lecture hours per week plus two lab hours per week by arrangement. Prerequisites: MEDA 115. Covers Blue Cross, Blue Shield, Medicare, Medi-Cal, Worker's Compensation, and other insurance programs. Coding resources used in claims preparation. Billing and bookkeeping methods using the microcomputer.

161 ICD (International Classification of Diseases)-9-CM (Clinical Modification) Beginning Coding (1) (Credit/No Credit or letter grade option.) Four lecture hours per week for four weeks. Development of nomenclature and classification systems of diseases. Basic coding principles of diseases and symptoms according to ICD-9-CM with emphasis on the coding of medical records. Use of indexes, sequencing of code numbers, and preparation of documents. (To increase competency, may be repeated one time.)

164 CPT (Current Procedural Terminology) Beginning Coding (1) (Credit/No Credit or letter grade option.) Four lecture hours per week for four weeks. Basic coding principles of medical procedures according to CPT and an introduction to ICD-9-CM procedural coding. Use of CPT, modifiers, appendices, and preparation of documents. (To increase competency, may be repeated one time.)

190 Introduction to Pharmacology (3) Three lecture hours per week. Designed for medical assistants, medical transcribers, and other allied health personnel. Includes recognition and identification of commonly used drugs; classification of drugs according to action; modes of administration of drugs; and care and storage of drugs according to regulations of the Food and Drug Administration. (Fall only.) (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

---

**Meteorology**

100 Elementary Meteorology (3) Three lecture hours per week. Basic course in descriptive meteorology. Includes the atmosphere's structure, the earth’s heat budget, cloud forms and precipitation, pressure systems and wind, and air mass and frontal weather. Leads to a better understanding of the obvious and subtle ways of the weather. (CSU/UC)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

---

**Military Science**

(Air Force ROTC classes held at UC Berkeley.)

1-2 U.S. Air Force and National Security: Growth and Development of Air Power (1-1) One and one-half lecture hours per week. Introductory survey. Examines current U.S. defense needs and the Air Force in terms of theory, function, mission, and organization. Traces historical evolution of air power. Emphasizes the impact of changing technology and the contribution of specific historical figures. (CSU/UC)

---

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
(Army ROTC classes held at San Jose State University.)

1a-1b Fundamentals of Leadership; the U.S. Defense Establishment (2-2) One lecture hour and one leadership lab bi-weekly. First year basic course. Provides orientation concerning organization, management, and leadership fundamentals in formal organizations. Examines role of the citizen-soldier, foundations of national power, and causes of conflict. Includes oral reports and written requirements to improve communicative abilities. (CSU/UC*)

12a-12b Map and Aerial Photograph Reading; Applied Leadership and Management (2-2) One lecture hour and one leadership lab bi-weekly. Prerequisite: Military Science 1a-1b. Second year basic course. Functions, duties, and responsibilities of junior leaders; mission, organization, and composition of the basic military team; study of the basic principles of map and aerial photograph reading to include military geography, map symbols, military grid systems, resection techniques, and use of compass. Instruction in military operations and basic tactics; continuing development of leadership through practical exercises. (CSU)

Music

100 Fundamentals of Music (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Designed for students who wishes to learn how to read music and perform it at sight. Recommended for students with limited musical background who wish to begin the formal study of music theory. Also recommended for education majors. (CSU/UC)

101 Musicanship I (3) Three lecture hours per week. Prerequisite: MUS. 100 or equivalent. Corequisite: concurrent enrollment in MUS. 131. Recommended Preparation: eligibility for ENGL 800. Study of notations, keys, and intervals. Performance at sight of melodic and rhythmic examples. Dictation of melodic, harmonic, and rhythm examples. Fundamentals of keyboard harmony. (CSU/UC)

102 Musicanship II (3) Three lecture hours per week. Prerequisite: MUS. 101 or equivalent. Corequisite: concurrent enrollment in MUS. 132. Recommended Preparation: eligibility for ENGL 800. Continuation and advanced study of topics introduced in Music 101. (Nine units of Musicanship are recommended for students majoring in Music.) (CSU/UC)

103 Musicanship III (3) Three lecture hours per week. Prerequisite: MUS. 102 or equivalent. Corequisite: concurrent enrollment in MUS. 133. Continuation of Music 101-102. (CSU/UC)

104 Musicanship IV (3) Three lecture hours per week. Prerequisite: MUS. 103. Corequisite: concurrent enrollment in MUS. 134. Continuation of Music 103. (CSU/UC)

131 Harmony I (3) Three lecture hours per week. Prerequisite: MUS. 100 or equivalent. Corequisite: concurrent enrollment in MUS. 101. Recommended Preparation: eligibility for ENGL 800. Principles of scale, mode, and interval construction; triads in first, second, and third inversions; harmonic rhythm; root progressions and voice leading; seventh chords and secondary dominants; introduction to common harmonic practice through exercises, analysis, and creative work. (CSU/UC)

132 Harmony II (3) Three lecture hours per week. Prerequisite: MUS. 131. Corequisite: concurrent enrollment in MUS. 102. Continuation and advanced study of topics introduced in MUS. 131. (CSU/UC)

133 Harmony III (3) Three lecture hours per week. Prerequisite: MUS. 132. Corequisite: concurrent enrollment in MUS. 103. Continuation of the study of tonal and formal procedures; contextual investigations of diminished seventh, Neapolitan sixth, and augmented sixth chords; tonicization, modulation, and sequence; introduction to Impressionism and to 20th Century melody, harmony, and form. (CSU/UC)

134 Harmony IV (3) Three lecture hours per week. Prerequisite: MUS. 133. Corequisite: concurrent enrollment in MUS. 104. Continuation and advanced study of topics introduced in Music 133. (CSU/UC)

170 Improvisation (3) Three lecture hours per week. Prerequisite: MUS. 131 or equivalent. Study of improvisatory styles and techniques and the historical perspective of the practices; rhythmic, harmonic, and melodic foundations; and improvisatory ensemble. (To increase competency, may be repeated for a maximum of 12 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

202 Music Listening and Enjoyment (3) Three lecture hours per week plus selected listening. No musical experience required. Recommended Preparation: eligibility for ENGL 800. Survey of the music of Western civilization. Enhances enjoyment and appreciation of the world’s great music and develops an understanding of today’s concert music in a historical context. (CSU/UC)

240 Music of the Americas (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of the musical styles of various American cultures, including Native American forms and expressions. Examines the contributions of African, Latin, and European influences to the musical heritage of the United States and explores jazz, folk, popular and classical traditions. (CSU)

250 World Music (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. A course in comparative music styles of various cultures of the world. Each semester will explore one or more of the musical styles (popular, folk or classical) of Western Hemisphere, European, Asian and African cultures. Wherever possible, guest performers will present, and an opportunity shall be afforded to attend live performances. (CSU)

275 History of Jazz (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of jazz since 1900, with emphasis on instrumental styles; the development of jazz since 1940 and contemporary trends. Attendance required at four jazz performances. (CSU/UC)

301 Piano I (1) Three lab hours plus two individual practice hours per week. Study in the techniques of piano playing. Individual attention, assignments, and performance in a class situation. (CSU/UC*)

302 Piano II (1) Three lab hours plus two individual practice hours per week. Prerequisite: MUS. 301 or equivalent. Continuation of study in the techniques of piano playing. Individual attention, assignments, and performance in a class situation. (CSU/UC*)
303 Piano III (1) Three lab hours plus two individual practice hours per week. Prerequisite: MUS. 302 or equivalent. Continuation of study in the techniques of piano playing. Individual attention, assignments, and performance in a class situation. (CSU/UC*)

304 Piano IV (1) Three lab hours plus two individual practice hours per week. Prerequisite: MUS. 303 or equivalent. Continuation of study in the techniques of piano playing. Individual attention, assignments, and performance in a class situation. (To increase competency, may be repeated for a maximum of 4 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

320 Study of Brass Instruments (1) Three lab hours plus two individual practice hours per week. Techniques of playing the instrument of the student’s choice, with individual and class instruction. (To increase competency, may be repeated for a maximum of 4 units of credit.) (CSU/UC*)

340 Study of Woodwind Instruments (1) Three lab hours plus two individual practice hours per week. Techniques of playing the instrument of the student’s choice, with individual and class instruction. (To increase competency, may be repeated for a maximum of 4 units of credit.) (CSU/UC*)

360 Stringed Instruments (1) Three lab hours plus two individual practice hours per week. Techniques of playing the violin, viola, cello, or string bass, with individual and class instruction. (To increase competency, may be repeated for a maximum of 4 units of credit.) (CSU/UC*)

371 Classical Guitar I (1) Three lab hours plus two individual practice hours per week. Techniques of guitar performance and reading music to enable students to play accompaniments to compositions written for the guitar. Students must supply their own instruments. (CSU/UC*)

372 Classical Guitar II (1) Three lab hours plus two individual practice hours per week. Prerequisite: MUS. 371. Continuation of Music 371 with emphasis on solo performances. Students must supply their own instruments. (To increase competency, may be repeated for a maximum of 4 units of credit.) (CSU/UC*)

402 Vocal Techniques I (1) Three lab hours plus two individual practice hours per week. Elementary vocal problems analyzed and corrected through exercises and songs. (CSU/UC*)

403 Vocal Techniques II (1) Three lab hours plus two individual practice hours per week. Prerequisite: MUS. 402 or equivalent. Advanced songs and recital performance as ability merits. (To increase competency, may be repeated for a maximum of 4 units of credit.) (CSU/UC*)

430 Symphonic Band (1) Three lecture-critique hours per week. Prerequisite: MUS. 320, 340, or 360 or as applicable or the equivalent; demonstration of proficiency. Study and performance of music for concert band. Performance required (band does not perform at athletic events). (To increase competency, may be repeated for a maximum of 4 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

451 Jazz Workshop (1) Three lecture-critique hours per week. Prerequisite: MUS. 320, 340, or 360 or as applicable or the equivalent; demonstration of proficiency. Study in jazz interpretation and styles. Ensemble experience from “blues” to present-day jazz. (To increase competency, may be repeated for a maximum of 4 units of credit.) (CSU/UC*)

452 Repertoire Jazz Band (1) Three lecture-critique hours per week. Prerequisite: demonstration of proficiency in advanced reading and interpretation of jazz styles. Evening jazz ensemble for the experienced musician. Emphasizes advanced improvisational techniques. Performance required. (To increase competency, may be repeated for a maximum of 4 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

453 Jazz Band (2) Five lecture-critique hours per week. Prerequisite: demonstration of proficiency. All phases of jazz performance, starting with beginner ensemble experience. Performance required. (To increase competency, may be repeated for a maximum of 8 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

460 Instrumental Ensemble (1) Three lecture-critique hours per week. Prerequisite: demonstration of proficiency. Group experience for various kinds of instruments in a variety of combinations. (To increase competency, may be repeated for a maximum of 4 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

470 Choir (1) Three lecture-critique hours per week. Prerequisite: MUS. 402 or equivalent; demonstration of proficiency. Study and performance of choral literature for accompanied and unaccompanied choir. Performance required. (To increase competency, may be repeated for a maximum of 4 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

490 Masterworks Chorale (1) (Credit/No Credit grading.) Three lecture-critique hours per week plus two hours by arrangement. Prerequisite: MUS. 470 or equivalent; demonstration of proficiency. Study and performance of representative choral literature appropriate for a large chorus. Introduces different works each semester, providing a succession of new curriculum. (To increase competency, may be repeated for a maximum of 4 units of credit, after which students may petition to audit. See Index: “Audit Policy.”) (CSU/UC*)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Nursing

Registered Nursing

The courses described are open only to those students accepted in the Associate Degree Nursing Program (see Index: Nursing, A.S. Degree for admission requirements). A grade of C or higher is necessary for progression in the sequence. Upon graduation, the candidate receives an Associate in Science degree and is eligible to write the California Board of Registered Nursing Licensing examination. Satisfactory completion of NURS 211, 212, 221, and 222 will satisfy the 2 units of Health Science General Education requirement for an A.A./A.S. degree.

