 For more information contact: undocuSTEM@gmail.com

UndocuSTEM Conference
Saturday, March 23rd all day
 Sonoma State University
 The SMCCCD Dream Center Staff will be taking undocumented STEM students to the conference.
If interested, contact Paola from the MCDC morap@smccd.edu

Women's History Month

SCIENCE-IN-ACTION SPEAKER SERIES

March 27th, 2019
 5:30-6:30 pm - Building 36, Planetarium

CATHY SAMAYOA, PHD
 Postdoctoral Fellow · Health Equity Research Lab, SFSU
Breast Cancer Health Disparities Research: For Latinas by Latinas

Dr. Cathy Samayoa's training is in molecular biology, cancer biology, and breast cancer health disparities. She is focused on increasing the participation of Latinas, and other vulnerable populations, in clinical and biomedical research. Her research interest is understanding how stress contributes to breast cancer health disparities in Latinas. By understanding the psychoneuroendocrine response in Latinas with breast cancer, it may be possible to implement interventions that reduce stress, improve quality of life and mitigate the biological factors that contribute to worse disease-free survivals.

Artwork by Amanda Phingbodhipakkiya (Beyond Curie, @alonglastname) will be displayed in the ISC (Bldg 36- 110) to celebrate women's contributions in STEM.
