Dear Students,

As we close out this year, I want to begin this message by commending you for your dedication, patience, and flexibility. In all of my years working within the community college system, I’ve never experienced a year as disruptive, challenging, and emotionally draining as this one. I can’t even begin to imagine the variety of challenges many of you have been dealing with as you’ve balanced your personal responsibilities with your academic efforts.

Like many other educational institutions, CSM has undergone substantial transformations in how we deliver education, the tools we use to do it, and the new types of support offered for students—all with a geographically-dispersed student body and workforce. In normal times, systematic change at CSM can often feel like we’re turning a battleship. This year has made us much more nimble and responsive to student, employee, and community needs, which will make CSM better moving forward.

As we deal with our current challenges and prepare for new ones, please know that our faculty, staff, and administrators are always thinking about you and how best to serve you.

We don’t know exactly how next year will transpire, but the one thing I am most looking forward to is getting back on campus and seeing your faces. On behalf of all of us at CSM, I wish you and those close to you a happy and restful holiday break—you’ve definitely earned it!

What are you looking forward to in 2021?

Share Your Thoughts on this Padlet!

Register now at [collegeofsanmateo.edu/mathjam](#).
First TEDxCSM Engages the District Community

On the afternoon of November 13, the SMCCD community was treated to a special event, the first of its kind for the District: *Living in Uncertainty: TEDxCSM.*

The virtual webinar was open to the SMCCD community, and garnered over 120 attendees. Featuring six student presentations that were both academic and personal, the event was the brainchild of two international CSM students, Mark Wong and Manraj Gill. Both are active in CSM’s Honors Project and Phi Theta Kappa club. After approaching Honors Project coordinator David Laderman over the summer, Manraj and Mark put together a project planning team lead by Austin Chan and other CSM students. Working also with PTK adviser Ron Andrade, the TEDxCSM team brought their vision to life.

One of the presentations featured the PTK Honors in Action project, focusing on the interplay between artificial intelligence and the search for a COVID-19 vaccine. Other presentations, mostly by CSM and a few Cañada students, covered a wide range of issues, including neurodegenerative disorders, space exploration, mental health stigmas in the Latinx community, Lupus and COVID–19, and autoethnographic poetry.

The event crystallized the visionary spirit of cross-disciplinary collaboration characterizing the students and faculty of our District.

Looking for a Part-Time Job?  
Become a Student Ambassador

CSM’s Marketing & Outreach Office is looking for current students to assist with outreach and recruitment efforts.

Student ambassadors serve as liaisons between the College, local high schools, and the greater community. They give presentations, assist with College events, and answer questions from current and prospective students.

Interested students should plan to be at CSM for at least four semesters including the current semester if applying for an ambassador position.

Visit the Student Ambassador webpage for more information.

LinkedIn Learning: Learn Anytime, From Anywhere

College of San Mateo’s Workforce Hub is pleased to announce the roll-out of LinkedIn Learning, a new e-learning resource available to students and recent alumni!

LinkedIn Learning is an award-winning industry leader in online training, with a digital library of over 10,000 courses covering a wide range of technical, business, software and creative topics. This is an excellent tool to help you prepare to enter a new career or up-skill for a new career or promotion.

LinkedIn Learning Highlights:
- Accessible 24/7 from your desktop or mobile device.
- You may watch an entire course, or individual videos – some are as short as 4-5 minutes.

You have the opportunity to refine or develop your professional skills, learn new software, and explore other areas as you plan for your career growth.

Staying Healthy During the Holidays

Please help slow the spread of COVID-19 by following this advice:

Limit Your Socializing
Attending holiday parties and family gatherings will spread COVID over the next few weeks. Make responsible decisions that will minimize exposures.

Limit contact with people outside your household.
Always wear your mask, practice social distancing, and sanitize whenever you are around others.
Better yet, stay home and enjoy friends and family over Zoom. Read the state guidance on private gatherings and practice it!

Obey the Curfew
Much of California is under a stay-at-home order. Please stay home unless you are engaging in essential activity. See the State COVID-19 Restrictions website for more information. Education is an essential activity. Students and employees on campus for face-to-face classes or other operations are covered under the essential activities exception. Travel to and from campus is allowed.

If You Attend a Gathering, Get Tested!
If you attend a gathering, it is advised to get a COVID-19 test three to five days later—whether you think you were exposed or not. This can help you from spreading the virus to others.