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

211 Introduction to Nursing (4.5) Four lecture and sixteen lab hours per week for
eight to nine weeks. Prerequisite: Admission to the A.S. Degree Nursing Program. Human health needs and the principles, facts, concepts and skills basic to nursing care. Supervised learning experiences corresponding with classroom instruction in off-campus health care facilities. (CSU)

212 Concepts of Homeostasis in Nursing (4.5) Four lecture and sixteen lab hours per week for eight to nine weeks. Prerequisite: NURS 211. Continuation of the study of human health needs and the principles, facts, concepts, and skills basic to nursing care using the nursing process to promote homeostasis. Supervised learning experiences corresponding with classroom instruction in off-campus health care facilities. (CSU)

221 Pediatric Nursing (4.5) Five lecture and twelve and one-half lab hours per week for eight to nine weeks. Prerequisites: NURS 212. Developmental levels and common health needs and problems from infancy to young adult. Supervised learning experiences corresponding with classroom instruction in off-campus health care facilities. (CSU)

222 Maternity Nursing (4.5) Five lecture and twelve and one-half lab hours per week for eight to nine weeks. Prerequisites: NURS 221; BIOL 260 or 266; and PSYC 100 AND concurrent enrollment in or completion of PSYC 201. Needs and problems of the family during the maternity cycle along with identifying needs and problems of male and female reproduction. Supervised learning experiences corresponding with classroom instruction in off-campus health care facilities. (CSU)

231 Psychiatric Nursing (5) Five lecture and fifteen lab hours per week for eight to nine weeks. Prerequisite: NURS 222. Effective and non-effective communication, equilibrium and disequilibrium in lifestyle styles and functioning in the adolescent to adult patient. Supervised learning experiences corresponding with classroom instruction in off-campus health care facilities. (CSU)

232 Medical/Surgical Nursing (5) Five lecture and fifteen and one-half lab hours per week for eight to nine weeks. Prerequisite: NURS 231. Identification of more complex health needs and problems in the adult and special needs of the surgical patient. Supervised learning experiences corresponding with classroom instruction in off-campus health care facilities. (CSU)

241 Advanced Medical/Surgical Nursing (5) Five lecture and sixteen and one-half lab hours per week for eight to nine weeks. Prerequisite: NURS 232. Addressing the overt and covert needs of adult patients undergoing threats to homeostasis in a variety of complex situations. Supervised learning experiences corresponding with classroom instruction in off-campus health care facilities. (CSU)

242 Leadership/Management in Nursing (5) Five lecture and sixteen lab hours per week for eight to nine weeks. Prerequisite: NURS 241. Transition to the graduate role. Student initiates the nursing process with emphasis on the determination of priorities, on decision-making responsibilities, and on personal accountability. Supervised learning experiences corresponding with classroom instruction in off-campus health care facilities. (CSU)

250 Operating Room Nursing (8) Eighty-four lecture and 368 lab hours over twelve weeks. Prerequisite: current California R.N. license or acceptance into the course by the Nursing Department; one year of recent medical/surgical nursing experience preferred. Theory and clinical experience in the basic knowledge and skills of perioperative nursing practice. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 - 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

811 Review: Introduction to Nursing (2) (Credit/No Credit grading.) Four lecture hours per week for eight to nine weeks. Prerequisite: NURS 242 or equivalent. Review of principles, facts, concepts and skills basic to nursing care.

812 Review: Concepts of Homeostasis in Nursing (2) (Credit/No Credit grading.) Four lecture hours per week for eight to nine weeks. Prerequisite: NURS 242 or equivalent. Review of principles, facts, concepts, and skills basic to nursing care. Human needs are identified and nursing process is used to promote homeostasis.

821 Review: Pediatric Nursing (2.5) (Credit/No Credit grading.) Five lecture hours per week for eight to nine weeks. Prerequisite: NURS 242 or equivalent. Review of developmental levels and common health needs and problems from infancy to young adult.

822 Review: Maternity Nursing (2.5) (Credit/No Credit grading.) Five lecture hours per week for eight to nine weeks. Prerequisite: NURS 242 or equivalent. Review of needs and problems of the family during the maternity cycle along with identifying needs and problems of male and female reproduction.

831 Review: Psychiatric Nursing (2.5) (Credit/No Credit grading.) Five lecture hours per week for eight to nine weeks. Prerequisite: NURS 242 or equivalent. Review of effective and non-effective communication, equilibrium and disequilibrium in life-styles, and functioning in the adolescent to adult patient.

832 Review: Medical/Surgical Nursing (2.5) (Credit/No Credit grading.) Five lecture hours per week for eight to nine weeks. Prerequisite: NURS 242 or equivalent. Review of more complex health needs/problems in the adult.

841 Review: Advanced Medical/Surgical Nursing (2.5) (Credit/No Credit grading.) Five lecture hours per week for eight to nine weeks. Prerequisite: NURS 242 or equivalent. Review of overt and covert needs of adult patients undergoing threats to homeostasis in a variety of complex situations.

842 Review: Leadership/Management in Nursing (2.5) (Credit/No Credit grading.) Five lecture hours per week for eight to nine weeks. Prerequisite: NURS 242 or equivalent. Review of meeting overt and covert needs of adult patients undergoing threats to homeostasis in a variety of complex situations. The nursing process is used with emphasis on determination of priorities, decision making responsibilities, and personal accountability.

845 Review: Registered Nurse Exam (.5) (Credit/No Credit grading.) One-half hour lecture and one and one-half hours lab per week for eight weeks. Prerequisite: Concurrent enrollment in NURS 242 or equivalent OR eligibility to take the State Board exam. This course is designed to assist senior level nursing students to prepare for Nursing State Board examination through the use of a computer program and audio and video tapes which provide content review and test taking skills.

Nutrition
(See Consumer Arts and Science)

Oceanography
Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

100 Oceanography (3) Two lecture hours and one recitation hour per week plus two field trips. Introduction to marine geology, chemistry, and biology. Includes the hydrologic cycle and properties of sea water and marine organisms; currents, waves, tides, coastal processes, and ecology of the ocean; continental drift; and seafloor spreading. (CSU/UC)

101 Oceanography Laboratory/Field Study (1) Three lab hours per week. Prerequisite: concurrent enrollment in or completion of OCEN 100. Introductory exercises in ocean currents, sedimentation, marine life forms, materials of the oceanic crust and sea floor, physical and chemical properties of seawater, and plate tectonics. Field trips included. (CSU/UC)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

890 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Philosophy
(Also see Humanities)

100 Introduction to Philosophy (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introductory survey of philosophical questions about the nature of reality; the prospects for human knowledge; and moral, political, and religious issues. Intended to help students clarify their own thinking about such questions, through learning and discussing how philosophers have dealt with them. (CSU/UC) (CAN PHIL 2)

244 Contemporary Social and Moral Issues (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Discussion and analysis of contemporary controversial issues in medical, business, and professional ethics, law enforcement, and politics. Issues include abortion, euthanasia, truth-telling in advertising, corporate responsibilities, capital punishment, victimless crimes, freedom of the press, the uses of war and terrorism as instruments of national policy, animal rights, and world hunger. (CSU/UC)

246 Ethics in America (3) (Telecourse) (Credit/No Credit or letter grade option.) Recommended Preparation: eligibility for ENGL 800. Examines contemporary ethical conflicts in journalism, government, medicine, law, business, and the criminal justice system. Provides a grounding in the language, concepts, and traditions of ethics. (CSU)

Office Administration
(See Business)

Paleontology

110 General Paleontology (3) Two lecture and two recitation hours per week plus two one-half day field trips. Evolution of life with emphasis on fossil apes, humans, and dinosaurs. Fossils as evidence of the history of life. Animals and plants related to modern and ancient environments. Methods of interpreting the fossil record. The impact of drifting continents on the extinctions and origins of major groups of organisms. (CSU/UC)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Physical Education

The Physical Education Division offers a wide variety of physical activities that students can participate in according to individual interests and needs, activities that have carry-over value for the students' leisure time, now and in the future. Instruction is provided in progressive levels of competency, offering opportunities for specialization. A recommended preparation for all physical education courses is a recent physical examination.

Courses will normally be offered for the number of units specified in this catalog. However, units allowed for a given Physical Education class may be adjusted to conform with an increase or a decrease in the number of hours for which the class will be offered. Units are earned on the basis of 5 unit per class hour per semester. Courses involving Varsity Athletics may not count for activity credit unless the number of units is at least one per semester. (See Index: "Physical Education Requirement.") To increase competency, all Physical Education activity classes may be repeated a maximum of three times.

860 – 869 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Adapted (ADAP)

100 Adapted Aquatics (1.5-1.5) (Credit/No Credit grading.) One to three lab hours per week. (Open entry/open exit.) Prerequisite: physician's verification of physical limitation. Designed for most

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
physically limiting conditions. Students practice techniques to increase range of motion and strengthen weakened extremities through water-oriented exercises and swim instruction. (CSU/UC*)

110 Adapted General Conditioning (.5-1.5) (Credit/No Credit grading.) (Open entry/open exit.) One to three lab hours per week. Prerequisite: physician's verification of physical limitation. Prescription and implementation of adapted exercises for a number of limiting conditions, ranging from stroke injuries to orthopedic problems. (CSU/UC*)

140 Adapted Circuit Weight Training (.5-1.5) (Credit/No Credit grading.) (Open entry/open exit.) One to three lab hours per week. Prerequisite: physician's verification of physical limitation. Instruction in the use of fitness equipment; individualized training to develop muscular endurance using specific exercises in circuit training. (CSU/UC*)

Aquatics (AQUA)

105 Intermediate/Advanced Swimming (1) Two lab hours per week. Prerequisites: ability to demonstrate the basic components of the front crawl, back crawl, and breaststroke. Individualized instruction in the stroke mechanics of front and back crawl, elementary backstroke, sidestroke, breaststroke, and butterfly. Includes techniques of the grab and flip turns. (After course has been repeated for the maximum number of times allowed, students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

109 Intermediate Swimming and Beginning Water Polo (1.5) Three lab hours per week. Prerequisite: ability to swim comfortably in deep water. Instruction in the basic swimming strokes, water polo fundamentals, and intra-class competition. Progressive skill development in picking up the ball in water, passing, catching, shooting, dribbling. Introduction to basic strategies and water polo rules. (CSU/UC*)

120 Aquatic Fitness (1-1.5) Two to three lab hours per week. Prerequisite: demonstration of ability to swim the front crawl for 100 yards continuously. Aerobic activity involving monitored heart rate. Individualized instruction in front-crawl stroke mechanics and turning techniques. (CSU/UC*)

127 Swim for Conditioning (.5-1.5) Two or three lab hours per week. Prerequisite: ability to swim. Endurance swimming for all swimmers at all levels of fitness. Interval training using all strokes. (CSU/UC*)

Combative (COMB)

103 Intermediate Self-Defense (1) Two lab hours per week. Prerequisite: COMB 101. Review of skills learned in Beginning Self-Defense. Advanced skills, including controlled sparring, that lead to the next rank in self-defense. Home, car, and outside security precautions. Rape prevention. (CSU/UC*)

104 Intermediate/Advanced Self-Defense (1-2) (Open entry/open exit.) Four lab hours per week. Prerequisite: COMB 101 or demonstration of ability. Advanced skills in self-defense for students working for red or black belt rank. Individual work in sparring, throws, and attack techniques. (After course has been repeated for the maximum number of times allowed, students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

Dance (DANC)

Descriptions of the following courses are listed under DANCE.

121 Contemporary Modern Dance (1.5)

130 Jazz Dance I (1.5)

132 Jazz Dance II (1.5)

141 Beginning Ballet I (1.5)

143 Intermediate Ballet II (1.5)

148 Beginning Ballet & Modern Dance (1)

411 Dance Production I (1)

412 Dance Production II (2)

Fitness (FITN)

100 Adult Fitness (1) Two lab hours per week. Designed to re-acquaint the adult with exercise and to increase cardiovascular and physical fitness. Exercise for flexibility, strength, and agility; running for conditioning of the muscular, vascular, and respiratory systems. Emphasizes working at own pace. (After course has been repeated for the maximum number of times allowed, students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

110 Adult Conditioning Activities (1) Two lab hours per week. A series of coordinated exercises designed for cardiovascular, muscular, and physical fitness. Exercises for flexibility, strength, and agility; jogging; volleyball and badminton for relaxation. Designed to allow students to progress at their own pace. (After course has been repeated for the maximum number of times allowed, students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

116 Body Conditioning (1-1.5) Two to three lab hours per week. Individual flexibility, agility, strength, aerobic fitness, and relaxation. (CSU/UC*)

127 Aerobic Dance (.5-2) (Open entry/open exit.) One to four lab hours per week. Recommended Preparation: recent physical examination. Dance and exercise to music to increase cardiovascular efficiency, flexibility, and coordination; strengthen heart muscle; lower resting hear rate; and tone the body. (CSU/UC*)

201 Beginning Weight Conditioning (1-1.5) Two to three lab hours per week. Recommended Preparation: recent physical examination. Designed to increase strength and flexibility through instruction in various lifts and exercises using free weights and/or weight machines. (CSU/UC*)

203 Intermediate Weight Conditioning (1-1.5) Two to three lab hours per week. Prerequisite: FITN 201 or equivalent. Progressive skills and weight development in various weight-conditioning exercises using free weights and/or weight machines; opportunities to specialize in different areas of the body; development of individual programs. (CSU/UC*)

212 Circuit Weight Conditioning (.5-1.5) One to three lab hours per week. Use of UNIVERSAL weight-training equipment in a multi-station exercise circuit. Designed to develop strength and improve muscle tone and flexibility. Stretching exercises precede lifting activities. (After course has been repeated for the maximum number of times allowed, students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
215 Weight Conditioning for Varsity Track (1-2) (Open entry/open exit.) Two to four lab hours per week. Corequisite: participation in intercollegiate Track and Field. Weight-conditioning course designed for the individual development of the eighteen different events in Track and Field. (CSU/UC*)

220 Weight Conditioning for Varsity Football (1-3) Two to six lab hours per week. Prerequisite: Varsity Football candidacy. Designed to teach students to use overload weight training to build bulk and strength. Students work on major muscle groups, emphasizing leg and upper-body development. (CSU/UC*)

Individual Sports (INDV)

120 Badminton (1-1.5) Two to three lab hours per week. Skill techniques, proper footwork, rules of play, strategies, and doubles and singles play for various skill levels of ability. Tournaments in singles and doubles. (After course has been repeated for the maximum number of times allowed, students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

121 Beginning Badminton (1-1.5) Two to three lab hours per week. Rules and strategies of badminton; fundamentals of grip, strokes, and footwork; drills and competition. Tournaments in singles and doubles. (CSU/UC*)

123 Intermediate Badminton (1-1.5) Two to three lab hours per week. Prerequisite: beginning badminton course in high school or college with a grade of C or higher. Emphasizes strategy, tactics, footwork, doubles teamwork, and the singles game. Tournaments in singles and doubles. (CSU/UC*)

150 Beginning/Intermediate/Advanced Fencing (1-1.5) Two to three lab hours per week. Recommended Preparation: recent physical examination. Techniques of and practice in form, attacks, parries, counterattacks, boutting, and timing; strategy; history; safety; etiquette; rules; terminology; judging, directing; scorekeeping; and tournaments. (CSU/UC*)

161 Beginning Golf (1-1.5) Two to three lab hours per week. Lectures on techniques, rules, etiquette, and philosophy for the beginning golfer; practical experience associated with grip, stance, and swings relative to iron and wood shots. (After course has been repeated for the maximum number of times allowed, students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

251 Beginning Tennis (1-1.5) Two to three lab hours per week. Rules and strategies of tennis, including the fundamentals of grip, strokes, footwork, and court coverage through drills and competition. Testing on rules and the various techniques taught. Class play in singles and doubles. (CSU/UC*)

252 Beginning/Intermediate Tennis (1-1.5) Two to three lab hours per week. Emphasizes service, forehand, and backhand strokes. Includes rules of play, net play, and doubles and singles strategy. (CSU/UC*)

253 Intermediate Tennis (1-1.5) Two to three lab hours per week. Prerequisite: beginning tennis or demonstration of ability in forehand, backhand, and service. Emphasizes net play and doubles and singles strategy. Includes volley, lob, and smash. Singles and doubles tournaments. Testing in skills, techniques, and rules. (CSU/UC*)

254 Intermediate/Advanced Tennis (1-1.5) Two to three lab hours per week. Prerequisite: Beginning Tennis or comparable skill ability. Techniques and skills of basic tennis strokes used in playing doubles and singles. Philosophy and strategy of playing doubles and singles. (After course has been repeated for the maximum number of times allowed, students may petition to audit. See Index: "Audit Policy.") (CSU/UC*)

255 Advanced Tennis (1-1.5) Two or three lab hours per week. Prerequisites: Beginning and Intermediate Tennis or equivalent. Advanced aspects of tennis play. Instruction in advanced strategy, philosophy, and techniques; tournament play in singles and doubles. (CSU/UC*)

Team Sports (TEAM)

105 Advanced Baseball (1-1.5) (Open entry/open exit.) Four to twenty lab hours per week. Prerequisite: high school baseball or equivalent. Training class for students seeking to participate in Varsity Baseball. Practice in fundamental as well as advanced skills and techniques in baseball. Written and practical testing. (CSU/UC*)

115 Advanced Basketball (1-1.5) One to three lab hours per week. Prerequisite: high school team play or demonstration of competency. Basketball play for students with superior skills and knowledge of basketball. Permanent teams participate in round-robin league concluded by tournament play. Advanced drills to work on and improve skills. Advanced techniques in strategy, team play, and defenses. (CSU/UC*)

118 Advanced Basketball: Women (1-3) (Open entry/open exit.) Six to nine lab hours per week. Prerequisite: demonstration of competency. Recommended Preparation: competition at high school. Required for women wishing to compete on Woman’s Varsity Basketball Team. Advanced skills of basketball play; development of team play. (CSU/UC*)

135 Advanced Football and Conditioning (1-3) Three to seven and one-half lab hours per week. Prerequisite: varsity football experience in high school or college or demonstration of competency. Review of basic skills and introduction to advanced techniques and strategies in offensive and defensive football. Stresses conditioning necessary to play the game and to achieve life-long health goals. Includes weight training. (CSU/UC*)

151 Beginning Softball (1-1.5) Two to three lab hours per week. Basic skills, strategy, and practice in softball. Includes batting, catching, throwing, rules of play, and team strategy through round-robin competition. (CSU/UC*)

158 Advanced Softball: Women (1-3) (Open entry/open exit.) Four to six lab hours per week. Prerequisite: demonstration of competency. Recommended Preparation: competition at the high school level. Required training class for women interested in participating on the Women’s Varsity Softball team. Emphasized advanced skills of softball, including team play, offense, and defense. (CSU/UC*)

165 Advanced Track and Field: Men and Women (1-3) Two to six lab hours per week. Prerequisite: participation in high school or college Track or Cross-Country program or demonstration of competency. Designed to increase conditioning through weight training, with emphasis on individual needs in specific track events. Includes running and instruction in all aspects of track and field. Designed for athletes planning to participate in Varsity Track and Field in the spring semester. (CSU/UC*)

(CSU) Transferrable to California State Universities, (UC) Transferrable to University of California, (*) With limitations
171 Beginning Volleyball (.5-.15) One to three lab hours per week. Fundamentals of serving, passing, setting, spiking, and team play. Emphasizes knowledge of rules. Round-robin team play, including class-ending tournaments. (CSU/UC*)

173 Intermediate Volleyball (.5-1.5) One to three lab hours per week. Prerequisite: TEAM 171 or demonstration of competency. Continuation of Team 171. Emphasizes fundamentals, team set-ups, play, and knowledge of the rules. Round-robin team play with concluding tournament. (CSU/UC*)

175 Advanced Volleyball (.5-.15) One to three lab hours per week. Prerequisite: TEAM 173, high school team participation, or demonstration of competency. Volleyball play for advanced students of superior ability. Continuation of fundamental skills. Emphasizes team play, advanced strategy, court coverage, and rules. Round-robin and tournament play. (CSU/UC*)

179 Tournament Volleyball (1-.5) Two to three lab hours per week. Prerequisite: beginning course in volleyball or equivalent. For advanced beginners and intermediate level volleyball players. Includes participation in organized intra-class tournaments preceded by stretching and appropriate warm-up activities. (CSU/UC*)

**Intercollegiate Sports (VARS)**

These courses are designed for students who wish to compete in intercollegiate athletics and may be limited to those who demonstrate the highest level of athletic proficiency. Students must pass a physical exam. Sufficient skill to reduce the likelihood of injury is also required. Most varsity sports entail practice from 2-5 p.m. daily.

100 Varsity Baseball (.5-.2) (Open entry/open exit.) Fifteen lab hours per week by arrangement. Prerequisite: demonstration of competency. Intercollegiate varsity baseball competition in the Golden Gate Conference tournament and with other community colleges in the area. (CSU/UC*)

120 Varsity Cross Country: Men (.5-.2) (Open entry/open exit.) Fifteen lab hours per week by arrangement. Prerequisite: high school cross country or track or equivalent. Running against local and state-wide competition. Competitive distance: four miles. (CSU/UC*)

130 Varsity Football (.5-.2) (Open entry/open exit.) Fifteen lab hours per week by arrangement. Prerequisite: demonstration of competency. Recommended Preparation: competition at high school level. Intercollegiate varsity football competition in the Golden Gate Conference. Student athletes must be ready to start practice in August before the fall semester begins. Students enrolled in twelve or more units at either Skyline or Cañada College can also participate. Participation in pre-fall practice is a prerequisite for playing in the first and second games of the season. (CSU/UC*)

185 Varsity Track and Field: Men and Women (.5-.2) (Open entry/open exit.) Fifteen lab hours per week by arrangement. Prerequisite: participation in high school or college track or demonstration of competency. Varsity Track and Field competition for men and women in the Golden Gate Conference. (CSU/UC*)

300 Varsity Basketball: Women (.5-.2) (Open entry/open exit.) Fifteen lab hours per week minimum. Prerequisite: demonstration of competency. Recommended Preparation: competition at the high school level. Intercollegiate competition in the Golden Gate Conference and California Championships. (CSU/UC*)

310 Varsity Cross Country: Women (.5-.2) (Open entry/open exit.) Fifteen lab hours per week by arrangement. Prerequisite: high school cross-country team experience or demonstrated running background. Cross-country and distance running competition on an intercollegiate level in the Golden Gate Conference; participation in conference meets, invitational meets, and State Championship meets for those who qualify. Racing distance is three miles. (CSU/UC*)

320 Varsity Softball: Women (.5-.2) (Open entry/open exit.) Fifteen lab hours per week minimum. Prerequisite: TEAM 158 and demonstration of competency. Recommended Preparation: competition at the high school level. Intercollegiate women’s varsity softball competition in the Golden Gate Conference and State championships. (CSU/UC*)

330 Varsity Tennis: Women (.5-.2) (Open entry/open exit.) Fifteen lab hours per week minimum. Prerequisite: high school team competition or demonstration of competency. Intercollegiate competition in the Golden Gate Conference, Northern California championships, and California State championships. (CSU/UC*)

Students interested in participating in the following varsity sports not offered at CSM may attend CSM and participate at Cañada or Skyline. The student must be enrolled in a minimum of 12 units to establish eligibility.

- Cañada
  - Basketball: Men
  - Golf: Men
  - Soccer: Men
  - Tennis: Men
- Skyline
  - Basketball: Men
  - Soccer: Men
  - Volleyball: Women
  - Wrestling

**Theory (P.E.)**

115 Theory of Adapted Physical Education (4.5) Three lecture and three lab hours per week. Therapeutic practices and principles in the physical conditioning of students disabled by physical or psychological disorders. Includes practical experience in working with the disabled. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

810 Adapted P.E. Assistant Lab (1.5-4.5) (Open entry/open exit.) Three to nine lab hours per week. Designed to provide hands-on experience for pre-therapy students. Includes practical experience working with disabled students in the Adapted Physical Education Program. (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

**Physical Science**

(Also see Humanities 127 and 128)

100 Introduction to the Physical Sciences (3) Three lecture hours per week. Open to all students except those who are currently enrolled in or have completed a college course in physics, astronomy, or chemistry. Survey of topics in physics, astronomy and chemistry. Emphasizes interdisciplinary aspects of science. Intended for non-science majors. (CSU/UC*)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
675 Honors Colloquium in Physical Science (1) One lecture hour per week. Prerequisite: limited to students in the Honors Program who have completed or are concurrently enrolled in an associated non-honors course in physical science. Readings, discussion, and lectures covering selected advanced topics in physical science to be determined by the Physical Science Department and the Honors Program. (CSU/UC*)

676 Physical Reality and Measurement (1) Two lecture hours per week for eight weeks. Prerequisite: eligibility for the Honors Program and completion of or enrollment in any physical science course that includes a laboratory. Covers the nature of measurement, particularly the effects of objectivity versus subjectivity upon the observer and hence upon the observed. Discusses the reality of concepts, the quantum dilemma, and the prospect of having a perfect, “God’s-Eye” view of the physical universe. (CSU)

680–689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880–889 Selected Topics (1-3) (See first page of Description of Courses section.)

Physics

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

100 Descriptive Introduction to Physics (3) Three lecture hours per week. Recommended Preparation: equivalent of at least one semester of high school-level algebra. Open to all students except those who have completed or are taking PHYS 210 or 250. Description with experimental demonstrations of the more important phenomena of physics. (CSU/UC*)

The Physics 210-220 sequence is designed for students majoring in some field of letters and science. It is required for students planning to enter Medicine, Dentistry, Pharmacy, Optometry, Agriculture, or Forestry.

210 General Physics I (4) Three lecture and three lab hours per week. Prerequisite: MATH 130. Mechanics, heat, and sound. (CSU/UC*) (CAN PHYS 2)

220 General Physics II (4) Three lecture and three lab hours per week. Prerequisite: PHYS 210. Magnetism, electricity, light, and modern physics. (CAN PHYS 4)

Physics 250-260-270 constitute a three-semester program designed to give students majoring in Engineering, Physics or Chemistry a thorough foundation in the fundamentals of physics.

250 Physics with Calculus I (4) Three lecture and three lab hours per week. Corequisites: concurrent enrollment in MATH 252 or 242. Mechanics, wave motion, and special relativity. Extra supplies required. (CAN PHYS 8)

260 Physics with Calculus II (4) Three lecture and three lab hours per week. Corequisites: PHYS 250; concurrent enrollment in MATH 253 or completion of MATH 242. Electricity and magnetism. Extra supplies required. (CAN PHYS 12)

270 Physics with Calculus III (4) Three lecture and three lab hours per week. Corequisites: PHYS 250; concurrent enrollment in MATH 253 or completion of MATH 242. Heat, light, and modern physics. Extra supplies required. (CAN PHYS 10)

680–689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880–889 Selected Topics (1-3) (See first page of Description of Courses section.)

Political Science

100 Introduction to Political Science (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to the nature of politics and to political science as a field of study. Examines the nature of the state, forms of government and political institutions, political theory and ideology, public law and administration, and international relations. (CSU/UC)

110 Contemporary Foreign Governments (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: previous course in political science and eligibility for ENGL 800. Introduction to representative foreign political systems. Comparative analysis of how varied governments reconcile stability and change, power and responsibility, freedom and efficiency. Examines interrelationships of social patterns, ideology, and political institutions. (CSU/UC)

130 International Relations (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Introduction to the nature of relations among states, focusing on the analysis of the basic forces affecting the formulation of foreign policy and the dynamics of international politics. Covers the nation-state system, sources of national power, instruments of national policy, and the attempt to resolve international conflict by peaceful methods. (CSU/UC)

150 Introduction to Political Theory (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of classical and modern political thought designed to develop understanding of various theoretical approaches to politics, basic political problems, and proposed solutions to these problems. (CSU/UC)

170 Introduction to Public Administration (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Structures of Federal government organizations, the decision-making process, and focus of power within our bureaucratic system of government. Relationships among government branches, history and growth of administration in U.S., organizational theory, administrative and management theories (including leadership, personnel, and budgetary concepts) and planning and evaluation of public policies for both current and future issues. (CSU/UC)

200 National, State and Local Governments (5) Five lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Not open to students who have had PLSC 210 or 310 or a comparable course in American or state institutions. Established primarily for students whose major is political science, prelaw, criminology, or allied behavioral and social sciences. Introduction to the principles and problems of American government at the national, state, and local levels. Examines intergovernmental relationships from a functional point of view. Emphasizes (CSU Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
American federalism, judicial review, the political process in the nation and state, civil liberties, foreign policy, and the role of the citizen at all levels of government. (Satisfies the American Institutions and California State and Local Government requirements.) (CSU/UC*) (CAN GOVT 2)

205 American Society (5) Five lecture hours per week. Recommended Preparation: eligibility for ENGL 844. Offered primarily for foreign students or recent immigrants. American society and culture, including social, political, and economic institutions as well as history. Emphasizes aspects of American life and historical development that are unique in history, patterns of voluntary association in political and non-political institutions, educational trends, and cultural characteristics. (Satisfies the American Institutions and California State and Local Government requirements.) (CSU)

210 American Politics (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 844. Study of the Constitution and the organization and functions of the branches of the Federal government; an examination of the dynamics of the American political process. (Satisfies the American Institutions requirement.) (CSU/UC*)

212 Introduction to American Politics and Society (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 844. Offered primarily for international students and recent immigrants. Introduction to the institutions and dynamic processes of American democracy and to unique aspects of American society, culture, and historical development which are relevant to American politics and to the formation of national values and character. (Satisfies the American Institutions requirement.) (CSU)

215 Contemporary Issues in American Politics (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 844. Explores, within the institutional framework, current issues of important to well-informed citizens in a democracy, including goals and tactics of American foreign policy, nuclear weapons, civil rights, the economy, executive power and its abuses, politics and the media. (Satisfies the American Institutions requirement.) (CSU/UC)

220 The American Presidency (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Comparative critical analysis of the executive branch of American government from Franklin Roosevelt's administration to the present. Scrutinizes variations in policy-making, political activity, administrative leadership, and Executive-Legislative branch relationships. (Satisfies the American Institutions requirement.) (CSU/UC)

250 Civil Liberties and Civil Rights (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey and analysis of the issues and problems considered by the U.S. Supreme Court in the area of civil liberties and civil rights. The rights of political, racial, religious, and sexual minorities and of criminal defendants; the concepts of due process and equal protection of the law; the interaction of the Supreme Court with the President, Congress, political parties, and special interest groups. (Satisfies the American Institutions requirement.) (CSU/UC)

255 Women, Politics and Power (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. The changing roles of women in the political process. Emphasizes the methodology, rationale, and effect of women's participation on several levels of political activity. (Satisfies the American Institutions requirement.) (CSU/UC)

260 Contemporary Ethnic Politics (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of the political perspectives, goals, and strategies of African-American, Asian, Hispanic and Native American minorities within the context of American politics. Analysis of traditional and alternative approaches to political ascendency, with particular emphasis on the 1960's through the 1980's. (Satisfies the American Institutions requirement.) (CSU/UC)

310 California State and Local Government (2) (Credit/No Credit or letter grade option.) Two lecture hours per week. Recommended Preparation: eligibility for ENGL 800. The institutions and problems of state and local government in California. (Satisfies the California State and Local Government requirement.) (CSU/UC)

520 The Governments and Politics of Africa (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of the emergent African states, examining the political factors impinging on their decision-making processes and their geopolitical consequences. Comparative analysis of non-Western institutional structures; differences in ideological orientation; and economic interdependence in the context of contemporary world politics. (CSU/UC)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Psychology
(Also see Sociology)

105 General Psychology (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Survey of major topics, theories, and research methods of contemporary psychology. Covers personality, social behavior, memory, motivation, emotion, perception, learning, and biological basis of behavior. (CSU/UC) (CAN PSY 2)

108 Psychology in Practice (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Prerequisite: PSYC 100 with a grade of C or higher. Recommended Preparation: PSYC 121. Philosophy and aims of scientific inquiry and its application to questions in psychology. Students conduct experiments using the methods discussed. (CSU/UC)

110 Courtship, Marriage, and the Family (3) (Credit/No Credit or letter grade option.) Three lecture hours per week.

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
Recommended Preparation: eligibility for ENGL 800. History and development of marriage as a social institution, including dating; courtship; love; mate selection; personality adjustment in marriage; children; parenthood; the family; anatomical, physiological, psychological, and sociological aspects of sex; religious factors; and divorce. (May not be taken for credit following SOCI 110.) (CSU/UC)

121 Basic Statistical Concepts (3) Three lecture hours per week. Prerequisite: MATH 120 or four semesters of high school level algebra with a C average; PSYC 100 or SOCI 100 or ANTH 110. Recommended Preparation: eligibility for ENGL 800. Introduction to the basic descriptive techniques and statistical inferences used in the behavioral sciences. (CSU/UC)*

201 Child Development (3) Three lecture hours per week. Prerequisite: PSYC 100. Recommended Preparation: eligibility for ENGL 800. Study of the physical, perceptual, cognitive, linguistic, social, and emotional development of children. Emphasizes current research and theory. (CSU/UC)

300 Social Psychology (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of human interaction, with emphasis on social patterning and process of perception, identity, roles, and attitudes. (May not be taken for credit following SOCI 300.) (CSU/UC)

330 Sports Psychology (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Analysis of psychological and sociological elements of participation in sports. Examination of mental factors that help produce optimum performance. The personal and collective meaning of sports in our society. (CSU)

410 Abnormal Psychology (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Study of abnormal behavior and personality. Covers neuroses, psychoses, and other psychological problems, along with their etiology, dynamics, principal symptoms, and treatments. Explores the relationship between theory of personality and psychotherapy. (CSU/UC)

675 Honors Colloquium in Psychology (1) One lecture hour per week. Prerequisite: limited to students in the Honors Program who have completed or are concurrently enrolled in an associated non-honors course in Psychology. Readings, discussion, and lectures covering selected advanced topics in Psychology to be determined by the Psychology Department and the Honors Program. (CSU/UC)*

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Reading

420 Speed and Effective Reading (5-5) (Credit/No Credit or letter grade option.) (Open entry/open exit.) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: READ 802 with a grade of C or higher (or appropriate skill level indicated by the Reading Placement Test and other measures). For advanced students who want to increase reading speed, study more efficiently, and improve comprehension and critical reading skills. Recommended for transfer students. (To increase competency, may be repeated for a maximum of 6 units of credit.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

The following reading courses are credit-bearing but not degree-applicable, which means that the units count for the purpose of financial aid and veterans' benefits but not toward the AA/AS degree: 800, 801, 802, 807, 808, 809, 812, 841, 842, and 843.

800 Developmental Reading (3) (Credit/No Credit or letter grade option.) Three lecture hours plus one lab hour by arrangement per week. Recommended Preparation: READ 843 with a grade of C or higher (or appropriate skill level indicated by the Reading Placement Test and other measures). A course designed to improve reading comprehension by focusing on techniques such as Main Idea, Supporting Details, Vocabulary, Study Skills, and Reading Rate. Guided practice, small group and individualized instruction will be emphasized. (To increase competency, may be repeated for a maximum of 6 units of credit.) (Units do not apply toward AA/AS degree.)

807 Basic Phonic Skills for Non-Native Speakers (3) (Credit/No Credit or letter grade option.) Three lecture hours plus one lab hour by arrangement per week. It is recommended that students enroll concurrently in ENGL 841 or higher course, READ 841 or higher course, and SPCH 841 or higher course. Introduction to the study of basic speech sounds and practice in techniques for pronouncing unknown words. Group and individual review of dictionary symbols, diacritical marks, syllabication, and fundamental phonics generalizations. (To increase competency, may be repeated for a maximum of 6 units of credit.) (Units do not apply toward AA/AS degree.)

808 Basic Phonic Skills (3) (Credit/No Credit or letter grade option.) Three lecture hours plus one lab hour by arrange-
ment per week. Introduction to basic speech sounds and practice in techniques for pronouncing unknown words. Group and individual review of dictionary symbols, diacritical marks, syllabication, and fundamental phonic generalizations. (To increase competency, may be repeated for a maximum of 6 units of credit.) (Units do not apply toward AA/AS degree.)

809 Spelling/Word Attack Strategies (.5-3) (Credit/No Credit grading.) (Open entry/open exit.) One and one-half to nine lab hours by arrangement per week. Recommended Preparation: READ 807 or 808 with a grade of C or higher (or appropriate skill level indicated by the Reading Placement Test and other measures). Individual spelling and/ or word attack skill assistance. Self-paced programs based on individual assessment results. Emphasizes computer-assisted and audio-visual instruction. Students may enroll any time during the tenth week of the semester. (To increase competency, may be repeated for a maximum of 6 units of credit.) (Units do not apply toward AA/AS degree.)

812 Individualized Reading Improvement (.5-3) (Credit/No Credit grading.) (Open entry/open exit.) One and one-half to nine lab hours by arrangement per week. Improvement of reading skills. Practice in methods of increasing speed, comprehension, and vocabulary. Emphasizes computer-assisted and audio-visual instruction. Uses self-paced programs based on individual diagnostic test results to meet specific student needs. Open to all students. Students may enroll any time during the tenth week of the semester. (To increase competency, may be repeated for a maximum of 6 units of credit.) (Units do not apply toward AA/AS degree.)

843 Reading for Non-Native Speakers III (3) (Credit/No Credit or letter grade option.) Three lecture hours plus one lab hour by arrangement per week. Recommended Preparation: READ 841 with a grade of C or higher (or appropriate skill level indicated by the Reading Placement Test and other measures). It is recommended that students enroll concurrently in ENGL 841 or higher course, SPCH 841 or higher course, and READ 807. Designed to improve vocabulary, build general background knowledge, and strengthen literal and inferential reading skills. (To increase competency, may be repeated for a maximum of 6 units of credit.) (Units do not apply toward AA/AS degree.)

840 — 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Real Estate

For licensed real estate agents, R.E. 100 and 105 may be waived as prerequisites for all real estate courses. A photocopy of license must be filed with the Office of Admissions and Records.

100 Real Estate Principles (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Property, contracts, agency, financing, recordation, liens and encumbrances, taxes, escrows, land description, and real estate math. (Meets State requirements for the salesperson's and the broker's licenses.) (CSU)

105 Real Estate Valuation (3) Three lecture hours per week. Prerequisite: completion of or concurrent enrollment in R.E. 100 recommended. Development of California real estate principles; measuring changing value of money. Estimating: costs, depreciation, taxes, maintenance, and return on investment. Accounting: rules pertaining to capital gains and losses, accelerated methods of calculating depreciation charges. (Meets the State requirements for the salesperson's and the broker's licenses; certified by the National Association of Real Estate Appraisers.) (CSU)

110 Real Estate Practice (3) Three lecture hours per week. Prerequisites: R.E. 100 and 105 or equivalent. Comprehensive presentation of real estate brokerage skills in California, emphasizing the daily activities of agents and brokers. (Meets the State requirements for the salesperson's and broker's licenses.) (CSU)

121 Legal Aspects of Real Estate I (3) Three lecture hours per week. Prerequisites: completion of or concurrent enrollment in R.E. 110 or equivalent. Legal aspects of real estate brokerage, real estate sales, property management, real estate ownership, building of an estate, and related topics, along with a study of the facts and principles of California Real Estate Law. (Meets the State requirements for the salesperson's and the broker's licenses.) (CSU)

122 Legal Aspects of Real Estate II (3) Three lecture hours per week. Prerequisite: R.E. 121 or equivalent. Contracts, security transactions, and current developments in law. Course materials include selections of California appellate court decisions. For the serious student who will devote the required time of approximately six hours of study each week. (Meets the State requirements for the broker's license.)

131 Real Estate Finance I (3) Three lecture hours per week. Prerequisites: R.E. 100 and 105 or salesperson's or broker's license; completion of or concurrent enrollment in R.E. 110. Practices, customs, and laws relating to mortgage lending and the financing of real estate, with emphasis on financing private houses. (Meets the State requirements for the salesperson's and the broker's licenses.) (CSU)

132 Real Estate Finance II (3) Three lecture hours per week. Prerequisite: R.E. 131 or equivalent. Financing of commercial, industrial, and special-purpose properties. Financing mathematics, financial analysis, construction financing, and feasibility studies, creative financing, and government participation through social action programs. (Meets the State requirements for the broker's license.)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
141 Real Estate Appraisal: Basic (3) Three lecture hours per week. Prerequisites: R.E. 100 and 105 or equivalent. Basic real estate appraisal, including the analysis of residential and commercial properties. Techniques for determination of loan, market, and insurance values. (Meets the State requirements for the salesperson’s and broker’s licenses.) (CSU)

142 Real Estate Appraisal: Intermediate (3) Three lecture hours per week. Prerequisite: R.E. 141 or equivalent. More complex aspects of appraisal process, including standards and ethics and narrative report writing. (Meets the State requirements for Appraisal Licensure.) (CSU)

143 Real Estate Appraisal: Advanced (3) Three lecture hours per week. Prerequisite: R.E. 142 or equivalent. Advanced real estate appraisal of multi-family dwellings, apartment houses, commercial, and special purpose property. (Meets the State requirements for the broker’s license.) (CSU)

145 Real Estate Appraisal: Rural (3) Three lecture hours per week. Prerequisites: R.E. 141 or equivalent. Advanced real estate appraisal of rural properties, covering row crop, orchard, and livestock properties. (Meets the State requirements for the broker’s license.) (CSU)

200 Real Estate Economics (3) Three lecture hours per week. Prerequisites: R.E. 100 and 105 or equivalent. Economic aspects of real estate designed to provide a grasp of the dynamic economic conditions and related factors underlying the real estate business. (Meets the State requirements for the salesperson’s and broker’s licenses.) (CSU)

205 Real Estate Mathematics (3) Three lecture hours per week. Review of the fundamentals of mathematics as they apply to real estate practice, with problems in amortization, appraising, broker’s trust fund accounts, interest, and capitalization techniques.

210 Real Estate Exchanges and Taxation (3) Three lecture hours per week. Prerequisites: R.E. 110, 121, 131, and 141 or equivalent. Advanced course for real estate brokers and investors with experience in residential and commercial transactions. Primary emphasis on developing and analyzing exchange transactions, practical and technical aspects of completion, the correlation of exchanges, and tax matters. (Meets the State requirements for the broker’s license.) (CSU)

215 Commercial and Investment Property (3) Three lecture hours per week. Prerequisites: R.E. 110, 121, 131, and 141 or equivalent. For licensed real estate agents and brokers, financing officials, and investors. Emphasizes the process of selecting properties for investment, including analyzing income, operating expenses, and income tax implications. (Meets the State requirements for the salesperson’s and broker’s licenses.) (CSU)

220 Real Estate Property Management (3) Three lecture hours per week. Prerequisites: R.E. 110, 121, 131, and 141 or license equivalent. Basic elements of investment property management. Covers cash flow projection and valuation, merchandising, maintenance, and evictions. Emphasizes appliance property. (Meets the State requirements for the salesperson’s and broker’s license.) (CSU)

225 Real Estate Office Administration (3) Three lecture hours per week. Prerequisites: R.E. 110, 121, 131, and 141 or equivalent. Introduction to management: research, personnel, and market management decisions; transition from sales associate to manager; personnel training, counseling, and compensation; trends in the industry and their implications for management. (Meets the State requirements for the salesperson’s and broker’s licenses.) (CSU)

230 Real Estate Internship (4) Two lecture hours and ten laboratory hours per week. Prerequisite: completion of or concurrent enrollment in R.E. 100. Supervised work experience and seminar. Practical application of classroom skills. Intended to assist the student enrolled in the Cooperative Education program. (As of Spring 1987, will be accepted by the State Department of Real Estate as a qualification for salesperson’s license and as a substitution for R.E. 110.)

235 Real Estate Sales Techniques (3) Three lecture hours per week. Prerequisites: R.E. 100 and 105 or equivalent. Specialized techniques required to promote an effective sales record. Coordinates the theoretical background required for State examinations into the area of property merchandising.

301 Escrow Procedures: Basic (3) Three lecture hours per week. Methods and techniques of escrow procedure for various types of business transactions with emphasis on real estate. (Meets the State requirements for the salesperson’s and broker’s licenses.)

303 Escrow Practices: Intermediate (3) Three lecture hours per week. Prerequisites: R.E. 301 or equivalent. Course covers unusual types of escrow and evaluating possible solutions. (Meets the State requirements for the salesperson’s and broker’s licenses.)

305 Escrow Problems: Advanced (3) Three lecture hours per week. Prerequisite: R.E. 303 or equivalent. Further study of unusual and difficult types of escrows. Presents case problems, conflicts and disputes in escrow for discussion. (Meets the State requirements for the salesperson’s and broker’s licenses.)

311 Title Examination Procedures I (3) Three lecture hours per week. Prerequisite: R.E. 100. Preliminary study of documents comprising a chain of title and evaluation of the validity of chain of title documents. Field trips required.

313 Title Examination Procedures II (3) Three lecture hours per week. Prerequisite: R.E. 311. Designed to supplement R.E. 311. Practical and advanced comprehensive study of title examining problems. Field trips required.

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Secretarial Science
(See Business)

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
Sign Language

821 Elementary American Sign Language (3) Three lecture hours per week. Basic course in American sign language taught as a second language using dialogue drills, commands, and creative ideas.

822 Intermediate American Sign Language (3) Three lecture hours per week. Prerequisite: SIGN 821 or equivalent with a grade of C or higher. Encoding, decoding, interaction, and acquisition techniques for skilled hearing signers and deaf people.

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Social Science

111 Critical Thinking (3) Three lecture hours per week. Prerequisite: ENGL 100. Designed to develop critical thinking and critical writing skills. Presents techniques for analyzing arguments used in political rhetoric, advertising, editorials, scientific claims, and social commentary. Develops the ability to create and refine written arguments, with particular emphasis on advanced composition techniques. Includes inductive and deductive arguments, the validity and consistency of arguments, the relationship between evidence and conclusions, the use of arguments in science, persuasive writing strategies, the concerns of style and audience, and impediments to good writing. (CSU/UC)

220 British Life and Culture (3) (Credit/No Credit or letter grade option.) One and one-half lecture hours and five lab hours per week. Introduction to British society and civilization through lectures and field trips offered by the London Semester program of the SMCCCD. Takes a social, historical, and cultural approach to the study of contemporary British society. Required for all students in the London Semester. (CSU/UC)

221 French Life and Culture (3) (Credit/No Credit or letter grade option.) One and one-half lecture hours and five lab hours per week. Introduction to French society and civilization by various lecturers in the Paris Semester program of the SMCCCD. Combines lectures with visits to and briefings at several cultural and political centers. Required for all students in the Paris Semester. (CSU/UC)

1680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

169 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

Sociology

100 Introduction to Sociology (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Group behavior and interaction of the individual and society; personality development in different cultures as shaped by customs, attitudes and values. Study of family, politico-economic, educational, and religious institutions; social movements; population; mass society and communications; community structure; social class and status; ethnic and racial minorities; work and leisure. (CSU/UC) (CAN SOC 2)

105 Social Problems (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Theories of social problems involving sociological and psychological approaches. Theoretical and descriptive studies of crime, delinquency, mental illness, drug use, suicide, and the other social problems of mass society. (CSU/UC) (CAN SOC 4)

110 Courtship, Marriage and the Family (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. History and development of marriage as a social institution, including courtship; love; mate selection; personality adjustment in marriage; children; parenthood; the family; anatomical, psychological, and sociological aspects of sex; class and religious factors; divorce; and remarriage. (May not be taken for credit following PSYC 110.) (CSU/UC)

141 Race and Ethnic Relations (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Sociological analysis of ethnic relations in the United States, concentrating on the roles, status, and efficacy of major ethnic groups. Brief socio-historical sketch of their backgrounds, ethnic group contacts, competition, conflict, acculturation, assimilation, and discrimination. (CSU/UC*)

200 Urban Sociology (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Cities, suburbs, and metropolitan areas; ecology and growth; social class and racial trends; education; crime; local government and politics; planning and experimental solutions; county history; and social patterns. (Satisfies the California State and Local Government requirement.) (CSU/UC)

340 Human Sexuality (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. A look at human sexuality from a psychological, physiological, and cultural point of view. Survey of sexual research; emphasizes the needs for affiliation, commitment, and intimacy. (May not be taken for credit following PSYC 340.) (CSU/UC)

391 Parent-Child Relations (3) (Telecourse.) (Credit/No Credit or letter grade option.) Recommended Preparation: eligibility for ENGL 800. Analysis of problems faced by new and prospective parents. Study of parent-child interaction and perception of attitudes, roles, and identity. Explores alternative solutions and coping strategies to assist parents in the process of guiding their children’s growth and development. Partial focus on Black and Latino families. (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

(UC) Transferable to University of California, (*) With limitations
Spanish

Language Laboratory and Listening Requirement: since imitation, response, and independent practice are integral features of the study of a foreign language at the College, students enrolled in certain courses in foreign language are required to use the language laboratory as prescribed by each department.

110 Elementary Spanish (5) Five lecture hours plus two lab hours by arrangement per week. Recommended Preparation: eligibility for ENGL 811 or a higher English course. Spanish structures and active vocabulary based on oral and written pattern drills. Conversation based on short readings containing only the structures already practiced. (CSU/UC)

111 Elementary Spanish I (3) Three lecture hours plus one lab hour by arrangement per week. Recommended Preparation: eligibility for ENGL 811 or a higher English course. Covers approximately the first half of the semester’s work in Spanish 110. (CSU/UC*)

112 Elementary Spanish II (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: SPAN 111 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Covers the second half of the semester’s work in Spanish 110. (CSU/UC and SPAN 111 and 112 are equivalent to Spanish 110.) (CSU/UC*)

120 Advanced Elementary Spanish (5) Five lecture hours plus two lab hours by arrangement per week. Prerequisite: SPAN 110 or 112 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Continuation of Spanish 110. Includes short readings that serve as a basis for classroom conversation. (CSU/UC)

121 Advanced Elementary Spanish I (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: SPAN 110 or 112 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Covers approximately the first half of the semester’s work in Spanish 120. (CSU/UC*)

122 Advanced Elementary Spanish II (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: SPAN 121 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Covers approximately the second half of the semester’s work in Spanish 120. (CSU/UC*)

130 Intermediate Spanish (5) Five lecture hours plus one lab hour by arrangement per week. Prerequisite: SPAN 120 or 122 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Practice of conversation and composition; review of grammar; in-class and collateral reading of Spanish and Spanish-American literature. (CSU/UC)

131 Intermediate Spanish I (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: SPAN 120 or 122 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Covers approximately the first half of the semester’s work in Spanish 130. (CSU/UC*)

132 Intermediate Spanish II (3) Three lecture hours plus one lab hour by arrangement per week. Prerequisite: SPAN 131 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Covers approximately the second half of the semester’s work in Spanish 130. (CSU/UC and SPAN 131 and 132 are equivalent to Spanish 130.) (CSU/UC*)

140 Advanced Intermediate Spanish (3) Three lecture hours per week. Prerequisite: SPAN 130 or 132 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Further practice in conversation and composition based on in-class reading of modern Spanish and Latin American authors; review of grammar; collateral reading of Spanish and Spanish-American literature. (CSU/UC)

161 Reading in Spanish Literature I (3) Three lecture hours per week. Prerequisite: SPAN 140 with a grade of C or higher (or appropriate skill level indicated by Spanish Placement Test and other measures). Oral and written composition; in-class reading and discussion of Spanish, Spanish-American, and Hispanic literature; extensive collateral reading of Spanish and Spanish-American literature; and review of grammar. (CSU/UC)

162 Reading in Spanish Literature II (3) Three lecture hours per week. Prerequisite: SPAN 161. Further oral and written composition; in-class reading of Spanish and Spanish-American literature; extensive collateral reading of Spanish and Spanish-American literature; and review of grammar. (CSU/UC)

201 Spanish Conversation I (2) Two lecture hours plus one lab hour by arrangement per week. Prerequisite: concurrent enrollment in or completion of SPAN 130 or higher course with a grade of C or higher. Extensive practice in conversational Spanish based on Spanish customs and culture; systematic topical vocabulary increments; advanced phonetic mimicry. (CSU/UC)

202 Spanish Conversation II (2) Two lecture hours plus one lab hour by arrangement per week. Prerequisite: SPAN 201 with a grade of C or higher. Continued practice in conversational Spanish based on Spanish customs and culture; systematic topical vocabulary increments; advanced phonetic mimicry. (CSU/UC)

251 Hispanoamericana Contemporanea (3) Three lecture hours per week. Prerequisites: SPAN 140 with a grade of C or higher or Spanish-speaking background. Study of problems and concerns of Latin American culture, as revealed in contemporary literature (essay, short story, drama and novel). Conducted in Spanish. (CSU/UC)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

801 Conversational Spanish I, Elementary (2) (Credit/No Credit grading.) Three lecture hours per week. Intensive drill in the patterns and idioms of daily speech, supported by sufficient grammar to give flexibility in the spoken language. May be considered an excellent preparatory course for students who have not taken a foreign language before. (This course will not fulfill the language requirements at California State Universities or at the University of California.)

802 Conversational Spanish II, Advanced Elementary (2) (Credit/No Credit grading.) Three lecture hours per week. Prerequisite: SPAN 801 or equivalent with credit. Further work in conversa-
tion following the model of Spanish 801. (This course will not fulfill the language requirements at California State Universities or at the University of California.)

803 Conversational Spanish III, Intermediate (2) (Credit/No Credit grading.) Three lecture hours per week. Prerequisite: SPAN 802 or equivalent with credit. More advanced work in conversation following the model of Spanish 802. (This course will not fulfill the language requirements at California State Universities or at the University of California.)

804 Conversational Spanish IV, Advanced Intermediate (2) (Credit/No Credit grading.) Three lecture hours per week. Prerequisite: SPAN 803 or equivalent with credit. Further advanced work in conversation following the model of Spanish 803. (To increase competency, may be repeated for a maximum of 8 units of credit, after which students may petition to audit. See Index: "Audit Policy." ) (This course will not fulfill the language requirements at California State Universities or at the University of California.)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Speech

The Speech program includes courses in public speaking, interpersonal communication, communicating across cultures, voice and articulation, and oral interpretation of literature. The English requirement may be partially satisfied by 3 units of Speech 100 or Speech 120. The following Speech courses are credit-bearing but not degree-applicable, which means that the units count for the purposes of financial aid and veterans' benefits but not toward the AA/AS degree: 841, 842, 843.

100 Fundamentals of Speech and Persuasion (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 100. Practice in delivering extemporaneous speeches; study of basic principles of effective communication; techniques of organizing and outlining; structure and content of basic speech types; development of critical listening; analysis and evaluation of speeches. (CSU/UC) (CAN SPCH 4)

111 Oral Interpretation I (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 100. Oral reading of different forms of literature (poetry, short story, drama); analysis of meaning; analysis of voice quality; enunciation, pronunciation and expressiveness; recordings and performances for audiences. (CSU/UC)

112 Oral Interpretation II (3) Three lecture hours per week. Prerequisite: SPCH 111 with a grade of C or higher. Continuation of oral reading of different forms of literature (poetry, short story, drama); analysis of meaning; analysis of voice quality; enunciation, pronunciation, and expressiveness; recordings and performances for audiences. (CSU/UC)

120 Interpersonal Communication (3) Three lecture hours per week. Recommended Preparation: eligibility for ENGL 800. Interpersonal communication, rational dialogue, and cooperative analysis of communicative events. Study of communicative interactions, the symbolic process, reasoning and advocacy, and the effects of communication on man and society. (CSU/UC*)

130 Voice and Articulation (3) Three lecture hours per week. Recommended Preparation: completion of or concurrent enrollment in an English course no lower than ENGL 800 or ENGL 400. Exploration of various modes of communicating intellectual and emotional content of messages through a meaningful use of the voice. Lessons in vocal variety, expressiveness, resonance, articulation, and pronunciation. (CSU)

150 Communicating Across Cultures (3) Three lecture hours per week. Recommended Preparation: SPCH 844 or demonstrated equivalent oral communication skills and (for students whose native language is other than English) concurrent enrollment in or completion of an English course no lower than ENGL 400 or (for students whose native language is English) eligibility for ENGL 800. Designed for students of all cultural backgrounds. Study of basic theory and skills of round table discussion, panel discussion, and public speaking in an intercultural context, with a focus on the nature of communication in American society. Emphasizes the sensitivity and empathy required for communicating with those from other cultures. (CSU/UC*)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

841 Conversation for Non-Native Speakers I (1-3) (Credit/No Credit or letter grade option.) (Open entry/Open exit.) Three lecture hours plus one lab hour by arrangement per week. It is recommended that students enroll concurrently in ENGL 841 or higher course, READ 841 or higher course, and READ 807. Introduction, comprehension, and practice of listening and speaking skills: listening skills in discrimination, recognition, and understanding of consonants, intonation, and questions statements-requests respectively; speaking skills in the appropriate language for specific functions, in consonant and vowel production in all positions, and in the imitation of stress and intonation patterns of native English speakers. (To increase competency, may be repeated for a maximum of 6 units of credit.) (Units do not apply toward AA/AS degree.)

842 Conversation for Non-Native Speakers II (1-3) (Credit/No Credit or letter grade option.) (Open entry/Open exit.) Three lecture hours plus one lab hour by arrangement per week. Recommended Preparation: three units of SPCH 841 with a grade of C or higher (or skill level indicated by placement tests and other measures). It is recommended that students enroll concurrently in ENGL 841 or higher course, READ 841 or higher course, and READ 807. Continued introduction, comprehension, and practice in listening and speaking skills: listening skills in discrimination of vowels, in recognition of English sentence rhythm, in extraction of information of articulated speech, and identification of a variety of intonation patterns; speaking skills in appropriate language for specific functions, in practicing vowel contrasts and consonant clusters, in articulation of grammatical suffixes, and in correct usage of stress and intonation patterns. (To increase competency, may be repeated for a maximum of 6 units of credit.) (Units do not apply toward AA/AS degree.)

843 Speech for Non-Native Speakers I (3) (Credit/No Credit or letter grade option.) Three lecture hours per week. Recommended Preparation: three units of SPCH 842 with a grade of C or higher (or skill level indicated by placement tests and other measures). It is recommended that students enroll concurrently in ENGL 843

(CSU) Transferable to California State Universities, (UC) Transferable to University of California, (*) With limitations
Technical Art and Graphics

165 PageMaker on the Macintosh I (1)
(Credit/No Credit or letter grade option.)
Total of twelve lecture and twelve lab hours.
Prerequisite: CIS 160 with a grade of C or higher or familiarity with the Macintosh computer. Use of PageMaker software for design and printing of documents. Introduction to typography. (CSU)

166 PageMaker on the Macintosh II (1)
(Credit/No Credit or letter grade option.)
Total of twelve lecture and twelve lab hours.
Prerequisite: TA&G 165 with a grade of C or higher or experience with desktop publishing on the Macintosh in the field. Continuation of TA&G 165. Advanced desktop publishing: design principles. (CSU)

167 Aldus Freehand (1)
(Credit/No Credit or letter grade option.) Total of twelve lecture and twelve lab hours. Prerequisite: CIS 160 with a grade of C or higher or familiarity with the Macintosh computer, Use and application of basic features of Aldus Freehand drawing software. (CSU)

175 Presentation Graphics on the Macintosh I (1)
(Credit/No Credit or letter grade option.) Total of twelve lecture and twenty lab hours. Prerequisite: CIS 160 with a grade of C or higher or familiarity with Macintosh computer. Introduction to presentation graphics, including the use of typical hardware and software to produce slides and other visual materials. (CSU)

202 Technical Illustration II (6)
Three lecture and nine lab hours per week. Study of systems of pictorial illustrations created from technical orthographic sources. Students develop a set of original illustrations using varied rendering methods to compile a presentation portfolio. Extra supplies required. (CSU)

210 Typography (4)
Two lecture and six lab hours per week. Anatomy of type, typographic measurement, specifying type, and copyfitting. Designing with type: choosing the correct voice; creating emphasis and interest; visual hierarchy; developing and using grids. Theory applied to practical typographic problems, working from concept through presentation. Emphasizes the creative problem-solving process. Extra supplies required. (CSU)

220 Graphic Design (4)
Two lecture and six lab hours per week. Recommended Preparation: TA&G 210. Principles of design, typography, and symbolism. Stylized abstracted drawing, trademark, logo, and identity development. Evolution of a design; the graphic problem-solving process from concept through presentation. Comping techniques. Extra supplies required. (CSU)

230 Production Art on the Macintosh (2)
One lecture and three lab hours per week. Prerequisite: TA&G 210. Instruction in drawing and desktop publishing software; their application to practical design problems in both the concept and production stages. (CSU)

300 Basic Reproduction Processes (2)
One lecture hour and three lab hours per week. Prerequisite: basic drafting skills. Introductory survey of processes of graphic reproduction, ranging from office convenience duplicating to engineering reprographics, and pre-press skills for commercial technical publications. Lab experience with basic photo offset lithography. Extra supplies required. (CSU)

310 Visualization Techniques in Industrial Design (4)
Two lecture and six lab hours per week. Prerequisite: TA&G 202 or DRAF 202. Survey of the industrial design profession, including its history and the role of the corporate designer. Introduction to design sequence. Methods of concept marker renderings used in the development of product design. Studio experience in making rapid concept sketches and developing them into finished presentation drawings. Extra supplies required. (CSU)
353 Offset Production Techniques (4)
Two lecture and six lab hours per week. Prerequisite: TA&G 210. Image assembly and printing on the offset press. Stats, line and halftone negs, contracting, impositions, paper, ink, and press operation. Extra supplies required. (CSU)

400 Advanced Projects (1) Three lab hours per week. Prerequisite: completion of three semesters of TA&G curriculum. Students initiate, develop, and complete substantial individual projects in consultation with and under the direction of the instructor. Emphasizes development of a marketable portfolio. (CSU)

641 Cooperative Education (1-4) (See first page of Description of Courses section.) (CSU)

680 – 689 Selected Topics (1-3) (See first page of Description of Courses section.) (CSU)

690 Special Projects (1-2) (See first page of Description of Courses section.) (CSU)

880 – 889 Selected Topics (1-3) (See first page of Description of Courses section.)

Welding Technology

(Also see Machine Tool Technology and Manufacturing and Industrial Technology)

Extra supplies may be required in all Welding Technology courses.

110 Elementary Welding Theory I (4)
Four lecture hours per week. Prerequisite: concurrent enrollment in WELD 111. Recommended Preparation: keyboarding or word processing. Introduction to gas welding of ferrous and non-ferrous metals, brazing and soldering. Instruction on the theory of flamecutting; introduction to metallurgy and blueprint reading for welding. (CSU)

111 Elementary Welding Practice I (3)
Nine lab hours per week. Prerequisite: concurrent enrollment in WELD 110. Practical experience in gas and conventional arc welding of ferrous metals, brazing, and soldering. (CSU)

120 Elementary Welding Theory II (4)
Four lecture hours per week. Prerequisites: WELD 110/111. Prerequisite: concurrent enrollment in WELD 121. Introduction to conventional arc welding of steel and TIG (GTAW) welding of alumi-
num. Study of metallurgy and blueprint reading for welders. (CSU)

121 Elementary Welding Practice II (3)
Nine lab hours per week. Prerequisite: concurrent enrollment in WELD 120. Advanced experience in conventional arc welding of steel in flat, vertical, and overhead positions. Introduction to manual TIG (GTAW) welding of aluminum. Inspection of welded assemblies. (CSU)

210 Advanced Welding Theory I (4)
Four lecture hours per week. Prerequisites: WELD 120/121; DRAF 120; MANU 200; MANU 100 or PHYS 100, all with a grade of C or higher. Corequisite: concurrent enrollment in WELD 211. TIG (GTAW) and MIG (GMAW) welding of carbon steel, alloy steel, and stainless steel. Advanced problems in all phases of welding. Study in the theory of metallurgy and heat treating as applied to welding technology. (CSU)

211 Advanced Welding Practice I (5)
Fifteen lab hours per week plus one lab hour by arrangement per week. Corequisite: concurrent enrollment in WELD 210. Practical experience in TIG (GTAW), MIG (GMAW), and low-hydrogen arc welding with emphasis on steel, stainless steel, and aluminum. (CSU)

220 Advanced Welding Theory II (4)
Four lecture hours per week. Prerequisite: WELD 210/211. Corequisite: concurrent enrollment in WELD 221. Theory of MIG (GMAW), pulsed MIG (GMAW), and TIG (GTAW) welding, electron-beam welding, sub-arc welding, electro-slag/gas welding, and pipe welding. Study of the A.W.S. Structural Code D1.1 and A.S.M.E. Boiler Code and Pressure Vessel Code Section IX. Study of the fundamentals of robotics, hazardous materials in welding, and welding symbols as they apply to blueprints, welding inspection, laser welding and inverter technology. (CSU)

221 Advanced Welding Practice II (5)
Fifteen lab hours per week plus one lab hour by arrangement per week. Corequisite: concurrent enrollment in WELD 220. Practical experience in the welding of exotic metals, flame spraying, and pulsed TIG (GTAW), pipe, and MIG (GMAW) welding. Practical experience in job estimation, production welding techniques, and maintenance welding techniques. Instruction in manipulative skills required in metal fabrication processes:

Faculty

(Date of original appointment follows name.)

Acena, Albert A. (1966)
Dean, Social Science Division
B.A., Seattle University
M.A., Ph.D., University of Washington

Aguirre, Sylvia (1989)
Counselor
A.A., College of San Mateo
B.A., M.S., Hayward State University

Allan, John C. (1989)
Associate Professor, French
B.A., M.A., University of Michigan
Ph.D., Stanford University

Ambrose, Rick (1985)
Associate Professor, Business Administration
B.A., Western Kentucky University
M.B.A., Golden Gate University

Associate Professor, Nursing
B.S., M.N., Montana State University
Ed.D., Brigham Young University

Anderson, Robert D. (1959)
Professor, Physics
A.B., University of California, Berkeley
M.S., Purdue University

Angier, Jeanne (1965)
Professor, English
B.A., M.A., Washington University, St. Louis

Arnold, Marlene C. (1965)
Professor, Nursing
B.S., College of St. Scholastica
M.S., University of California, San Francisco

Atkins, Gregg T. (1975)
Coordinator, Library, Media, and Tutorial Services
A.A., College of San Mateo
B.A., M.L.S., University of California, Berkeley

Avakian, John S. (1980)
Professor, Electronics
B.A., M.A., California State University, Los Angeles

Banghart, Brad (1986)
Associate Professor, Aeronautics
A.A., Santa Rosa Junior College
A.A., Shasta Community College
B.A., California State University, Chico

Beliz, Tania (1990)
Assistant Professor, Biology
B.S., University of Panama
Ph.D., University of California, Berkeley

Bell, James K. (1963)
Professor, English
B.A., University of California, Santa Barbara
M.A., University of California, Berkeley

Bennett, Robert (1967)
Counselor
B.S., Montana State
M.A., Eastern Montana State
Ed.D., University of California Berkeley

Berry, Fredrick J. (1968)
Professor, Music
B.M., M.M., Southern Illinois University

Biltoo, Louis S. (1983)
Associate Professor, Electronics

Black, Janet (1988)
Associate Professor, Art
B.B., M.S. Miami University
M.A., Ohio State University
Ph.D., Boston University

Braklett, George E. (1969)
Dean, Technology Division
B.A., California State University, Fresno
M.A., San Jose State University

Brannock, Patricia A. (1983)
Professor, Business
B.A., M.A., San Francisco State University

Brixen, Roy E. (1980)
Professor, Electronics
B.A., M.A., San Jose State University

Brown, Kathryn (1977)
Counselor
A.A., College of San Mateo
B.A., San Francisco State University
M.S., San Diego State University

Brusin, Michael J. (1964)
Professor, History, Economics
B.A., M.A., San Jose State University

Bucher, Michael C. (1969)
Dean, Instructional Resources
B.A., M.A., University of California, Los Angeles

Burdash, Elizabeth A. (1965)
Professor, Psychology
B.A., Boston University
M.S., M.I.T.

Burke, Michael C. (1976)
Professor, Mathematics
B.A., University of California, Santa Barbara
M.A., Sanford University
M.A., University of Oregon

Cameron, D. Bruce (1968)
Professor, English
A.A., Santa Rosa Junior College
B.A., Hunter College
M.A., Columbia University

Camps, Albert (1967)
Professor, Electronics
A.A., City College of San Francisco

Candamir, Blanca M. (1988)
Associate Professor, Spanish
B.A., San Francisco State University
M.A., University of California, Berkeley

Professor, Spanish
B.A., University of California, Berkeley
M.A., Middlebury College, Vermont

Cavel, Arnett B. (1970)
Dean, Special Programs and Services
B.A., M.A., San Francisco State University

Chau, Gladys (1973)
Librarian
A.A., City College of San Francisco
B.A., California State University, Sacramento
M.L.S., University of California, Berkeley

Chowenhall, Dean F. (1967)
Professor, Drafting, Counselor
A.A., Los Angeles Harbor College
B.A., M.A., San Jose State University

Chrisk, Michael (1966)
Professor, Astronomy, Humanities, Honors Program Coordinator
B.S., M.S., University of Arizona

Chroman, Peter (1969)
Professor, Sociology, Anthropology
A.B., University of Illinois
M.A., San Francisco State University

Church, Gary (1991)
Assistant Professor, Mathematics
B.A., M.S., San Jose State University

Claire, Michael E. (1988)
Assistant Professor, Business
B.S., M.B.A., California State University, Hayward
Clarke, Rosalee (1980)
Professor, Mathematics
A.B., Stanford University
M.S., San Jose State University

Clay, Michael E. (1983)
Professor, Chemistry
B.A., University of West Virginia
Ph.D., Arizona State University

Comerford, Sandra Stefani (1990)
Assistant Professor, English
B.A., Lone Mountain College
M.A., San Francisco State University

Cons, Jean M. (1976)
Professor, Anatomy, Physiology
B.A., San Francisco State University
M.A., Ph.D., University of California, San Francisco

Cooke, Stuart T. (1964)
Professor, History, Humanities
A.B., Lafayette College
M.A., University of Pennsylvania
Ph.D., University of Denver

Cooney, Steven D. (1988)
Assistant Professor, Aeronautics
A.A., Shasta College
B.A., San Francisco State University

Crandall, William (1991)
Assistant Professor, Business
A.B., A.M., Stanford University

Crawford, Douglas B. (1960)
Professor, Mathematics, Counselor
A.B., A.M., Stanford University

Crawford, Zelte (1969)
Professor, Ethnic Studies, Humanities, Sociology
B.S., M.A., Western Michigan University
Ph.D., Stanford University

Cullen, James A. (1985)
Associate Professor, Manufacturing and Industrial Technology

Cutler, Merle (1981)
Professor, English
B.A., M.A., San Francisco State University

Danielson, David (1990)
Assistant Professor, Philosophy
B.A., San Jose State University
M.A., The Claremont Graduate School

Datson, Brad (1983)
Coordinator, Apprenticeship Related and Supplemental Instruction
B.A., Sonoma State University

Davis, Gregory (1966)
Professor, Political Science, Humanities
A.B., A.M., Stanford University

Davis, W. Lloyd (1981)
Professor, Mathematics
B.A., Harvard University
M.S., Stanford University

De Freitas, Louis (1966)
Professor, Welding
B.V.E., M.A., San Francisco State University

De Gregorio, Michael L. (1957)
Professor, Chemistry, Physics; Counselor
A.B., A.M., San Francisco State University

Denney, Clifford O. (1975)
Professor, Chemistry
B.S., Portland State University
M.Ed., M.S., Ph.D., Oregon State University

Dickey, William J. (1966)
Professor, Physical Education/Athletics
B.S., Utah State
M.A., St. Mary's College

Dilley, Gary (1988)
Dean, Physical Education/Athletics
B.A., University of California, Santa Barbara
M.P.A., College of Notre Dame

Professor, Electronics
B.S., California Polytechnic State University, San Luis Obispo
M.S., Oregon State University

Donner, Richard C. (1963)
Professor, Physical Education
B.A., M.A., San Jose State

Dorsett, Darrel (1984)
Associate Professor, Business
B.S., Illinois State University
M.B.A., College of Notre Dame

Associate Professor, Computer and Information Science
B.A., San Jose State University
M.B.A., San Francisco State University

DuRant, Patricia (1981)
Professor, Engineering
B.S., Georgia Institute of Technology
M.S., Arizona State University

Estes, Susan J. (1988)
Associate Professor, Speech
A.B., Monmouth College
M.A., Ph.D., University of Missouri

Fark, Roland H. (1969)
Professor, Ecology, Forestry, Natural History, Wildlife
B.A., B.S., M.A., Bowling Green State University

Faure, Emile L. (1970)
Professor, Mathematics
B.A., San Diego State University
M.A., Claremont Graduate School

Fiedler, John C. (1975)
Professor, English, Counselor
A.B., Kansas State Teachers College
M.A., University of Missouri
Ph.D., University of California, Berkeley

Fiori, Carolyn (1991)
Adaptive Computer Technology Specialist
B.A., Sacramento State University
M.A., San Francisco State University

Fisher, Anita (1969)
Professor, Psychology
B.A., University of Southern California
Ph.D., Stanford University

Fitzgerald, Maurice J. (1964)
Professor, English
B.S., University of San Francisco
A.M., Stanford University
Ed.D., University of Southern California

Frassetti, Gerald J. (1967)
Professor, English, International Student Advisor
B.A., St. Mary's College
M.A., San Francisco State University

Freeman, Ann (1985)
Professor, English
B.A., Smith College
M.A., University of Wisconsin
Ph.D., University of California, Berkeley

Freydol, Margaret (1990)
Assistant Professor, Aeronautics

Garcia, Modesta (1987)
Associate Professor, Career and Life Planning, Counselor
B.A., Santa Clara University
Ed. M., Harvard University

Professor, English
A.B., University of Illinois
M.A., University of Kentucky
M.A., San Francisco State University

Gniere, Ann (1981)
Professor, Cosmetology
Glen, William (1957)
Professor, Geology, Paleontology, Counselor
B.S., Brooklyn College
M.A., University of California, Berkeley
Ph.D., Union Graduate School

Gomes, Lyle (1984)
Associate Professor, Art, Photography
B.A., M.A., San Francisco State University

Associate Professor, English
B.A., California State University, Long Beach
B.A., California State University, Dominguez Hills
M.A., Middlebury College
M.A., University of Chicago
M.Ed., University of Massachusetts

Griffin, Patricia (1990)
Vice President, Student Services
B.A., Ph.D., University of Michigan
M.S., Syracuse University

Gustavson, Charles F. (1966)
Professor, Music
A.B., M.A., San Francisco State University

Halulani, Jennie (1963)
Health Services
R.N., St. Francis Hospital School of Nursing
B.S.N.Ed., St. Mary's College
M.S., University of California, San Francisco

Hancock, John C. (1965)
Professor, Music
A.B., San Francisco State University
M.A., San Jose State University

Harrison, Kenneth W. (1969)
Professor, Music
B.M., University of Southern California
M.A., San Francisco State College

Associate Professor, Mathematics
B.A., University of California, Berkeley
M.S., Stanford University

Henderson, Ben (1991)
Assistant Professor, Aeronautics
B.A., California State University, Hayward

Heyck, Robin R. (1965)
Professor, English
A.B., A.M., Stanford University

Associate Professor, Adaptive Physical Education
B.S., M.A., San Jose State University

Hom, Melvin (1991)
Assistant Professor, Mathematics
B.A., B.S., M.A., San Francisco State University

Innis, James E. (1967)
Professor, Health Science
A.B., M.A., University of Northern Colorado

Isaeff, Tatiana (1991)
Assistant Professor, Nursing
B.S., M.S., University of California, San Francisco
Ed.D., University of San Francisco

Janatpour, Mohsen (1983)
Professor, Mathematics, Physics
B.A., M.S., San Jose State University

Janssen, William A. (1965)
Professor, Business
A.B., M.A., San Jose State University

Jeffers, Mary Lloyd (1963)
Professor, Political Science
A.B., M.A., Tennessee State University

Johnson, Joseph R. (1979)
Associate Professor, Welding
A.S., College of San Mateo

Joslin, Rex J. (1964)
Professor, Biology
B.S., Wisconsin State College
M.S., University of Illinois

Karl, John E., Jr. (1962)
Professor, Anatomy, Physiology
B.A., Allegheny College
M.S., University of Kentucky
Ph.D., Louisiana State University

Keller, Robert M. (1958)
Professor, Chemistry
A.B., M.A., San Jose State University

Kennedy, Kenneth D. (1967)
Professor, Political Science
A.A., College of San Mateo
B.A., M.A., San Francisco State University

Kennedy, Vance A. (1976)
Professor, Business
A.A., San Jose City College
B.S., M.B.A., San Jose State University

Keys, Noel W. (1966)
Psychological Services
B.S., Denison University
M.A., Duke University
Ph.D., University of North Carolina

Kimball, Michael B. (1968)
Professor, English
B.A., Stanford University
M.A., San Francisco State University

Kirk, John R. (1970)
Professor, Economics
B.A., University of California, Berkeley
M.A., San Jose State University

Professor, Electronics
B.A., San Jose State University
M.A., San Francisco State University
Ed.D., Oregon State University

Komas, Robert (1991)
Assistant Professor, Mathematics
B.A., University of California, San Diego
M.A., San Jose State University

Kowerski, Robert C. (1980)
Professor, Chemistry
B.S., Illinois Institute of Technology
Ph.D., Stanford University

Kroencke, Mikael (1987)
Assistant Professor, Engineering
B.S., M.S., University of California, Davis

Layman, N. Katie (1986)
Professor, Business
B.S., James Madison University
M.A., San Jose State University

Leddy, Matthew (1991)
Assistant Professor, Horticulture
A.A., Skyline College
B.A., University of California, Santa Cruz
M.A., San Francisco State University

Assistant Professor, Mathematics
B.S., University of Illinois
M.S., Claremont Graduate School

Leroy, Frank B. (1968)
Professor, Economics
B.A., University of California, Los Angeles
M.A., San Jose State University

MacDonald, Lorne (1968)
Professor, Electronics
B.S., Pacific State University
Mahood, Marcia (1960)
Coordinator, Counseling Services
B.A., M.A., Michigan State University
M.S., California State University, Hayward

Professor, Broadcasting Arts, Counselor
A.A., College of San Mateo
B.A., California State University, Chico
M.A., Macquarie University, Sydney, Australia

Marks, Jacqueline (1979)
Professor, Business, Counselor
A.A., Pensacola Junior College
B.A., Pacific College
M.B.A., Golden Gate University

Markus, Jack (1988)
Associate Professor, Aeronautics
A.A. College of San Mateo
B.V.E. San Francisco State

Marron, Jamie (1991)
Assistant Professor, Reading
B.A., M.A., University of Illinois
M.A., University of California, Berkeley
M.F.A., Mills College
Ed.D., University of Southern California

Marshall, R. Galen (1964)
Professor, Music
A.B., M.A., San Francisco State University

Martinez, Thomas A. (1976)
Professor, Physical Education, Athletics
B.A., San Francisco State University
M.A., Azusa Pacific College, California

Maule, Bruce (1990)
Associate Professor, Business
B.S.C., Santa Clara University
M.B.A., San Jose State University

McAteer, Jane (1987)
Associate Professor, Nursing
B.S.N., Georgetown University
M.N., University of California, Los Angeles

Associate Professor, English
B.A., M.A., San Francisco State University

McCracken, Ruth (1980)
Coordinator, Nursing Department
B.S.N., Michigan State University
M.S.N.Ed., Wayne State University

McCue, Mary J. (1955)
Professor, English
B.A., Marygrove College
M.A., University of Michigan

McDonough, Joseph M. (1966)
Professor, Psychology
A.B., Princeton University
M.S., University of Miami
Ph.D., Michigan State University

Mellor, Sandra L. (1974)
Dean, Industry Relations
B.A., M.A., San Jose State University

Miller, Allan (1990)
Associate Professor, Computer and Information Science
B.A., University of California, Berkeley
M.A., Mills College
Ph.D., University of California, Riverside

Monroe, Howard C. (1961)
Professor, Botany, Marine Biology
B.S., University of Toledo
M.A., University of California, Los Angeles

Morehouse, Steven N. (1977)
Dean, Counseling/Advising and Matriculation
A.A., College of San Mateo
B.A., San Francisco State University
M.S., California State University, Hayward

Morley, Judy (1987)
Associate Professor, Art
B.A., University of California, Berkeley
M.F.A., San Jose State University

Motoyama, Kate (1991)
Assistant Professor, Speech
B.A., University of Hawaii
M.A., Ph.D., University of Washington

Mullen, John F. (1966)
Dean, Admissions & Records
B.S., Stanford University
M.A., University of California, Riverside

Multhaup, Ernest L. (1964)
Professor, Engineering, Counselor
B.S., M.S., University of North Dakota

Multhaup, Jean B. (1973)
Professor, Dental Assisting
A.A., College of San Mateo
B.V.E., San Jose State University

Professor, German
A.B., A.M., Stanford University
M.A., San Francisco State University

Nakata, Rory (1990)
Associate Professor, Art
B.A., San Francisco State University
M.A., Sacramento State University

Professor, Electronics

Norman, Colette J. (1974)
Librarian
B.A., Southern University, Baton Rouge
M.A., San Jose State University

O’Mahony, Rosalie M. (1965)
Professor, Mathematics
B.S., Loyola University
M.S., University of Notre Dame
Ph.D., University of Southern California

Orcutt, April (1989)
Associate Professor, Broadcasting Arts
B.A., University of California, Irvine
M.A., California State University, Fullerton

Orozco, Adrian (1969)
Coordinator, EOPS/Multicultural Center
S.T.B., St. Alexis College, Rome, Italy
M.Ed., Loyola University, Chicago

Owen, William H. (1963)
Professor, Manufacturing and Industrial Technology
A.B., M.A., San Francisco State University

Owens, Larry (1990)
Head Football Coach
B.S., California State University, Fullerton
M.A., St. Mary's College

Owens, Peter H. (1971)
Professor, Chemistry
B.S., Mass. Institute of Technology
M.S., Oregon State University
Ph.D., University of California, Berkeley

Ozsgomonyan, Ardash (1968)
Dean, Math/Science Division
B.S., Robert College, Istanbul
M.S., University of California, Los Angeles
Ph.D., University of California, Berkeley

Paoli, Patricia J. (1979)
Professor, Speech
A.B., University of California, Berkeley
M.A., California State University, Hayward
Paolino, Nancy M. (1988)
Associate Professor, Reading
B.A., California State University, Sacramento
M.S.Ed., University of Southern California

Paparelli, Marie T. (1989)
Learning Disabilities Specialist
A.S., Corning Community College
B.S., Elmira College
M.S., California State University, Long Beach

Associate Professor, Administration of Justice
B.S., San Jose State University

Petit, Susan Y. (1968)
Professor, English, French
B.A., Knox College
M.A., Purdue University
M.A., College of Notre Dame

Petromilli, James (1973)
Professor, Electronics
A.A., College of San Mateo
B.A., M.A., San Francisco State University

Phipps, Linda M. (1985)
Professor, Mathematics
B.A., Barnard College
M.A., Columbia University

Piper, Louise (1990)
Child Development Services Coordinator
B.A., University of Michigan
M.A., San Francisco State University

Piscerchio, Rosemary (1973)
Professor, Business, Counselor
A.A., Chaffey College
B.A., M.A., San Francisco State University
M.S., California State University, Hayward

Polansky, Stephen H. (1968)
Professor, Political Science
B.A., Princeton University
J.D., Harvard Law School

Pounds, Robert D. (1970)
Professor, Physical Education
B.S., University of California, Los Angeles

Professor, Art
B.S., Northwestern University
M.A., Stanford University

Prindle, Philip G. (1958)
Professor, Speech, Communication
B.A., Concordia College, Minnesota
M.A., Washington State University
Ph.D., Stanford University

Pumphrey, Jean (1967)
Professor, English
B.A., Denison University
M.A., San Francisco State University

Professor, Career and Life Planning, Counselor
B.A., M.S., San Francisco State University

Assistant Professor, Journalism
B.A., San Francisco State University

Reynolds, Roberta M. (1985)
Professor, English
A.A., College of San Mateo
B.A., College of Notre Dame
M.A., D.A., Ph.D., University of Oregon

Richmond, Kern (1955)
Professor, Political Science, Counselor
A.B., M.A., University of California, Berkeley

Roach, James (1970)
Professor, Psychology
B.A., M.A., San Francisco State University

Robinson, David G. (1985)
Professor, Mathematics, Meteorology
B.S., M.S., San Jose State University

Rock, Jo Ann C. (1964)
Professor, Cooperative Education
B.S., Pacific University
M.A., San Francisco State University

Rose, Jacquelyn (1977)
Coordinator of Services for the Physically Disabled
A.A., College of San Mateo
B.A., San Francisco State University

Rundberg, William B. (1967)
Professor, Mathematics
B.A., San Jose State University
M.A., Bowdoin College

Rush, Robert D. (1969)
Professor, Physical Education
B.A., M.A., San Jose State University

Schoenestein, Edward G. (1967)
Professor, Technical Art/Graphics
B.A., M.A., California State University, Chico

Professor, English
B.A., North Central College
M.Ed., University of Illinois

Schulze, Frances (1990)
Associate Professor, English
B.A., M.A., San Francisco State University

Schwartz, Edwin A. (1957)
Professor, Psychology
B.A., New York University
M.A., New Mexico Highlands University

Searle, John B. (1973)
Professor, Chemistry, Biology
B.S., Ph.D., Bristol University

Professor, Technical Art/Graphics
A.A., College of San Mateo

Sewart, John J. (1991)
Dean, Articulation and Research
B.A., University of California, Berkeley
M.A., Ph.D., University of California, Davis

Silva, Caroline R. (1962)
Professor, Physical Education, Academic Athletic Advisor
A.B., M.A., San Francisco State University

Singh, Balbir (1964)
Professor, Mathematics
B.S., St. John's College, Agra University, India
M.A., Stanford University
Ph.D., University of Southern California

Smith, Elizabeth M. (1988)
Associate Professor, Nursing
B.S.N., University of Missouri
M.S.N., Yale University

Smith, Robert W. (1965)
Professor, Mathematics, Humanities, Architecture
B.C.E., Clarkson College of Technology
M.E., University of California, Berkeley

Sonner, Grace Y. (1970)
Dean, Creative Arts Division
B.A., San Jose University
M.S., Texas Woman's University

Stack, Dennis M. (1968)
Professor, Drafting
B.S., California State Polytechnic University
M.A., San Jose State University
Statler, Richard G. (1972)
Professor, Physical Education, Health Science
B.S., M.S., California State University, Hayward

Steele, Kathleen (1991)
Assistant Professor, English
B.A., M.A., University of Michigan

Still, Mark S. (1989)
Associate Professor, History
B.A., M.A., University of Arizona
Ph.D., Claremont Graduate School

Stock, Nancy J. (1974)
Professor, Cosmetology
B.S., University of San Francisco

Stock, Angela R. (1964)
Professor, Physical Education, Counselor
B.A., Miami University
M.A., San Francisco State University
M.A./M.C.P., College of Notre Dame

Stringari, Lawrence T. (1969)
Professor, Psychology,
Psychological Services
B.A., M.A., San Francisco State University

Svanevik, Michael (1969)
Professor, History
B.S., M.A., University of San Francisco

Tarleton, Leah (1977)
Health Services
B.S., University of Iowa
M.A., San Francisco State University

Thur, Jack (1981)
Professor, Physical Education
B.S., Michigan State University
M.A., Azusa Pacific College

Tilmann, Martha (1989)
Assistant Professor, Computer and Information Science
B.F.A., M.S., Michigan State University

Todesco, Lora B. (1974)
Dean, Business Division
B.A., San Jose State University
M.B.A., San Francisco State University

Professor, English
B.A., M.A., San Francisco State University
M.A., University of California, Davis
M.A., John F. Kennedy University

Tonini, Carlene (1990)
Associate Professor, Biology
B.S., University of California, Davis
M.S., California Polytechnic State University, San Luis Obispo

Trouse, Ronald R. (1963)
Professor, English
B.A., University of California, Berkeley
M.A., San Francisco State University

Turner, Ruth (1990)
BOPS Counselor
B.A., Wichita State University
M.S., San Francisco State University

Uchida, Barbara (1990)
Assistant Professor, Physics
B.A., University of California, Berkeley
M.S., University of California, San Diego

Upshaw, D. Aisha (1975)
Counselor/Transfer Center
B.S., Central State University
M.Ed., University of Cincinnati

Weintraub, Alan L. (1962)
Professor, Geography
B.S., De Paul University, Ill.
M.S., University of Chicago
Ph.D., Michigan State University

Weissman, Andrew (1984)
Associate Professor, Manufacturing and Industrial Technology
A.E.E.T., Heald Institute of Technology

West, David (1973)
Professor, Sociology
B.A., San Francisco State University
M.S.W., University of California, Berkeley
M.A., Ph.D., Stanford University

Williams, Agnes (1969)
Professor, Cosmetology

Williams, Larry R. (1969)
Dean, Language Arts Division
B.A., Xavier University
M.A., Fordham University
Diplôme de l'Université de Paris

Williamson, Stuart (1965)
Professor, Biology
B.A., Harvard University
M.A., San Francisco State University

Wills, Janice M. (1977)
Professor, Business
B.S., Pennsylvania State University
M.A., San Francisco State University

Wills, Carol R. T. (1982)
Associate Professor, Reading
B.A., M.A., San Francisco State University

Witt, Irving M. (1963)
Professor, Sociology
B.A., Ph.D., University of California, Berkeley
M.A., University of Chicago

Witzel, Elizabeth L. (1966)
Professor, Dental Assisting
A.A., City College of San Francisco
B.A., San Francisco State University

Yoshimura, Yoneo (1978)
Counselor
B.A., M.S., San Francisco State University

Young, Frank H. (1969)
Professor, Mathematics
A.B., M.A., San Francisco State University
Ed.D., University of Southern California

Zimmerman, Paul C. (1967)
Professor, Architecture
B.Arch, M.Arch, University of California, Berkeley
A.I.A.

Zones, Christie P. (1968)
Professor, Geology
A.B., University of Pennsylvania
M.S., University of Nevada

Accuracy Statement

College of San Mateo and the San Mateo County Community College District have made every reasonable effort to determine that everything stated in this catalog is accurate. Courses and programs offered, together with other information contained herein, are subject to change without notice by the administration of College of San Mateo for reasons related to student enrollment, level of financial support, or for any other reason, at the discretion of the College. At the time of publication the fees described in this catalog are accurate. However, at any time local or State mandated fees may be imposed or increased. The College and the District further reserve the right to add, amend or repeal any of their rules, regulations, policies and procedures, consistent with applicable laws.
